Kami
Swivel Chair

Productsheet

Inspired by the art of paper folding, Kami Swivel Chair is a lightweight, ergonomic swivel chair for any office interior. A flexible chair that rotates 360° to support dynamic workstyles. Made from post-consumer plastic and assembled without glue, every component comes apart for repair, recycling, or replacement. Designed to be renewed, not discarded.

Design by

Features

KASCHKASCH

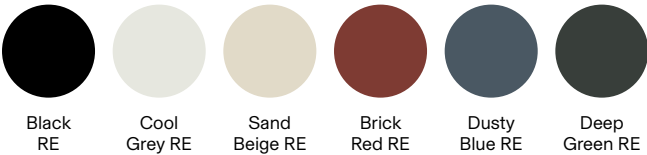

- Full 360° swivel for dynamic, unrestricted movement.
- Ergonomic contour that follows the natural curve of the spine.
- Made from post-consumer recycled plastic.
- Glue-free assembly, built for disassembly, repair, and recycling.
- Replaceable upholstery to extend the chair's lifespan.
