An inspired blend of natural, undyed wool yarns combined with irregularly dyed threads has given rise to the JAZZ series, offered in two distinct variations: Dense and Lush. Each variation embodies its own unique character and aesthetic. The Dense variation of the JAZZ series features a rhythmic repetition of loops, enhanced by the interplay of the two types of yarns that twist around each other. The Lush variation indulges in luxury with its lavish, over-the-top long pile.

Tradition

The art of rug-making at Brink & Campman is steeped in tradition and craftsmanship. Our craftsmen and -women, with their years of experience and inherited expertise dating back to our founding, meticulously weave and tuft each rug, ensuring unwavering quality. We take pride in our ability to innovate with different pile heights, yarn thicknesses, and qualities using both traditional looms and advanced robotic tufting machines, all while maintaining consistent excellence.

Our mastery extends to combining simple elements into countless variations: thick yarns, thin yarns, combinations of thick-thin, high piles with loops, and other innovative textures. To guarantee durability, thick yarns undergo a rigorous in-house fulling process that strengthens wool fibers and enhances rug longevity.

Partnering with skilled textile dyers, we achieve vibrant colours and subtle shades, from solid hues to naturally inspired tones and uniquely irregular dyes, all executed to perfection. This dedication to craftsmanship and innovation ensures that each Brink & Campman rug is not just a product, but a testament to enduring quality and creativity.

Artisanal

Immerse yourself in the world of artisanal rugs, where a long tradition of craftsmanship is combined with modernistic aesthetics to create truly unique pieces made by hand, piece by piece. Our collection celebrates the beauty of handweaving and hand-knotting, featuring robust and strong materials like jute, handspun wool, and cotton.

Our skilled artisans have perfected the art of different techniques such as double weaving, braid weaving, kilim weaving and hand-knotting, techniques passed down through generations. Each rug is a testament to their dedication and expertise, showcasing intricate patterns and textures that add depth and character to any space.

We use only the finest materials to create our woven rugs. Handspun wool, jute, and cotton are selected for their durability and natural appeal. Design Studio

Every company has its own unique formula that defines its identity and operations, and naturally, this formula is kept secret. However, we can reveal one of our key ingredients: our highly esteemed design studio. All Brink & Campman rugs are crafted in our design studio, which we proudly consider the heart of our company.

We have a deep passion for colour and texture. Inspired by modernistic aesthetics, the diverse qualities of yarns, nature, and cosmopolitan living, we infuse our designs with fun and playfulness or the most beautiful renditions of nature. Optimistic colours, subdued evergreens, bold patterns, graphic repeats, we like to show collections that explore all borders of the design world in our own unique way.

During the design process, the highly experienced designers work with great passion and creativity, while always keeping an eye on craftsmanship, quality, and sustainability. We believe that only through collaboration, along with our knowledge and expertise, we can achieve the high-quality rugs we love to create.

Our commitment to releasing a new collection every year provides us with both the opportunity and the challenge to continually develop, innovate, and improve.
