

**SPECIFICATION**

Range: **GEKO**

Design: **Giulio Iacchetti**

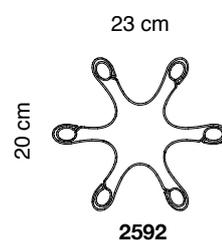

Codes: 2592, 5171, 2595

Code: **2592 color: white**

Dimension: 23 cm - H 20 cm

Description: decorative system consisting of a single 6-arm high-tech polymer element, with infinite modular options given the variety of combinations using the hooks at each end. Geko can be applied to the cable (code 5171) or supports realised by customers.

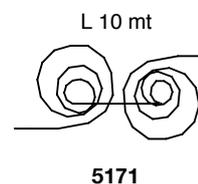

Fire resistance class 1.

Code: **5171**

Dimension: cable length 10 m

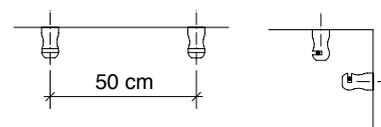

Description: steel cable to couple Geko elements (codes 2590, 2592), 10 m long (cut to length by the customer) applied tensioned to the supports (code 2595).

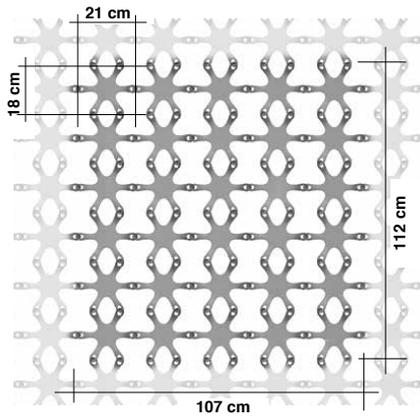

Code: **2595**

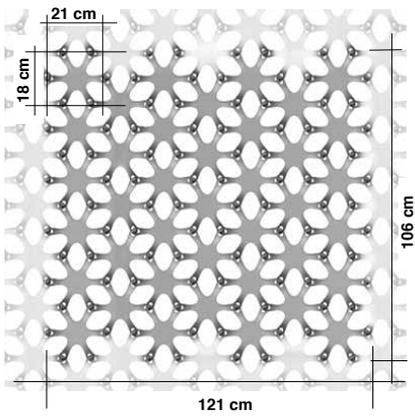

Dimension: Ø 3 cm - H 3,5 cm

Description: pair of fittings to wall-mount or ceiling-mount the cable (code 5171) made entirely of chrome-plated brass. Each fitting consists of two elements: a disk with a central hole for wall-mounting and a projecting element to be screwed to the disk, with a slot to run the cable (code 5171) which is blocked by a steel Allen screw. The wall anchorage (screw) is not visible as it is hidden by the projecting element. It is recommended to mount a fitting every 50 cm of cable.
