Introducing Kiku

Kiku is an elegant lamp designed with a focus on clean lines and balance, giving a soft and functional light. Kiku draws inspiration from Japanese forms and materials. Its shape is inspired by the design of traditional Japanese samurai hats.

Available in both pendant and table variations, Kiku is produced from stainless steel and linen strings. The luminaire serves as a tribute to the simplicity and harmony which characterises Japanese design.

ABOUT THE DESIGNER

Naija Ilsøe Nielsen is a young designer from Denmark's west coast, where the sea serves as her constant inspiration.

Quiet and serene one day, wild and untamed the next; the sea embodies a balance and beauty that Naija continually seeks to capture in her creations. Celebrating the beauty of simplicity, her works are crafted with the intention of providing a holistic experience that enhances spaces, enriching them with both aesthetic appeal and atmospheric charm reminiscent of the ebb and flow of the sea's timeless symbolism.
