

SPECIFICATION

Range: **SEPA'**
Design: **Sezgin Aksu**

Freestanding "Snowsound Fiber Technology" sound-absorbing element.

Fabric description:

"Snowsound Fiber 3 Melange" sound absorbing fabric made entirely of polyester, equipped with a zipper at the end that allows its removal.

The fabric has a **Class1** fire reaction (Italian standard) and **Euroclass B-s1, d0**.

The fabric is **Greenguard Gold certified**, which certifies its low VOC emission and its contribution to the quality of the indoor environment.

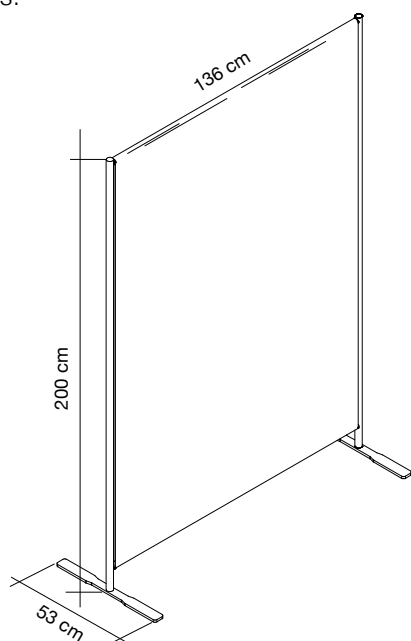

The fabric is **100% recyclable** and has no detectable formaldehyde content according to UNI EN 717-2. It doesn't contain felt or other organic materials (hard to recycle).

Fabric Metrature: 4,9 m²

Structure description:

Structure consisting of two uprights, made of chromed steel tube ø 28 mm, at which two crossbars are screwed (top and bottom), also made in tubular steel ø 25 mm. The bases, made of 5 mm thick, epoxy powder coated steel sheet are fixed to the uprights by 3 M6x20 screws.
