Clay coating

The door is coated by hand with three coats of clay, which are allowed to dry naturally after each application. The clay mixture is made from a blend of cement and different earths, resulting in “natural” colours and finishes.
This handcrafted approach really brings out the clay’s colour and tactile qualities, creating a pattern of tonal shades across the surface.

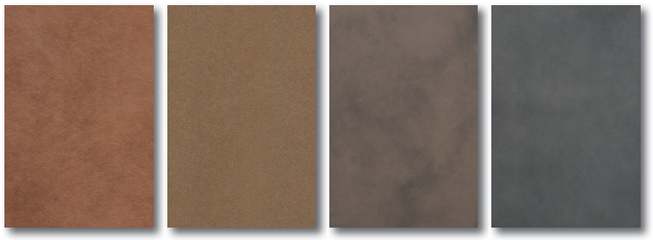
METAL LACQUERED



307 Copper
308 Brass
309 Brown
302 Tin

Finishes available for metal items only.
The metal lacquered finish serves up a special coating technique involving various coats of paint applied entirely by hand that are combined to achieve a metallic effect. This is a handcrafted product, and is therefore unique, meaning any differences in colour or in gloss level on different surfaces should be seen as a distinctive feature of the finish.

Refer to the pages inside the price list to check what finishes are available for each item.
Printed samples used to illustrate finishes and colours may not represent the true colour; they are given as a rough guide only and may not match the product actually sold.

IMPORTANT INFORMATION

Marble is a natural product and, as such, no two pieces are the same in colour and pattern.
It is this very non-replicable quality that makes your top exclusive.

BIANCO CARRARA

White marble, with a granulated sugar-like texture and grey/dark-grey veining. It may feature small pits or crystalline inclusions varying in size. This material has a good degree of cohesion and does not require resining. Whitish or yellowish veins may be visible, mostly due to the presence of silica impurities. Natural fissures are commonly encountered in the marble: they run in a different direction to that of the sedimentation that formed the rock and appear as fine lines or fissures. In this marble, veins can give the surface a flow, further enhancing its appearance.

VERDE GUATEMALA

This rock is a member of the ophite group. The predominant mineral is olivine, which gives it its dark green colour. It contains random patterns of additional minerals that produce white inclusions, usually clustered in mottled patches. This material's distinctive vitreous structure means it does not have as much of a "mirror finish" as other marbles when polished.
The green colour seen in a slab varies in intensity and distribution, clustered in different concentrations and shapes featuring irregular outlines.

GRIGIO ORIENTE

Tobacco-coloured marble featuring a thread-like pattern running in no dominant direction. It features a discontinuous pattern of white or white/rust-brown veins, occasionally with metallic inclusions that appear as shimmering bronze/gold-coloured patches. These are due to the presence of siderite and often measure more than a centimetre across. Patches of more porous material are widespread throughout this marble and are remedied by resining and filling the exposed side of the top. Resining is required to improve the material's cohesion, while filling is done to correct these "softer" parts of the surface, which can vary in size. Consequently, resin and filling procedures should be seen as an inevitable part of the processing of this marble. As a result of the process, light can bounce off the treated areas of the polished surface differently when viewed against the light.

LAVA STONE

Lava stone is a rock formed as a result of a volcanic eruption. It owes its origin and shape to deposits of volcanic ash, sand and lapilli.
It has a basically microcrystalline structure and the honed surface shimmers with microscopic cavities that can be seen with the naked eye when light shines across it.
Its base colour is mainly grey with dark patches, the latter arranged in a "sprinkled" pattern or clustered in veins, with a brushstroke-like effect and appearance.
It is not unusual, depending on the weights and predominance of certain individual minerals over others, to see inclusions ranging in colour from white to ochre yellow, denoting individual crystals, or streaks, which can look like abrasions. The mineral responsible for the ochre yellow colour is iron, while the white colouring comes from magnesium, calcium, sodium, etc.

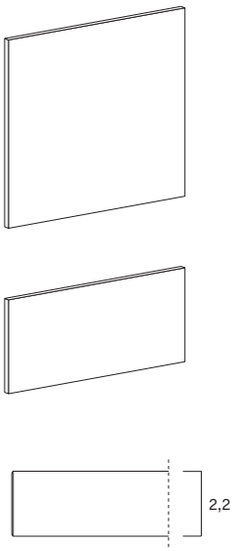
FRONT TYPES

Plain front



Finishes:
- Eco-wood
- Super-matt
- Decor
- Matt lacquered
- Oxidized lacquered
- Veneer
- Gloss lacquered
- Clay

Grain direction: Horizontal up to H 39,8
Vertical over H 47,8

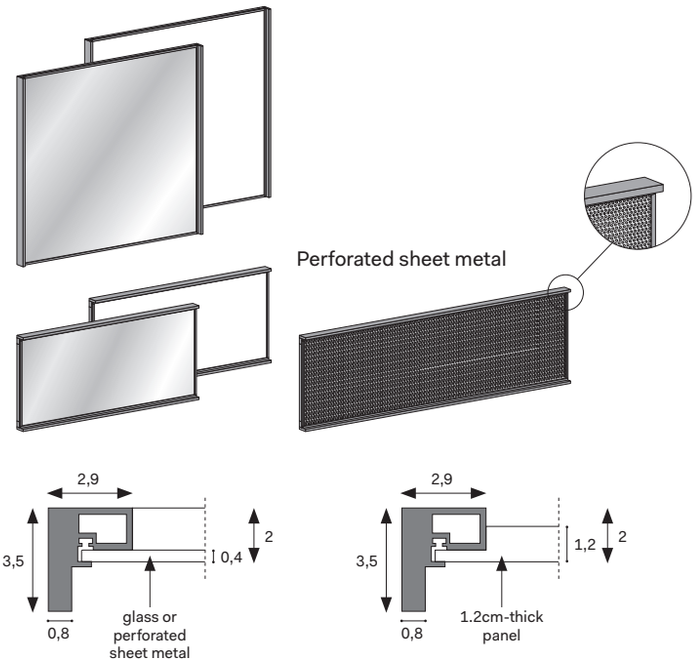
Handles: See pages 14 to 16 for handle options.

Module sizes: All sizes.

Materials: 2,2 cm-thick foil-wrapped, lacquered, veneered or clay-coated chipboard panels, with rounded edging.

Cutting to size: Plain fronts can be cut to size.
See page 709 for price of cutting to size.

ERA front



Finishes: Frame:
- Bronze
- Matt lacquered
- Oxidized lacquered
- Metal lacquered

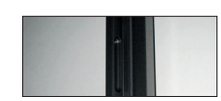
* 0,4 cm-thick glass
- Standard toughened glass
- Plus toughened glass

Panel 1,2 cm thick (max. H 191,8 cm):
Grain direction: Horizontal H 31,6
Vertical over H 63,8
- Eco-wood
- Super-matt
- Decor
- Matt lacquered
- Oxidized lacquered
- Veneer

* Perforated sheet metal 1,5 mm thick with 2 mm Ø holes (doors H 31,6 cm only):
- Matt lacquered
- Oxidized lacquered
- Metal lacquered

* materials that allow infrared signals from remote controls to pass through.

Handles: Recess in frame.

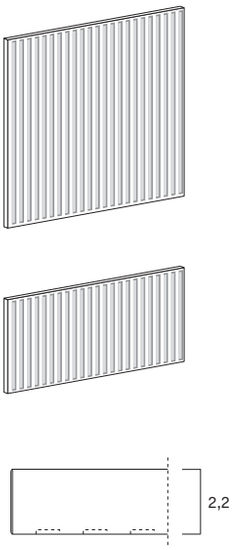


Module sizes: Pull-down / lift-up door W 59,8/89,8/119,8 H 31,6
Hinged door W 44,6/59,6 H 63,8/95,8/
127,8/159,8/191,8/223,8/255,8

Materials: Metal vertical frame profiles 0,8 cm thick x 3,5 cm with two structural pivot hinges.
0,4 cm thick toughened glass with noise seal around edges.
1,2 cm thick foil-wrapped, lacquered or veneered chipboard panels.

Cutting to size: ERA fronts cannot be cut to size.

RAYS front



Finishes:
- Veneer
- Noce canaletto
- Matt lacquered
- Oxidized lacquered

Grain direction: Vertical.

Handles: All RAYS fronts feature the PUSH-TO-OPEN mechanism or Profile opening system (fronts H 28,8).
No other opening options are possible.

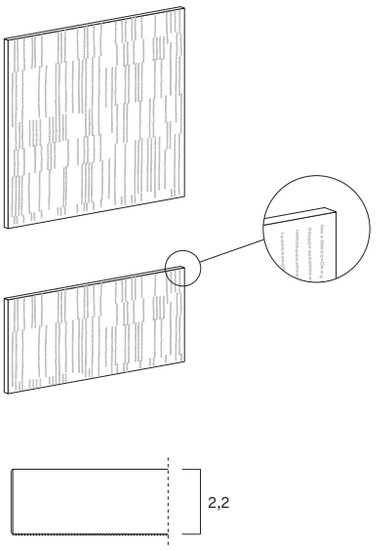
Module sizes:

H 15,8	W 44,8/59,8/89,8/119,8
H 28,8 (GOLA)	W 59,8/89,8/119,8
H 31,8	W 44,8/59,8/89,8/119,8
H 63,8	W 59,8

Materials: Lacquered or veneered pressed wood.
The nature of the material means the inside of the etched groove is inevitably not going to be entirely smooth, hence a slightly uneven effect on the surface of the etched groove should be seen as a distinctive feature of the lacquered door.

Cutting to size: RAYS fronts cannot be cut to size.

DROPS front



Finishes:

Finish being phased out (production ending on 31/07/25)	Finish being phased out (production ending on 31/07/25)	Finish being phased out (production ending on 31/07/25)
37A Bianco seta / bianco	12C Quarzo seta / blu	31B Ecrù seta / ecrù

Handles: All DROPS fronts feature the PUSH-TO-OPEN mechanism or Profile opening system (fronts H 28,8).
No other opening options are possible.

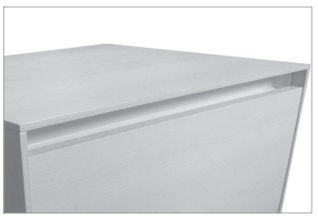
Module sizes:

H 15,8	W 44,8/59,8/89,8/119,8
H 28,8 (GOLA)	W 59,8/89,8/119,8
H 31,8	W 44,8/59,8/89,8/119,8
H 63,8	W 59,8

Materials: 2,2 cm thick foil-wrapped chipboard panels, with rounded edging.
Vertical ink screen printing.

Cutting to size: DROPS fronts cannot be cut to size.

HANDLES

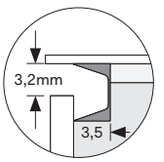


PROFILE

Available on GOLA base storage units for:
- Plain hinged, pull-down door
- Regular and oversized drawer
- RAYS / DROPS front (H 28,8)

The GOLA profile must be ordered separately based on the configuration's size.

Detail of base storage unit with profile
Side view



Finishes

Bronze / Bianco / Tortora / Sabbia
Matt lacquered
Oxidized lacquered
Metal lacquered

M04

PUSH-TO-OPEN mechanism

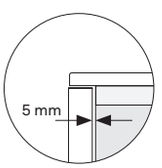
Available for:
- Plain hinged, pull-down, lift-up door
- Storage system regular and oversized drawer
- Regular and oversized drawer for wall system
- RAYS / DROPS front

Not available for:
- ERA door
- FILO pull-down door
- Wall system corner plain door

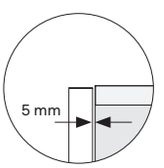
The PUSH-TO-OPEN mechanism cannot be fitted on the rear of a double-sided configuration.

For the PUSH-TO-OPEN mechanism to work, there must be a gap of a few millimetres between the front and the carcass.
When dealing with drawers and oversized drawers, this gap is 5 mm.

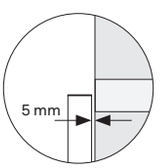
Detail of base storage unit with PUSH-TO-OPEN drawer or oversized drawer.



Detail of wall unit with PUSH-TO-OPEN drawer.



Detail of wall system with PUSH-TO-OPEN drawer or oversized drawer.



M45

PROFILO edge handle

Dimensions D 33 mm

Available for:
- Plain pull-down, lift-up door
- Drawer and oversized drawer

Not available for:
- Hinged plain door

You are advised against using the Profilo edge handle on fronts that are flanked by side-hinged doors.
When fully opened (to 94°), the hinged door collides with the outer edge of the Profilo edge handle.

USE AND CARE INSTRUCTIONS

Please find below some useful tips on how to care for the product and keep it looking its best.

CHANGES IN SHADE AND COLOUR

Lacquered colours and veneers can be susceptible to colour change over time and hence, when ordering new pieces to match existing units, any difference in colour shall not constitute cause for complaint.
It is also advisable to position furniture away from strong sources of heat and out of direct sunlight.

HOW TO CLEAN SURFACES IN GENERAL

Use a soft cloth (moistened where necessary). Do NOT, under any circumstances, use abrasive products, solvents, thinners, alcohol or corrosive products. Do not leave wet cloths touching surfaces.

HOW TO CLEAN GLASS

Use a soft cloth and glass cleaner.
Do NOT, under any circumstances, use abrasive products, solvents, thinners, alcohol or corrosive products.

HOW TO CLEAN CLAY

Use a soft cloth moistened with water and mild detergents.
Do not clean surfaces with methylated spirits, which can leave hard-to-remove marks as it dries. Do not clean the surface with products containing bleach, or any other products with a highly basic pH as their prolonged application can result in a white sheen. Other products that can damage the surface include trichloroethylene, industrial solvents, hydrofluoric acid, caustic soda, and paint thinners.

ELECTRICAL ACCESSORIES

All such accessories come with “CE” marking attesting to their compliance with EEC directives (EEC 72/23, EEC 89/336). In addition, they meet Italian CEI electrical safety standards
(CEI 34-21 and EN 60598.1).
Each pack comes with an assembly instruction sheet featuring the system’s technical specifications and essential installation procedure, which is to be carried out, whatever the case, by qualified personnel only.

INFORMATION ON FABRICS

For fabric characteristics (composition, care), see relevant notes on pattern book (NB: samples are indicative, fabrics are not pre-washed).

The metres given in the price list for customer’s fabric refer to plain coloured fabrics.
Take into account that striped or patterned fabrics will require a larger quantity.
For information on the fabrics’ composition and care, we advise scanning the QR code shown here, which will take you to the relevant page.

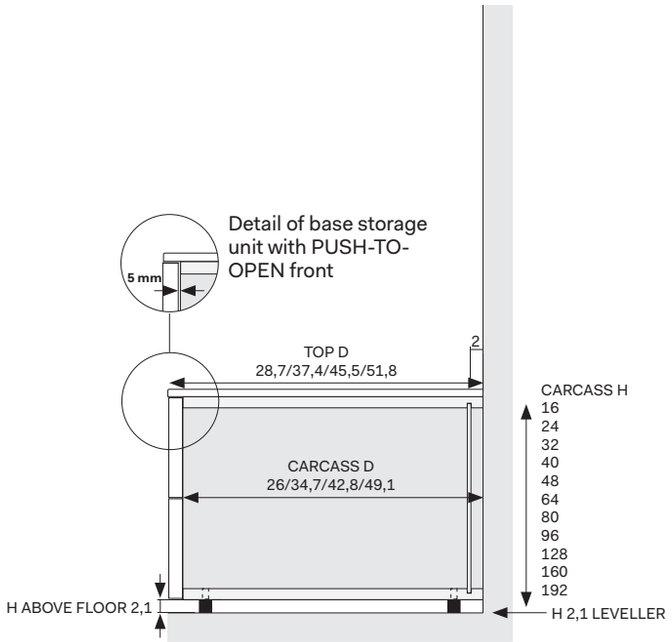
BOX 18 BASE STORAGE UNITS: TECHNICAL INFORMATION

The BOX 18 modular system comprises an extensive range of units that interact perfectly with each other as they share a common feature: their 18 mm-thick carcass.

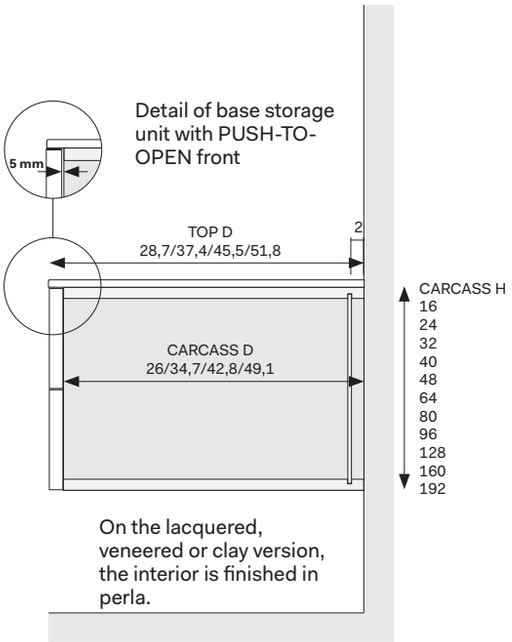
BASE STORAGE UNITS: With standard opening (no profiles), they come in different versions - floorstanding with levellers, sit-on-top or wall mounted. The sit-on-top version is to be used for storage units designed to sit on a bench or be supported by feet.

TECHNICAL FEATURES

BASE STORAGE UNIT



WALL-MOUNTED BASE STORAGE UNIT



COMPONENTS	THICKNESS
CARCASS: foil-wrapped, lacquered, veneered or clay-coated chipboard panels.	1,8 cm
TOP: foil-wrapped, lacquered, veneered or clay-coated chipboard panels.	0,8/1,2/3/5 cm

DRAWERS: foil-wrapped, lacquered, veneered or clay-coated chipboard fronts. QUADRO® - SILENT SYSTEM® full-extension runners.	2,2 cm
LEVELLING FEET: standard issue on base units, where applicable H 2,1 cm (-0 /+1 cm adjustment)	

ASSEMBLY NOTES

Storage units come ready assembled and complete with screws for connecting them.

NOTES ON CARCASS INTERIOR

The storage unit price is for various specific interior/exterior finish combinations. See page 28 for the relevant information and chart.

CUSTOMIZING

Carcasses and fronts can be mixed and matched even in combinations without a preset item code.

NOTES ON SAFETY

Wall-mounted base storage units must be fastened carefully to a masonry wall and must not be subjected to excessive loads. Make sure beforehand that the wall is strong enough to take the weight of wall units under the customer's normal conditions of use.

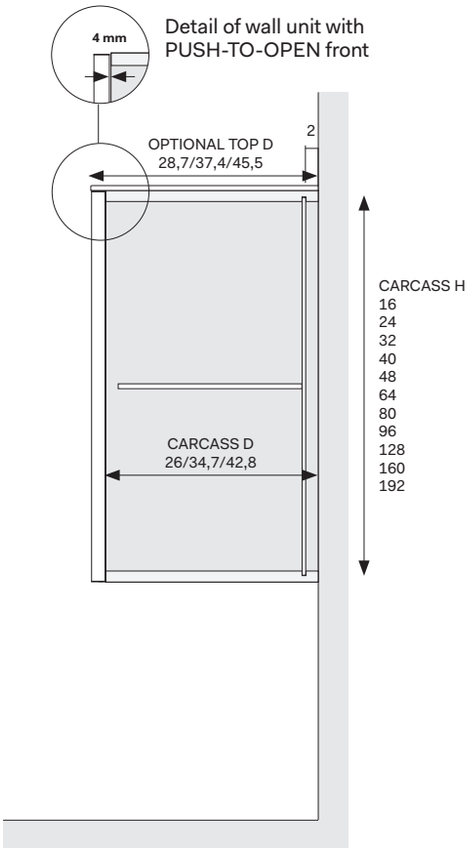
BOX 18 WALL UNITS: TECHNICAL INFORMATION

WALL UNITS: They come with the option of glass shelves or wood shelves.

TECHNICAL FEATURES

WALL UNIT



COMPONENTS	THICKNESS
CARCASS: foil-wrapped, lacquered, veneered or clay-coated chipboard panels.	1,8 cm
TOP: foil-wrapped, lacquered, veneered or clay-coated chipboard panels.	0,8 cm
BACK PANELS: perla-patterned or lacquered chipboard panels.	0,6 cm
DOORS: foil-wrapped, lacquered, veneered or clay-coated chipboard panels.	2,2 cm
RAYS DOORS: veneered or lacquered pressed wood.	2,2 cm
ERA DOORS: extruded aluminium frame with 0,4 cm-thick toughened glass with noise seal around edges, or 1,2 cm-thick foil-wrapped, lacquered or veneered chipboard panels.	3,5 cm
DROPS DOORS: foil-wrapped chipboard panels. Vertical ink screen printing.	2,2 cm
DRAWERS: foil-wrapped, lacquered, veneered or clay-coated chipboard fronts. QUADRO® - SILENT SYSTEM® full-extension runners.	2,2 cm

ASSEMBLY NOTES

Storage units come ready assembled and complete with screws for connecting them.

NOTES ON CARCASS INTERIOR

The storage unit price is for various specific interior/exterior finish combinations. See page 28 for the relevant information and chart.

CUSTOMIZING

Carcasses and fronts can be mixed and matched even in combinations without a preset item code.

NOTES ON SAFETY

Wall units must be fastened carefully to a masonry wall and must not be subjected to excessive loads. Make sure beforehand that the wall is strong enough to take the weight of wall units under the customer's normal conditions of use.

BOX 18 STORAGE UNITS: CARCASS FINISHES AND CUSTOM OPTIONS

BOX 18 UNIT CARCASS INTERIOR

The finish combinations contemplated on the price list are as follows:

Carcass exterior	Carcass interior and 1,8cm-thick shelves (if any)	Back panel
Eco-wood	Eco-wood	Perla or lacquered at extra charge (Matt lacquered - Oxidized lacquered) ** If the carcass interior is lacquered, it is taken that the lacquered back panel is in the same finish, unless otherwise specified.
Super-matt	Super-matt	
Matt lacquered	Perla Matt lacquered like exterior at extra charge *	
Oxidized lacquered	Perla Oxidized lacquered like exterior at extra charge *	
Veneered	Perla	
Gloss lacquered	Matt lacquered in the same colour as the exterior gloss finish	
Clay	Perla	

In the case of GOLA base storage units - finished off, in each case, with finishing side panels and top - the possible combinations are as follows:

Carcass exterior	Carcass interior and 1,8cm-thick shelves (if any)	Back panel
Perla	Perla	Perla or lacquered at extra charge (Matt lacquered - Oxidized lacquered) ** If the carcass interior is lacquered, it is taken that the lacquered back panel is in the same finish, unless otherwise specified.
Eco-wood	Eco-wood	
Super-matt	Super-matt	
Matt lacquered	Matt lacquered like exterior at extra charge *	
Oxidized lacquered	Oxidized lacquered like exterior at extra charge *	

EXTRA CHARGE FOR LACQUERED CARCASS INTERIOR FOR BOX 18 STORAGE UNITS

For base storage units with lacquered carcass exterior, or for GOLA base storage units, the inside of the unit can be ordered lacquered (matt or oxidized) at an extra charge.

		* Carcass interior and back panel Matt lacquered	** Back panel only Matt lacquered	* 1 shelf Matt lacquered	* Carcass interior and back panel Oxidized lacquered	** Back panel only Oxidized lacquered	* 1 shelf Oxidized lacquered

BOX 18 STORAGE UNITS: CARCASS FINISHES AND CUSTOM OPTIONS

BASE STORAGE UNITS WITH SIDES IN DIFFERENT FINISHES

All storage units on the price list are priced with both side panels in the same finish, as stated in the “CARCASS EXTERIOR” column.

On request, base storage units can be made with sides in different finishes.
To work out the price of these combinations, take a finish as your starting point and, for the side in a different finish, subtract/add the relevant prices of the side panels as shown in the table below.

Height cm	Depth cm	Perla Eco-wood Super-matt	* Matt lacquered	* Oxidized lacquered	Veneered	Gloss lacquered	Clay
16	28,3 / 37	20	22	27	26	44	37

80	28,3 / 37	30	46	57	80	106	125
	45,5 / 51,8	37	59	72	107	133	171
96	28,3 / 37	34	53	64	94	120	148
	45,5 / 51,8	41	67	83	126	153	203
128	28,3 / 37	40	64	79	123	158	191
	45,5	45	77	94	146	184	232
160	28,3 / 37	46	77	94	151	185	235
	45,5	53	90	111	181	218	287
192	28,3 / 37	51	87	107	179	214	280
	45,5	59	105	129	214	251	340

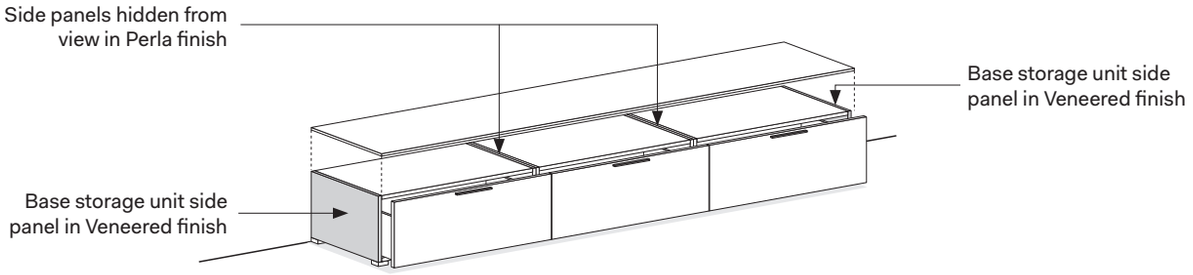
* The price of Matt lacquered and Oxidized lacquered side panels refers to the version with Perla interior.

EXAMPLES OF BASE STORAGE UNITS WITH OUTER SIDES IN DIFFERENT FINISHES

Example:

3 base storage units with just 2 outer side panels in Veneered finish:

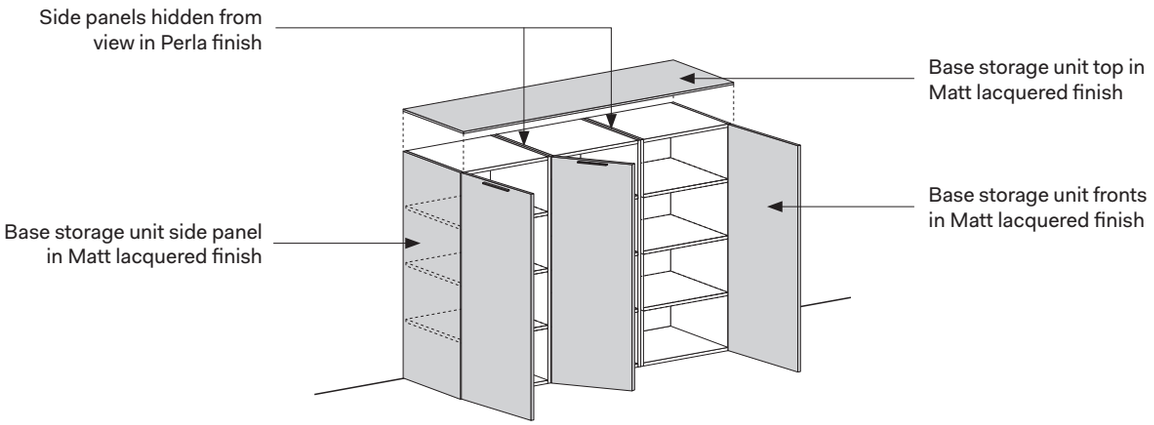
The price of the storage unit with 2 different side panel types will be:
price of the storage unit with “CARCASS EXTERIOR” in Veneered version
- price 1 Veneered side panel
+ price 1 Perla side panel



Example:

3 base storage units with just 2 outer side panels in Matt lacquered finish:

The price of the storage unit with 2 different side panel types will be:
price of the storage unit with “CARCASS EXTERIOR” in Matt lacquered version
- price 1 Matt lacquered side panel
+ price 1 Perla side panel

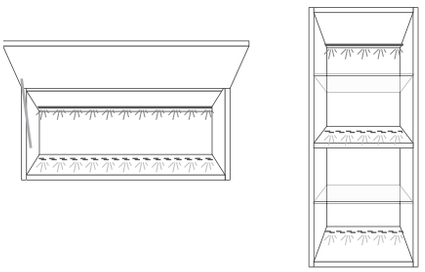


STORAGE UNIT LIGHTING

BUILT-IN LED LIGHTING FOR BOX 18 STORAGE UNITS

LED lighting, 0.6 cm thick, comes with the lighting strip recessed into the storage unit carcass so that it is “flush”.
The options are horizontal or vertical lighting, as featured below.

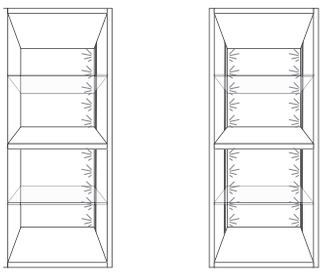
Horizontal lighting for widths between 30 and 150 cm.
On the inside of the top cover (1,5 cm forward of the back panel) and/or attached underneath the base (4 cm forward of the back edge), or just on structural shelves on storage units 160 and 192 cm high (not possible on other shelves).



Watts	Horizontal 24V 3000K LED light				Extra charge per light (comes ready attached)
2,8	Storage unit	Width	30	cm	+ 34
4,2	Storage unit	Width	45	cm	+ 38
5,7	Storage unit	Width	60	cm	+ 42
7,2	Storage unit	Width	75	cm	+ 47
8,7	Storage unit	Width	90	cm	+ 51
11,3	Storage unit	Width	120	cm	+ 58
13,2	Storage unit	Width	135	cm	+ 72
14,6	Storage unit	Width	150	cm	+ 78

To be finished off with transformers, see page 35

Vertical lighting heights from 64 to 192 cm.
On the inside of the vertical side of just one side panel (LH or RH) or of both side panels (1,5 cm forward of the back panel).



Watts	Vertical 24V 3000K LED light				Extra charge per light (comes ready attached)
6	Storage unit	Height	64	cm	+ 46
8	Storage unit	Height	80	cm	+ 50
9	Storage unit	Height	96	cm	+ 54
12,6	Storage unit	Height	128	cm	+ 67
15	Storage unit	Height	160	cm	+ 92
18	Storage unit	Height	192	cm	+ 113

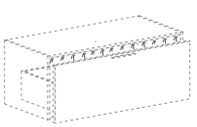
To be finished off with transformers, see page 35

Up to 3 horizontal lights and 2 vertical lights can be used on the same carcass.

OVERSIZED DRAWER INTERNAL LIGHTING

Produced by means of a LED strip attached to the front of the panels at each side and fitted with an automatic switch-on sensor.
For fronts H 23,8 - 31,8 - 39,8 and GOLA fronts H 20,8 - 28,8 - 36,8.
Cannot be used for drawers H 15,8 cm.

Can also be attached to the top cover of units with pull-down doors (compulsory when wanting sensor-activated lighting inside a GOLA base storage unit).



Watts	Horizontal 24V 3000K LED light with sensor				Code	
4,1	Oversized drawer BOX 18	Width	44,8	cm	**NV7551**	104
5,6	Oversized drawer BOX 18	Width	59,8	cm	**NV7552**	112
7,1	Oversized drawer BOX 18	Width	74,8	cm	**NV7553**	130
8,6	Oversized drawer BOX 18	Width	89,8	cm	**NV7554**	135
11,6	Oversized drawer BOX 18	Width	119,8	cm	**NV7555**	148

To be finished off with transformers, see page 35

IR SENSOR

As an optional extra, an IR sensor can be used to switch lights on/off when the front is opened/closed: the sensor comes built into the BOX 18 storage unit carcass and ready wired.

	Extra charge per sensor (comes ready attached)
Optional IR sensor	+ 20

For operation with the sensor, you will need to order 1 distributor.
In addition, the transformer must have a module for the sensor.

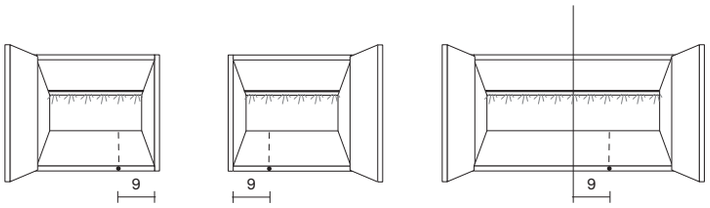
	Code	
Distributor	**NV7641**	26

To be finished off with transformer (to power the lights) and module for sensor, see page 35.

SENSOR POSITIONING

Paired with hinged fronts: attached to the storage unit's top cover or base, 9 cm in from the side opposite the hinges, in the case of a 1-door storage unit; or 9 cm out from the centre of the storage unit on the RH door side on a 2-door storage unit.
Paired with pull-down/lift-up fronts: attached to the storage unit's top cover (pull-down) or base (lift-up), 9 cm out from the centre of the storage unit towards the RH side.

Cannot be attached to top cover of GOLA base storage units.



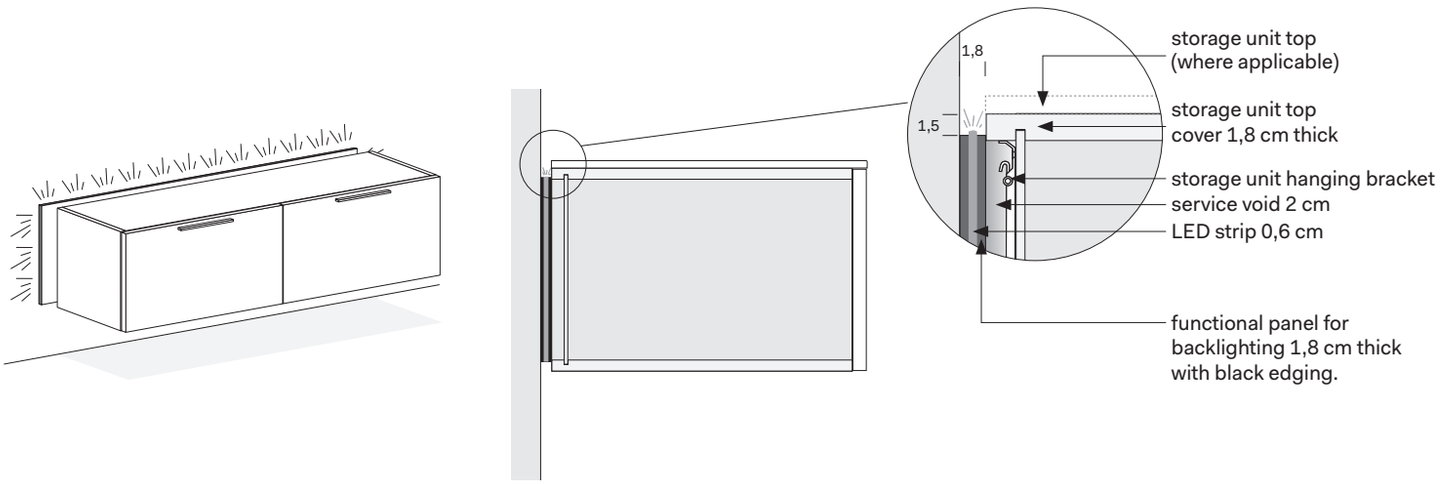
Examples of sensor use

Typical configuration for single storage unit (recommended):
90 cm-wide unit with pull-down door with light on top cover that you want to come on when the door is opened.
You will need to factor in:
- 1 x 8,7W light for 90 cm-wide unit
- 1 sensor
- 1 distributor
- 1 x 15W transformer
- 1 module for sensor

STORAGE UNIT LIGHTING

FUNCTIONAL PANELS FOR PERIMETER BACKLIGHTING

Panel 1,8 cm thick per sq m with two vertical and/or horizontal grooves for inserting LED lighting.
They come in the same size as the configuration minus 1.5 cm around the perimeter designed to create an indirect lighting effect.
It must be attached in contact with the wall (there is no provision for adjustments).
Units can be mounted side by side or stacked.



HORIZONTAL PANEL

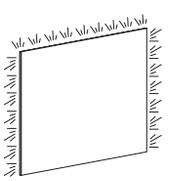
	Code	
Panel per sq m	**NV8022**	66

VERTICAL PANEL

	Code	
Panel per sq m	**NV8023**	66

LED LIGHT FOR FUNCTIONAL PANELS

Example:
LED lighting on 3 sides of a 100x100 panel with 2 vertical 100 cm strips and 1 horizontal 98 cm strip.



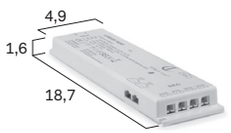
Watts per linear m		Code	
10	24V 3000K LED lighting strip Minimum length 20 cm max. 300 cm Price per linear m *	**NV7571**	54

* minimum amount charged is 1 linear metre: for shorter lengths, apply the price for 1 metre.

To be finished off with transformers, see page 35

SMART TRANSFORMER

The nerve centre of the NOVAMOBILI SMART LIGHTING system is the SMART transformer: this intelligent system is expandable to accommodate current and future technologies.
The SMART transformer can be integrated with modules for remote control via apps with Bluetooth or Wi-Fi technology, or used the traditional way with no module.
All transformers are designed to accommodate the addition of modules. Via Bluetooth or Wi-Fi module apps, you can control the lighting level of lights connected to a single transformer or to a number of transformers.
On request, transformers can be provided with plugs and certification for the world's main markets.
2-metre cable.



15W SMART transformer

30W SMART transformer

60W SMART transformer

		lights	Code	
~~SMART 15W transformer~~	~~24 V~~	~~max. 4~~	~~NV7601~~	~~57~~
SMART 30W transformer	24 V	max. 6	**NV7602**	80
SMART 60W transformer	24 V	max. 6	**NV7603**	131

CONTROL MODULES

Choose the module for the ON/OFF control system you want.

	Code	
Bluetooth module	**NV7651**	41
Wi-Fi module (not for 15W transformer)	**NV7652**	70
Module for sensor	**NV7653**	24
Module for remote control	**NV7654**	30

REMOTE CONTROL

Switches lights connected to the SMART transformer on and off, and also controls the lighting level, from up to 14 metres away. Controls an unlimited number of SMART transformers.

Each SMART transformer you plan to control must have a module for remote control.

Single channel: for controlling all transformers together (unlimited).

	Code	
Single-channel remote control	**NV7663**	59

Multi-channel: (max. 3) for controlling up to 3 groups of transformers; each channel can have an unlimited number of transformers.

	Code	
Multi-channel remote control	**NV7662**	84

Switch-on via BLUETOOTH and WI-FI

Switches lights connected to the SMART transformer on and off, and also controls the lighting level, straight from a smartphone or tablet using the relevant app.
Depending on the technology used (Bluetooth or Wi-Fi), all available functions can be used.

Using Bluetooth technology, you can switch lights on and off and control the lighting level straight from 1 smartphone or 1 tablet. The app can be installed on a number of devices, but only allows lights to be controlled by 1 of these at a time. Up to 5 Bluetooth modules can be paired with the app.

Each SMART transformer you plan to control (max. 5) must have a Bluetooth module.

Using your home's Wi-Fi network, you can switch lights on and off and control the lighting level straight from 1 or more smartphones or tablets using the relevant app. In addition, the transformer interfaces with Amazon Alexa or Google Home voice-control devices.

WORKS WITH amazon alexa
works with the Google Assistant

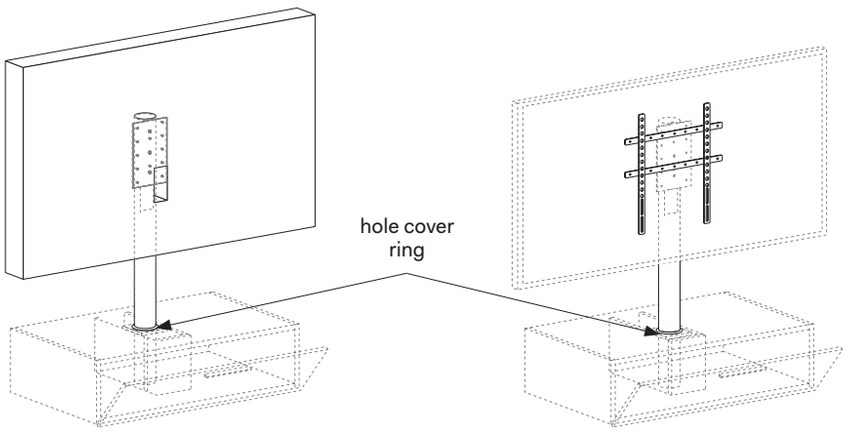
The app is free and available for all mobile operating systems.

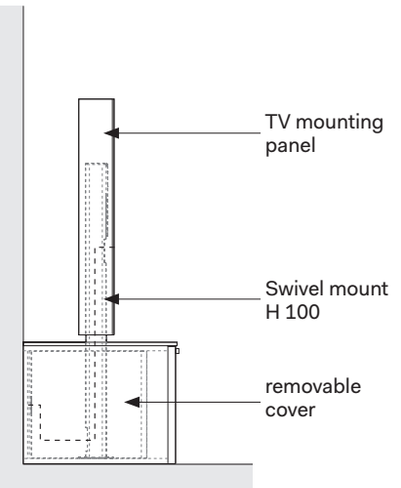
Download on the App Store
GET IT ON Google Play

Each SMART transformer you plan to control must have a Wi-Fi module.

TV SWIVEL MOUNT FOR BOX 18

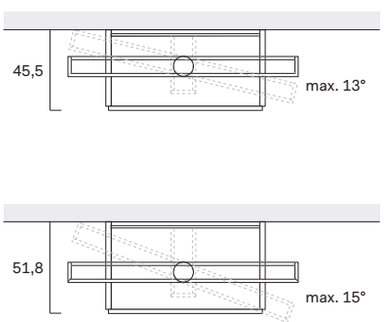
TV STAND WITH PANEL **TV STAND WITH "VESA" BRACKETS**



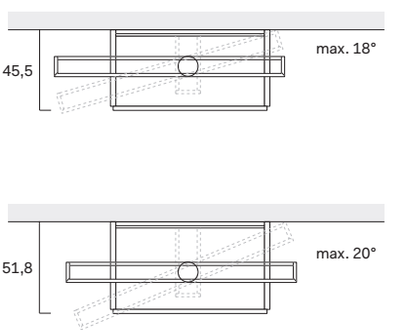


MAXIMUM ANGLES OF TV SWIVEL MOUNT

PANEL IN CENTRED POSITION (PANEL WITH WIRING GROMMET OR PANEL WITHOUT WIRING GROMMET)



OFFSET (+/-10 cm) PANEL (PANEL WITHOUT WIRING GROMMET)



The items coded for use in conjunction with the TV mount come in 4 widths 90, 120, 135 and 150 cm, 3 heights 24, 32 and 40 cm, and 2 depths 45,5 and 51,8 cm. Available in floorstanding (with feet) or sit-on-top versions.

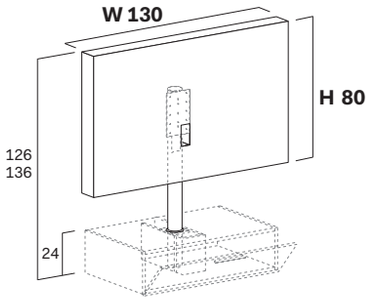
They include the metal swivel mount painted in the bronze finish, always positioned in the middle of the storage unit, designed to accommodate wiring inside. All storage units have a hole in the middle of the back panel for feeding wiring through, and also come with a mitre-folded removable front cover (except on GOLA base storage units).

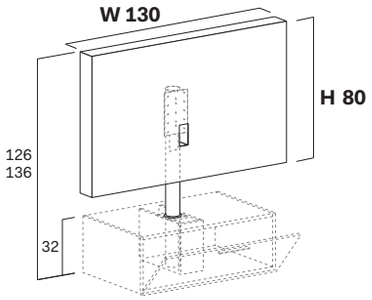
They must be finished off with the following accessories:
- TV mounting panel in version with wiring grommet for centred positioning
- TV mounting panel in version without wiring grommet that allows for offset positioning for an increased viewing angle
- VESA bracket kit for fastening the TV directly to the swivel mount

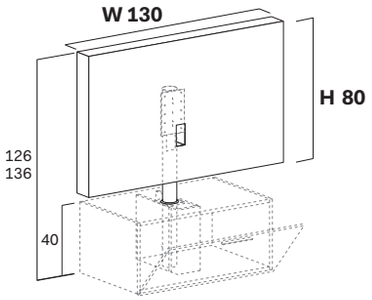
For safety reasons, you are advised to always use hanging brackets to secure the storage unit provided to the wall.

TV MOUNTING PANEL WITH WIRING GROMMET

11,4 cm-thick mitre-folded panel with wiring grommet, finished on the back with another panel.



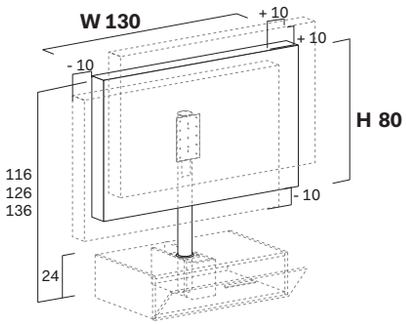


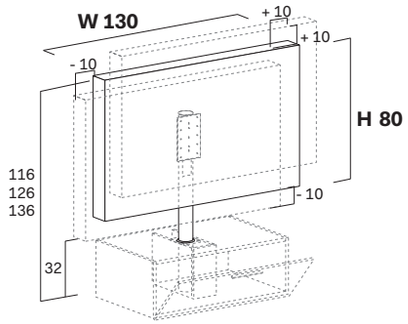


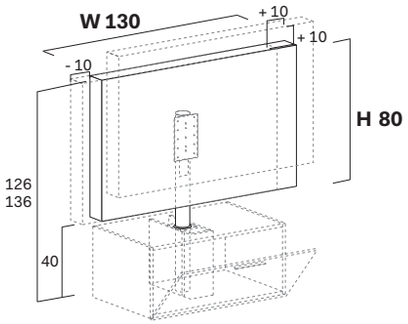
Height 80			m³	Code	Eco-wood Super-matt	Matt lacquered	Oxidized lacquered	Veneered
Width	130	cm	0,188	NV5661	362	530	637	821

TV MOUNTING PANEL WITHOUT WIRING GROMMET

11,4 cm-thick mitre-folded panel without wiring grommet, finished on the back with another panel.
The hole for feeding wires through must be made during assembly based on how the panel will be positioned, so that the actual ideal angle can be assessed on site.







Height 80			m³	Code	Eco-wood Super-matt	Matt lacquered	Oxidized lacquered	Veneered
Width	130	cm	0,188	NV5662	294	463	569	754

"VESA" BRACKET KIT

Can be adjusted to suit all standard VESA sizes up to 400x400 and a weight of 30 kg.
Metal painted in bronze finish.
It comes complete with various types of screws (M4, M6, M8), spacers and washers for the most common TV brands.
The system allows the TV to be attached in a centred or offset position, based on measurements that vary depending on the size of the appliance.
See examples.

STORAGE UNIT ACCESSORIES

PULL-OUT HANGING RAIL

Satin aluminium finish.
For fastening on shelf min. 24 or 36 cm deep.

		Code	
D 24	cm	**NV9031**	24
D 36	cm	**NV9032**	25

SUPPORTING BRACKET

The bottom shelf of wall-mounted base storage units can bend under the weight of objects set on top, in which case we recommend the use of one or more supporting brackets.

		Code	
D 24	cm	**NV7223**	20

USB-RECHARGEABLE MAGNETIC LED LIGHT

LED light with presence detector, charged using USB power adapter and micro USB cable (not provided) or Qi wireless inductive charging.
Battery runtime:
- 2 months when light is switched on for 30 seconds 10 times a day
- 9 consecutive hours.

Does not require any work on tops or shelves as it has no cables.
The spotlight is easily removed for recharging.

	Code	
Bronze finish.	**NV7163**	71

FEET

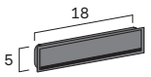
Black finish.

Allow wall units to be set on the floor, keeping them lined up with the fronts of the side panel.

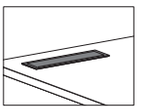
	Code	
Set of 4 height-adjustable feet H 2 cm	**NV7003**	14

WIRING GROMMETS FOR STORAGE UNITS

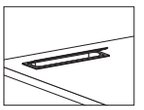
WIRING GROMMETS



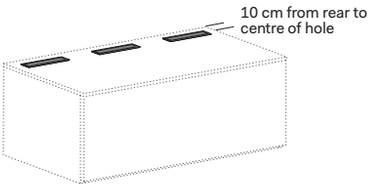
Closed



Open



3 positioning options

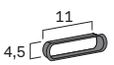


Hole (17,4 x 4,5) can be made in top and top cover of base storage units, except tray tops.

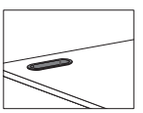
Metal in bronze finish and hole drilling

Code	
NV7022	68

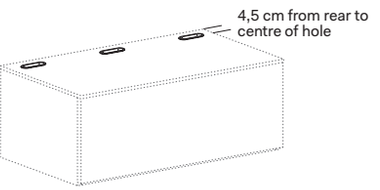
WIRING GROMMETS



Open



3 positioning options



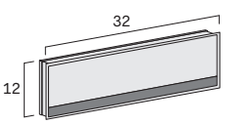
Central positioning is not an option on units with internal partition

Hole (10 x 3,3) can be made in top and top cover of base storage units, except tray tops.

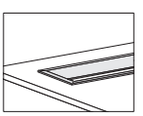
Black plastic and hole drilling

Code	
NV7021	47

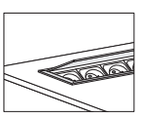
GROMMET + WIRING



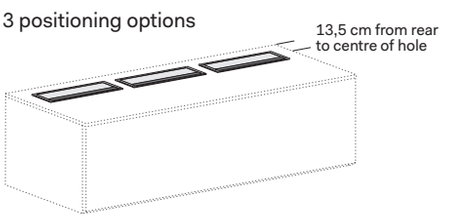
Closed



Open



3 positioning options



Central positioning is not an option on units with internal partition

Features of grommet + wiring:
- 2 Schuko power sockets (including 2 m-long power cable)
- TV jack (including 2 m-long input cable)
- SAT jack (including 2 m-long input cable)
- 2 cat6 RJ45 data inputs - telephone / internet
(with 2 input cables included - 2 m long each)
- USB power socket (5V - 1A)

Hole can be made in top and top cover of base storage units.
With 0,8 / 1,2 cm-thick tops only.
Only on top of base units with pull-down or hinged doors.

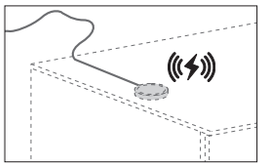
Metal in Aluminium finish and hole drilling

Code	
NV7161	489

WIRELESS CHARGING FOR STORAGE UNITS

UNDERMOUNTED WIRELESS CHARGING

Includes undermounting work on top.
Cable with USB socket.
The 2cm-diameter hole in the back panel is to be made by the customer.
Not an option for tray tops and Light stone tops.



Wireless charging lets you charge your phone by simply placing it on the top, with no need for cables. Charging takes place when the phone is positioned directly on top of the transmitter: the kit comes with a sticker you can attach to the top to mark the exact point.

3 positioning options

	Code	
Kit and undermounting work	**NV7162**	130

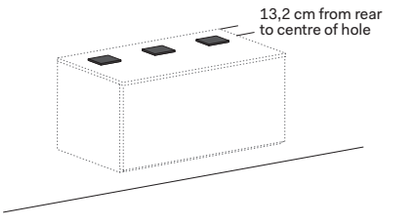
AUDIO SYSTEM KIT FOR BASE STORAGE UNITS

AUDIO SYSTEM KIT

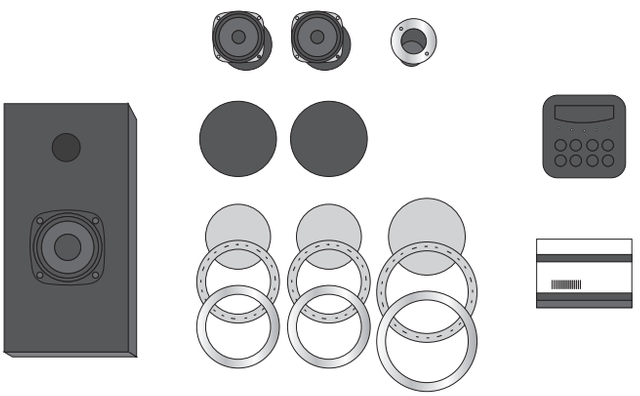
The kit can be inserted in 90 cm-wide 32/40/48 cm-high cm (except 28,7 cm deep) wall-mounted base storage units with pull-down doors or hinged doors, with 0,8 or 1,2 cm-thick top in either the standard opening version or PROFILE version (storage unit and top must be ordered separately). It comes ready installed inside the suitably modified and assembled base storage unit.

The kit includes
- 1 control box - (10,5x10,5 cm, H 6,5 cm, including the 0,5 cm it sits above the top by)
- 2 speakers and 1 subwoofer (W 37x18 cm, H 10 cm) - power 4Ω 15W per speaker, 6Ω 30W subwoofer
- speaker covers ready fitted on the underside of the base
- jack - AUX cable
- transformer
- 1 user guide (in English - German - French - Italian)
- 1 L-shaped speaker cover panel W 86,3 D 23 H 13 cm so the rest of the space inside the base storage unit can be used
- all relevant work required to accommodate services (hole in top, in top cover, holes in base for speakers, holes in back panel for feeding wiring through)

3 positioning options

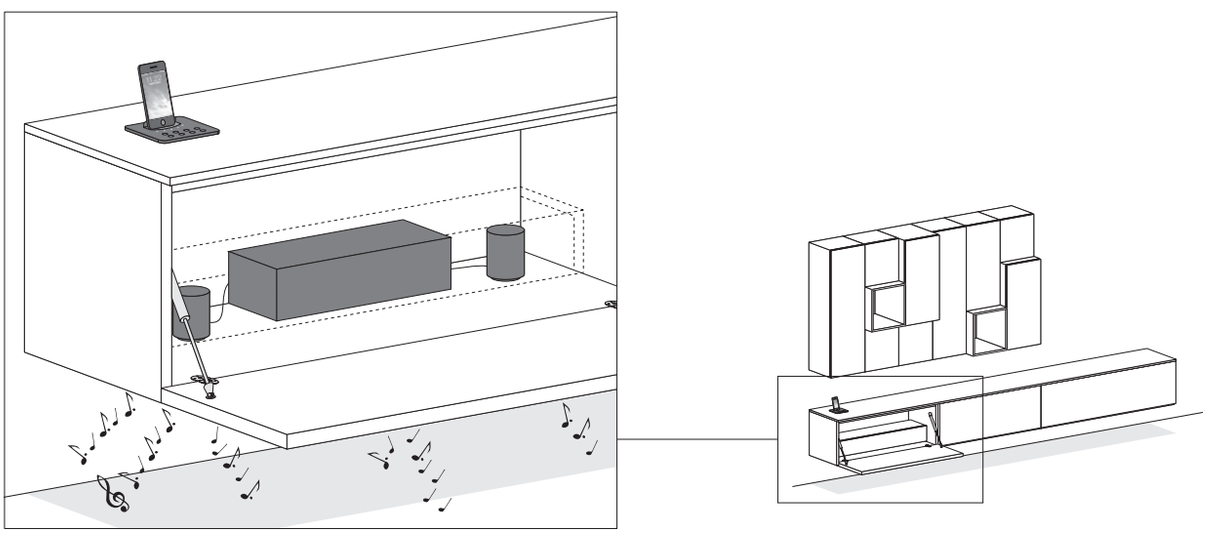


AUDIO SYSTEM KIT contents:



The control box comes in black, has a glass surface with backlit keys and has the following technological features:
- Lightning connector for iPhone and iPads
- BT (Bluetooth) for connecting with any device
- NFC for pairing your phone quickly with the dock (if it has NFC function)
- USB for recharging smartphones, tablets and reproducing music tracks (MP3 or WMA)
- AUX input for option of reproducing music from a PC
- HF (hands free) that allows you to listen to incoming calls through the speakers

	Code	Eco-wood Super-matt	Matt lacquered	Oxidized lacquered
Audio system kit	**NV7160**	517	524	550



INFRARED SIGNAL REPEATER FOR BASE STORAGE UNITS

INFRARED SIGNAL REPEATER KIT

The kit includes:
- 1 infrared signal receiver, to sit near the television or to be recessed into the top of the storage unit (with a 2,6 cm Ø hole to be made by the customer).
- 1 signal repeater to be placed inside the compartment together with the electronic equipment.

The system receives the signal from any infrared remote control and forwards it into the compartment housing the repeater. Hence any equipment (terrestrial digital decoder, satellite TV decoder, DVD player, home theatre, videogame console...) can be housed inside the closed compartment and can still be remote controlled. Refer to the technical specifications of each piece of equipment to check that it can be housed in a closed compartment.

A single receiver can be used for equipment located in separate compartments by connecting up to 3 signal repeaters, which may also be provided individually.

	Code	
Receiver + 1 repeater kit	**NV7151**	269
Single signal repeater	**NV7152**	41

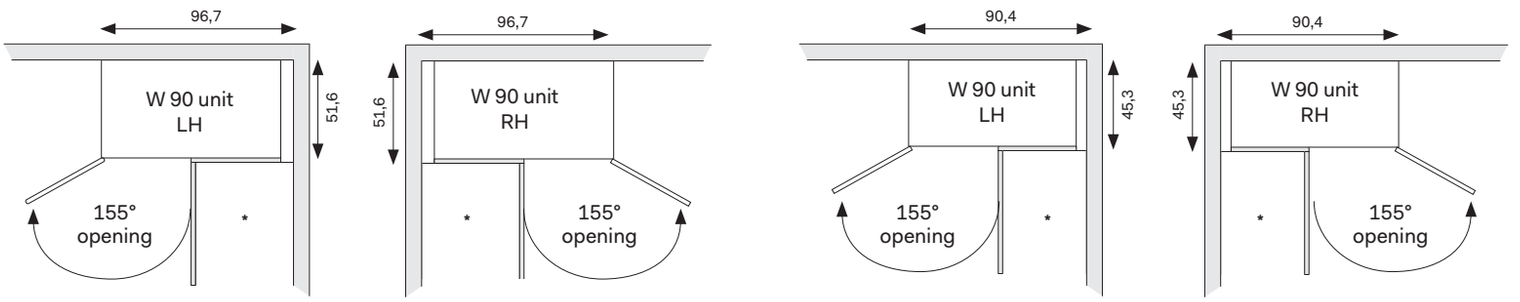
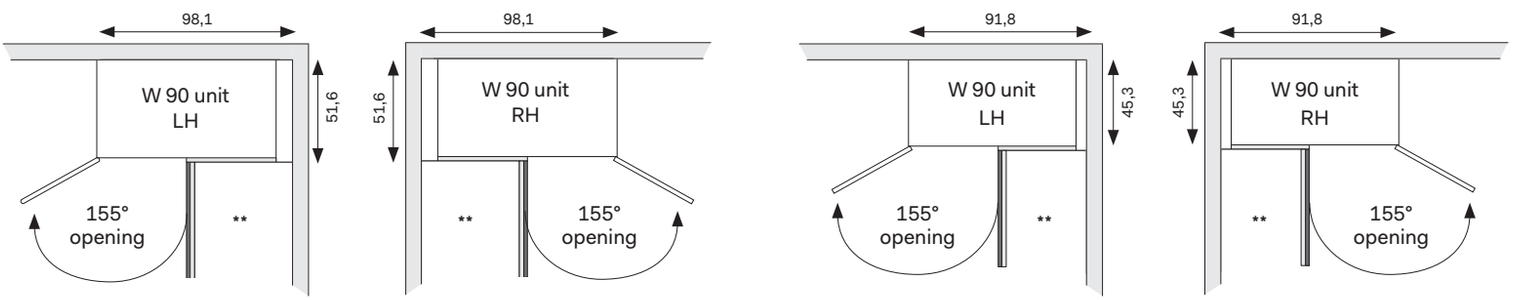
STRAIGHT CORNER UNITS: MODULE SIZES

The dimensions of the corner unit vary based on the adjacent units' opening system.

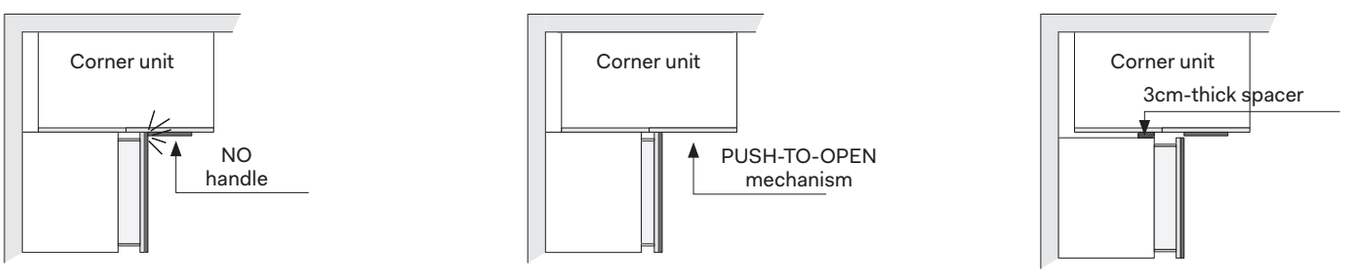
* Adjacent units with PUSH-TO-OPEN mechanism or HOOP, FILO, PIN or HANG handles.



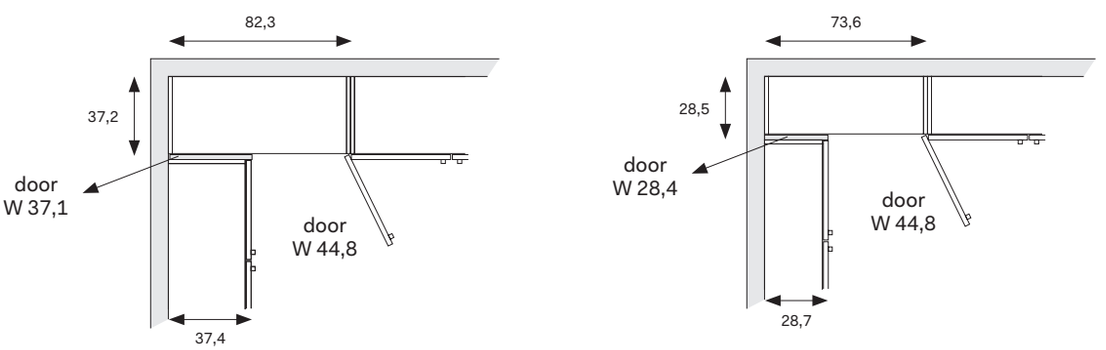
** Adjacent units with PROFILO edge or LINEA 128 handles.



If adjacent units feature drawers (regular or oversized) or hanging folder systems, the PUSH-TO-OPEN version of the corner unit must be used, alternatively a 3 cm spacer can be used.



There are coded corner units for depths 45,5 and 51,8. Units with other depths can be made to order.



STRAIGHT CORNER UNITS

To be finished off with 0,8/1,2/3/5 cm-thick top for corner, see page 192.

Carcass interior: see page 28.
RAYS fronts available in Veneer, Noce canaletto, Matt or Oxidized lacquered for the same price.

MARBLE TOPS FOR BASE STORAGE UNITS

MARBLE TOPS

Thickness 2 cm

Please carefully read the important information on the nature of marble given on page 10.
The top comes with a document outlining use and care instructions.
Ask our customer service department for a copy before placing your order.
Please note: the top comes in a wooden crate (not fumigated).
The glass edge comes unpolished.

3-SIDED TRAY TOPS FOR BASE STORAGE UNIT

3-SIDED TRAY TOPS

Height 8,8 cm

Thickness 0,8 cm Mitre-folded

Reduction **NMAG13** 33

Can be used on:
- 16 cm-high storage unit with 24 cm-high storage units on left and right with 0,8 cm-thick top
- 24 cm-high storage unit with 32 cm-high storage units on left and right with 0,8 cm-thick top
- 32 cm-high storage unit with 40 cm-high storage units on left and right with 0,8 cm-thick top
- 40 cm-high storage unit with 48 cm-high storage units on left and right with 0,8 cm-thick top

It cannot be used as a side unit.

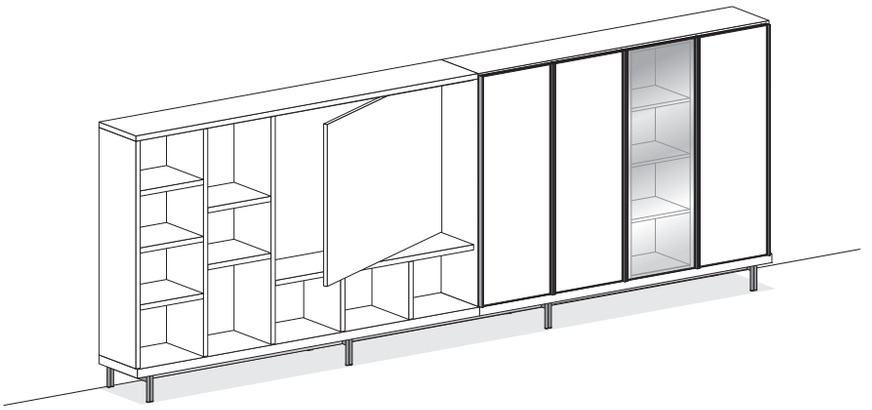
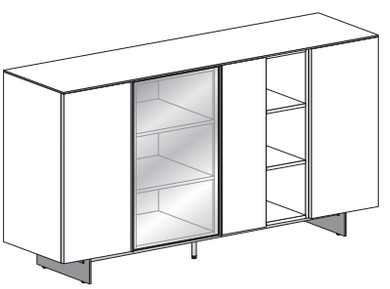
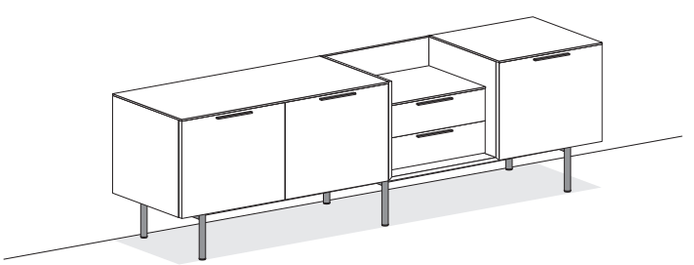
BASES

The base system comprises 3 different types of feet (DOUBLE, STRIPE and TUBE) paired with crosspieces in 6 sizes that can be fitted on both sides of the feet.
They can be used to create bases to support BOX 18 storage units, or WALL 30 arrangements mounted on top of a 5 cm-thick top acting as a bench.
All feet are height adjustable.

Feet cannot be used without at least a pair of crosspieces.
When using modules up to 150 cm wide, you will also need to order the side reinforcements kit.







DOUBLE FOOT

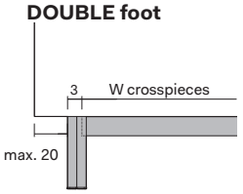
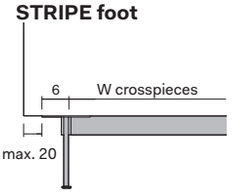
BASES

Base configurations offer various possible modular solutions.
The following restrictions must be taken into account for technical reasons:

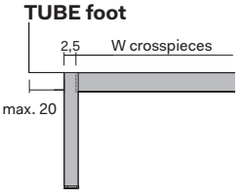
DOUBLE foot



STRIPE foot



TUBE foot



When dealing with base storage units with shelves, or regular or oversized drawers, the full weight rests on the side of the cantilevered structure.
You are advised to refer to the load capacity table for wall-mounted base units (see page 23) and not exceed the given values.
When using modules up to 150 cm wide, you will also need to order the side reinforcements kit.

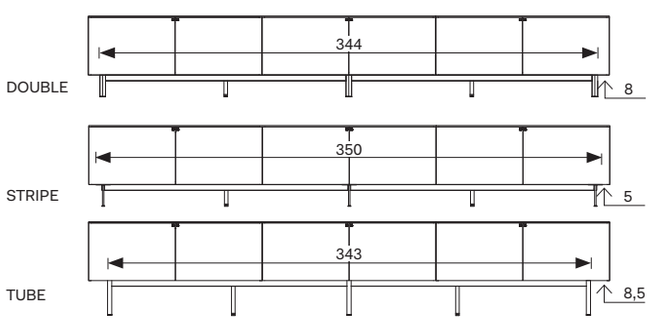
Modules W 360 cm

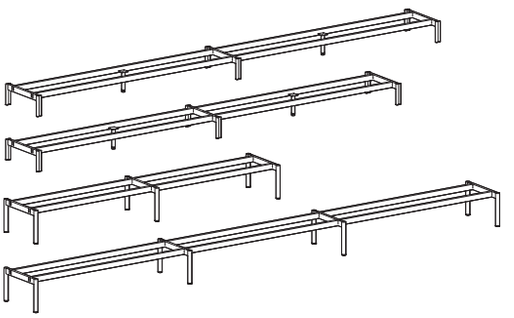
Crosspieces W 168/168 cm with central foot



OTHER BASES AND ACCESSORIES

OTHER BASES

Feet and crosspieces can be combined to produce endless custom base solutions.
All feet are designed to be used in conjunction with a pair of crosspieces, one attached to each side. For all feet types, the size of the central foot is 2 cm.
Always take into account the stated maximum cantilever parameters when defining a custom base design.



Example:
Base made with 4 TUBE feet and 3 pairs of crosspieces W 129,2 cm.
The size of the base will be:
2,5+129,2+2+129,2+2+129,2+2,5=396,6 cm
The resulting base is suitable as a support for the following storage units:
minimum W 396,6+14=410,6 cm (14 is the minimum overhang for the TUBE foot)
maximum W 396,6+40=436,6 cm (40 is the maximum overhang for the TUBE foot)
The resulting base will thus be suitable for a configuration 420 cm wide.

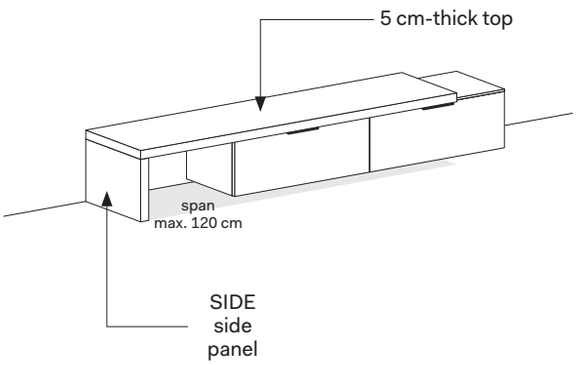
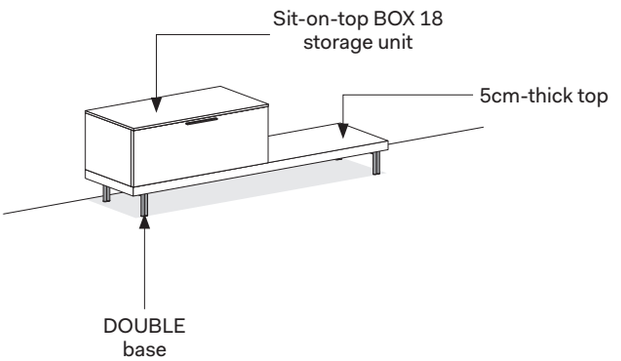
TOPS 5CM THICK FOR STORAGE UNITS

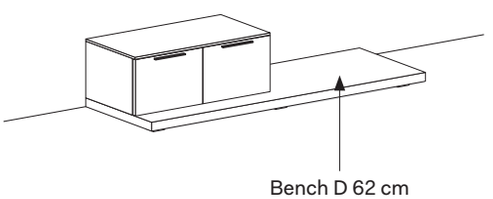
The 5cm-thick top system is made up of a series of horizontal and vertical components that stand out for their extra-thick look and ability to be mixed and matched with each other.

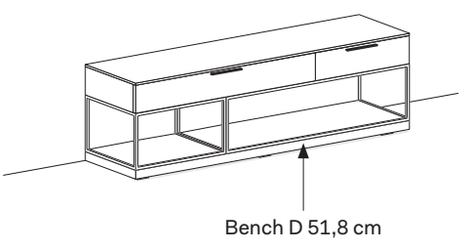
- Tops D 28,7/37,4/45,5/51,8 cm with no wall supports, sitting on BOX 18 storage units, SIDE side panels or bases.
See page 257 for tops.



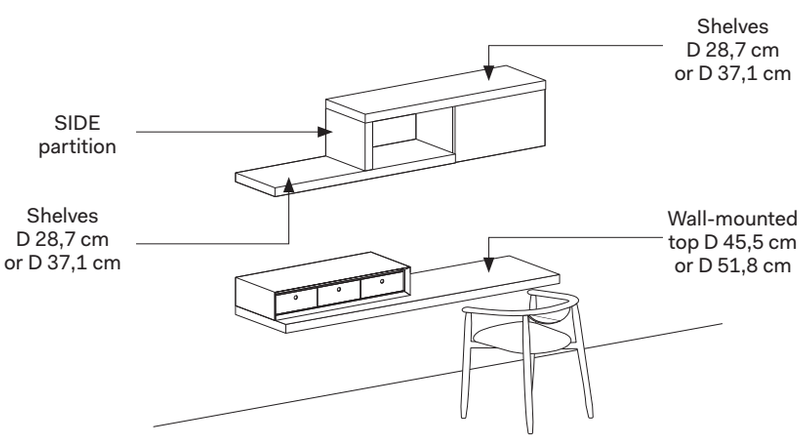


- Benches D 51,8/62 cm floorstanding with adjustable feet H 2 cm





- Shelves D 28,7/37,4 cm and wall-mounted tops D 45,5/51,8 cm with supports for wall mounting.
For depths of 28,7 and 37,7 cm, the supports are completely embedded in the thickness of the shelf.
For depths of 45,5 and 51,8 cm, the supports cannot be seen from the front, but are visible underneath.
Shelves and wall-mounted tops can be accessorized with non-load-bearing SIDE partitions, with a fully hidden fastening system.



BENCHES 5 CM THICK

Optional top for wall units

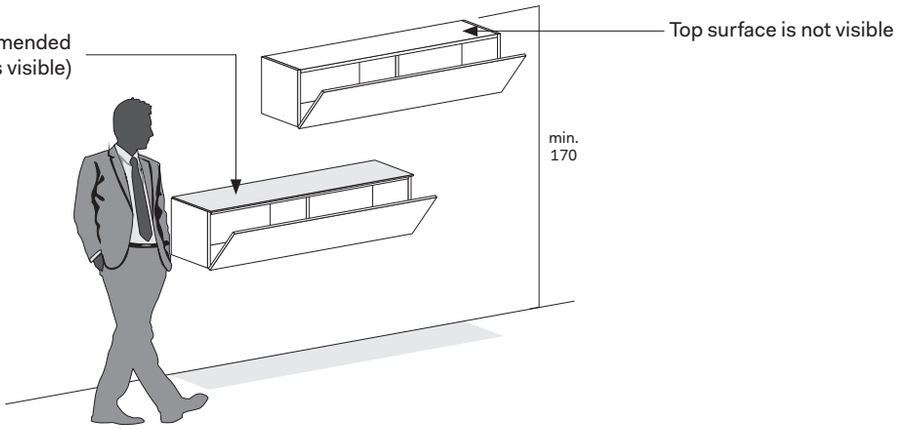
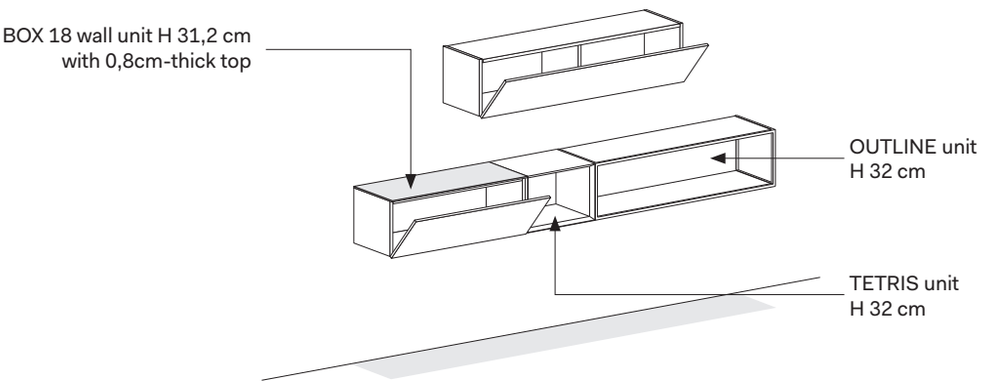
The use of the top is recommended for wall units positioned at a height of less than 170 cm above the floor.
The wall units' upper surface is finished like the rest of the carcass, hence the top is recommended for aesthetic purposes only.



SPECIAL CASES

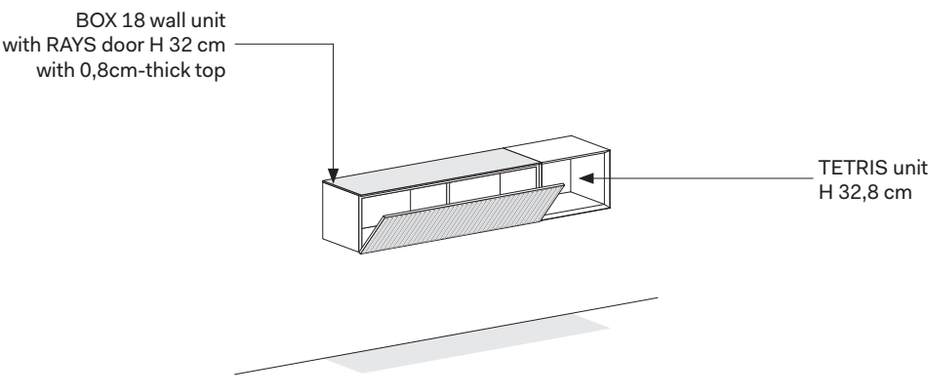
EXAMPLE 1

In the event TETRIS, OUTLINE and/or BOX 12 units are butted up against BOX 18 base or wall units with plain doors, the BOX 18 units including 0,8 cm-thick tops can be reduced in height - at no extra charge - so that they will be lined up with the other storage units without having to add a full-length top.



EXAMPLE 2

In the event TETRIS units are butted up against BOX 18 wall units that cannot be cut to size (such as those with RAYS or DROPS doors) including 0,8 cm-thick tops, 32,8 cm-high TETRIS units are available so that they will be lined up with the other storage units without having to add a full-length top.



EXAMPLE 3

In the event TETRIS, OUTLINE and/or BOX 12 units are butted up against BOX 18 base or wall units with doors, the full-length top can be added.

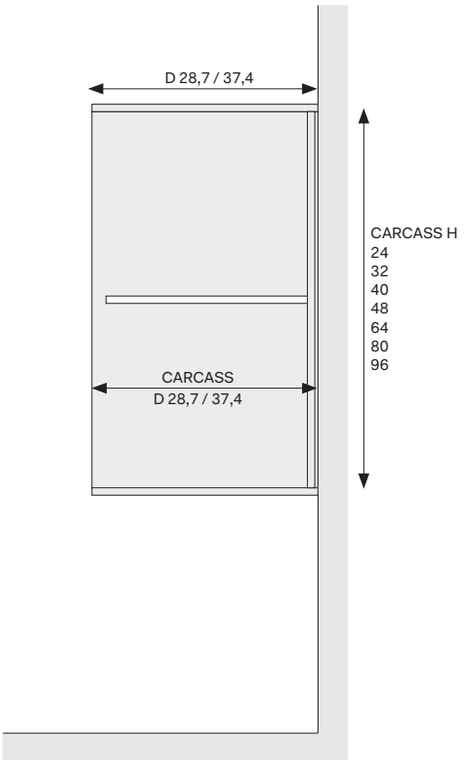
BOX 12: TECHNICAL INFORMATION

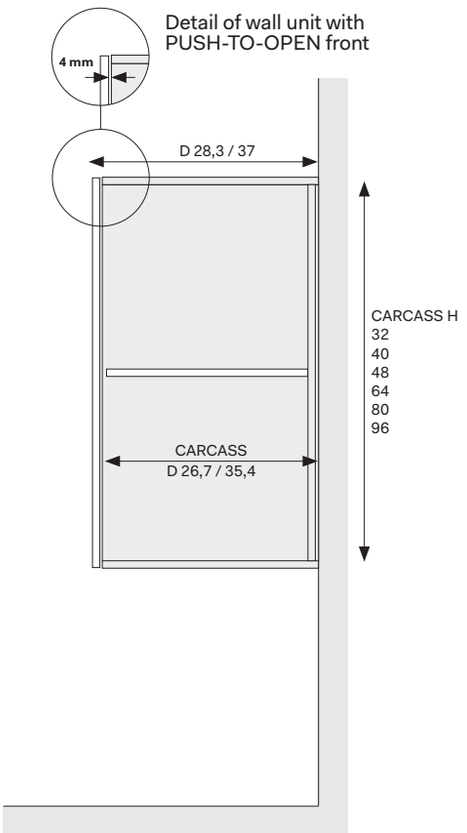
The BOX 12 modular system comprises units sharing a common feature - their 1,2 cm-thick mitre-folded carcass - that interact perfectly with wall units from the BOX 18, TETRIS and OUTLINE system.
They come in two versions: open or closed with PUSH-TO-OPEN door.

TECHNICAL FEATURES

BOX 12 OPEN SHELVING



BOX 12 WITH DOOR



COMPONENTS	THICKNESS
CARCASS: foil-wrapped, lacquered or veneered chipboard panels.	1,2 cm
BACK PANELS: foil-wrapped, lacquered or veneered chipboard panels.	1,2 cm
DOORS: foil-wrapped, lacquered or veneered chipboard panels.	1,2 cm

ASSEMBLY NOTES

Storage units come ready assembled.

NOTES ON SAFETY

Wall units must be fastened carefully to a masonry wall and must not be subjected to excessive loads. Make sure beforehand that the wall is strong enough to take the weight of wall units under the customer's normal conditions of use.

BOX 12 BACK PANEL PRICES FOR MIXED COMBINATIONS

For open BOX 12 units, the carcass can be teamed with a back panel in a different finish. For BOX 12 units with doors, the back panel is always coloured to match the carcass. To work out the price, take the price of the back panels as given below.

Height 24			Eco-wood Super-matt	Matt lacquered	Oxidized lacquered	Veneered
back panel Width	30	cm	17	18	21	28
back panel Width	45	cm	18	20	24	37
back panel Width	60	cm	19	22	27	46

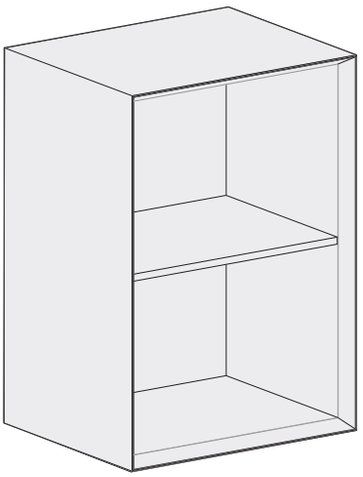
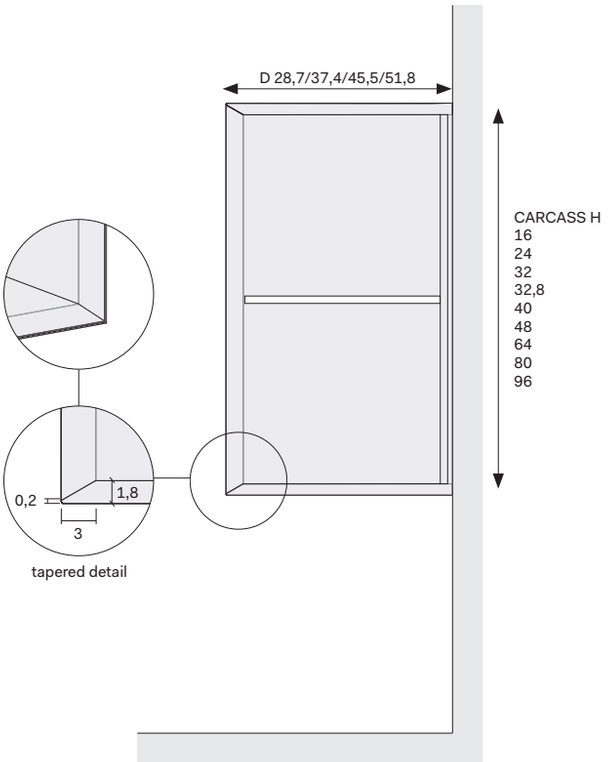
TETRIS: TECHNICAL INFORMATION

The TETRIS modular system comprises units sharing a common feature - their 1,8 cm-thick mitre-folded carcass with tapered edge - that interact perfectly with storage units from the BOX 18, BOX 12 and OUTLINE system.

TECHNICAL FEATURES





COMPONENTS	THICKNESS
CARCASS: lacquered or veneered tapered chipboard panels.	1,8 cm
BACK PANELS: lacquered or veneered chipboard panels.	1,2 cm
SHELVES AND VERTICAL PARTITIONS: lacquered or veneered chipboard panels.	1,2 cm

ASSEMBLY NOTES

Storage units come ready assembled.

NOTES ON SAFETY

Wall units must be fastened carefully to a masonry wall and must not be subjected to excessive loads. Make sure beforehand that the wall is strong enough to take the weight of wall units under the customer's normal conditions of use.

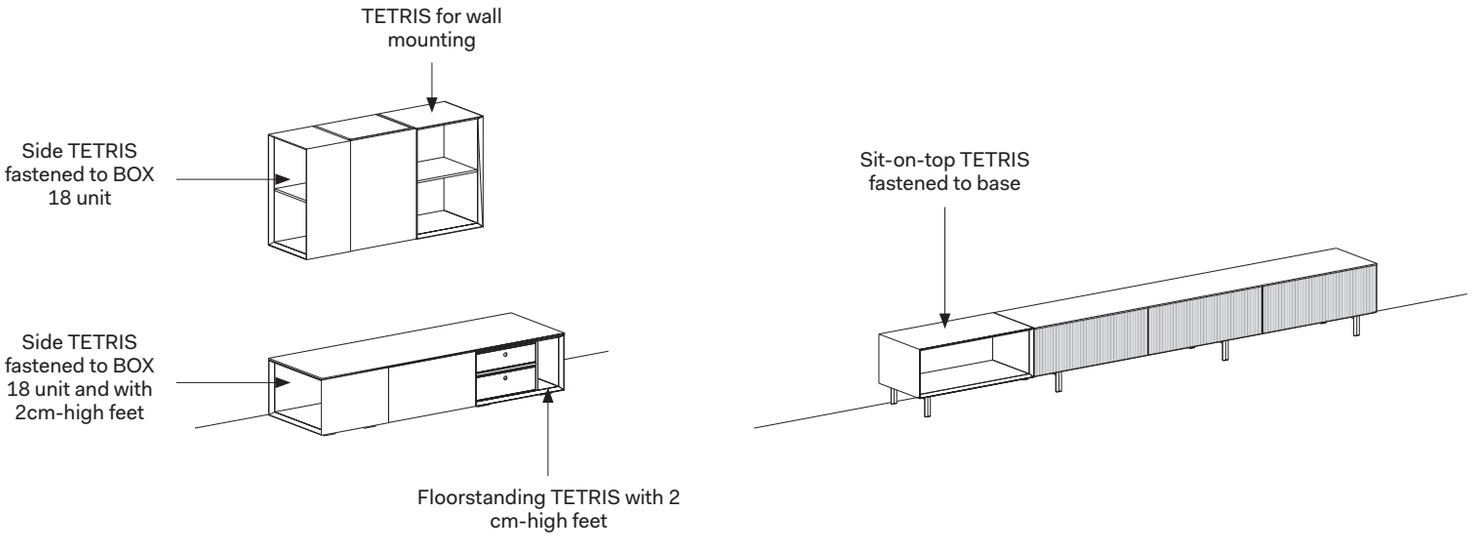
TETRIS UNITS: EXAMPLES OF USE

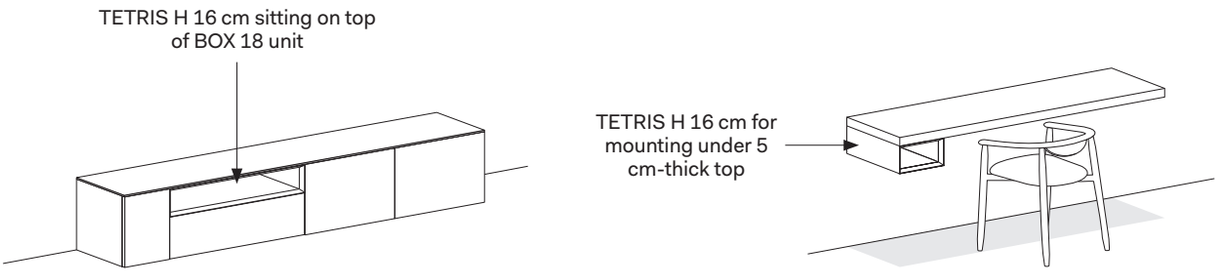
TETRIS units H 24/32/40/48/64/80/96 cm come as standard with hanging brackets for wall mounting.

On request, they can be provided without hanging brackets, for use sitting on top of other storage units, or on top of bases or standing on the floor.
In the case of TETRIS units placed on the floor, you will need to add a kit of 2 cm-high feet for each unit.

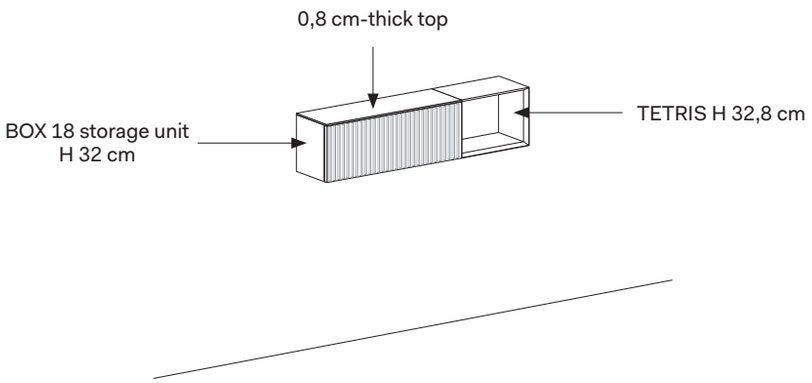
TETRIS side units always come with hanging brackets for fastening to the neighbouring unit, even in the case of units standing on the floor or on bases.
This unit's hanging brackets have an adjustment feature on the inside wall, hence the relevant hole caps will be visible. In the event the TETRIS side unit is being used on the floor, it must be finished off with a kit of 2 cm-high feet.



16cm-high TETRIS units cannot be fitted with hanging brackets.
They are only available in the sit-on-top version or undermounted version.
If placed on the floor, you will need to add a kit of 2 cm-high feet.



There are also TETRIS units in a special 32,8 cm-high module designed to line up with a 32 cm-high storage unit with 0,8 cm-thick top.



TETRIS UNIT ACCESSORIES

FEET

Black finish.

Allow TETRIS units to be set on the floor, keeping them lined up with the fronts of the BOX 18 storage units or of the side panel.

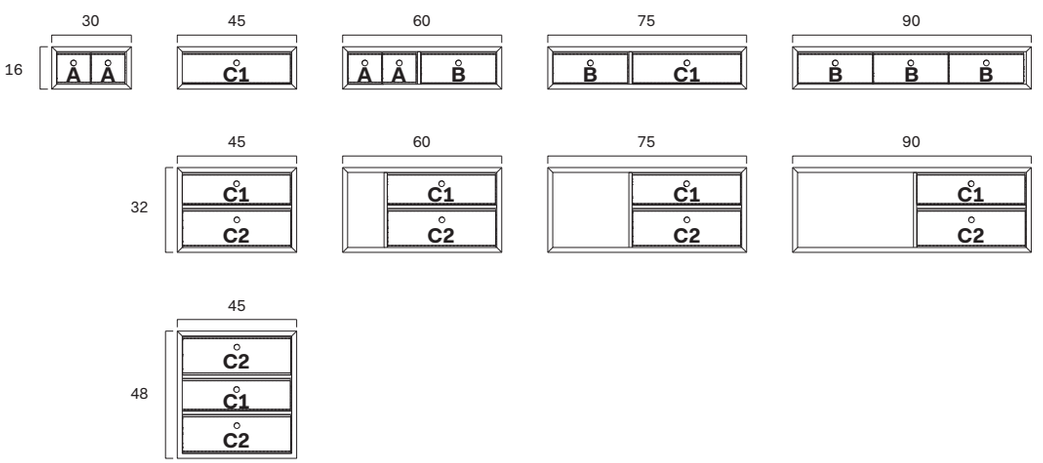
LEATHER DRAWERS

See samples on page 11 for colour options.
They come in sizes designed to fit into openings as specified below.
Because they are finished on all sides, they also lend themselves to use without a storage unit.



Key:

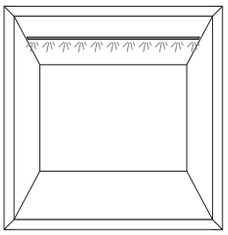
TETRIS UNIT LIGHTING

BUILT-IN LED LIGHTING FOR TETRIS UNITS

LED lighting, 0,6 cm thick, comes with the lighting strip recessed into the storage unit carcass so that it is “flush”.
The options are horizontal or vertical lighting, as featured below.

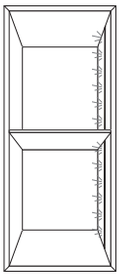
Horizontal lighting only for TETRIS units in 16/24/32/40/48 cm heights between 30 and 90 cm wide,
on the inside of the top cover (positioned in the middle).



Watts	Horizontal 24V 3000K LED light				Extra charge per light (comes ready attached)
2,8	TETRIS	Width	30	cm	+ 34
4,2	TETRIS	Width	45	cm	+ 38
5,7	TETRIS	Width	60	cm	+ 42
7,2	TETRIS	Width	75	cm	+ 47
8,7	TETRIS	Width	90	cm	+ 47
11,3	TETRIS	Width	120	cm	+ 58
2,5	TETRIS SIDE UNIT	Width	28,3	cm	+ 34
3,4	TETRIS SIDE UNIT	Width	37	cm	+ 38
4,2	TETRIS SIDE UNIT	Width	45,1	cm	+ 38
4,9	TETRIS SIDE UNIT	Width	51,4	cm	+ 40

To be finished off with transformers, see page 35.

Vertical lighting only for TETRIS units in 64/80/96 cm heights.
On the inside of the vertical side of just one side panel (LH or RH) positioned in the middle.



Watts	Vertical 24V 3000K LED light				Extra charge per light (comes ready attached)
6	TETRIS/ TETRIS SIDE UNIT	Height	64	cm	+ 46
8	TETRIS/ TETRIS SIDE UNIT	Height	80	cm	+ 50
9	TETRIS/ TETRIS SIDE UNIT	Height	96	cm	+ 54

To be finished off with transformers, see page 35.

SMART TRANSFORMER

Determine where to position the
transformer at the design stage.
The TETRIS unit does not have a service
void to accommodate the device.

			Code	
~~15W SMART transformer~~	~~TH 1,6 W 18,7 D 4,9~~	~~(max. 4 LED lights)~~	~~NV7601~~	~~57~~

For other transformers, or for remote control, see page 35.

TETRIS BACK PANEL PRICES FOR MIXED COMBINATIONS

For TETRIS units, the carcass can be teamed with a back panel in a different finish.
To work out the price, take the price of the back panels as given below.

Back Panel

Width 37 cm	32	40	80	92
Width 45,1 cm	37	45	97	111
Width 51,4 cm	41	50	109	125

Side back panel

Height 96	Matt lacquered	Oxidized lacquered	Veneered	Noce canaletto
Width 28,3 cm	30	37	74	85
Width 37 cm	35	44	96	110

Example:
TETRIS unit NN1601 with Matt lacquered carcass and Veneered back panel:
take the price of the Matt lacquered TETRIS unit, subtract the price of the Matt lacquered back panel and add the price of the Veneered back panel.

SIT-ON-TOP TETRIS UNITS H 16

Mitre-folded 1,8 cm thick.

Height **16** cm

CARCASS: includes back panel in same finish.
Floorstanding TETRIS units to be finished off with levellers H 2 cm.

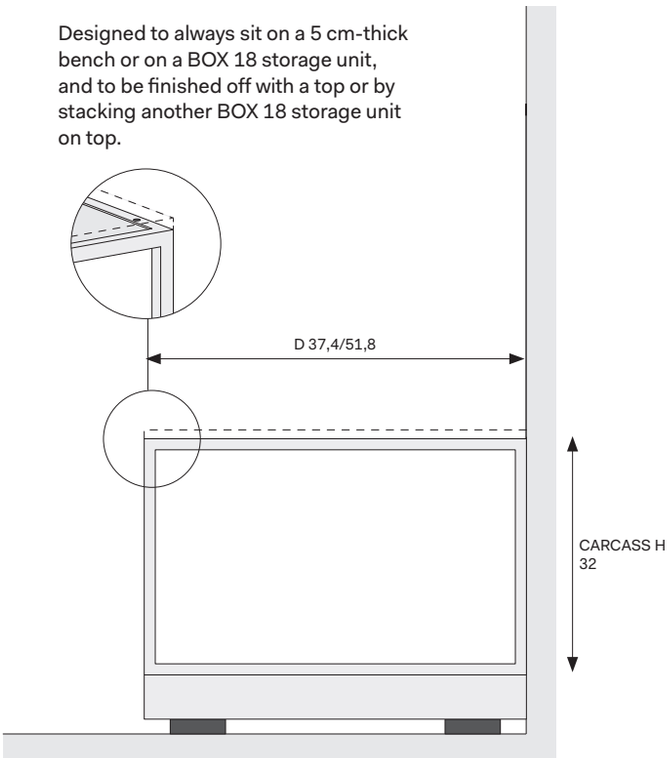
OUTLINE UNITS: TECHNICAL INFORMATION

The dictinctive trait of the OUTLINE storage unit system is the 1,5cm-thick frame that defines the unit's volume.

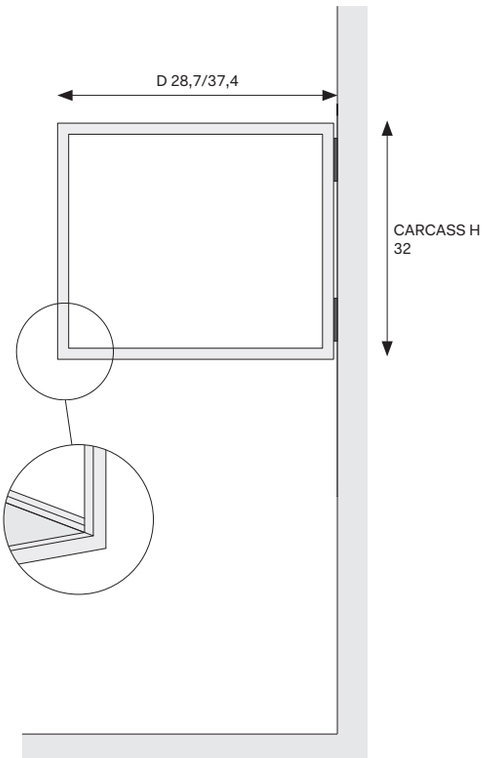
TECHNICAL FEATURES

SIT-ON-TOP OUTLINE

Designed to always sit on a 5 cm-thick bench or on a BOX 18 storage unit, and to be finished off with a top or by stacking another BOX 18 storage unit on top.



WALL-MOUNTED OUTLINE



COMPONENTS	THICKNESS
CARCASS: foil-wrapped, lacquered, veneered or clay-coated chipboard panels.	1,2 cm
FRAME: lacquered metal.	1,5 cm

ASSEMBLY NOTES

Storage units come ready assembled.

NOTES ON SAFETY

Wall units must be fastened carefully to a masonry wall and must not be subjected to excessive loads. Make sure beforehand that the wall is strong enough to take the weight of wall units under the customer's normal conditions of use.

OUTLINE UNITS

The carcass can be teamed with a back panel in a different finish.
To work out the price, take the price of the back panels as given below:

Height 32				Eco-wood Super-matt	Matt lacquered	Oxidized lacquered	Veneered	Clay
back panel	Width	30	cm	40	42	51	44	45
back panel	Width	60	cm	46	55	68	57	97
back panel	Width	90	cm	50	71	86	72	146
back panel	Width	120	cm	54	85	105	89	195

Example:
OUTLINE unit with Matt lacquered carcass and Veneered back panel:
take the price of the Matt lacquered unit, subtract the price of the Matt lacquered back panel and add the price of the Veneered back panel.

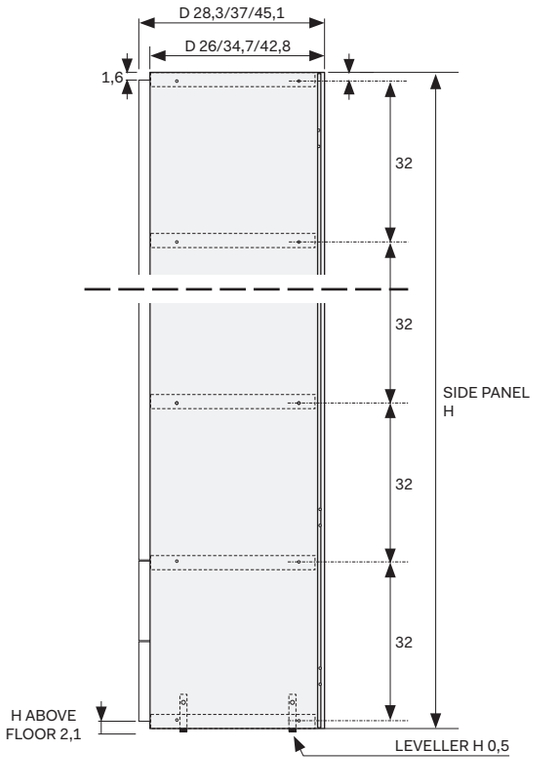
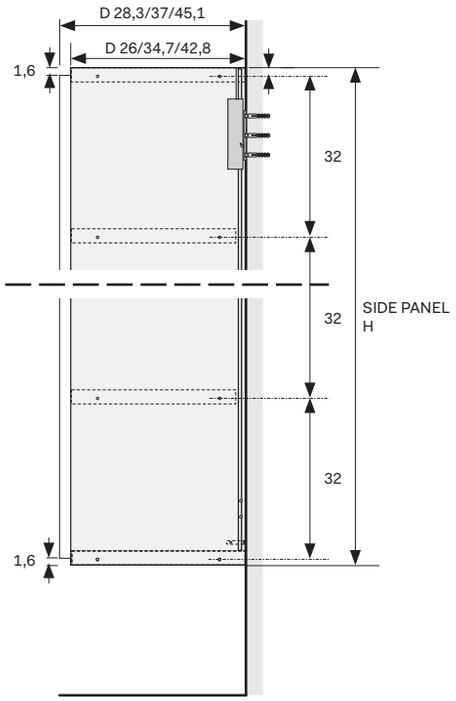
WALL SYSTEM: TECHNICAL INFORMATION

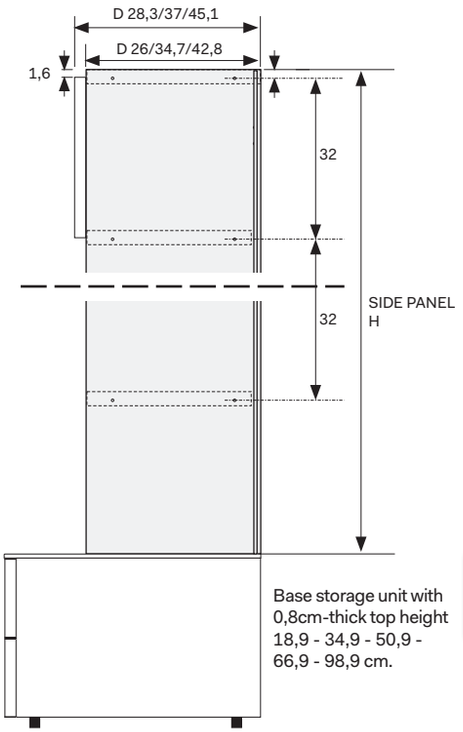
FLOORSTANDING WALL SYSTEM



HUNG WALL SYSTEM



SIT-ON-TOP WALL SYSTEM



COMPONENTS	THICKNESS
SIDE PANELS: foil-wrapped, lacquered or veneered chipboard panels.	3 cm
SHELVES: foil-wrapped, lacquered or veneered chipboard panels.	3 cm
BACK PANELS: foil-wrapped, lacquered or veneered chipboard panels.	1,2 cm
DOORS: foil-wrapped, lacquered, veneered or clay-coated chipboard panels.	2,2 cm
RAYS DOORS: veneered or lacquered pressed wood.	2,2 cm
ERA DOORS: extruded aluminium frame with 0,4 cm-thick toughened glass with noise seal around edges, or 1,2 cm-thick foil-wrapped, lacquered or veneered chipboard panels.	3,5 cm
DROPS DOORS: foil-wrapped chipboard panels. Vertical ink screen printing.	2,2 cm
DRAWERS: foil-wrapped, lacquered, veneered or clay-coated chipboard fronts. QUADRO® - SILENT SYSTEM® full-extension runners.	2,2 cm
LEVELLING FEET: come as standard on each floorstanding side panel. (-0 /+2,5 cm adjustment)	

ASSEMBLY NOTES

Side panels come ready fitted with all the necessary hardware (shelf supports, hinge bases, adjustable feet, hanging brackets).

ASSEMBLY TOLERANCES

2 cm in width and 3 cm in height.

NOTES ON SAFETY

NB: For configurations with hidden shelf supports, the configurations must be secured to the wall.
For double-sided configurations, with no back panel, one side of the configurations must be secured to the wall.

If you are using columns without back panels, this must be specified on the order and is possible for 27/42/57/87 cm-wide compartments only.

Wall-hung columns must be fastened carefully to a masonry wall and must not be subjected to excessive loads. Make sure beforehand that the wall is strong enough to take the weight of wall units under the customer's normal conditions of use.

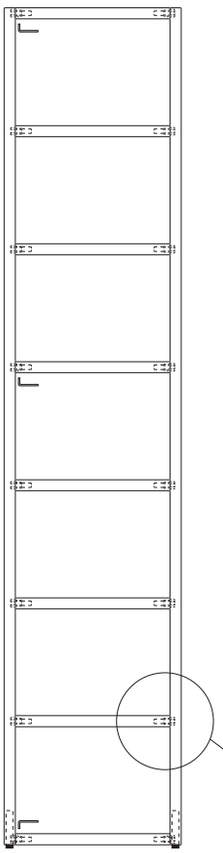
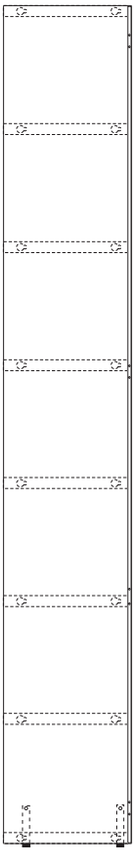
WALL SYSTEM: HIDDEN SHELF SUPPORT

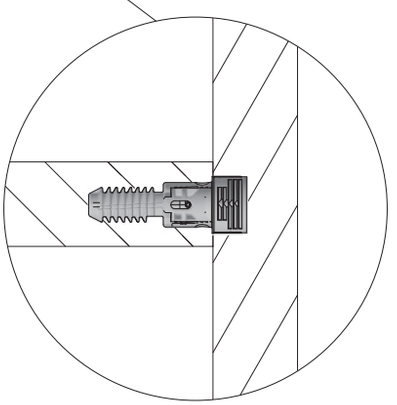
Front view

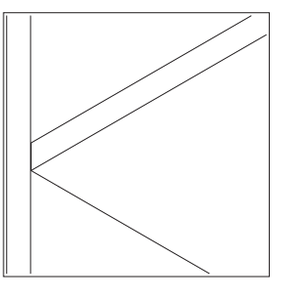


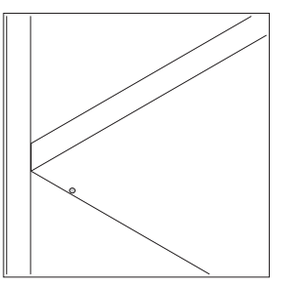
Side view



Plan view







HIDDEN SHELF SUPPORT

Extra charge for each shelf	+ 6

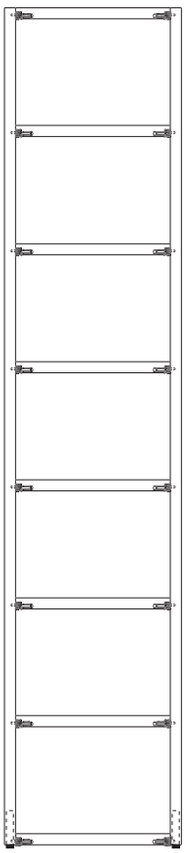
This shelf support has a 2 cm Ø insert fitted to the side panel that is completely hidden by the shelf.
Each module comes with at least 2-3 shelves featuring a locking system that requires four 5 mm Ø holes lined up with the shelf supports. The locking system is installed on the top side of the bottom shelf and underside of the top cover/shelf. Technical requirements will dictate the positions of other shelves due to be secured with the locking system.

PRE-DRILLED HOLES

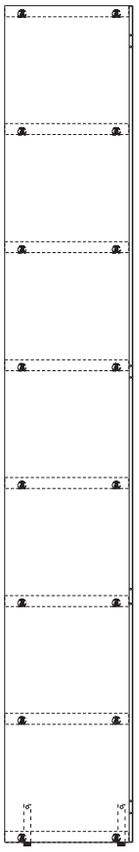
Side panels have holes drilled just to coincide with the components (shelves and fronts) to be attached, as specified on the order.

WALL SYSTEM: STANDARD SHELF SUPPORT

Front view



Side view



STANDARD SHELF SUPPORT (no extra charge)

This shelf support has an insert screwed into the side panel that stays visible on the underside of the shelf.
All shelves must be secured with the locking system.

PRE-DRILLED HOLES

Side panels have holes drilled just to coincide with the components (shelves and fronts) to be attached, as specified on the order.
NB: Shelves are positioned at standard heights and with standard shelf supports unless specified otherwise.
Different holes can be pre-drilled - only when using shelves in conjunction with standard shelf supports - at an extra charge for each side panel.

FULL-HEIGHT DRILLED (for standard shelf supports only)

Holes measuring 3 mm in diameter running the full height every 3,2 cm.

Extra charge for each side panel	**NMAG14**	15

FULL-HEIGHT PUNCHED (for standard shelf supports only)

Small pilot holes running the full height of the panel every 6,4 cm.

Extra charge for each side panel	**NMAG15**	15

SET OF 3 HOLES (for standard shelf supports only)

Set of 3 holes measuring 3 mm in diameter to coincide with each shelf (1 hole above and 1 hole 4,8 cm below).

Extra charge for each side panel	**NMAG16**	15

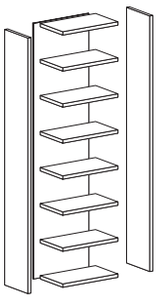
WALL SYSTEM WITH BACK PANEL AND OPEN-BACK AND DOUBLE-SIDED VERSIONS

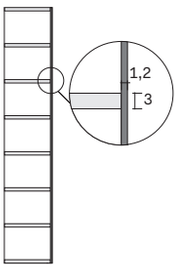
Technical features

WITH BACK PANEL

The columns with back panels given on the price list feature full-height back panels for compartments measuring 27/42/57/87 cm.
For compartments measuring 117/132/147/177 cm, the back panel doubles as a support for the shelves and thus comes in a number of sections, each the height of the relevant compartment.
NB: in this case, shelves are fitted in a set position and the different pre-drilled hole options are not applicable: full-height drilled, full-height punched, set of 3 holes.

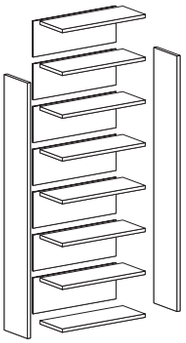
Columns
W 30/45/60/90
one-piece back panel

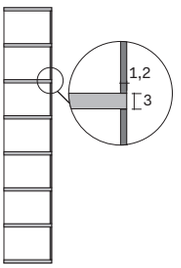




Shelf
D 24,6/33,3/41,4

Columns
W 120/135/150/180
intermediate back panels H 29





Shelf
D 25,9/34,6/42,7

OPEN-BACK (No back panel)

OPEN-BACK columns have no back panel and are made up of 25,9/34,6/42,7 cm-deep shelves, with 24,6/33,3/41,4 cm-deep shelves inside closed compartments.

DOUBLE-SIDED

DOUBLE-SIDED columns are made up entirely of 25,9/34,6/42,7 cm-deep shelves. To calculate the price, take the price of the open-back columns and then add the fronts applied to either side, if any.
Side panels and 25,9, 34,6 and 42,7 cm-deep shelves already come finished on the back, at no extra charge.
NOTES ON DOUBLE-SIDED CONFIGURATIONS
The rear of the configuration cannot be fitted with:
- pull-down/lift-up doors
- drawers (regular/oversized)
- PUSH-TO-OPEN fronts; instead use fronts with handles or knobs, or ask for fronts without handle holes.

The rear of a compartment featuring drawers can be fitted with a back panel only. Alternatively, we can provide doors, which must to be ordered separately and attached with the relevant hardware (see price list page 714).
All shelves must be fastened in place, being careful to screw in the locking screws in the shelf supports.
One side of the configuration must always be secured to the wall: the absence of back panels means there is little to keep the composition square, which is especially important when columns comprise only 1 or 2 compartments.

SIDE PANELS ON BENCH

Thickness 3 cm

Designed to stand on top of 5 cm-thick benches or on 5 cm-thick tops with feet, complete with fastening hardware.
Columns built using this side panel must be finished off with a one-piece top.
NB: configurations sitting on top of a bench must be secured to the wall.

INSET SIDE PANELS

Thickness 3 cm

To be used inset between 2 horizontal panels with the same depth (bases of overhead storage units or tops,
cannot be used between 2 standard shelves).
They can be used to create special shelving solutions inside columns, with the option of finishing them off with fronts.

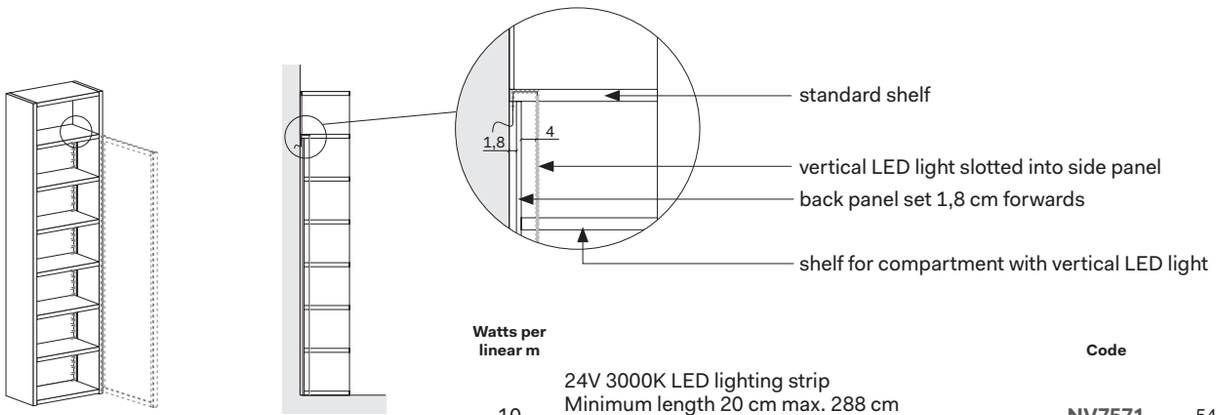
WALL SYSTEM COMPONENTS

VERTICAL LED LIGHT FOR WALL SYSTEM

LED lighting, 0,6 cm thick, comes cut to the required length based on the height of the compartment to be lit. A groove is cut into the edge of the side panel for the strip to be recessed so that it is "flush". To determine the size, and hence the price, multiply the number of vertical compartments by 32 cm.
Compartments fitted with this lighting come with the back panel set 1,8 cm further forwards to create a service void to accommodate wiring and house the transformer.

Example:
vertical LED light for wall system applied to 6 compartments.
6x32= 192 cm LED lighting strip 1,92 m long - 19,2 W.



Watts per linear m		Code	
10	24V 3000K LED lighting strip Minimum length 20 cm max. 288 cm Price per linear m *	**NV7571**	54

* minimum amount charged is 1 linear metre: for shorter lengths, apply the price for 1 metre.

Compartments with vertical LED lighting can be fitted with 3 cm-thick shelves featured below with a depth to suit the back panel set forwards, or with 0,8 cm-thick glass shelves in standard sizes.

To be finished off with transformers, see page 455

11,6	Oversized drawer WALL 30 Width 120 cm	**NV7565**	148

To be finished off with transformers, see page 455

SMART TRANSFORMER

The nerve centre of the NOVAMOBILI SMART LIGHTING system is the SMART transformer: this intelligent system is expandable to accommodate current and future technologies.
The SMART transformer can be integrated with modules for remote control via apps with Bluetooth or Wi-Fi technology, or used the traditional way with no module.
All transformers are designed to accommodate the addition of modules. Via Bluetooth or Wi-Fi module apps, you can control the lighting level of lights connected to a single transformer or to a number of transformers.
On request, transformers can be provided with plugs and certification for the world's main markets.
2-metre cable.

Bluetooth module	**NV7651**	41
Wi-Fi module (not for 15W transformer)	**NV7652**	70
Module for remote control	**NV7654**	30

REMOTE CONTROL

Switches lights connected to the SMART transformer on and off, and also controls the lighting level, from up to 14 metres away. Controls an unlimited number of SMART transformers.

Each SMART transformer you plan to control must have a module for remote control.

Single channel: for controlling all transformers together (unlimited).

	Code	
Single-channel remote control	**NV7663**	59

Multi-channel: (max. 3) for controlling up to 3 groups of transformers; each channel can have an unlimited number of transformers.

	Code	
Multi-channel remote control	**NV7662**	84

Switch-on via BLUETOOTH and WI-FI

Switches lights connected to the SMART transformer on and off, and also controls the lighting level, straight from a smartphone or tablet using the relevant app.
Depending on the technology used (Bluetooth or Wi-Fi), all available functions can be used.

Using Bluetooth technology, you can switch lights on and off and control the lighting level straight from 1 smartphone or 1 tablet.
The app can be installed on a number of devices, but only allows lights to be controlled by 1 of these at a time. Up to 5 Bluetooth modules can be paired with the app.

Each SMART transformer you plan to control (max. 5) must have a Bluetooth module.

Using your home's Wi-Fi network, you can switch lights on and off and control the lighting level straight from 1 or more smartphones or tablets using the relevant app. In addition, the transformer interfaces with Amazon Alexa or Google Home voice-control devices.

WORKS WITH amazon alexa

works with the Google Assistant

The app is free and available for all mobile operating systems.

Download on the App Store

GET IT ON Google Play

Each SMART transformer you plan to control must have a Wi-Fi module.

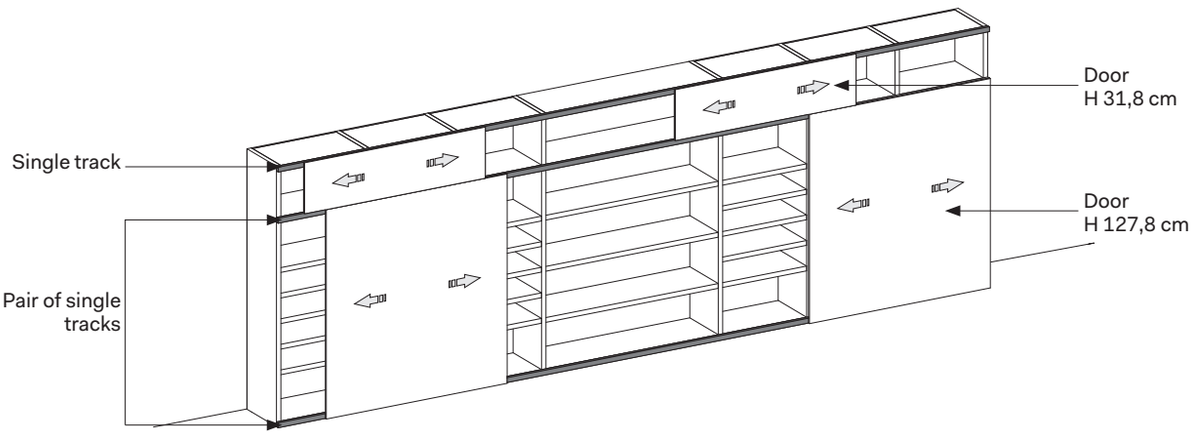
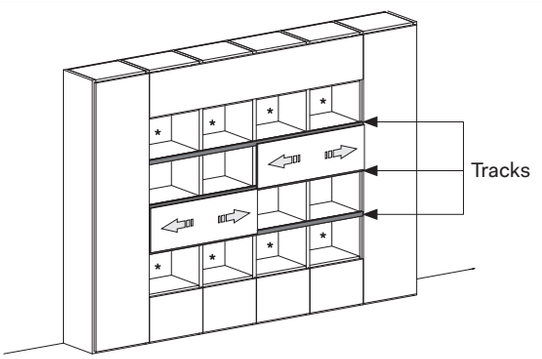
SLIDING DOORS FOR WALL SYSTEM

SAMPLE CONFIGURATION



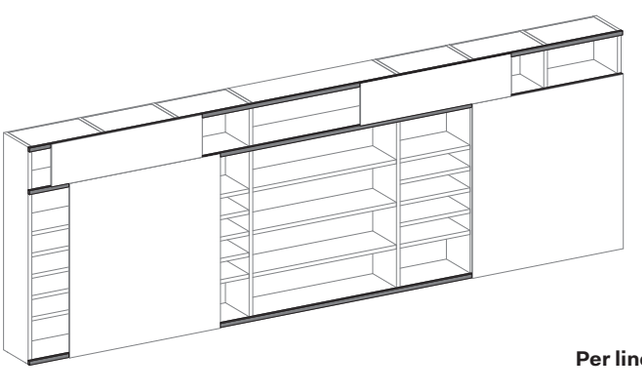
TECHNICAL CONSIDERATIONS FOR USE



- The track must always be fastened on a horizontal row of shelves, at any height.
- The track is sized to cover half of the first side panel and half of the last side panel.
- The spaces under and above the track cannot be fitted with other fronts. *
- The compartments behind the sliding doors cannot be fitted with drawers.
- You have the option of installing sliding doors of different sizes on top of each other.
- Fronts can be used on the compartments to the immediate left or right of the tracks.

TRACK

In Titanium finish with track cover in Titanium or Lacquered finish.
To be ordered by the linear metre (max. 3,5 metres).
For longer sizes, the tracks will need to be split.



Per linear metre	Code	Titanium track cover	Matt lacquered track cover	Oxidized lacquered track cover	Metal lacquered track cover
Single track D 1,7 cm	**NV7271**	59	72	72	85

SLIDING DOORS for wall system

Thickness 3 cm Depth of bookcase with wood sliding doors 29,5/38,2/46,3 cm

With frame in Titanium finish and 1,2 cm-thick panel
The frame is structural and not visible from the front.
Soft-close system.
With widthwise door-aligning tensioner.
Vertical grain also on 31,8 cm-high fronts.

BACK PANELS FOR WALL SYSTEM

INTERMEDIATE BACK PANELS

Thickness 1,2 cm

The Lacquered price is for the lacquered finish on the front only (white on back).
If you want the lacquered finish on both sides, add twice the extra charge to the Eco-wood option.
Intermediate back panels are required to fill the gap between two 25,9/34,6/42,7 cm-deep shelves.
Intermediate back panels are also used for the hung wall system.
Versions in Veneer and Noce canaletto features 1 rear in a different wood finish/colour.

SMART 30W transformer	**NV7602**	80
SMART 60W transformer	**NV7603**	131

The lights are to be fitted on the panels by the customer.
The lighting strips come with double-sided adhesive tape and can be cut every 5 cm. Switch not provided.

For other transformers, or for remote control, see page 455

INFRARED SIGNAL REPEATER KIT

The kit includes:
- 1 infrared signal receiver, to sit near the television or to be recessed into the TV mounting panel or rear back panel (with a 2,6 cm Ø hole to be made by the customer).
- 1 signal repeater to be placed inside the compartment together with the electronic equipment.

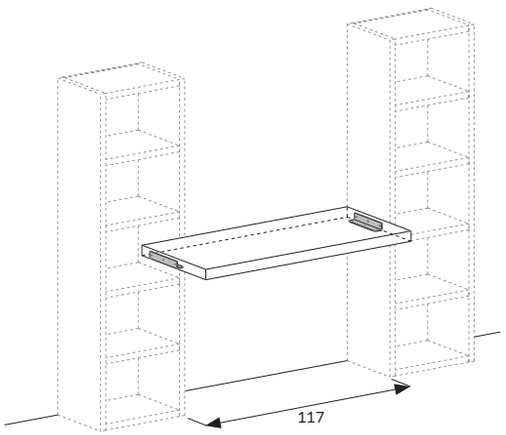
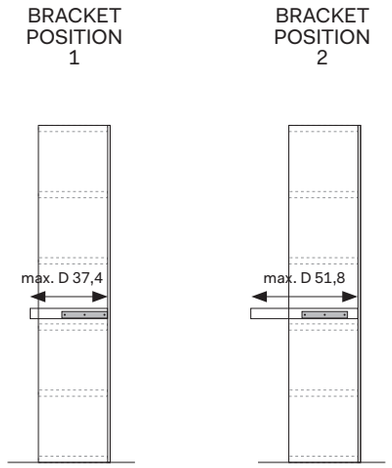
5CM-THICK TOP FOR WALL SYSTEM

EXAMPLES OF 5CM-THICK TOPS BUILT INTO WALL SYSTEM CONFIGURATIONS



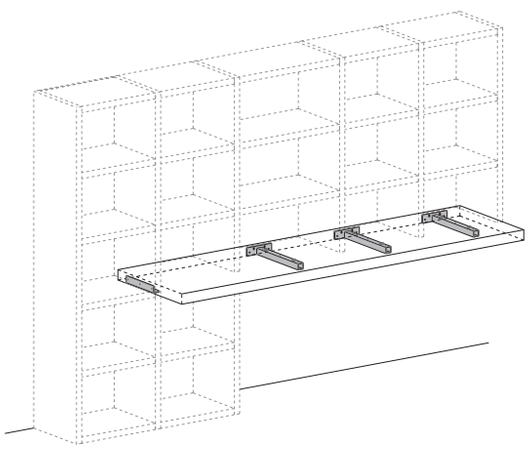
Maximum span for tops without wall brackets

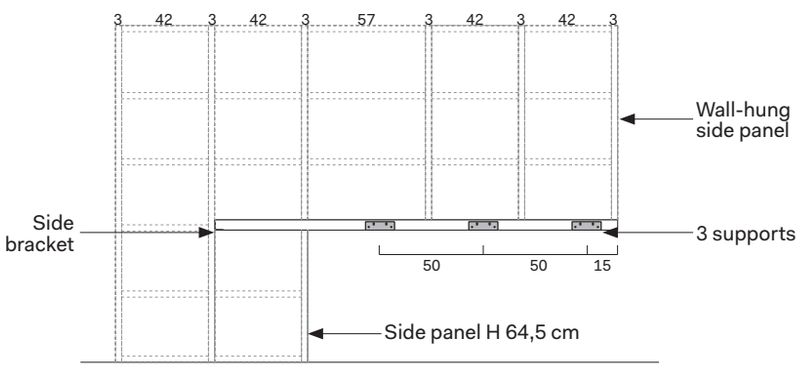


5cm-thick top with side bracket.

POSITION 1 flush with back: allows the top to be mounted from the front.

POSITION 2 in middle of side panel:
must be mounted from above.





Supports come in different quantities depending on the length of the top and must be ordered separately.
We recommend attaching the side support 15 cm in from the end and then add others every 50 cm.

5CM-THICK FITTED TOP PER M

To be finished off with wall brackets and/or supports.

		m³	Code	Eco-wood Super-matt	Matt lacquered	Oxidized lacquered	Veneered	Noce canaletto	Gloss lacquered	Clay

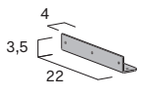
Depth 51,8 cm	Per linear m	0,059	**NM8301**	113	149	183	254	291	194	352
Maximum size Width 273 cm										

5CM-THICK TOP FOR WALL SYSTEM

SIDE BRACKET

Black-painted metal.



m³	Code	
0,002	**NV7337**	21

HIDDEN WALL SUPPORT FOR TOPS D 28,7/37,4

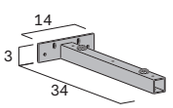
Adjustable.
Load capacity 15 kg per support.

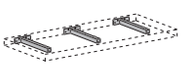
m³	Code	
0,002	**NV7338**	24

PARTIALLY HIDDEN WALL SUPPORT FOR TOPS D 45,5/51,8

Black-painted metal. Adjustable.
Load capacity 15 kg per support.

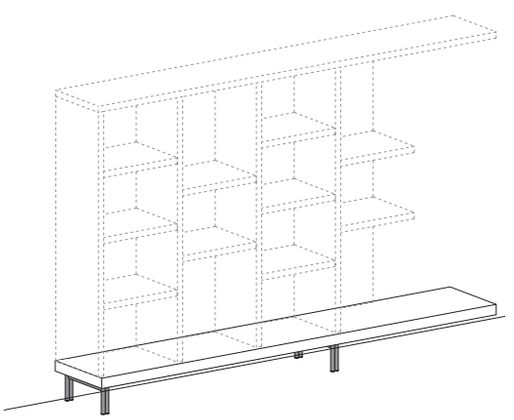
The support is recessed into the top by means of an open groove cut into the underside, which cannot be seen from the front.
Consequently, we recommend its use for tops positioned no more than 75 cm off the floor.

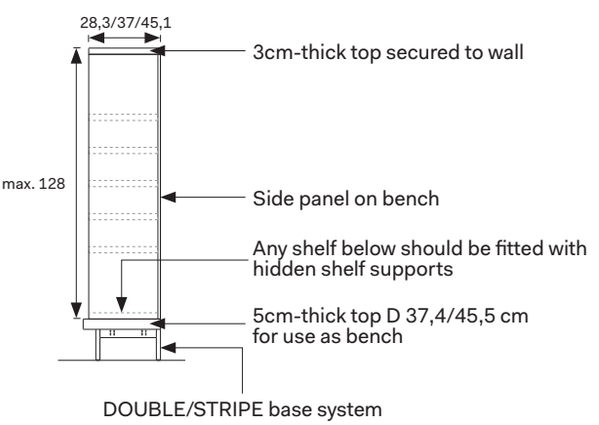




m³	Code	
0,001	**NV7336**	32

EXAMPLE OF 5CM-THICK TOP USED AS A BASE FOR WALL 30





For 5cm-thick top, see the “Tops for base storage units” chapter on page 257.
It will come with provision for attachment to side panels sitting on top of a bench.
The base systems used in these solutions are the same used for BOX 18 storage units (except for the TUBE foot).
For prices and conditions for their use, refer to the section on page 266 onwards.

The 120 cm-wide modules for columns have shelves positioned at set heights.

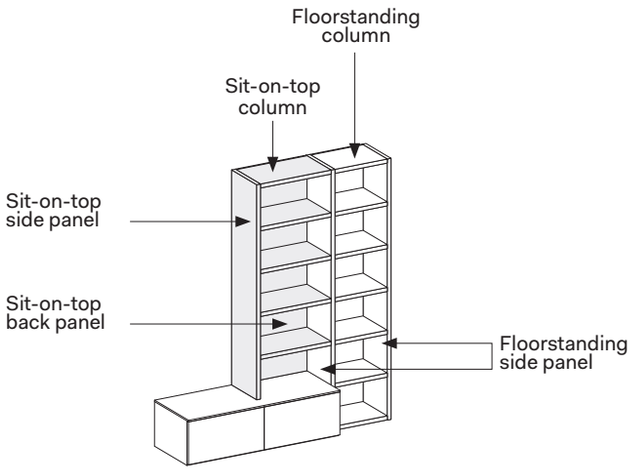
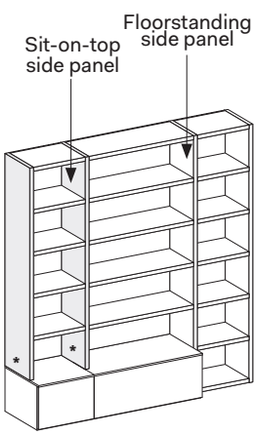
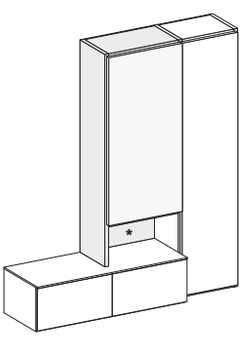
SIT-ON-TOP COLUMNS



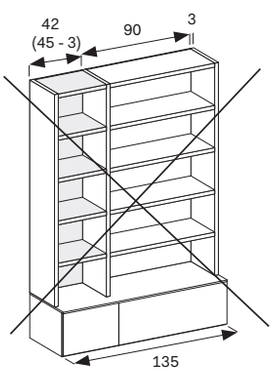
TECHNICAL CONSIDERATIONS FOR USE



The side panel sitting on top must line up with the side of the base storage unit underneath and must be secured to the wall.



Nothing can be fitted in the space on top of the base storage unit (it must be left "open").



If you were wanting the columns to sit entirely on top of the base units, their different module sizes would mean one compartment would have to be reduced in width by 3 cm. In addition, there is no provision for any connection between the base units and the side panel sitting on top. As a result, this is not a feasible solution.

SIT-ON-TOP COLUMNS

Extra charge for hidden shelf support (4 shelves) + 24

Height **128,6** cm

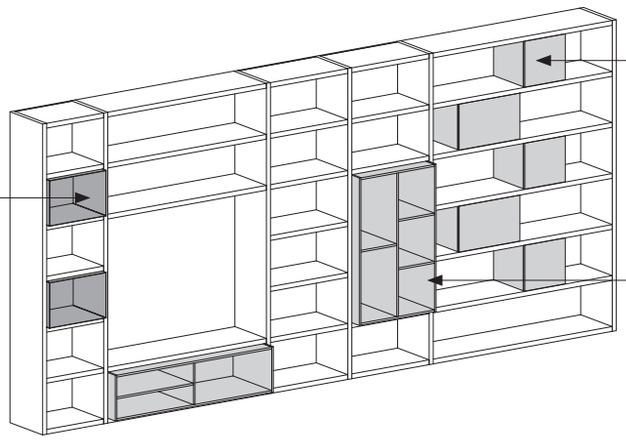
HUB AND BOX 12 UNITS FOR WALL SYSTEM

The HUB and BOX 12 range of modules designed for the wall system comprises a series of storage units that are housed in the open shelving in wall system columns and have a distinctive slim structural outer frame.
HUB units with 0,2 cm-thick lacquered metal structure can be housed in 28,3 or 37 cm-deep columns with back panels, sitting 2,3 cm proud of the front.
They come with 1,2 cm-thick back panel available in Eco-wood or Super-matt finishes, or Matt lacquered, Oxidized lacquered or Metal lacquered finishes at an extra charge. They are not finished on rear.
The BOX 12 open units can be housed in 37 cm-deep columns, are always open-back units and come with partitions arranged in a set pattern.
They come in a 41 cm depth and hence sit 7,6 cm proud of the front of the wall system columns.
They are finished on both sides and can therefore be housed in double-sided columns, sitting 3,1 cm proud of both sides of the configurations.
The BOX 12 units with doors are also open-back units and are designed to sit on the shelves of 28,3, 37 or 45,1 cm-deep columns with back panels.



COMPONENTS	THICKNESS
HUB CARCASS: painted metal.	0,2 cm
HUB BACK PANELS: foil-wrapped or lacquered chipboard panels.	1,2 cm
BOX 12 CARCASS: lacquered chipboard panels.	1,2 cm
SHELVES and PARTITIONS: lacquered chipboard panels.	1,2 cm
DOORS: foil-wrapped, lacquered or veneered chipboard panels.	1,2 cm

ASSEMBLY NOTES

HUB and BOX 12 units for wall system come ready assembled.

NOTES ON SAFETY

Shelves due to house the wall system BOX 12 open storage unit must be secured in place.

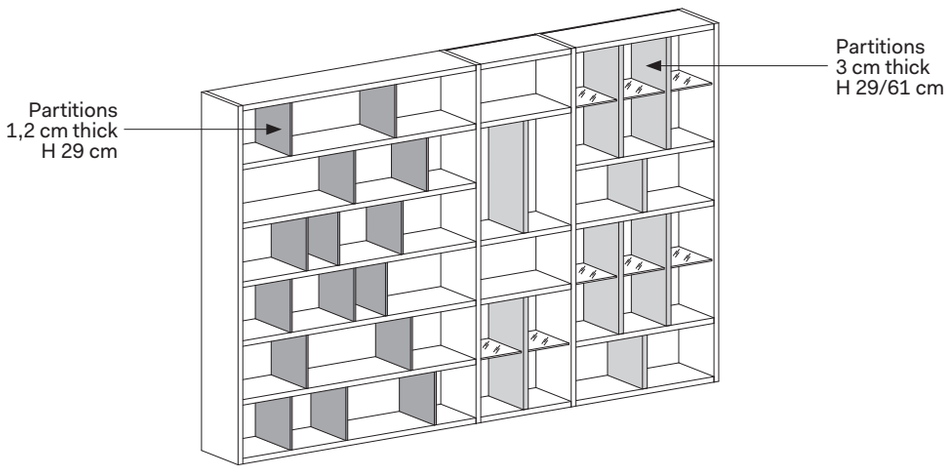
WALL SYSTEM VERTICAL PARTITIONS

The wall system vertical partitions allow you to divide up open shelving horizontally into two or more compartments.
They come in a choice of two thicknesses to accommodate both column versions – with back panel or with open back.
They cannot be fitted with fronts.



COMPONENTS	THICKNESS
PARTITIONS: foil-wrapped or lacquered chipboard panels.	1,2/3 cm
SHELVES: transparent glass.	0,8 cm

ASSEMBLY NOTES

The shelves above and below the vertical partitions are pre-drilled ready for assembly. Once shelving has been divided up with the 3 cm-thick 61 cm-high partitions, the resulting compartments can be fitted with glass shelves only, which must be positioned in the middle.

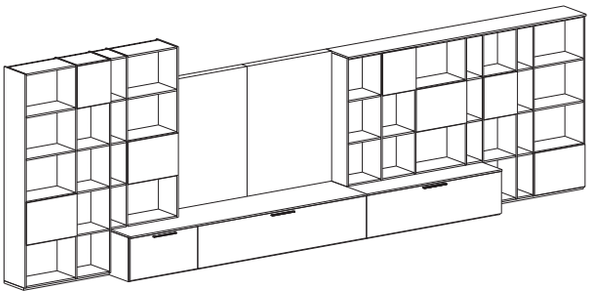
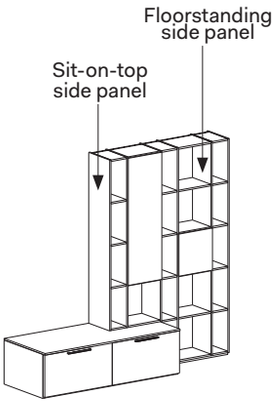
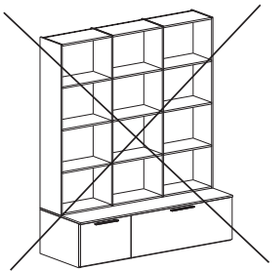
SIT-ON-TOP COLUMNS



TECHNICAL CONSIDERATIONS FOR USE





The side panel sitting on top must line up with the side of the base storage unit underneath and must be secured to the wall.

Nothing can be fitted in the space on top of the base storage unit (it must be left “open”).

If you were wanting the columns to sit entirely on top of the base units, their different module sizes would mean one compartment would have to be reduced in width by 1,2 cm.
In addition, there is no provision for any connection between the base units and the side panel sitting on top. As a result, this is not a feasible solution.

GENERAL CHARACTERISTICS AND FINISHES FOR PONTILE

Designed by French designer Philippe Nigro, PONTILE is a flexible, customizable bookcase.
The uprights, which constitute the real backbone of the design, are made up of extruded aluminium profiles in a bronze finish designed to accommodate a front cover – available in bronze, and any of the matt lacquered, oxidized lacquered and metal lacquered colours – and to adjust shelf height to give the resulting arrangement a certain rhythm.
To meet different space requirements, the bookcase can be finished off with BOX 18 storage units.

GENERAL CHARACTERISTICS AND FINISHES FOR PONTILE

For images of finishes, refer to pages 6 to 11.

List of finish options for each PONTILE component:

Aluminium metal structure:	- Bronze
Finishing cover:	- Bronze - Matt lacquered - Oxidized lacquered - Metal lacquered
Shelves 3 cm thick and 1,2 cm thick:	- Noce eco-wood - Olmo termotrattato eco-wood - Matt lacquered - Oxidized lacquered - Veneered
Storage unit carcasses and relevant supports 4,4 cm thick:	- Noce eco-wood - Olmo termotrattato eco-wood - Matt lacquered - Oxidized lacquered - Veneered - Gloss lacquered - Clay
Storage unit fronts:	- In all finishes available for the respective front types, see pages 12 and 13.
Back panels 1,2 cm thick:	- Noce eco-wood - Olmo termotrattato eco-wood - Matt lacquered - Oxidized lacquered - Veneered

DRAWERS: foil-wrapped, lacquered, veneered or clay-coated chipboard fronts. QUADRO® - SILENT SYSTEM® full-extension runners.	2,2 cm
LEVELLING FEET: -0,2 /+2 cm adjustment for wall-mounted column (max recommended +1); -0,4 /+4 cm adjustment for floor/ceiling column (max recommended +2)	2 cm

ASSEMBLY NOTES

PONTILE side frames come ready assembled and fitted with crosspieces in the positions stated on the order. Shelves come with the fastening clips already attached. Storage units come ready assembled and complete with screws for fastening them to the relevant supports.

NOTES ON SAFETY

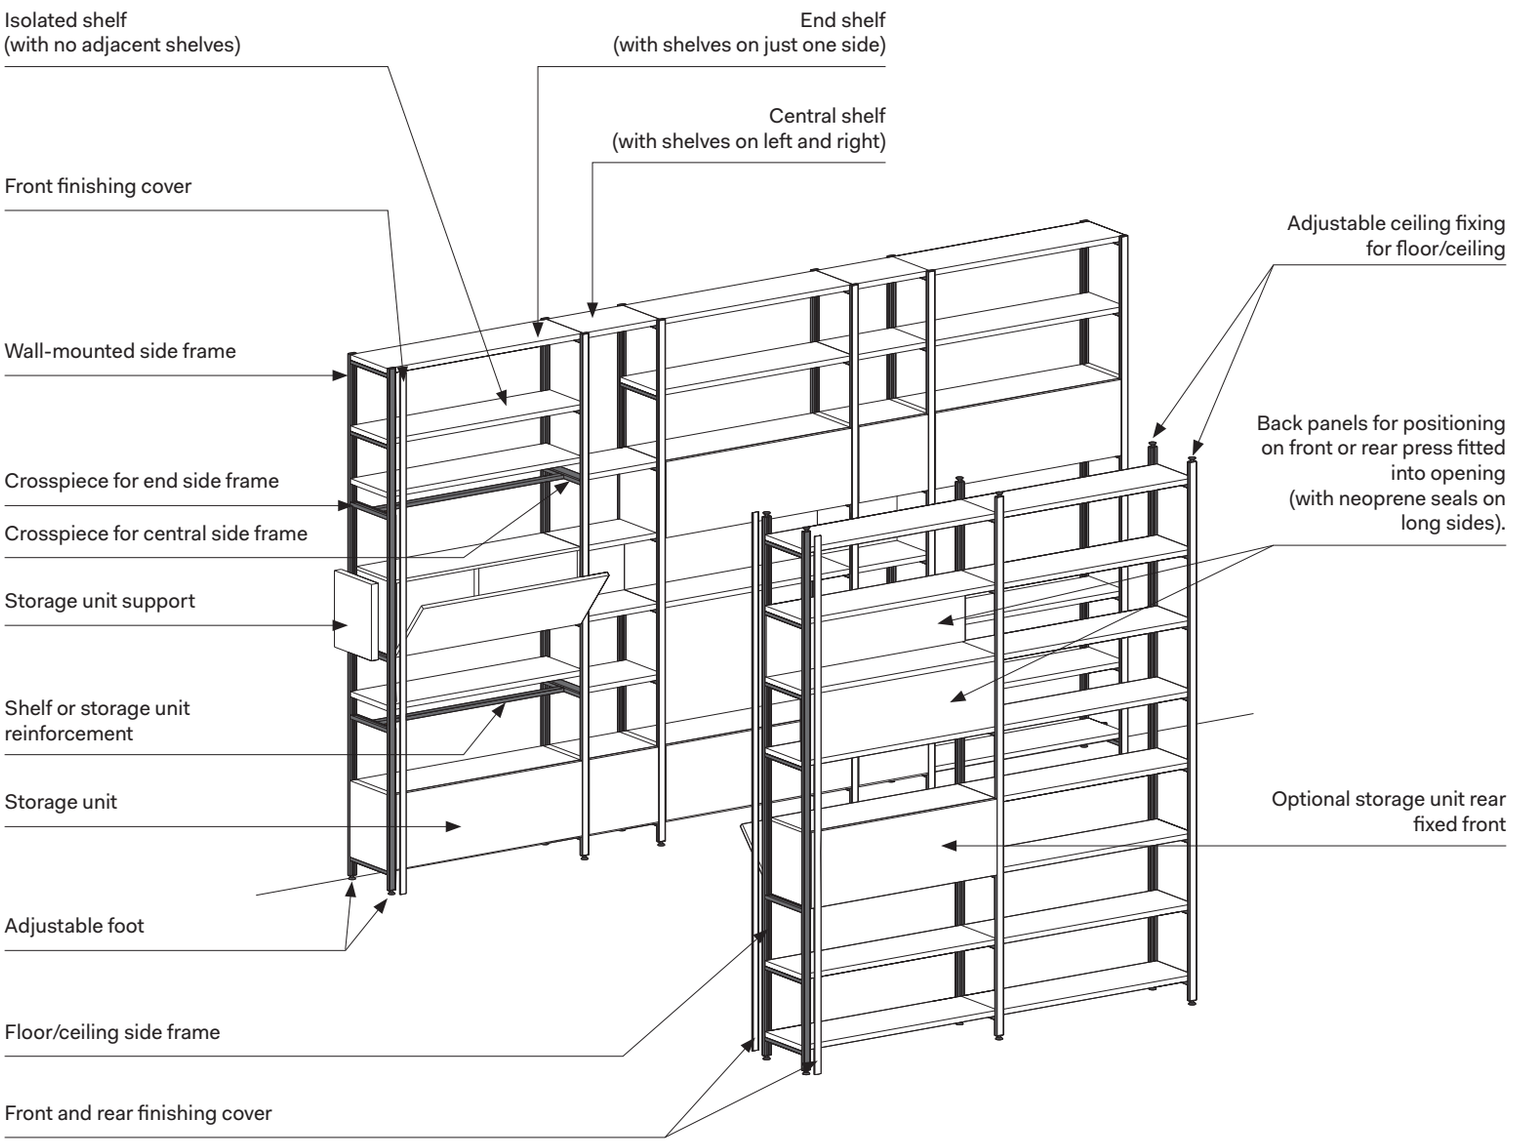
NB: wall-mounted configurations must be secured to the wall. To this end, a spacer block is provided for fastening all the side frames to the wall.
The block is designed to accommodate the 1,5 cm gap created by the skirting board. Screw and anchor not provided.

ASSEMBLY TOLERANCES

1 cm in width and 4 cm in height in the case of wall-mounted configuration.

TECHNICAL INFORMATION FOR PONTILE

WALL-MOUNTED AND FLOOR/CEILING COLUMN: COMPONENTS



HOW TO ORDER

Drawing of configuration

All PONTILE orders must always be submitted with a drawing of the configuration, preferably using software provided by us.
When ordering floor/ceiling PONTILE, please specify ceiling height.

Quote

When putting together the quote, we advise you start with the structure (sides and shelves), and then add any back panels or storage units.

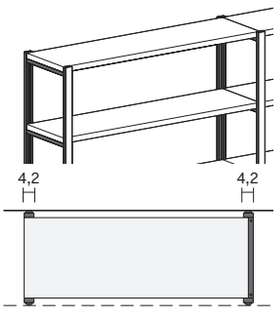
Please note: when using adjoining columns with shelving intervals that do not match up, the sides will need to be fitted with additional end crosspieces, which will have to be factored into the quote.

NB: you do not have to worry about determining the type of shelf (end, central, isolated) or type of storage unit support as our orders department will select the correct option for the configuration in question. Whether or not you identify the exact item to be ordered will not affect your quote as the various different types are all priced the same.

Shelf types

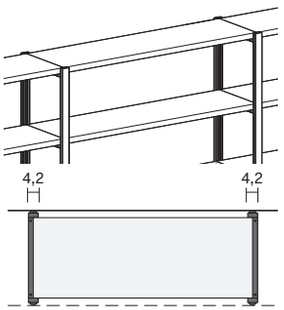
"End" shelf

Overlap the side frame completely on one side and by half on the other.



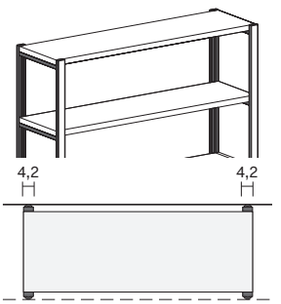
"Central" shelf

Overlap the side frame by half on both sides.



"Isolated" shelf

Overlap the side frame completely on both sides.



Storage unit support types

All storage units must always be fitted with the lower reinforcement, which is included in the price of columns coded with this option, and must have a storage unit support on both sides (on left and right).
There are 4 technical versions of this load-bearing element as listed below.

A: support H 40 cm (or H 32 cm) used in the case of storage units at ends or between 2 storage units.

B: support H 31,9 cm (or H 23,9 cm) used in the case of storage units next to an opening that is closed above and below by shelves or closed by storage units above and shelves below.

C: support H 34,9 cm (or H 26,9 cm) used in the case of storage units next to an opening that is closed above by a shelf or storage unit and closed below by a storage unit or left open.

D: support H 37 cm (or H 29 cm) used in the case of storage units next to an opening that is closed below by a shelf and open above.

* Shelves aligned with BOX 18 units must be 3 cm thick.

PONTILE BACK PANELS

Thickness 1,2 cm

The back panel comes in different widths and heights depending on the opening it is to fit into.
Always submit the order with a drawing attached of the configuration indicating the opening to be fitted with the back panel.
The dimensions of each coded product refer to the maximum required size in width and height.
Items are cut to size at no extra charge.
It can be applied on the rear or front of the configuration indifferently.
Back panels are double-sided, always finished on both sides.

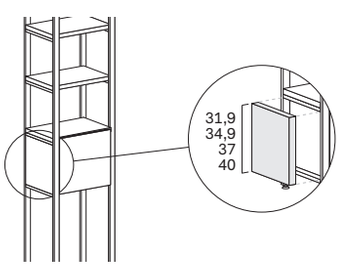
Supports for storage units H 40 cm

Thickness 4,4 cm



All storage units must have 2 supports.
To determine the correct size for supports, see technical notes on page 639.
When you send the drawing of the configuration, the NOVAMOBILI sales department will nonetheless work out the correct quantity and type of supports.

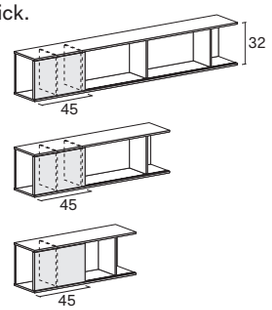
HORIZONTAL BOOKCASE H 32 D 26 WITH SLIDING DOOR W 45

1,2 cm thick.



Track available in bronze or aluminium finishes.

Unless otherwise specified, we will assume it is in the bronze finish when teamed with Noce, Olmo termotrattato, Quarzo seta and dark matt lacquered finishes. Aluminium finish in other cases.

		m³	Code	Eco-wood Super-matt	Matt lacquered	Oxidized lacquered	Veneered
Horizontal	W 90	0,109	**NL6303**	366	394	482	555
Horizontal	W 120	0,143	**NL6304**	399	434	530	650
Horizontal	W 180	0,212	**NL6308**	454	551	668	858

For BUTTERFLY bookcases with a sliding door, the carcass can be teamed with a door in a different finish. To work out the price, take the price of the door as given below.

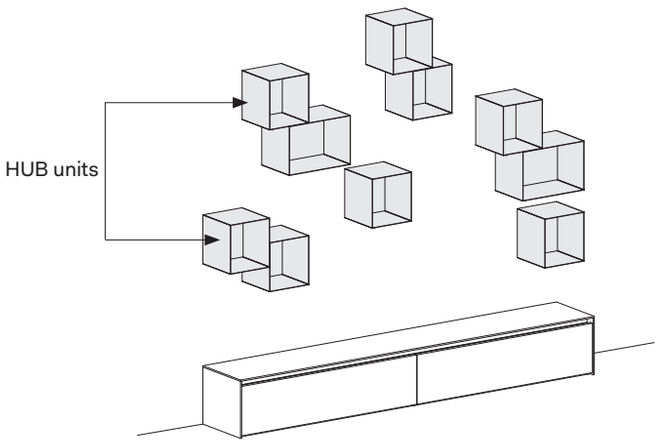
Height	**32**	Eco-wood Super-matt	Decor	Matt lacquered	Oxidized lacquered	Veneered	Gloss lacquered	Clay
door	W 45	101	112	120	148	133	139	179

Example:
BUTTERFLY bookcase NL6304 with Eco-wood carcass and Gloss lacquered door:
take the price of the Eco-wood BUTTERFLY bookcase, subtract the price of the Eco-wood door and add the price of the Gloss lacquered door.

HUB UNITS

Metal 0,2 cm thick.

Height **28,6** cm



HUB units can also be mounted horizontally (the W and H measurements are swapped).
The inside surface of the storage units may have areas of pickled metal where the lacquered finish is not perfectly smooth to the touch.
This should be seen as a distinctive feature of the item.

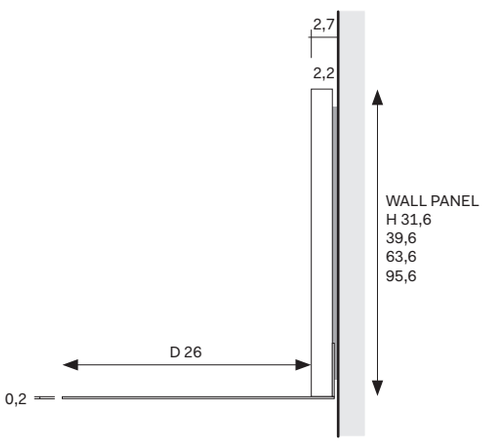
Wall panelling 5 cm thick page 692
PLAY TV mounting panel page 697

TECHNICAL INFORMATION FOR 2,7CM-THICK WALL PANELLING

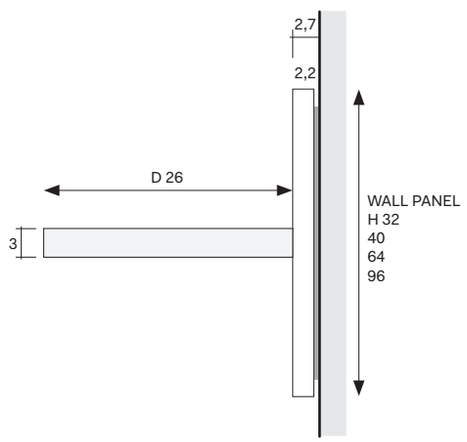
The 2,7 cm-thick wall panel system comprises a modular series of panels and shelves that interact with the wall unit system.

TECHNICAL FEATURES

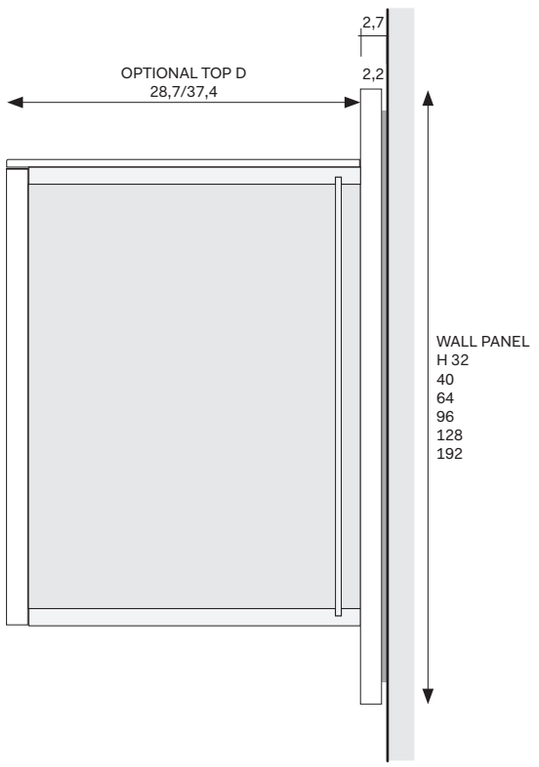
WALL PANEL 2,7 cm THICK WITH DUO SHELVES 0,2 CM THICK



WALL PANEL 2,7 cm THICK WITH SHELVES 3 CM THICK (with support bar)



WALL PANEL 2,7 cm THICK WITH WALL UNIT



COMPONENTS	THICKNESS
WALL PANELS: foil-wrapped, lacquered, veneered or clay-coated chipboard panels.	2,2 + 0,5 cm
DROPS WALL PANELS: foil-wrapped chipboard panels. Vertical ink screen printing.	2,2 + 0,5 cm

ASSEMBLY NOTES

Panels come with provision for attachment of shelves and wall units.

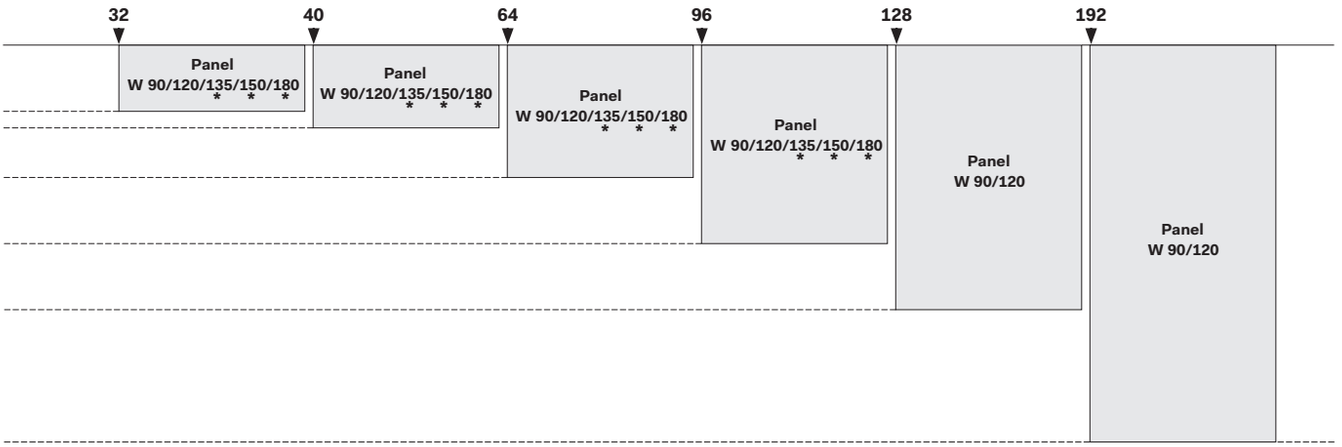
For 2,7cm-thick wall panelling assembly, you will need extra space:
2 cm extra space in height

NOTES ON SAFETY

Wall panels must be fastened carefully to a masonry wall and must not be subjected to excessive loads.
Make sure beforehand that the wall is strong enough to take the weight of wall units under the customer's normal conditions of use.
Wall panels, which come with provision for attachment of wall units or shelves, also have a through hole behind the storage unit so that they can be fastened to the wall using the screws and screw anchors provided.

MODULE SIZES FOR WALL PANELLING 2,7 CM THICK

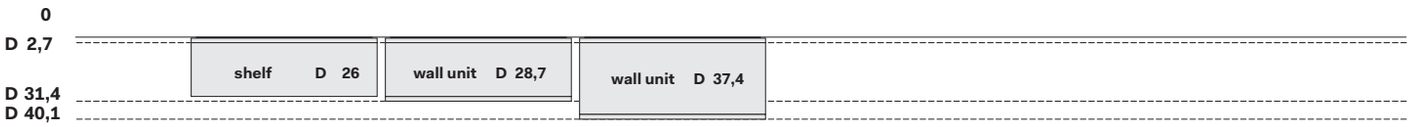
HEIGHTS - WIDTHS



The panels' grain is horizontal, except for the Noce canaletto finish, were the grain is vertical.

*In Veneered and Noce canaletto finishes, the maximum width is 120 cm.

DEPTHS



EXAMPLES OF 2,7CM-THICK WALL PANELLING CONFIGURATIONS

WALL PANEL CONFIGURATION WITH DUO SHELVES

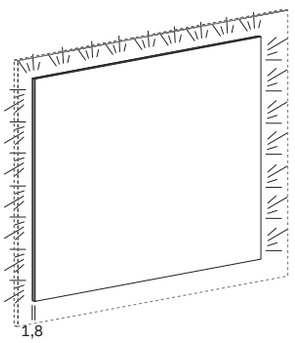
Hole (10 x 3,3) can be made in wall panels.
Provide measurements for bore.

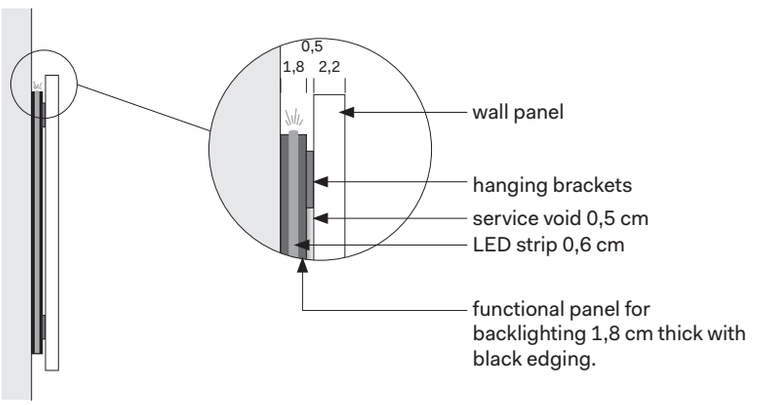
Black plastic and hole drilling	**NV7021**	47

LIGHTING FOR 2,7CM-THICK WALL PANELLING

FUNCTIONAL PANELS FOR BACKLIGHTING

Panel 1,8 cm thick per sq m with two vertical and/or horizontal grooves for inserting LED lighting.
They come in the same size as the wall panelling configuration minus 1,5 cm around the perimeter designed to create an indirect lighting effect.
It must be attached in contact with the wall (there is no provision for adjustments).
On request, the panel can be ordered with a through cut-out to house transformers.
Units can be mounted side by side or stacked.





HORIZONTAL PANEL

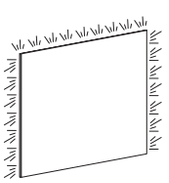
	Code	
Panel per sq m	**NV8022**	66
Extra charge for producing cut-out to house transformers	**NMAG26**	33

VERTICAL PANEL

	Code	
Panel per sq m	**NV8023**	66
Extra charge for producing cut-out to house transformers	**NMAG26**	33

LED LIGHT FOR FUNCTIONAL PANELS

Example:
LED lighting on 3 sides of a 100x100 panel with 2 vertical 100 cm strips and 1 horizontal 98cm strip.



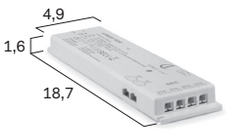
Watts per linear m		Code	
10	24V 3000K LED lighting strip Minimum length 20 cm max. 300 cm Price per linear m *	**NV7571**	54

* minimum amount charged is 1 linear metre: for shorter lengths, apply the price for 1 metre.

To be finished off with transformers, see page 691

SMART TRANSFORMER

The nerve centre of the NOVAMOBILI SMART LIGHTING system is the SMART transformer: this intelligent system is expandable to accommodate current and future technologies.
The SMART transformer can be integrated with modules for remote control via apps with Bluetooth or Wi-Fi technology, or used the traditional way with no module.
All transformers are designed to accommodate the addition of modules. Via Bluetooth or Wi-Fi module apps, you can control the lighting level of lights connected to a single transformer or to a number of transformers.
On request, transformers can be provided with plugs and certification for the world's main markets.
2-metre cable.



15W SMART transformer

30W SMART transformer

60W SMART transformer

		lights	Code	
~~SMART 15W transformer~~	~~24 V~~	~~max. 4~~	~~**NV7601**~~	~~57~~
SMART 30W transformer	24 V	max. 6	**NV7602**	80
SMART 60W transformer	24 V	max. 6	**NV7603**	131

CONTROL MODULES

Choose the module for the ON/OFF control system you want.

	Code	
Bluetooth module	**NV7651**	41
Wi-Fi module (not for 15W transformer)	**NV7652**	70
Module for remote control	**NV7654**	30

REMOTE CONTROL

Switches lights connected to the SMART transformer on and off, and also controls the lighting level, from up to 14 metres away. Controls an unlimited number of SMART transformers.

Each SMART transformer you plan to control must have a module for remote control.

Single channel: for controlling all transformers together (unlimited).

	Code	
Single-channel remote control	**NV7663**	59

Multi-channel: (max. 3) for controlling up to 3 groups of transformers; each channel can have an unlimited number of transformers.

	Code	
Multi-channel remote control	**NV7662**	84

Switch-on via BLUETOOTH and WI-FI

Switches lights connected to the SMART transformer on and off, and also controls the lighting level, straight from a smartphone or tablet using the relevant app.
Depending on the technology used (Bluetooth or Wi-Fi), all available functions can be used.

Using Bluetooth technology, you can switch lights on and off and control the lighting level straight from 1 smartphone or 1 tablet.
The app can be installed on a number of devices, but only allows lights to be controlled by 1 of these at a time. Up to 5 Bluetooth modules can be paired with the app.

Each SMART transformer you plan to control (max. 5) must have a Bluetooth module.

Using your home's Wi-Fi network, you can switch lights on and off and control the lighting level straight from 1 or more smartphones or tablets using the relevant app. In addition, the transformer interfaces with Amazon Alexa or Google Home voice-control devices.

WORKS WITH amazon alexa

works with the Google Assistant

The app is free and available for all mobile operating systems.

Download on the App Store

GET IT ON Google Play

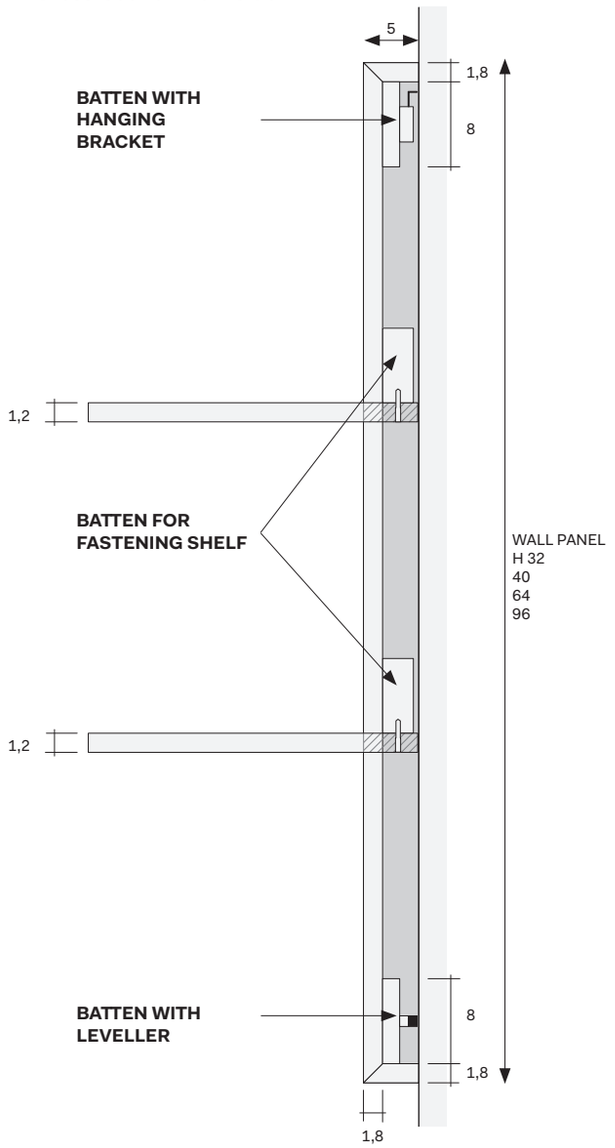
Each SMART transformer you plan to control must have a Wi-Fi module.

TECHNICAL INFORMATION FOR 5CM-THICK WALL PANELLING

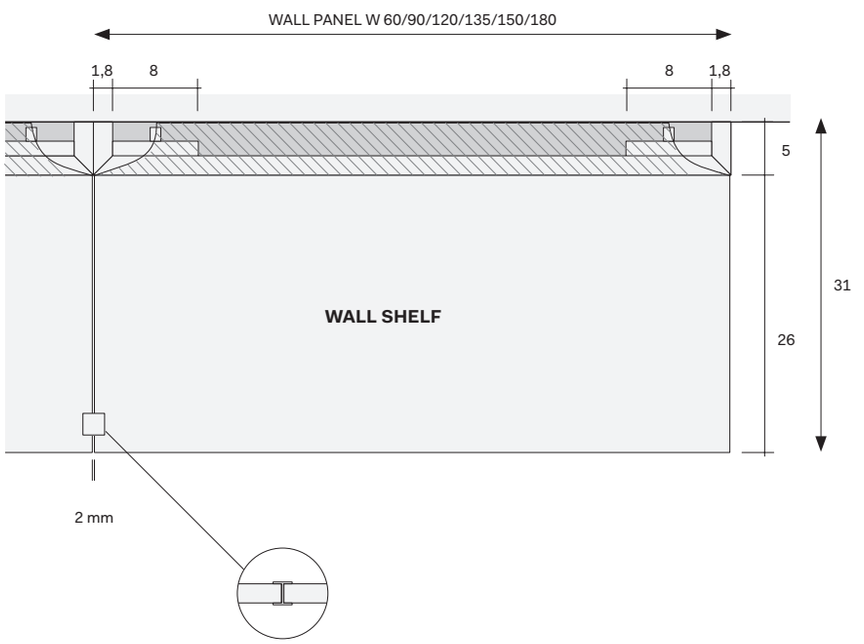
The 5 cm-thick wall panel system comprises a modular series of panels and shelves that interact with the wall unit system.

TECHNICAL FEATURES

Cross-section from side



Cross-section from above



Detail of H-shaped insert as seen from front
In Brill finish

COMPONENTS	THICKNESS
WALL PANELS: mitre-folded foil-wrapped, lacquered or veneered chipboard panels.	1,8 / 5 cm
SHELVES: foil-wrapped or lacquered chipboard panels.	1,2 cm

ASSEMBLY NOTES

Panels come with provision for attachment of shelves and wall units. Shelves are fastened together at the front by means of special H-shaped inserts for seamless horizontal linearity.

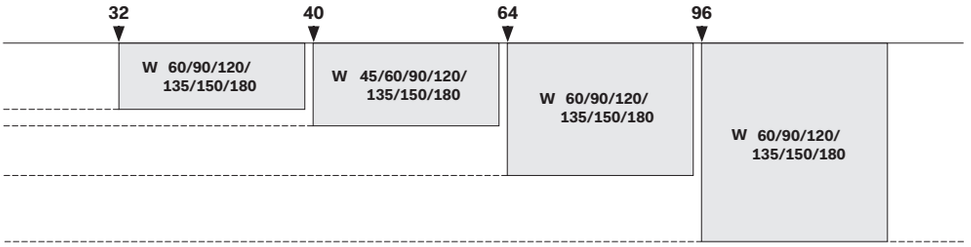
For 5cm-thick wall panelling assembly, you will need extra space:
2 cm extra space in height

NOTES ON SAFETY

Wall panels must be fastened carefully to a masonry wall and must not be subjected to excessive loads.
Make sure beforehand that the wall is strong enough to take the weight of wall units under the customer's normal conditions of use.

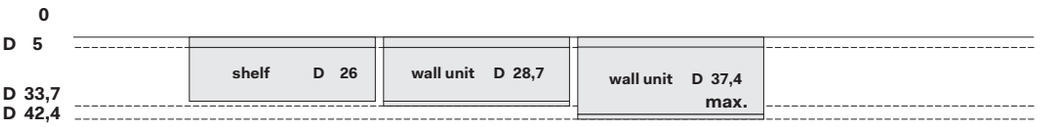
MODULE SIZES FOR 5CM-THICK WALL PANELLING

HEIGHTS - WIDTHS



The panels' grain is horizontal.

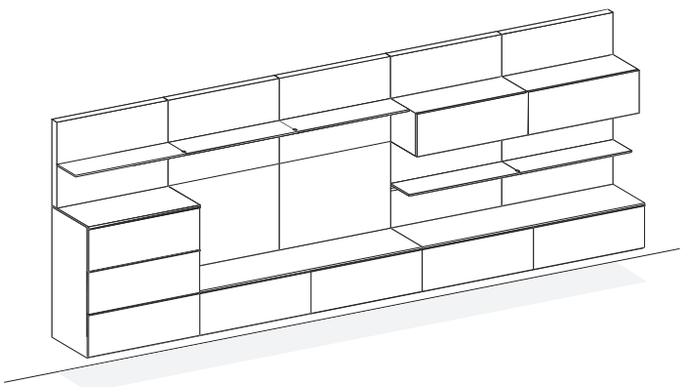
DEPTHS

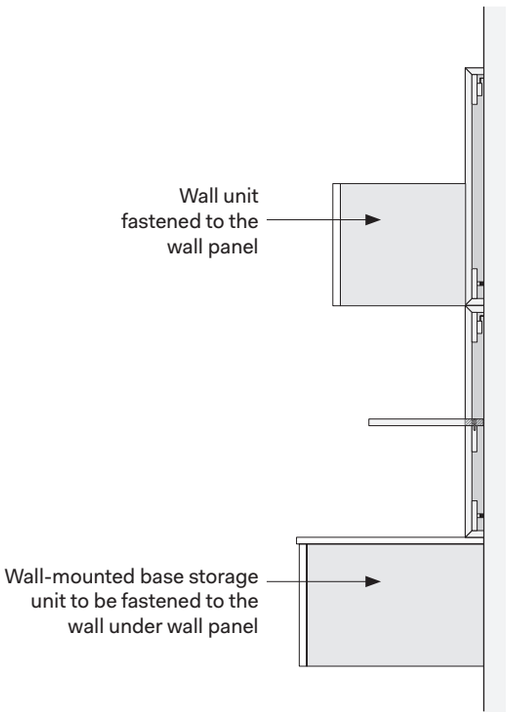


EXAMPLES OF 5CM-THICK WALL PANELLING CONFIGURATIONS

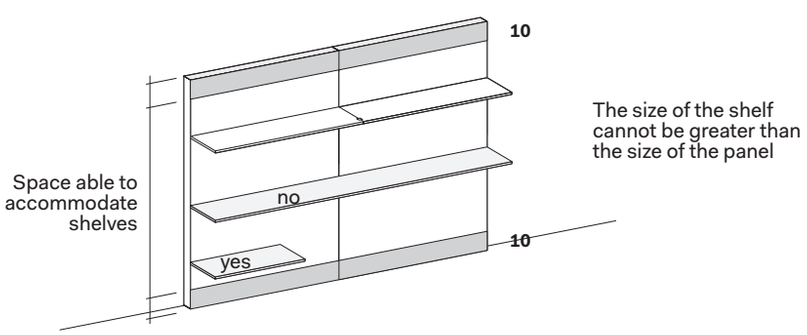
SAMPLE WALL PANEL CONFIGURATIONS FITTED WITH SHELVES AND WALL UNITS

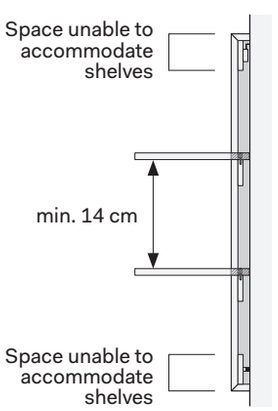
Specify the horizontal arrangement you want when ordering.





TECHNICAL CONSIDERATIONS FOR USE





WALL PANELLING 5 CM THICK

NOVAMOBILI QUALITY

WATER-BASED PAINTS

Aware as we are of the importance of safeguarding our natural heritage, we are increasingly committed to its conservation. Consequently, minimizing the harmful effects of manufacturing on the environment has to be the primary objective of today's industry. To this end, Novamobili has devised an exclusive water-based matt lacquering system that TODAY represents the most advanced solution in terms of environmental conservation, health protection and product quality.

PROTECTING YOUR FURNITURE WHILE RESPECTING THE ENVIRONMENT

Painting without polluting the environment is the objective we have achieved, by replacing solvents with water and using emulsified resins in a water-based system. Lacquering furniture with water-based paints reduces the emission of polluting solvents by over 95%. Reducing solvents in water-based paints protects not only the health of those involved in manufacturing, but also of the people who live with the furniture produced; parents will find it reassuring to know that, in compliance with the strict European standard EN 71.3, water-based paints are not harmful when they come into contact with little mouths.

ENVIRONMENTALLY FRIENDLY, AND SO MUCH MORE

Water-based paints, applied with efficient modern equipment, give much better results than traditional paints: the treated surfaces are smooth, soft to the touch and maintain excellent colour brilliance, while producing a finish with exceptional lasting hardness and chemical and physical resistance.

ECOLOGY, HEALTH, ENVIRONMENT

For Novamobili, product quality includes respect for the consumer's health and the environment. For this reason, we use non-toxic foil-wrapped panels to European class E1.
The Ecological Panel is made entirely of recycled wood by a quality-certified production process that is environmentally friendly as it does not involve felling trees.

PRINTED ON FSC® PAPER

This product is made from material sourced from responsibly managed forests, FSC® certified forests and other controlled sources.

EAC CERTIFICATION

Novamobili quality is certified in compliance with the Eurasian Union technical regulations.

TERMS AND CONDITIONS OF SALE

1. PRODUCT AND PRICE LIST

The prices herein are given in euros (€) and are retail prices excluding VAT.

Novamobili Spa does not accept any responsibility for misprints and/or mistakes in describing the characteristics of the products.

The dimensions featured herein are nominal and are given in centimetres.

Each new price list supersedes all previous editions.

2. TECHNICAL CHANGES

The technical specifications herein are indicative and **Novamobili Spa** reserves the right to alter them at any time and make improvements or changes, in its sole discretion, with a view to achieving better product quality.

3. ORDERS AND DELIVERIES

Novamobili Spa reserves the right, in its sole discretion, to not accept orders from customers that are not in line with the company's instructions.

The terms of delivery given on the order confirmation are indicative and expressed in working days. No damages can be claimed in the event of delays, suspensions or cancellations of deliveries.

Orders may only be changed or cancelled within one week of their receipt: this also applies to partial changes. The value of the goods will be charged should orders be cancelled when the goods are already in production and/or ready to be delivered.

The goods are delivered free to your warehouse unless a business agreement states otherwise.

4. TERMS OF PAYMENT

The terms of payment are the terms indicated on the order confirmation according to the contractual arrangements made with the Customer.

In the event of non-payment or delayed payment, partial or otherwise, **Novamobili Spa** shall be entitled to stop or cancel any orders or deliveries in progress.

5. CLAIMS AND COMPLAINTS

Delivery by the carrier and receipt of the goods without complaint constitutes evidence that the goods delivered precisely match the goods ordered.

Any discrepancies must be detected by the customer when the goods are in the process of being handed over and must be reported in writing to the carrier, otherwise the complaint cannot be accepted.

Any complaints about the quality of products must be submitted in writing to **Novamobili Spa** within eight days of receiving the goods or the complaint cannot be accepted.

6. WARRANTY

In the event of defects in the goods attributable to **Novamobili Spa**, the relevant current European regulations shall apply.

The company disclaims all responsibility regarding assembly of the products.

Novamobili Spa disclaims liability for damage resulting from failure to comply with the assembly instructions and/or from incorrect installation.

7. CHANGES IN SHADE AND COLOUR

Wood, lacquered colours, fabrics, leather and other materials can be susceptible to colour change over time: if you wish to purchase items at a later date to add to your original order, any such variation cannot be cause for complaint.

8. RETURNS

Returns of goods will not be accepted unless authorized beforehand in writing by **Novamobili Spa**, who shall be entitled to inspect the goods in each case.

Under no circumstances can we accept returns of cut-to-size products.

Approved returns shall be made on a carriage paid basis and the refund you are entitled to shall be the invoice price minus any amount for deterioration or damage to the materials returned that cannot be attributed to **Novamobili Spa** resulting from transport, packaging, handling of the products or use thereof.

9. RESERVATION OF OWNERSHIP CLAUSE

Ownership of the goods shall be retained by **Novamobili Spa** until the price has been paid in full, even if further work is done on the products after delivery.

The purchaser is authorized to sell the goods to third parties as part of its normal business, but in this event, however, it is understood that any payments due to the original purchaser are automatically payable to **Novamobili Spa** until the goods are fully paid for.

In the event of non-payment, **Novamobili Spa** will be entitled, in its absolute discretion, to invoke the reservation of ownership clause and have the goods returned, charging the customer all costs and expenses associated with their disassembly, transport and return, with it being understood that **Novamobili Spa** will still be entitled to claim for further damages.

10. APPLICABLE LAW AND JURISDICTION

The sale contract is governed solely by the laws of Italy.

The parties submit to the exclusive jurisdiction of the Italian Court, more specifically the Court of Treviso, for the purpose of any dispute arising out of or in connection with the sale contract and, in general, business conducted with **Novamobili Spa.**

11. PRIVACY POLICY

For the intents and purposes of the Italian Privacy Act (D.Lgs.) 196/03 and EU Regulation no. 2016/679 – General Data Protection Regulation – **Novamobili Spa** hereby declares that personal customer data in any way associated with their dealings with **Novamobili Spa** shall be processed in compliance with legal obligations and only for the purpose of fulfilling contractual obligations.

Said data may be shared with third parties if and when required for the performance of the contracts themselves.
