collection advantages

relaxation and communication

The flowing contour line, the light form of the furniture and a touch of classic character lend finesse to Flos benches, particularly welcome in spaces used for relaxation. For interiors focused on integration, the use of sofas instead of chairs helps to build a less formal atmosphere, shorten the distance and establish new relationships.

High and Low Benches

Flos benches with a powder-coated base come in two heights (tall and low). Benches with an oak or oak-and-metal frame are available in only one height (low).
