Saint Martin / 2-seater sofa
Design / Marco Acerbis

Saint Martin is a highly flexible sofa collection having transversality as a main characteristics thanks to the repeatability of a single steel base.Starting from metal, as expression of EMU DNA, the base is easly assembled with unique removable metal tube armrest/backrest elements and design a linear but welcoming piece of furniture. These removable elements are also available in a wicker weaved version whose twist motif and natural color are inspired by authentic hyacinth fiber.

Materials

Steel
Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosio process.
Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.
