

Le ragioni di una scelta

Segis nasce in Italia nel 1983, a Poggibonsi, ma la sua genesi culturale risale al Rinascimento, quando questo piccolo paese di antica storia, vicino a Siena, divenne famoso per la realizzazione artigianale di oggetti d'arredamento per le dimore patrizie.

Oggi il Gruppo Segis è uno dei leader mondiali nella progettazione e nella produzione di sedute innovative e di alta qualità per l'industria Contract. Dispone di strutture produttive tecnologicamente avanzate, su una superficie di circa quindicimila metri quadrati in Italia e settemila in Vietnam, con una base di assemblaggio, imbottitura, tappezzeria e distribuzione anche negli Stati Uniti. Da queste sedi Segis ha potuto espandere la penetrazione commerciale nei vari mercati, migliorando ovunque il controllo sui tempi di consegna e di servizio, senza per questo sacrificare il livello qualitativo. Tutte le strutture di produzione sono equipaggiate con le ultime tecnologie robotiche di piegatura, saldatura e verniciatura a polveri epossidiche di ultima generazione, capaci di far fronte a ogni particolare richiesta della clientela, da singoli ordini per uffici e ristoranti a progetti su larga scala, quali hotel e navi da crociera, dove il tipo e la qualità delle sedute rappresenta, con immediatezza, l'immagine in cui ogni singolo committente si riconosce e che desidera proiettare al mondo esterno.

Nel tempo, Segis ha contribuito a disegnare l'immagine globale e di marchio di conglomerati quali Grand Hyatt Hotels, Venice Laguna Palace Hotel, Marriott Hotels, Crown Casino, Disney Resorts, Group Accor Hotels, Union Bank

Of Switzerland, Carnival Lines, Art & Science Museums, Royal Yacht Club, Apple Computer, Microsoft, Mercedes Benz, Daimler Chrysler, Nestlé, AT&T, Swatch, Wimbledon, Mandarina Duck, Deutsche Bank, Chase Manhattan Bank, British Airways, Costa Cruise Lines, Eriksson, Leo Burnett, Lufthansa, il teatro dell'opera La Scala di Milano, Nortel Networks, oltre a numerosi caffè, ospedali, musei, aule universitarie e aeroporti, in ogni parte del mondo.

Oltre al suo design, vincitore di numerosi premi, Segis dedica la massima attenzione all'applicazione più rigorosa degli standard qualitativi internazionali. Implementa un programma di ricerca e sviluppo orientato alla continua ricerca dei migliori materiali e finiture, oltre al perfezionamento di un processo produttivo mirato all'ergonomicità del disegno, ma anche a rinforzare l'impegno aziendale in controlli di sostenibilità ambientale. Produrre prodotti di alta qualità non è però sufficiente per Segis, che continua a impegnarsi in rigorosi programmi di verifica e controllo, permettendo così di poter confermare alla clientela le garanzie richieste. La dedizione alla cura dei dettagli include anche una particolare attenzione alla qualità di un servizio dopo vendita che riflette quella dei processi produttivi e delle logistiche, perché considerata parte integrante del prodotto. La filosofia di Segis è affrontare ogni ordine come un'opportunità per accogliere nuovi clienti nel suo tessuto aziendale in continua crescita. È esattamente questo approccio personale, diretto e umano che continuerà a permettere a Segis di crescere insieme e in parallelo alla sua clientela.

Why Segis?

Segis was established in Italy in 1983, in Poggibonsi, but its cultural genesis dates back to the Renaissance, when this small town of ancient history, near Siena, became famous for developing handmade decorative objects for patrician and aristocrats.

Today, the Segis Group is a world leader in designing and manufacturing innovative, high-quality furniture for the Contract Market. Technologically advanced production facilities occupy an area of about 15,000 square meters in Italy and 7,000 in Vietnam. The United States has a base operation in TN of Assembly, Upholstery and Distribution to serve the US Market. From these locations, Segis could increase penetration into different markets, improving control over delivery time and service, without sacrificing the quality. All production facilities are equipped with the latest robotic technologies of bending, welding and epoxy powder coating. We are able to respond to requests from individual orders for offices and restaurants to large scale projects such as hotels and cruise ships, where the kind and the quality of the seatings is, immediately, the image in which every single customer is recognized and that want to project to the outside world.

Over time, Segis helped draw the overall image and brand of conglomerates such as Grand Hyatt Hotels, Venice Laguna Palace Hotel, Marriott Hotels, Crown Casino, Disney Resorts, Group Accor Hotels, Union Bank Of Switzerland, Carnival

Cruise Lines, Art & Science Museums, Royal Yacht Club, Apple Computer, Microsoft, Mercedes Benz, Daimler Chrysler, Nestle, AT & T, Swatch, Wimbledon, Mandarina Duck, Deutsche Bank, Chase Manhattan Bank, British Airways, Costa Cruise Lines, Eriksson, Leo Burnett, Lufthansa, the opera house La Scala in Milan, Nortel Networks, as well as numerous cafes, hospitals, museums, lecture theatres and airports, all over the world.

In addition to its design, winner of numerous awards, Segis devotes attention to stricter application of international quality standards. Implementation of a research and development program oriented to the continuous search for the best materials and finishes. In addition to perfecting a process aimed at ergonomics of design, Segis also reinforces the company's commitment to environmental sustainability controls. Producing high-quality products is not enough for Segis, which continues to engage in rigorous monitoring programs, allowing it to extend to customers the required guarantees. Dedication to detail also includes a focus on quality after sales service that mirrors that of the production processes and logistics, because it is considered part of the product. The philosophy of Segis is to approach each order as an opportunity to welcome new customers into its corporate fabric and continue to grow. It is precisely this direct and human personal approach that will continue to allow Segis to grow together and in parallel with its customers.

Politica di gestione

Da sempre Segis opera per produrre e commercializzare prodotti di design, basandosi su tre principi fondamentali: Qualità, Ambiente, Etica.

Qualità e certificazioni

Il Gruppo Segis ha conseguito un percorso di qualità che gli consente di essere leader in un mercato esigente come quello del Contract. Essendo un'azienda produttiva, ha dovuto integrare questo concetto a tutti i livelli: qualità di progetto, qualità di processo e qualità di prodotto. Della prima si fa carico in collaborazione con noti studi di architettura, implementando e ingegnerizzando, dove necessario, concetti stilistici e progetti più avanzati, per poi sviluppare dal prototipo alla pre-serie ed eseguire internamente i test prestazionali, secondo i principali standard internazionali. La qualità di processo è garantita dalla certificazione ISO 9001 del sistema qualità, che ha ottenuto nel 1998, tra le primissime aziende del settore, integrando questo sistema a ogni livello dei suoi processi (progettazione, produzione, logistica, servizi alla vendita e post vendita). Infine, la qualità di prodotto è garantita dall'applicazione delle più severe prove tecnico-prestazionali secondo gli standard ANSI Bifma e EN, tutte eseguite da laboratori riconosciuti e autorizzati.

Sostenibilità e Ambiente

Nell'antichità si realizzavano oggetti d'uso con il materiale che si aveva intorno, cercando di non alterare l'equilibrio ambientale. Oggi che le possibilità di sperimentazione sono infinite e l'intero pianeta è diventato fruibile, è importante non lasciarsi prendere dalla spinta dell'innovazione a danno dell'entourage e della natura. Per Segis, la qualità e la sostenibilità ambientale sono sempre stati principi fondanti, sin dalla nascita dell'azienda in uno dei paesaggi più belli al mondo, da preservare. Per questo, è sempre stata data la massima attenzione alla scelta di processi produttivi a basso impatto ambientale e ai controlli, severi sotto tutti gli aspetti: emissioni, scarichi e rifiuti. In coerenza con questi principi, già nel 2001, Segis ha conseguito la certificazione ISO 14001 per un sistema di gestione ambientale interno, con l'obiettivo di garantire il rispetto di norma riguardante la produzione e, soprattutto, di migliorare continuamente i limiti per tutti i reparti e le aziende del Gruppo.

(2005) Ethical Behaviour management system certified according to SA8000 Certificate no.064 - for Social Responsibility.

Segis si impegna quotidianamente a studiare prodotti sostenibili, in modo da: mantenere sempre il massimo rispetto dell'ambiente / avere processi produttivi a basso impatto energetico / utilizzare materiali riciclati totalmente o in parte (quanto possibile) o riciclabili / ottimizzare i programmi di produzione al fine di ridurre gli scarti al minimo / usare finiture superficiali non inquinanti / non impiegare colle con presenza di formaldeide / controllare la filiera di fornitura per garantire il rispetto di questi principi, anche attraverso test di controllo per verificare l'assenza di sostanze volatili organiche (VOC) sui materiali. I prodotti Segis hanno ottenuto numerose certificazioni e riconoscimenti da vari enti, all'interno di progetti-quadro europei, da Legambiente e da consorzi produttivi (come ad esempio Casa Toscana Green Home).

Responsabilità Sociale

Quando si invita una persona a sedersi al proprio tavolo si dice "si accomodi". Ecco. Secondo il principio di accoglienza del Gruppo Segis, i collaboratori devono trovarsi a proprio agio sul posto di lavoro e i loro diritti devono essere rispettati a ogni livello. Per realizzare questa vocazione, è stata ottenuta la specifica certificazione SA8000 per la Responsabilità Sociale, che garantisce l'impegno dell'organizzazione aziendale in vari ambiti: garanzia di un posto di lavoro salubre per tutti i dipendenti / mantenimento degli impianti efficienti e affidabili in ambito di sicurezza / non impiego di lavoro infantile e minorile / nessun ricorso né sostegno ad alcuna forma di "lavoro obbligato", cioè di costrizione dei dipendenti a lavorare con ricatti di qualunque tipo / garanzia della salute e della sicurezza dei propri dipendenti e pieno rispetto delle norme di legge relative / garanzia della libertà delle organizzazioni sindacali e dei propri aderenti / assenza di discriminazioni di qualunque tipo dei lavoratori e fra i lavoratori / applicazione di procedure disciplinari nel pieno rispetto delle norme di legge / orario di lavoro rispondente ai requisiti di legge e agli accordi nazionali e locali / retribuzione corrispondente al Contratto nazionale e agli eventuali contratti integrativi aziendali / comunicazione all'esterno del proprio impegno al rispetto della norma SA 8000 / impiego di fornitori che rispettino anch'essi i principi di questa norma.

(1998) Quality management systems certified according to ISO 9001:2015 (registration IT4646)

(2001) Internal Environmental management system certified according to ISO 14001:2015 (Registration IT23310)

Management policy

As always, Segis works to produce and market designer products, based on three main principles: quality, environment, ethics.

Quality and certifications

The Group Segis holds a quality process that allows us to be a leader in a demanding market as that of the Contract. Being a manufacturing organization, we had to integrate this concept at all levels: project quality, process quality and product quality. The first takes charge in collaboration with famous architects, implementing and engineering, where necessary, style concepts and more advanced projects. We then develop from prototype to production and run the performance tests, according to international standards. Process quality is guaranteed by the ISO 9001 quality system, which we received in 1998. Segis was among the first companies in the sector, integrating this system at every level of its processes (design, production, logistics, sales and after sales services). Finally, the product quality is guaranteed by the application of the strictest technical and performance tests according to standards ANSI BIFMA and EN, all performed by laboratories approved and authorized.

Sustainability and Environment

In ancient times it cooperated on everyday objects with the material we had around, trying not to upset the environmental balance. Now that the possibilities for experimentation are endless and the whole planet became available, it is important not to get carried away by the force of innovation to the detriment of the entourage and nature. For Segis, quality and environmental sustainability have always been the founding principles, since the inception of the company in one of the most beautiful landscapes in the world, to be preserved. For this reason, it has always been given the highest attention to the choice of production processes with low environmental impact and strict controls in every aspect: emissions, effluents and waste. In line with these principles, as early as 2001, ISO 14001 certification for Segis has an internal environmental management system, in order to ensure compliance with rules as to production and, above all, to improve continually the limits for all departments and companies within the group.

The mark of responsible forestry
FSC® C155379

(2020) Ask for our FSC™ - certified products.

Segis strives daily to study sustainable products, so: always keep the utmost respect for the environment / have low energy production processes / use recycled materials in whole or in part (where possible) or recyclable materials / optimize production schedules in order to reduce waste to a minimum / use non-polluting surface finishes / do not use glues with presence of formaldehyde / check the supply chain to ensure respect for these principles, including through control test to verify the absence of organic volatile substances (VOC) materials. Segis products have obtained numerous certifications and recognitions from various organizations, within the framework of European projects, from Legambiente (such as Casa Toscana Green Home) and production consortia.

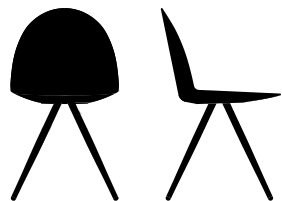

Social Responsibility

When you invite a person to sit at their desks, it says "have a seat". According to the Principle of Reception for Group Employees at Segis, they must feel at ease in the workplace and their rights must be respected at all levels. To accomplish this vocation, we obtained the specific certification of SA8000 for social responsibility, which guarantees the commitment of the Organization in various areas: guarantee of a healthy workplace for all employees / maintenance of efficient and reliable security systems / no use of child labour / no remedy and no support to any form of "forced labour", that is coercion of employees working with blackmail of any type / guarantee the health and safety of its employees and full compliance with the law / ensuring freedom of trade unions and their members / no discrimination of any kind of workers and among workers / application of disciplinary procedures in full compliance with the law / working time fulfils the legal requirements of national and local agreements / salary corresponding to the National Agreement and any supplementary business contracts / communication outside of their commitment to the respect of the SA8000 standards / use of suppliers who respect themselves the principles of this standard.

BILLA CHAIR

Favaretto & Partners

La nuova seduta nasce come evoluzione spontanea e curata del modello lounge. I medesimi materiali, con il sapore caldo dell'atmosfera nordica, dato dal multistrato, unito all'eleganza del tubo ellittico, disegnano ora nuove proporzioni, a completare una linea capace di essere al tempo stesso originale e di tendenza.

The new Billa Chair is a spontaneous evolution of the lounge model. The same materials, with the Nordic atmosphere given by the warmth of beech plywood combined with the elegance of the elliptical tube, now enhance new proportions to complete a collection both original and trendy.

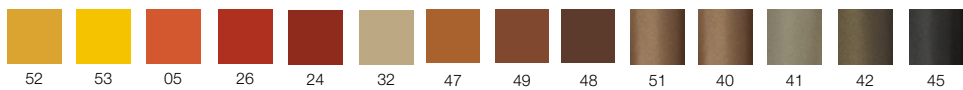

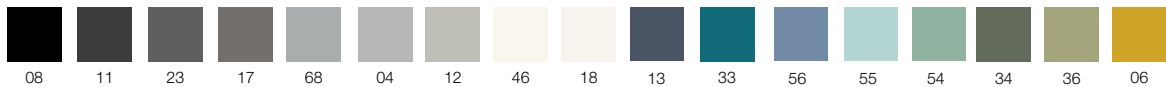

Ce nouveau siège est né d'une évolution spontanée du modèle lounge. Les mêmes matériaux pour une saveur chaleureuse et l'atmosphère nordique. L'association du multiplis et l'élégance du tube elliptique, créent naturellement une nouvelle proposition d'assise à la fois originale et tendance.

Der neue Sessel ist eine ungezwungene, jedoch gut durchdachte Weiterentwicklung des Modells lounge. Die gleichen Materialien mit einer warmen nordischen Ausstrahlung-dank des Sperrholzes-vereint mit der Eleganz des Ellipsenrohres, schaffen neue Proportionen und vervollständigen eine originelle und gleichzeitig trendige Produktserie.

BREEZE

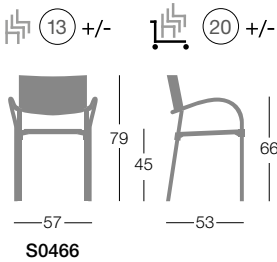

Carlo Bartoli

L'essenziale in forma di sedia. Breeze viene realizzata con il minimo uso di materiali uniti in un'estrema sintesi formale e contrassegnati da elevate prestazioni. L'alluminio, anodizzato o verniciato per la struttura, e il polipropilene riciclabile per la seduta e lo schienale, la rendono perfetta anche per un uso esterno grazie alla sua leggerezza e impilabilità.

Award winning stacking chair with the simplicity of form and function essential for any environment. Aluminum, anodized or powder coated; seat and back in recyclable polypropylene. The chair and stool are perfect for indoor or outdoor.

Breeze est la quintessence de l'assise. Fabriquée avec un minimum de matériaux, ce modèle extrêmement épuré offre une performance structurelle maximale. La structure est en aluminium, anodisé ou époxy laqué, l'assise et le dossier, sont en polypropylène recyclable. Empilable et légère, Breeze est idéale pour une utilisation en extérieur.

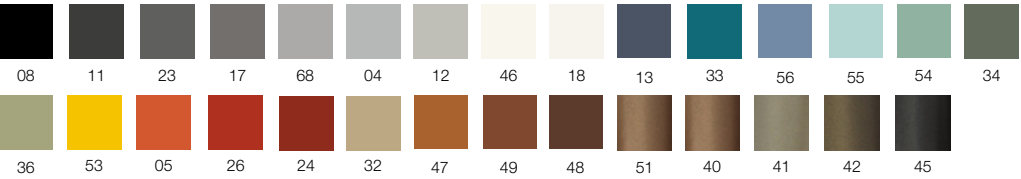

Breeze verkörpert das Wesentliche was ein Stuhl bieten kann. Minimalistisch in Verwendung von Materialien in einer starken Formsynthese, mit maximaler Leistung. Struktur aus Aluminium, eloxiert oder lackiert, Sitz und Rücken aus recycelbarem Polypropylen. Perfekt für den Außenbereich, dank seiner Leichtigkeit und Stapelbarkeit.

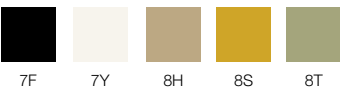

Awards:
2004 / Italy-Selected for the "Coffee Design" collection by the Triennale di Milano Breeze sales reaches 1.000.000 units.
2000 / Italy-Selected for Commemorative Stamp Collection by the Italian Postal Service.

CAMEL

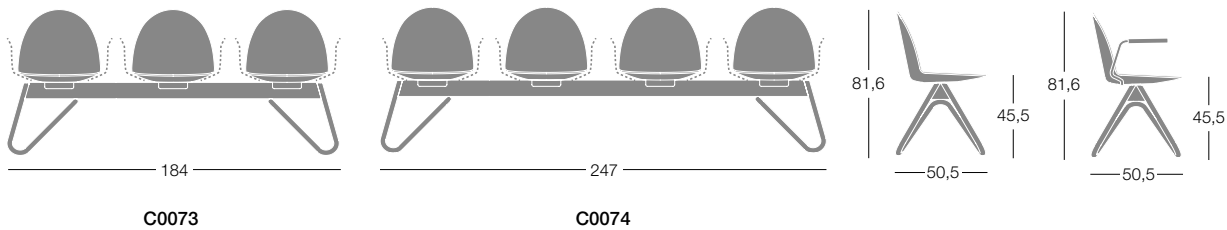

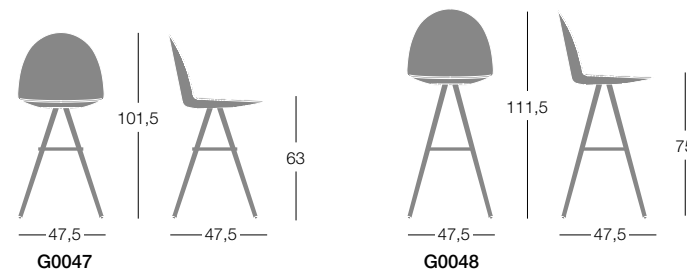

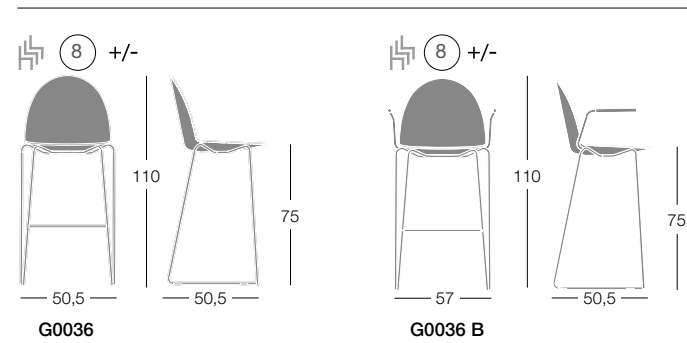

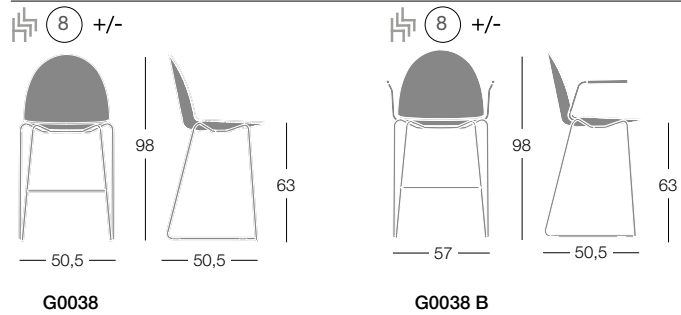

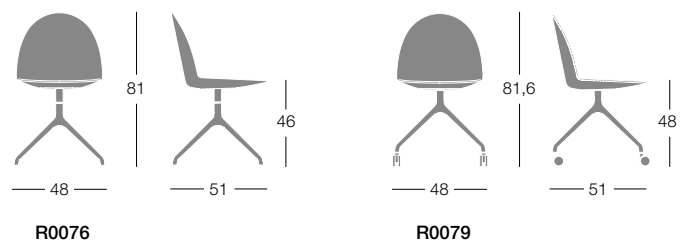

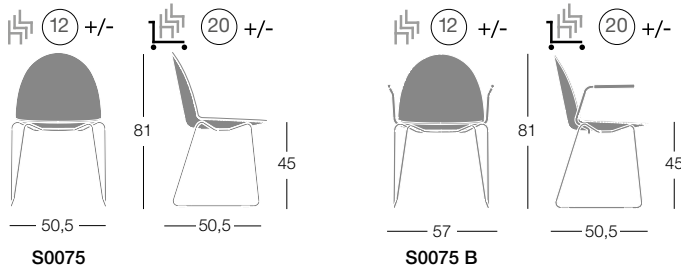

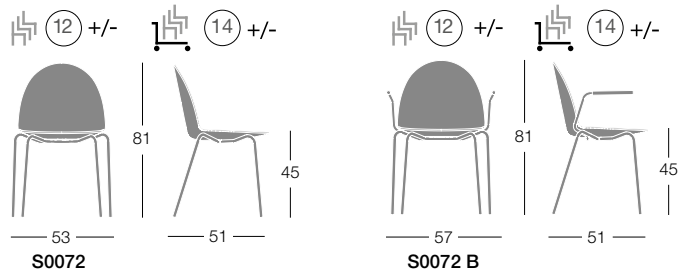

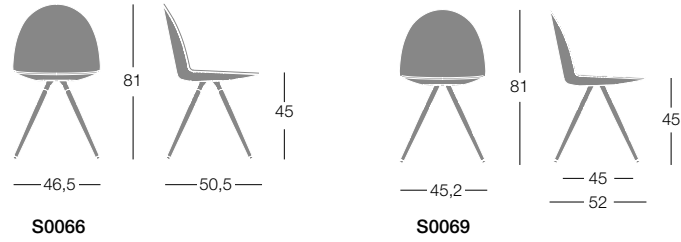

Bartoli Design

Camel è un sistema di sedute dalle linee morbide e sobrie e dal carattere eclettico, adatto a situazioni diverse. La scocca, in polipropilene, può essere abbinata a differenti basi e accessori, ed è disponibile anche in soluzioni su barra, ideali per sale d'attesa e spazi di transito.

An eclectic collection of seating with delicate soft designed lines, comfortable in a variety of applications. The shell, in polypropylene, is combined with numerous bases and multiple seating for meeting, dining or public waiting environments.

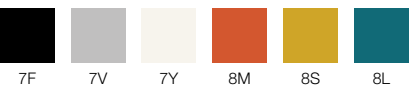

Camel est une gamme de sièges aux lignes douces et sobres, qui s'adaptent à tous les contextes. La coque, en polypropylène, se marie avec un grand nombre de piétements et d'accessoires. Camel peut également être associé avec un système modulable d'assises sur poutre parfait pour les salles d'attente et les lieux de passage.

Camel ist eine Stuhlreihe mit weicher und klarer Linienführung, bequem in jeder Situation. Die Schale, aus Polypropylen, kann mit verschiedenen Gestellen und Accessoires kombiniert werden. Verfügbar auch als Bank, Ideal für Wartebereiche und Aufenthaltsräume. Eine vielfältige Serie, für den formellen und auch informellen Einsatzbereich.

CULT

Archirivolto Design

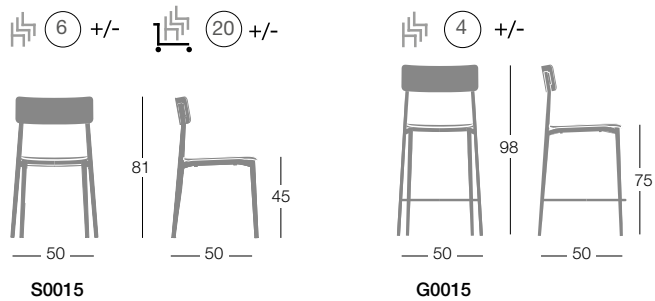

Le linee contemporanee della sedia Cult si ispirano all'armonia di un'epoca passata. Forme esili e delicate che danno luogo a un perfetto equilibrio tra i diversi materiali utilizzati, come il metallo e il polipropilene, e l'accurata scelta cromatica, per una finitura monocolore.

Contemporary lines with a vintage touch describe this stacking chair. The delicate and slim design with tapered legs brings a harmony of years past and present. Matching epoxy powder coat and polypropylene colours create a monochromatic finish.

Résolument contemporaine, la chaise Cult est inspirée par l'harmonie d'une époque révolue. Ses formes fines et délicates offrent un équilibre parfait entre les différents matériaux; le métal et le polypropylène avec leur gamme de couleurs soigneusement choisie, pour un rendu monochrome.

Cult, zeitgemässe Linien inspiriert von der Harmonie vergangener Zeiten. Schlanke und zarte Formen, die durch eine perfekte Materialmischung aus Metall und Polypropylen, sowie gekonnt gewählten Farben entstehen.

 Cult is not available for North and South America

DERBY

Archirivolto Design

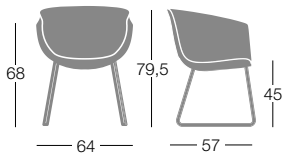

Derby è una collezione di sedute dallo stile brioso e dinamico, in cui si combinano cromie disponibili in versione mono o bicolore e uno schienale esterno ondulato. A decretare il suo successo nelle soluzioni contract concorrono la molteplice varietà di basi applicabili e la possibilità di disporre di una scocca in poliuretano integrale oppure in poliuretano stampato rivestito in diversi materiali.

Derby is a collection of seating with a cheerful and dynamic style, with a combination of colours available in monochromatic or bicoloured with an external back displaying a raised pattern. To decree its success in contract solutions contribute the variety of applicable bases and the possibility of having a shell in integral polyurethane foam or a cold-injected polyurethane foam upholstered in several materials.

Derby est une collection d'assises au style pétulant et dynamique grace à son dossier affichant un motif en relief. Disponible dans une combinaison de couleurs monochrome, mais surtout bicolore. La grande variété des piétements et la possibilité d'avoir une coque en mousse de polyuréthane intégrale ou une coque revêtue de différents matériaux a largement contribué à son succès dans l'univers du contract.

Derby, eine Stuhlreihe fröhlich und dynamisch, verfügbar in zweifarbiger oder einfarbiger Ausführung. Die Rückseite der Rückenlehne erinnert an Wellen. Erfolgreich im Objektbereich einsetzbar, dank der Vielfalt der Gestelle und der Möglichkeit die Polyurethanschale auch in gepolstert zu erhalten.

DRAGONFLY

Odo Fioravanti

Dragonfly nasce dall'osservazione del corpo della libellula, caratterizzato da uno sbilanciamento tra le gambe, poste nella parte anteriore del corpo, e la coda che è a sbalzo. Da tale gioco formale scaturisce una sedia in cantilever le cui gambe sono innestate sul fronte mentre la seduta sembra sfidare la forza di gravità. A questa versione si sono aggiunte una serie di basi multifunzione in modo da costruire un vero e proprio sistema di sedute

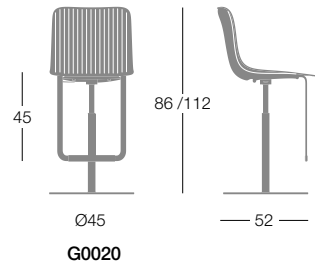

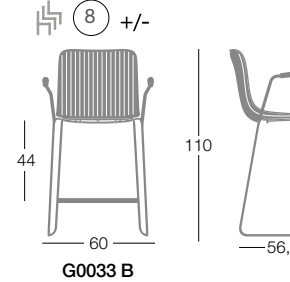

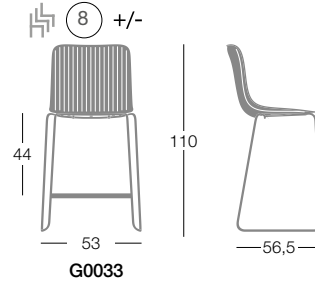

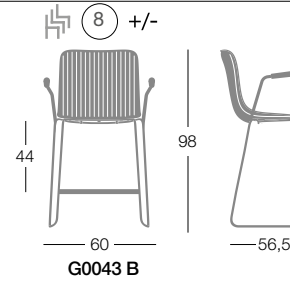

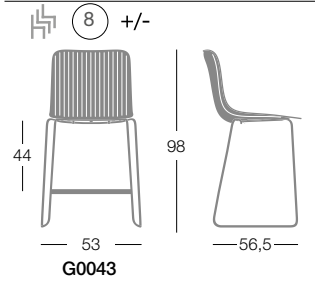

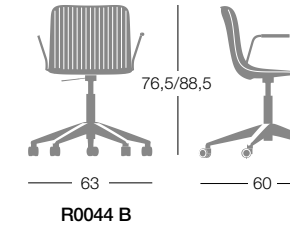

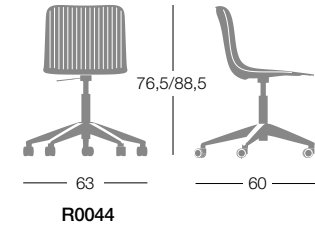

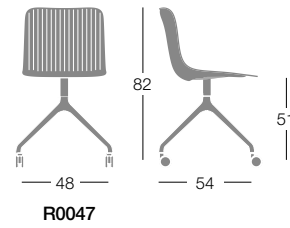

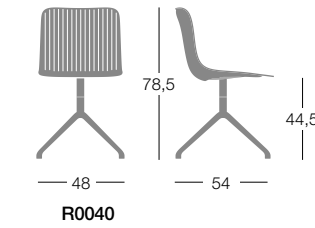

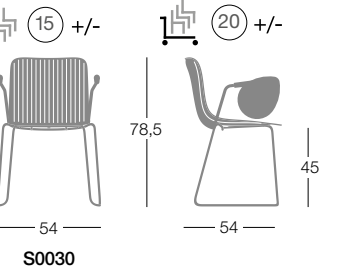

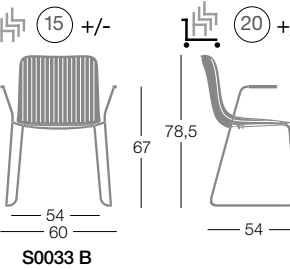

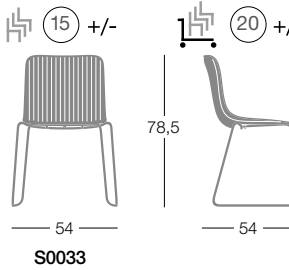

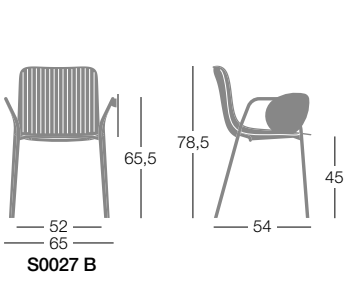

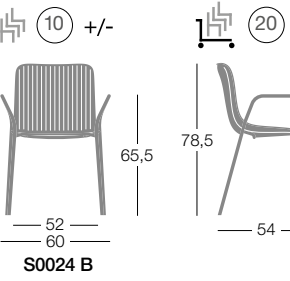

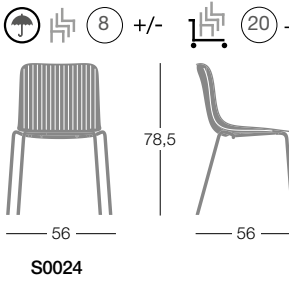

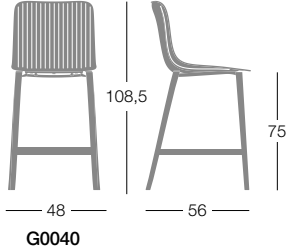

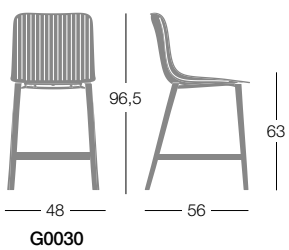

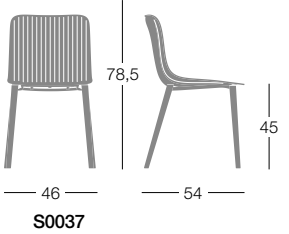

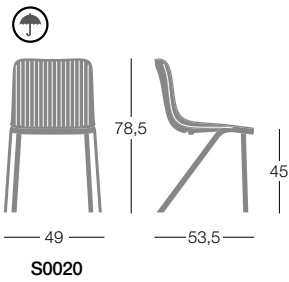

Dragonfly was born from the likes of the body of a dragonfly which is characterized by an imbalance of weight between the legs at the front and cantilevered tail. This observation inspired seating which thus appears to challenge gravity; the shell's vertical ribbing mimics wings. Multi-functional bases may be paired with a variety of polypropylene shell colours for chairs and stools.

La chaise Dragonfly est née de l'observation de la libellule dont elle porte d'ailleurs le nom. En effet, le corps de la libellule est déséquilibré et semble suspendu dans les airs. En matière de design, le résultat donne une chaise à la structure flottante avec une assise qui semble défier les lois de la gravité. Tout en conservant la même coque, la Dragonfly se décline avec différents types de piétements, afin de constituer une véritable famille de produits capable de répondre à tous les besoins et les utilisations.

Dragonfly ist durch die Beobachtung eines Libellenkokons inspiriert worden. Das Ungleichgewicht zwischen den Vorderbeinen und dem freischwebenden hinteren Teil des Körpers. So entstand dieser Stuhl, ein Freischwinger mit vorderen Beinen und einem Sitz, der die Schwerkraft herauszufordern scheint. Eine Reihe von Gestellen ergänzen die Serie.

E-MOTION

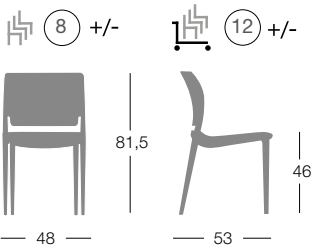

Giancarlo Piretti

Caratterizzata da un movimento di flessione unico nel suo genere, capace di emozionare, è stata pensata e brevettata da Giancarlo Piretti, icona del design italiano. Il progettista è riuscito a trasformare un prodotto tradizionalmente solido e robusto in un'autentica novità tecnologica e stilistica. Una confortevole reinterpretazione della classica sedia in polipropilene stampata con tecnologia air moulding. Disponibile in versione monocolore e bicolore.

This trendy design patented by Giancarlo Piretti, icon of Italian design, transforms the traditionally solid and sturdy back bending movement into an authentic technological and stylistic innovation. A comfortable reinterpretation of the classic chair in polypropylene, injected with the air moulding technology. Available in monochrome or bicoloured finish.

Le mouvement de flexion unique de E-Motion est une expérience hors du commun. Conçue et brevetée par Giancarlo Piretti, personnalité incontournable du design italien, ce produit traditionnellement solide et robuste accède au rang de nouveauté technologique et stylistique. Une réinterprétation confortable de la chaise classique en polypropylène moulé avec la technologie de l'air moulding". Disponible en version unie et bicolore.

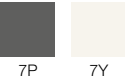

E-Motion begeistert durch eine einzigartige Flexion. Entworfen und patentiert von Giancarlo Piretti, Ikone des italienischen Designs, dem es gelungen ist, ein traditionell solides und robustes Produkt in eine echte Innovation zu verwandeln, was Technologie und Stil angeht. Eine komfortable Neuinterpretation des klassischen Stuhls aus Polypropylen in airmoulding Technologie. Erhältlich in einfarbiger und zweifarbiger Ausführung.

HAMMER-S

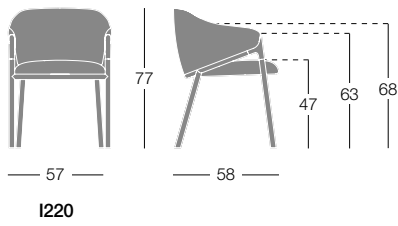

Favaretto & Partners

Poltroncina elegante e dalle linee ricercate, è frutto della creatività dello studio Favaretto & Partners. L'abbinamento degli elementi in gioco-l'acciaio del tubolare, il giunto in fusione e il poliuretano stampato-contribuiscono a definire un prodotto di grande pregio. Rivestita in tessuto, pelle o similpelle. Si distingue in ogni ambiente, dalla casa al contract, dalla camera d'albergo alla sala riunioni.

Hammer, elegant and sophisticated, is the result of the creativity of Favaretto & Partners Studio. The combination of the different elements-steel tube, die-cast aluminium element and cold-injected polyurethane foam contribute to define a product of great value. Covered in fabric, leather or faux-leather. Hammer stands out in every contract environment: lobbies, meeting rooms, hotels, and collaborative areas.

La ligne de fauteuils Hammer, élégante et raffinée, est une création du studio Favaretto & Partners. La diversité et la richesse de ses différents composants, l'acier de la structure, la jonction en fonte d'aluminium et le polyuréthane moulé, en font un produit très précieux. Disponible en revêtement tissu, cuir ou simili cuir. Idéale, cette collection s'adapte à tout type d'environnement, du résidentiel au contract, de la chambre d'hôtel à la salle de réunion.

Elegant und anspruchsvoll, das Resultat der Kreativität vom Studio Favaretto&Partners. Die Zusammensetzung verschiedener Elemente, Stahlrohr, Aludruckguss, kaltgepresster Polyurethanschaum, machen hieraus ein wertvolles Produkt. In Stoff, Kunstleder und Leder, passt er in jeden Raum vom Hotel bis hin zu Konferenzzimmer.

NAMI

Paolo Crescenti

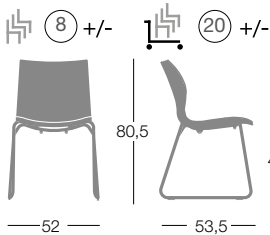

Nami offre a chi si accomoda una leggera flessione che, assecondando i movimenti del corpo, garantisce un comfort illimitato. Impilabile, con o senza braccioli, con scocca in polipropilene riciclabile e possibilità di tavoletta scrittoio e aggancio, è ideale per aree conferenze, auditorium, strutture sanitarie, così come per negozi, caffetterie e spazi ricreativi.

Stacking chair with or without armrests, polypropylene shell, with possibility of ganging device and writing tablet. Nami is ideal in training and conference areas, auditoriums, classrooms and healthcare facilities but it is also attractive in a retail setting, cafeteria and recreational space.

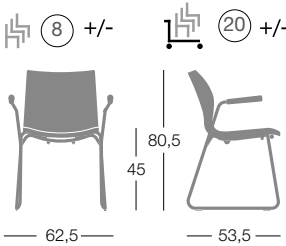

Nami offre une légère flexion du dossier qui suit les mouvements du corps pour garantir un confort optimal. Chaise avec ou sans accoudoirs avec coque en polypropylène recyclable, avec système de crochetage et tablette écriteiro rabattable anti-panique. Nami est idéal pour les espaces de conférence, les auditoriums, les établissements de santé, ainsi que pour les magasins, les cafétérias et les espaces de loisirs.

Nami bietet eine leichte Flexion der Sitzschale, die sich der Körperbewegung mit hohem Komfort anpasst. Stuhl oder Hocker mit recycelbaren Polypropylen-Schalen. Verfügbar mit oder ohne Armlehnen, sowie der Möglichkeit einer Reihnverbindung und Schreibtischar. Nami ist ideal für Konferenzräume, Auditorien, Gesundheitseinrichtungen, sowie für Geschäfte, Cafeterias und Erholungsräume.

 Nami is produced and distributed by Segis in the following countries: Austria, Germany, Italy, Netherlands, Norway, Spain, Sweden.

PACIFIC

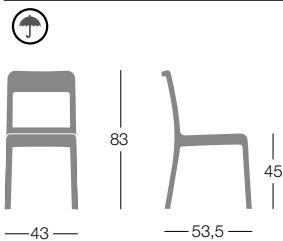

George J. Sowden

Pacific si distingue da tutte le altre sedie in polipropilene riciclabile, per almeno due motivi. Il primo è la struttura, realizzata in unica stampata e rinforzata con fibra di vetro, ottimo risultato di una costante ricerca sulle possibilità della tecnologia air moulding. Il secondo risiede nel materiale di stampa che, colorato in massa, consente una finitura superficiale satinata ed esclusiva. Non resta che scegliere tra i vari colori disponibili. È inoltre perfetta per un uso esterno.

Incomparable chair with its durable structure, made with the air moulding technology in one single injection of recyclable polypropylene reinforced with fiberglass. Perfect for indoor or outdoor use available in several colours.

Pacific diffère de toutes les autres chaises en polypropylène recyclable pour au moins deux raisons. Premièrement pour sa structure, réalisée en une seule injection et renforcée avec de la fibre de verre, fruit d'une recherche constante sur les possibilités de la technologie "air-moulding". La deuxième est que le matériel, injecté et coloré dans la masse permet d'obtenir une finition satinée, que vous ne trouverez nulle part ailleurs. Le plus dur sera de choisir entre les différentes coloris disponibles, parfaite également pour l'extérieur.

Pacific hebt sich von allen anderen recycelbaren Polypropylenstühlen aus zwei Gründen ab: der erste ist seine Struktur im Einspritzverfahren, mit Fiberglas verstärkt, das Ergebnis ständiger Air Moulding Technologieforschung. Der zweite Grund ist das Material, welches durchgefärbt ist, und somit einen gewissen Satinlook erhält. Es bleibt nur die Wahl unter den vielen Farben.

PLOSE/PLOSE +

Archirivolto Design

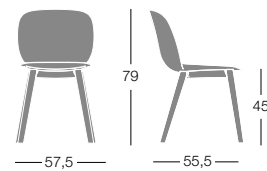

Plose è una moltitudine di sedute diverse, è puro comfort che si materializza nelle forme paraboliche che solo un materiale come il polipropilene permette di esaltare. Sono sedia e poltroncina che nascono gemelle ma con caratteristiche leggermente diverse per poter interagire con ambienti e modi di sedersi diversi. Plose è un respiro di natura, una fusione di eleganza e funzionalità che si ispira ai corsi d'acqua di montagna con i suoi sassi levigati dal tempo, dove la bellezza semplice della terra si traduce in comfort senza tempo.

Plose is a multitude of different seats, it is pure comfort that materializes in parabolic shapes that only a material like polypropylene can enhance. They are a chair and an armchair that are born twins but with slightly different characteristics to be able to interact with different environments and ways of sitting. Plose is a breath of nature, a fusion of elegance and functionality that is inspired by mountain waterways with their stones smoothed by time, where the simple beauty of the earth translates into timeless comfort.

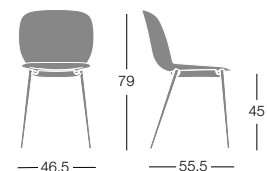

Plose est une multitude de sièges différents, c'est du pur confort qui se matérialise dans les formes paraboliques que seul un matériau comme le polypropylène peut sublimer. Il s'agit d'une chaise et d'un fauteuil qui naissent jumeaux mais avec des caractéristiques légèrement différentes pour pouvoir interagir avec différents environnements et manières de s'asseoir. Plose est un souffle de nature, une fusion d'élégance et de fonctionnalité inspirée des ruisseaux de montagne avec leurs pierres lissées par le temps, où la beauté simple de la terre se traduit par un confort intemporel.

Plose ist eine Vielzahl unterschiedlicher Sitzgelegenheiten. Es ist purer Komfort, der sich in den parabolischen Formen materialisiert, die nur ein Material wie Polypropylen hervorheben kann. Es handelt sich um einen Stuhl und einen Sessel, die als Zwillinge geboren wurden, jedoch leicht unterschiedliche Eigenschaften aufweisen, um mit unterschiedlichen Umgebungen und Sitzgewohnheiten interagieren zu können. Plose ist ein Hauch von Natur, eine Verschmelzung von Eleganz und Funktionalität, inspiriert von Gebirgsbächen mit ihren von der Zeit geschliffenen Steinen, wo sich die schlichte Schönheit der Erde in zeitlosen Komfort verwandelt.

POPPYSTAR

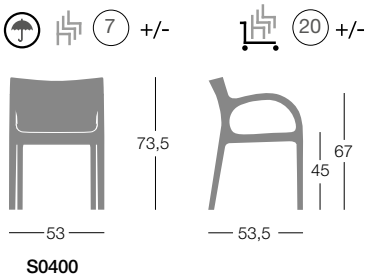

Bartoli Design

Sempre brillante, in ogni sua tinta, grazie alla scelta di un materiale che, colorato in massa, consente una particolare finitura satinata. Poppystar, realizzata grazie alla più aggiornata tecnologia air moulding, nasce da un'unica stampata di polipropilene riciclabile, rinforzato con fibra di vetro. Linee morbide e funzionali per ambienti interni ed esterni.

Poppystar is always bright in every colour thanks to bulk coloration of recyclable polypropylene reinforced with fiberglass; the result is an attractive satin finish. The latest air moulding technology is employed allowing a single injection of the material. This chair is suitable for indoor and outdoor use.

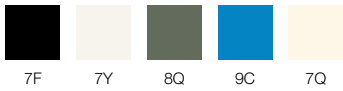

Poppystar brille de mille feux, dans toutes les couleurs, grâce à son matériau coloré dans la masse ce qui permet d'obtenir une finition satinée. Grâce à la dernière technologie d'injection par "air moulding" la structure est réalisée en une seule injection de polypropylène recyclable, renforcée de fibre de verre. Douce touche de couleur à l'intérieur et à l'extérieur.

Glanzvoll dank dem durchgefärbten Material, das hierfür mit einem bestimmten semimatten Finish gewählt wurde. Auch hierfür wurde neueste Air Moulding Technologie im Einspritzverfahren mit Fiberglass eingesetzt. Ein Farbtupfer für den Innen und Aussenbereich.

RION

Redesign Basaglia + Rota Nodari

OMAGGIO DI SEGIS A CARLO BARTOLI IRON diventa RION REDESIGN Basaglia + Rota Nodari.

La sedia IRON disegnata da Carlo Bartoli nel 2009 si presenta in una nuova veste, che restituisce, attualizzandolo, il valore intrinseco di una seduta senza tempo disegnata da uno dei maestri del Design Italiano. Basaglia + Rota Nodari sono intervenuti sul progetto IRON, attraverso un processo di redesign che rappresenta un fil rouge che unisce passato presente e futuro di un'azienda in continua evoluzione come Segis. RION è una sedia dalle linee sfuggenti, leggera e resistente, perfetta per il mondo della Community, può diventare protagonista nel settore dell' Hospitality. Una struttura in tondino di metallo o in tubolare, nella versione a quattro gambe, regge una seduta ed uno schienale in polipropilene. È disponibile in numerose versioni e colori anche tono su tono.

SEGIS'S TRIBUTE TO CARLO BARTOLI IRON becomes RION REDESIGN Basaglia + Rota Nodari.

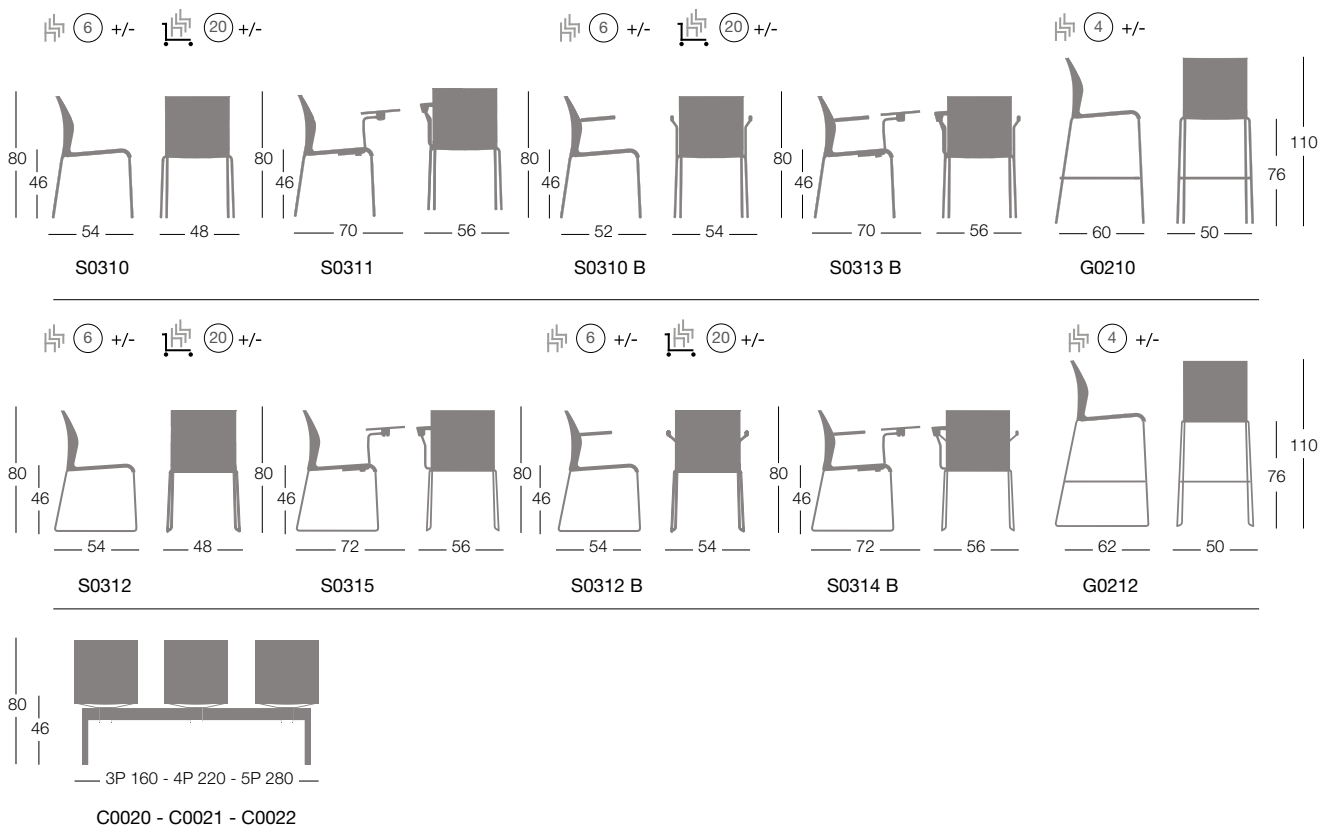

The IRON chair designed by Carlo Bartoli in 2009 presents itself in a new guise; its updating restores the intrinsic value of a timeless seat designed by one of the masters of Italian Design. Basaglia + Rota Nodari intervened on the IRON project through a redesign process that represents a common thread uniting the past, present and future of a continuously evolving company like Segis. RION is a chair with elusive lines, light and resistant; it will become a protagonist in the Hospitality sector. Four-legged models feature a metal rod or tubular structure supporting a polypropylene seat and backrest. RION is available in numerous styles and colours, including tone-on-tone.

HOMMAGE DE SEGIS À CARLO BARTOLI IRON devient RION REDESIGN Basaglia + Rota Nodari.

La chaise IRON conçue par Carlo Bartoli en 2009 se présente sous un nouveau look, qui restitue, en l'actualisant, la valeur intrinsèque d'un siège intemporel conçu par l'un des maîtres du Design Italien. Basaglia + Rota Nodari sont intervenus sur le projet IRON, par un processus de redéfinition qui représente un fil rouge qui unit passé présent et futur d'une entreprise en constante évolution comme Segis. RION est une chaise aux lignes élusives, légère et résistante, parfaite pour l'univers de la Collectivité, elle peut devenir protagoniste dans le secteur de l'Hôtellerie. Une structure en tige de métal ou en tube, dans la version à quatre pieds, soutient une assise et un dossier en polypropylène. Disponible en plusieurs versions et couleurs, même ton sur ton.

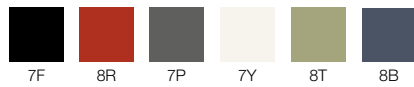

SEGIS' HOMMAGE AN CARLO BARTOLI Aus Eisen wird RION NEUGESTALTUNG Basaglia + Rota Nodari.

Der 2009 von Carlo Bartoli entworfene Stuhl IRON präsentiert sich in einem neuen Gewand. Die Aktualisierung dieses zeitlosen Entwurfs, der von einem Meister des italienischen Designs gestaltet wurde, macht die inneren Werte sichtbar. Basaglia + Rota Nodari beteiligten sich am IRON-Projekt durch einen Neugestaltungsprozess, der einen roten Faden darstellt, der Vergangenheit, Gegenwart und Zukunft eines sich ständig weiterentwickelnden Unternehmens wie Segis vereint. RION ist ein Stuhl mit ausgefallenen Linien, leicht und widerstandsfähig, perfekt für die Welt der Gemeinschaft, er kann zu einem Protagonisten im Gastgewerbe werden. Eine Metallstangen- oder Rohrstruktur, in der vierbeinigen Version, trägt einen Sitz und eine Rückenlehne aus Polypropylen. Es ist in zahlreichen Ausführungen und Farben erhältlich, auch Ton-in-Ton.

SLIDE

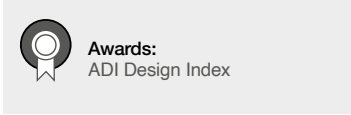

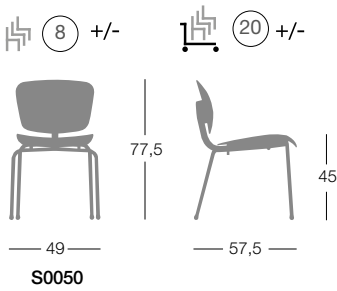

Matteo Thun

Slide reinterpreta e rende attuale una seduta che appartiene alla memoria collettiva. L'applicazione di un materiale moderno, quale il policarbonato, esalta l'essenzialità della struttura in acciaio verniciato, una combinazione che dà vita ad un pezzo dal carattere minimale e raffinato. Esteticamente ricercata ma al contempo pratica, ha un'impugnatura incorporata nel retro dello schienale che permette di maneggiarla con facilità.

Slide exemplifies a chair that belongs to the collective memory and makes it current. With a modern material, such as polycarbonate, it enhances the essentiality of a powder coated steel frame, characterized by its minimal shape and the attention to the details. Aesthetically refined but also practical, Slide has a handle in the back that allows for ease of movement.

Slide réinterprète et réactualise une assise qui appartient à la mémoire collective. En utilisant un matériau moderne, comme le polycarbonate, ce modèle exalte l'essentialité d'une structure époxy laquée. Son design minimaliste ne néglige en rien les détails. Aussi esthétiquement recherché que pratique, Slide a une poignée intégrée à l'arrière du dossier qui permet de la déplacer facilement.

Slide ist die zeitgemässe Neuinterpretation eines Stuhles, der in kollektiver Erinnerung ist. Ein modernes Material, wie Polycarbonat, unterstreicht die Leichtigkeit der Struktur aus oder lackiertem Stahl. Eine minimale Form mit grosser Liebe zum Detail. Ausgesuchte Ästhetik, leicht zu handhaben. Für ein leichtes Handling ermöglicht der Stuhl Slide einen integrierten Griff an der Rückenlehne.

SLOOP

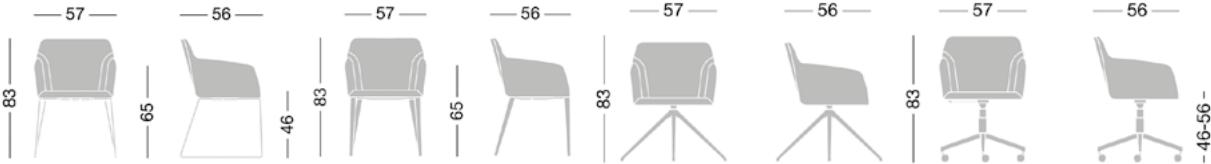

Basaglia + Rota Nodari / 2025

Carattere dinamico e personalità generosa, la collezione di sedute Sloop spazia con agilità in luoghi inaspettati caratterizzandoli con la sua unicità. Le linee di ciascun elemento sono costruite con un perfetto bilanciamento di tratti squadrati e morbidi che creano una forma inedita e contemporanea. Il confort delle sedute della collezione Sloop è il risultato di uno studio attento dell'ergonomia garantita dalle differenti calibrature della schiumatura che non è mai eccessiva. La versatilità della collezione Sloop è vasta: due ampiezze, tre altezze e diverse tipologie di strutture; le innumerevoli combinazioni di questi elementi rendono Sloop fortemente personalizzabile e adatta ad arredare spazi differenti: ufficio, casa, ristoranti e il mondo dell'ospitalità in generale.

With its dynamic character and generous personality, the Sloop seating collection effortlessly adapts to unexpected spaces, enhancing them with its unique presence. Each element's design strikes a perfect balance between sharp and soft lines, resulting in an innovative and contemporary shape. The comfort of the Sloop collection is the outcome of meticulous ergonomic research, ensured by carefully calibrated foam densities that are never excessive. The versatility of the Sloop collection is extensive: two widths, three heights, and various structural types. The countless combinations of these elements make Sloop highly customizable and suitable for furnishing a variety of spaces, from offices and homes to restaurants and the hospitality sector in general.

Avec son caractère dynamique et sa personnalité généreuse, la collection de sièges Sloop s'intègre avec agilité dans des espaces inattendus, les sublimant par son unicité. Chaque élément est conçu avec un équilibre parfait entre lignes anguleuses et courbes douces, créant une forme inédite et contemporaine. Le confort des sièges de la collection Sloop est le fruit d'une étude ergonomique approfondie, garantie par un calibrage précis de la mousse, jamais excessif. La collection Sloop offre une grande polyvalence : deux largeurs, trois hauteurs et plusieurs types de structures. Les innombrables combinaisons de ces éléments rendent Sloop hautement personnalisable et adapté à divers environnements, qu'il s'agisse de bureaux, de maisons, de restaurants ou du secteur de l'hospitalité en général.

Mit ihrem dynamischen Charakter und ihrer großzügigen Persönlichkeit passt sich die Sloop-Sitzkollektion mühelos an unerwartete Räume an und verleiht ihnen eine einzigartige Note. Das Design jedes Elements vereint perfekt ausbalancierte eckige und weiche Linien, wodurch eine innovative und zeitgemäße Form entsteht. Der Komfort der Sloop-Kollektion ist das Ergebnis einer sorgfältigen ergonomischen Studie, die durch präzise abgestimmte Schaumstoffdichten gewährleistet wird – nie übermäßig, sondern optimal angepasst. Die Vielseitigkeit der Sloop-Kollektion ist beeindruckend: zwei Breiten, drei Höhen und verschiedene Strukturvarianten. Die unzähligen Kombinationsmöglichkeiten dieser Elemente machen Sloop äußerst anpassungsfähig und ideal für unterschiedlichste Räume – von Büros und Wohnungen bis hin zu Restaurants und der gesamten Hospitality-Branche.

STAMP

Alejandro Valdés

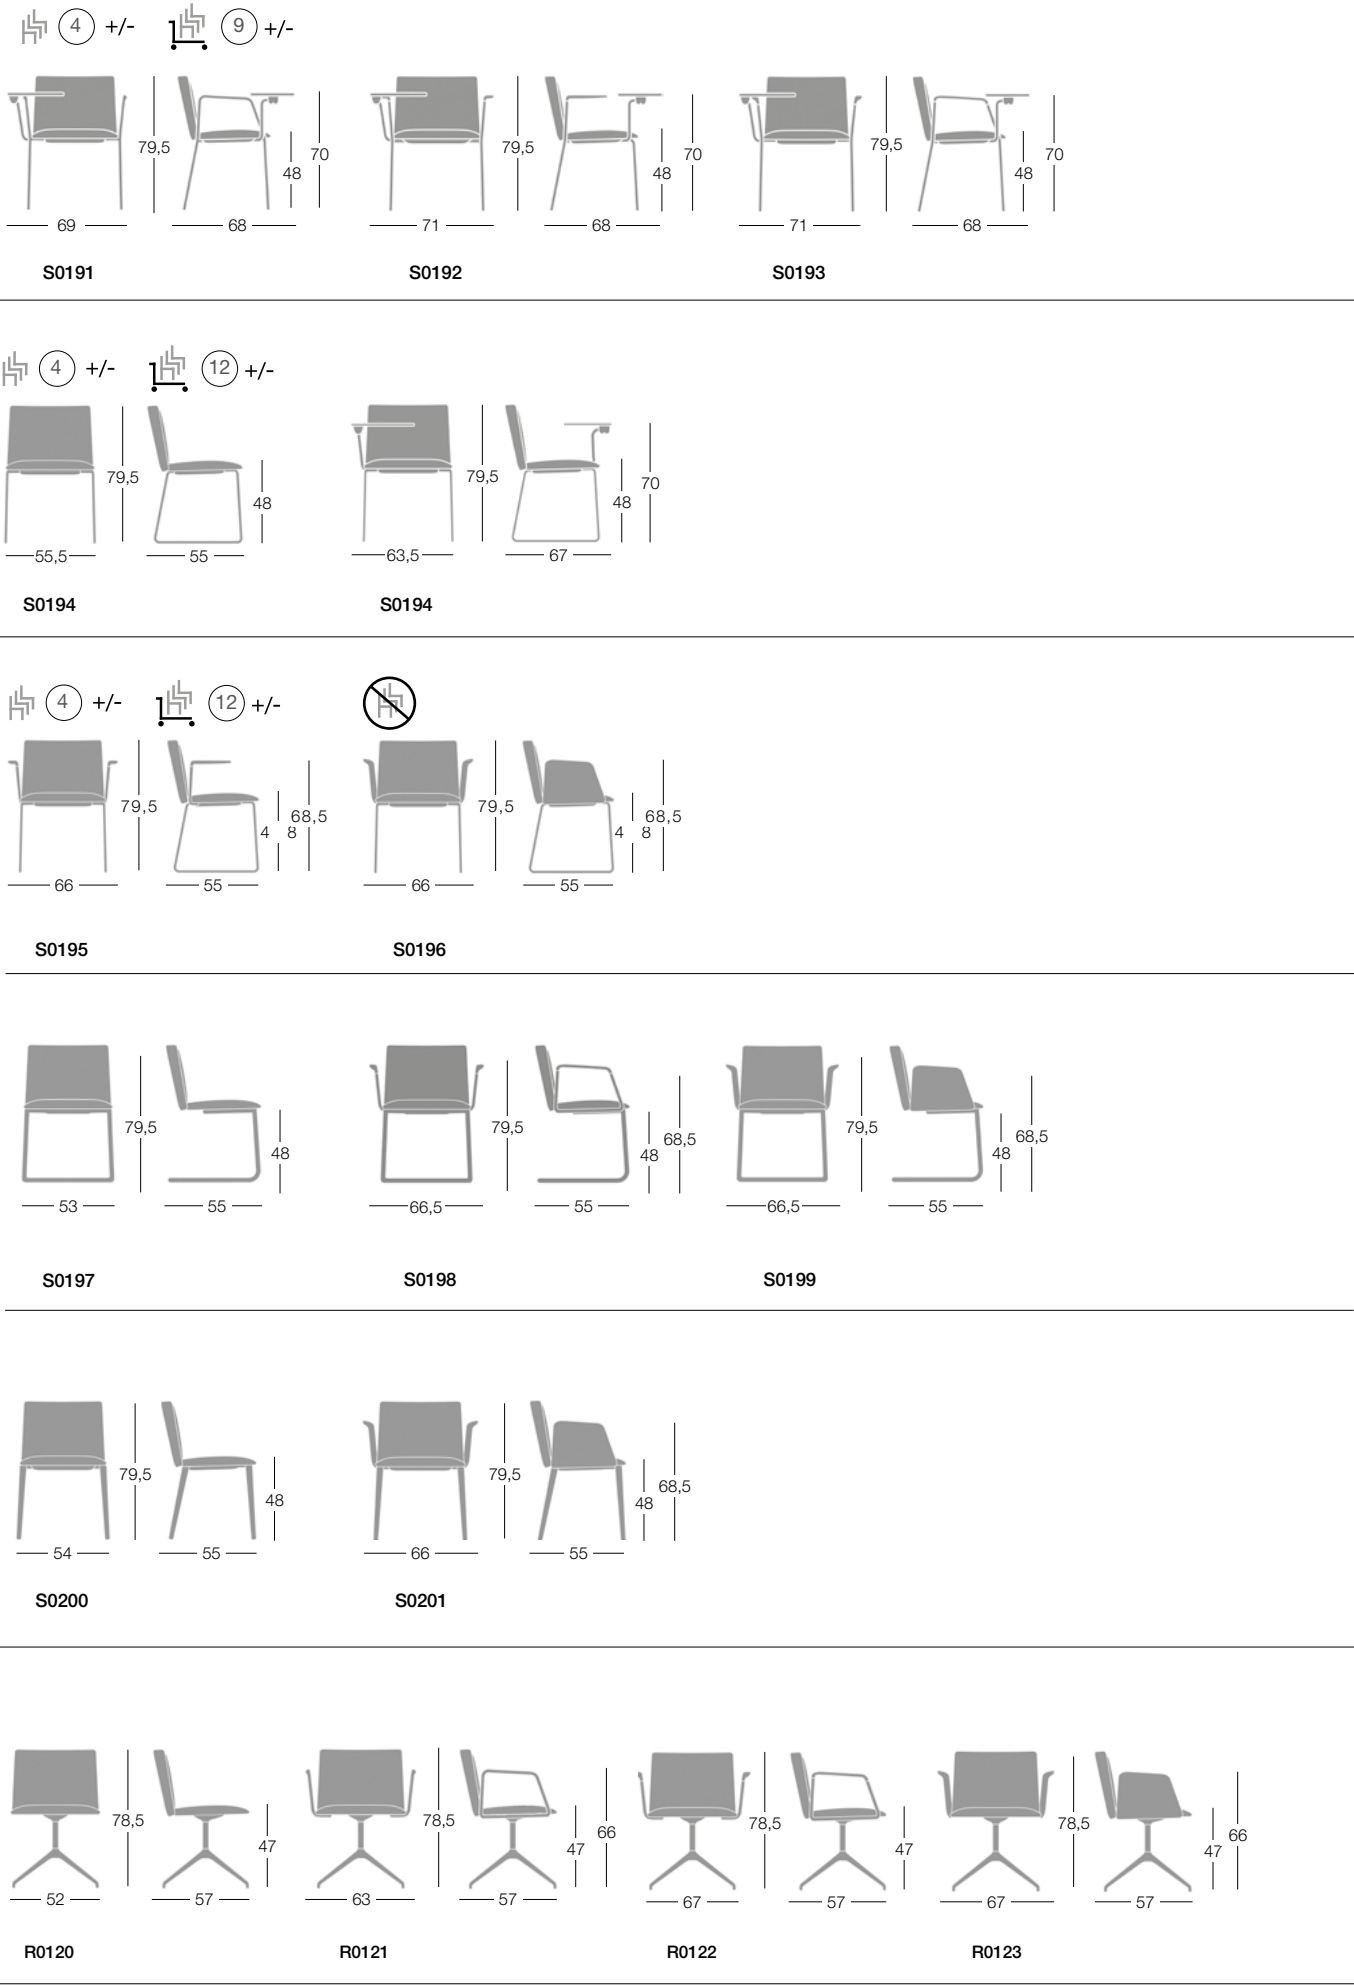

Con il suo carattere pacato, lieve e discreto, la Stamp Collection porta un' aria di diversificazione, autenticità e originalità al design di architettura e interni. La collezione comprende una serie completa di sedute imbottite: sedie, poltrone e sgabelli che si integrano naturalmente in ambienti pubblici, professionali e residenziali. Elementi senza tempo, contemporanei e dalle linee pulite, che pervadono di un mood sofisticato i luoghi che occupano. Creando leggerezza visiva. La silhouette sobria ed elegante avvolge un interno raffinato con un'imbottitura morbida che invita il corpo al relax e spinge la mente all'azione. Le conversazioni scorrono racchiuse nella fusione di estetica e comfort. Più versatilità con meno materiali. Nella Stamp Collection la cura per i dettagli spazia dal design dello schienale e del sedile alla gamma di strutture, braccioli, accessori e finiture. Tutto attentamente studiato per minimizzare l'uso dei materiali senza compromettere l'alta qualità e la delicata bellezza dell'oggetto. Riduzione dell'impatto ambientale, in linea con la filosofia e la politica gestionale di Segis ottenendo negli anni una serie di certificazioni. Pezzi d'arredamento che ispirano serenità, una serenità che rivela il carattere del prodotto.

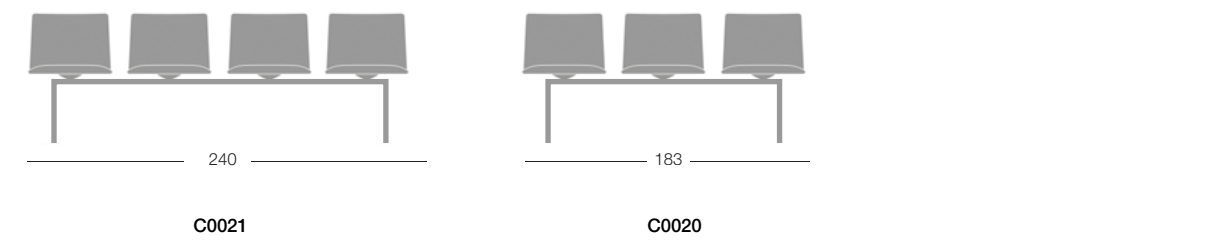

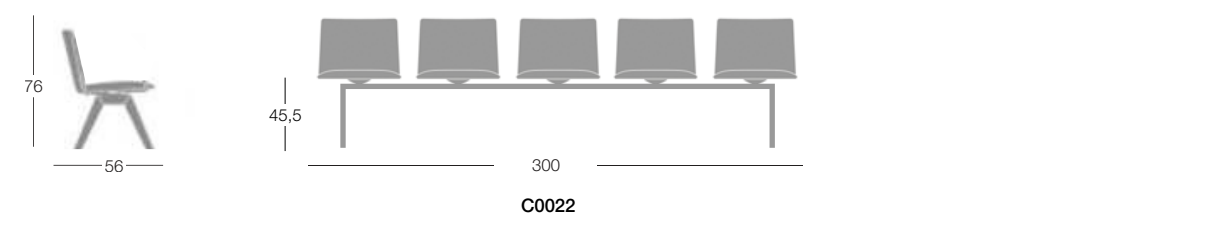

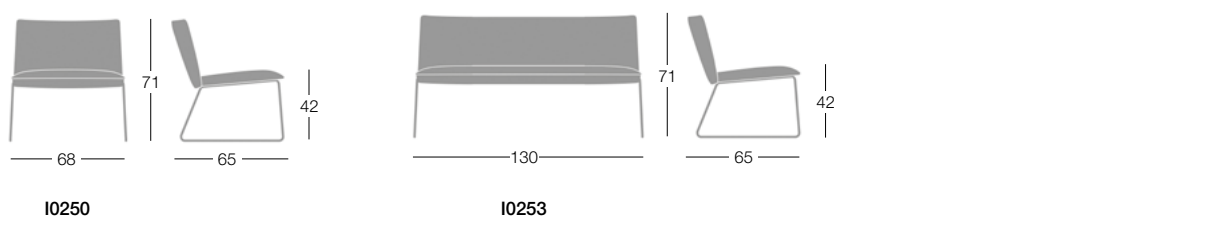

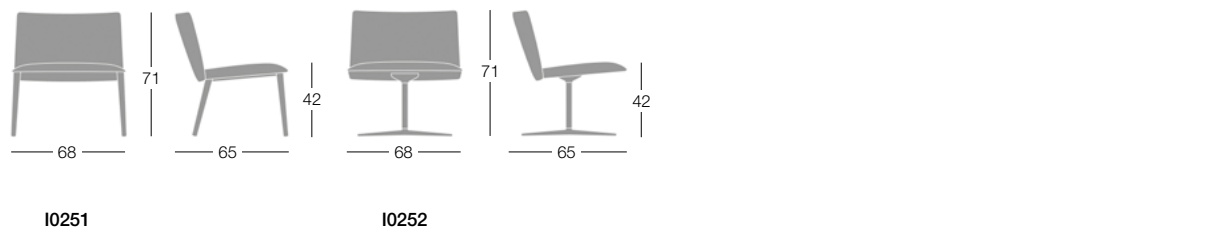

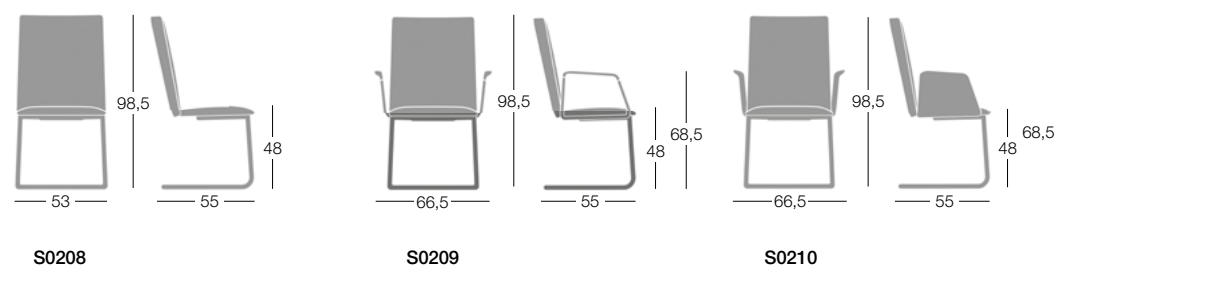

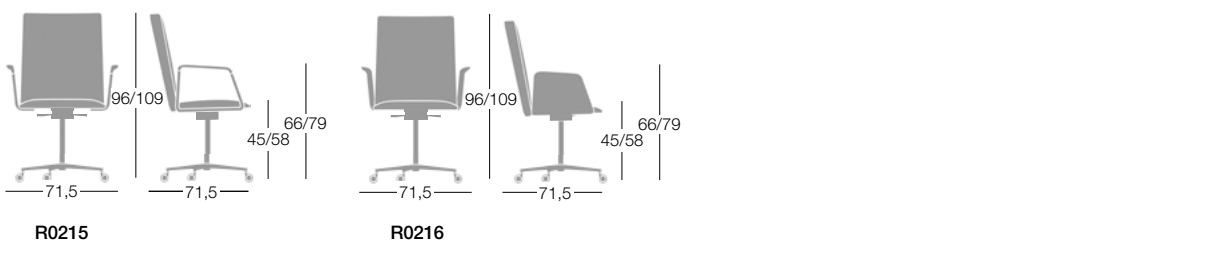

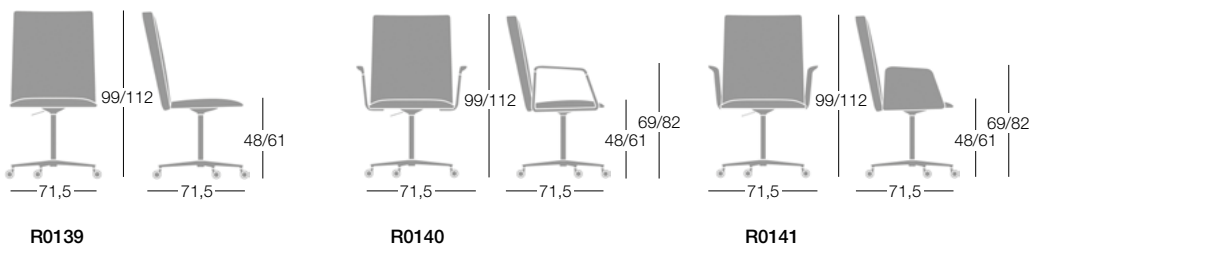

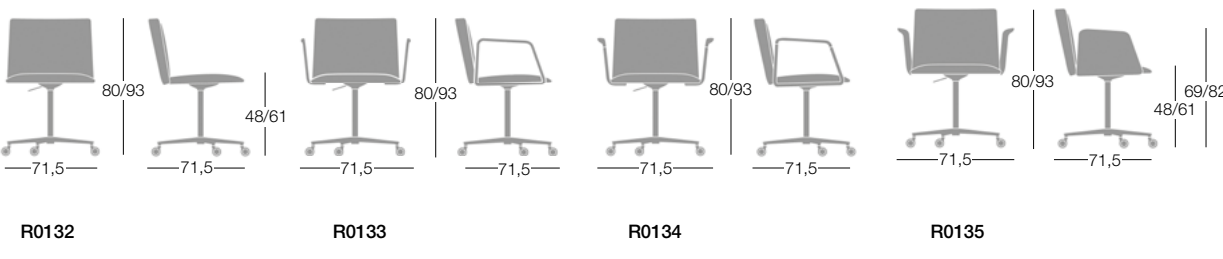

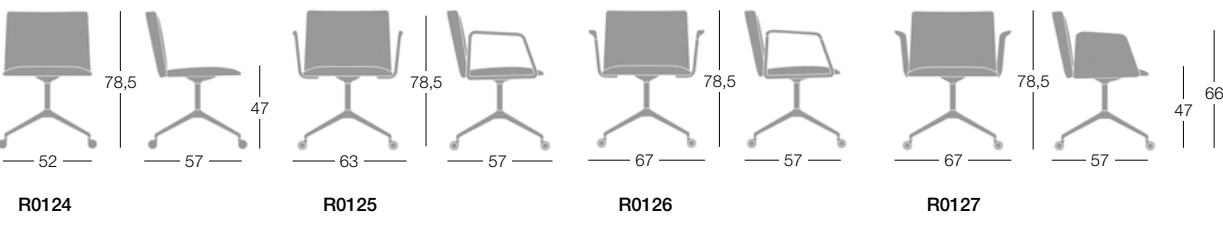

With a serene, light and subtle character, the Stamp collection brings an air of differentiation, authenticity and originality to architectural and interior design projects. The collection is a complete family of upholstered seats, composed of chairs, armchairs and stools that blend in naturally in public, professional and residential surroundings. Clean-lined, contemporary and timeless pieces that infuse a sophisticated mood in the places they inhabit. Creating visual levity. Its elegant and austere outline embraces an elaborate interior with a soft upholstery that invites the body to relax and put the mind to work. Conversations flow wrapped in the fusion of aesthetics and comfort. Greater versatility using fewer materials. The attention to detail in the Stamp collection expands from the design of its backrest and seat to its variety of legs, armrests, accessories and finishes, carefully considered to minimize the use of materials without compromising the high quality and gentle beauty of the object. Reduced environmental impact, in keeping with Segis' philosophy and management policy, as holders of a long list of certifications obtained over the years. Pieces that inspire serenity, a serenity that reveals character.

Avec son caractère serein, léger et subtil, la collection Stamp confère distinction, authenticité et originalité aux projets d'architecture et d'aménagement intérieur. La collection est une famille complète de sièges rembourrés, comprenant chaises, fauteuils et tabourets, qui trouvent tout naturellement leur place dans les environnements publics, professionnels et résidentiels. Des pièces aux lignes épurées, contemporaines et atemporelles qui créent une ambiance sophistiquée dans les lieux qu'ils habitent. Des objets qui suscitent une grande légèreté visuelle. Leurs lignes élégantes et austères embrassent un intérieur élaboré avec un rembourrage doux qui invite le corps à se détendre et l'esprit à se mettre au travail. Les conversations fluent naturellement dans un espace où esthétique et confort fusionnent. Une plus grande polyvalence en utilisant moins de ressources. Dans la collection Stamp, le soin du détail va de la conception du dossier et de l'assise, jusqu'aux piètements, accoudoirs, accessoires et finitions extrêmement variés, choisis avec attention en vue de limiter l'utilisation des matières, sans jamais compromettre la qualité et la beauté pure de l'objet. Un impact environnemental réduit, en accord avec la philosophie et la politique de gestion de Segis qui, année après année, a obtenu de nombreuses certifications. Des pièces qui inspirent la sérénité; une sérénité qui donne le ton.

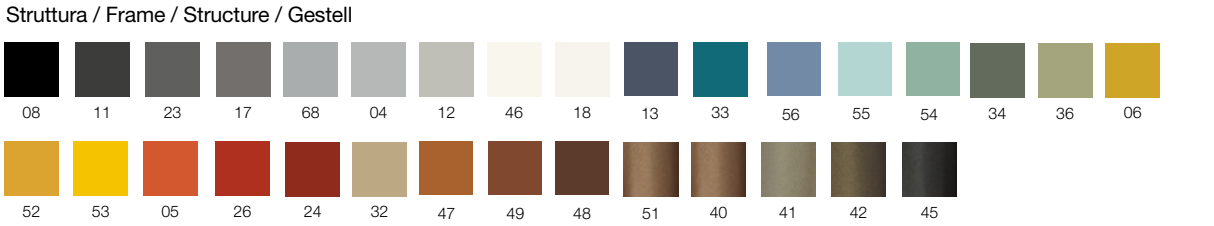

Mit ruhigem, leichtem und subtilem zartem Charakter verleiht die Stamp Collection Architektur- und Innenarchitekturprojekten Differenziertheit, Authentizität und Originalität. Stamp ist eine umfassende Kollektion gepolsterter Sitzgelegenheiten, die sich auf natürliche Weise in öffentliche Bereiche, Arbeitsräume und Wohnbereiche einfügen. Gerade Design, aktuell und zeitlos sorgen die Stühle, Sessel und Hocker der Stamp Collection für exklusive Atmosphäre. Visuelle Leichtigkeit. Die eleganten und einfacher Möbel mit weicher Polsterung laden den Körper zur Entspannung und den Geist zur Aktivität ein. Die Verschmelzung von Ästhetik und Komfort fördert den Gedankenaustausch. Mehr Vielseitigkeit durch bewusste Entscheidungen. Stamp ist Liebe zum Detail. Dies gilt für die Gestaltung von Rückenlehnen und Sitzschalen genauso wie für die große Auswahl an Beinen, Armlehne, Zubehörteilen und Ausführungen. Der bewusste Umgang mit Materialien gewährleistet hohe Qualität und sanfte Schönheit des Objekts. Umweltfreundlichkeit ein grundlegender Aspekt der Philosophie und Managementpolitik von Segis. Beleg dafür sind die zahlreichen, im Lauf der Jahre errungenen Zulassungen. Sitzgelegenheiten die Gelassenheit und Charakter vermitteln.

TO-BE

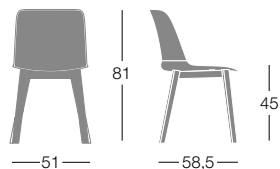

Archirivolto Design

Innovativa nei dettagli, To-Be è una seduta adatta ai più molteplici usi. Declinata in una selezione di finiture e varianti per una collezione completa, dal polipropilene al tessuto, dal legno al metallo per le basi, in grado di vestire situazioni molto diverse, dal contract alla casa, con uno stile sempre attuale.

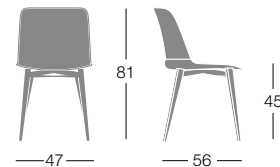

The innovative details of the To-Be collection enhance its ability to complement varied situations from contract to residential. A multitude of finishes and options complete the To-Be family of seating, both wood and metal bases with an evergreen style.

Innovateur dans les détails, To-Be est un siège qui s'adapte à de multiples utilisations. Décliné dans une sélection de finitions et de variantes pour une collection complète. Bois et métal, pour les structures, assises en polypropylène et revêtues, pour des univers allant du contract à la maison, le tout dans un style très actuel.

Die Innovation steckt im Detail: To-Be ist ein extrem vielseitiger Sessel. Erhältlich in einer großen Auswahl von Ausführungen und Varianten. Von Polypropylen bis zu Stoff über Holz bis Metall für die Sesselstruktur; stets präsentiert sich To-Be in einem zeitgemäßen Design und ist für den Objektbereich wie für den Wohnraum einsetzbar.

TO-BE OUTDOOR

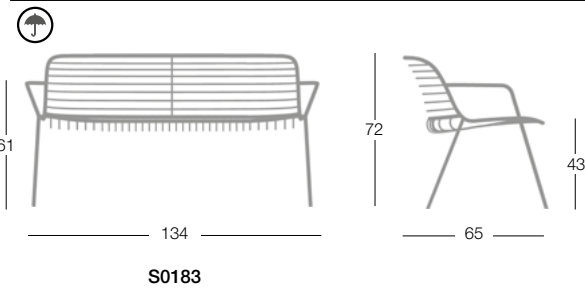

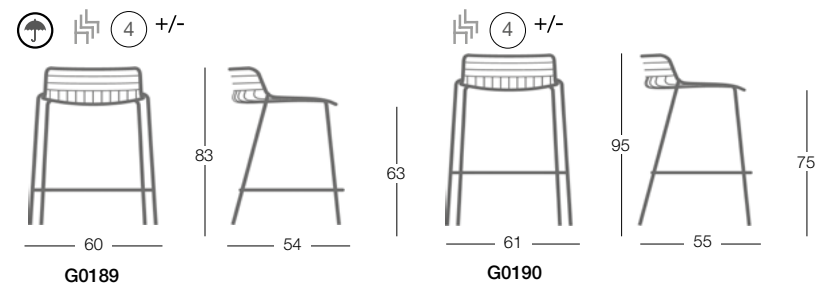

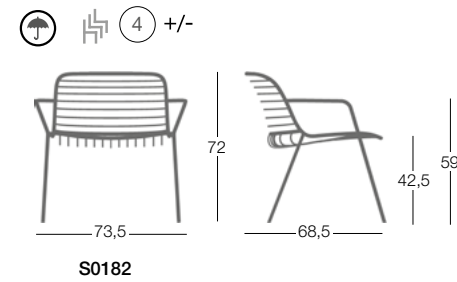

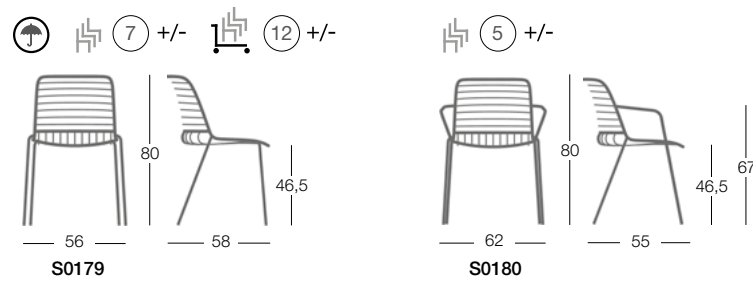

Archirivolto Design

To-Be Outdoor é uno stile classico e consolidato che segue le linee della seduta in polipropilene, privilegiando il comfort e la versatilità. Sedia con o senza braccioli, sgabello e lounge hanno linee estetiche funzionali ed essenziali che consentono di inserire questa seduta in ogni tipo di spazio all'aperto.

To-Be Outdoor is a classic and consolidated style which follows the lines of the original polypropylene shell, preserving comfort and versatility. Chair with or without armrests, stool and lounge have functional and essential aesthetic lines, that allow to furnish any type of outdoor space.

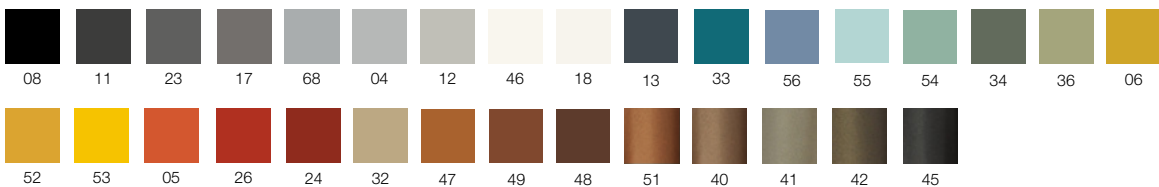

To-Be Outdoor est un style classique et consolidé qui suit les lignes de la coque originale en polypropylène, en préservant son confort et sa polyvalence. La banquette lounge 2 places, aux lignes esthétiques essentielles et fonctionnelles, complète la famille Outdoor.

To-Be Outdoor spiegelt einen klassischen und konsolidierten Stil, der den Linien der ursprünglichen Polypropylenschale folgt und gleichzeitig deren Komfort und Vielseitigkeit beibehält. Die ästhetische 2-Sitzer-Loungebank mit essentiellen und funktionalen Linien vervollständigt die Outdoor-Familie.

TRONO

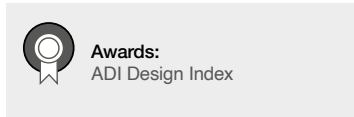

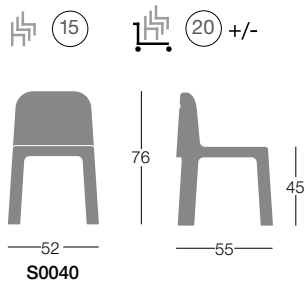

Sottsass Associati

Trono, ironica nel disegno e resistente nella struttura nasce da un progetto di Sottsass Associati. Realizzata in un'unica stampata di tecnopolimeri a forte spessore e adatta anche ai contract più impegnativi, può essere impilata fino a quindici pezzi.

Irony with high thickness. Born from a project of Sottsass Associati Design, it has an ironic design and a resistant structure. Made from a single injection of various technopolymers with a strong thickness, is suitable even for the most exciting situations. Trono is stackable, up to fifteen pieces.

Une fantaisie toute en solidité. Né d'un projet de l'étude Sottsass e Associati, Trono est à la fois amusant dans son design tout en étant résistant dans la structure. Réalisé en une seule injection de technopolymère à forte épaisseur, il est parfaitement indiqué pour un usage intensif. Trono est empilable, jusqu'à quinze pièces.

Ein Ein Stuhl mit doppelter Funktion. Aus dem Studio Sottsass Associati ist er ironisch und zugleich stabil im Design. Aus einem einzigen Spritzguss verschiedener Technopolymeren mit starker Dichte eignet er sich auch für anspruchsvolle Objekteinsätze. Trono ist bis zu fünfzehn Stück stapelbar.

UTS

Created by Segis' Research and Development Department, Twirl perfectly represents the company's style. This functional stool has a strong personality and is available in two heights. The molded polypropylene seat and steel rod or wood base make Twirl perfect for both industrial environments and those with a Nordic flavour. The seats are available in green, blue, red, white, anthracite or black and can be coordinated with the color-on-color metal base. Twirl is a stool that stands out in restaurant or café areas and is perfect in office and coworking break areas.

Twirl wurde von der Forschungs- und Entwicklungsabteilung von Segis entwickelt und repräsentiert perfekt den Stil des Unternehmens. Ein funktionaler Hocker mit starker Persönlichkeit, der in zwei Höhen erhältlich ist. Der Sitz besteht aus geformtem Polypropylen. Das Untergestell ist entweder in Stahl oder in Holz erhältlich. Der Hocker ist perfekt für eine industriell geprägte Umgebung und Ambiente mit nordischem Flair geeignet. Die Sitze sind in den Farben grün, blau, rot, weiß, anthrazit und schwarz erhältlich. Das Metallgestell kann farblich mit den Sitzen abgestimmt werden. Twirl ist ein Hocker, der in Restaurant- oder Cafébereichen hervorsticht und sich perfekt für Büro- und Coworking-Pausenbereiche eignet.

UNO

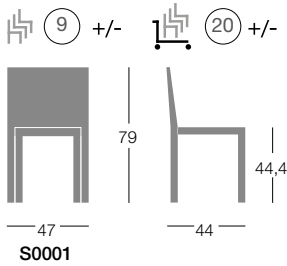

Bartoli Design, Fauciglietti Engineering

Sorprendente e innovativo mix di resistenza e comfort, Uno è il frutto di un preciso equilibrio di materiali, che le ha permesso di aggiudicarsi il XXI Compasso d'Oro. All'interno, una struttura in acciaio assicura la solidità dell'elemento, mentre un tecnopolimero elastico permette una comoda oscillazione dello schienale e una seduta estremamente confortevole.

Inventive, original surprising mix of resistance and comfort, the result of a precise balance of materials, lives in the Uno chair which won the XXI Compasso d'Oro. Inside, a steel frame ensures solidity, while an elastic technopolymer allows a fluctuation of the backrest and comfortable seat.

Mélange surprenant de résistance et de confort, résultat d'un équilibre précis entre les matériaux, la chaise Uno a gagné le XXI Compasso d'Oro. Sa structure en acier assure la solidité, tandis que son technopolymère élastique garantit un basculement confortable du dossier et son confort.

Eine überraschende Mischung aus Beständigkeit und Komfort, Ergebnis einer genauen Balance von Materialien. Dank dieser Tatsache gewann UNO den Compasso d'oro XXI. Das Innenleben aus Stahl sorgt für Stabilität, während sich das flexible Technopolymer dem Körper anpasst und somit ein bequeme.

AGORÀ / AGORÀ DOUBLE

Cisotti & Laube

AGORÀ
Oltre alla collezione di imbottiti, Agorà comprende una versatile serie di tavolini in metallo verniciato che, in virtù delle varie altezze e dimensioni, risulta facilmente collocabile nei contesti più disparati, sia in abbinamento all'omonima gamma sia in abbinamento ad altri pezzi.

AGORÀ DOUBLE
Il nuovo tavolino della famiglia Agorà si ispira al mondo dell'origami e al delicato fascino della leggerezza e ne esalta il concetto, raddoppiandolo. Due piani di appoggio in un oggetto unico e multifunzionale.

AGORÀ
Agorà, a versatile collection of tables in powder coated steel that, thanks to its heights and dimensions, can be easily placed in different contexts together with Agorà upholstered seating or in combination with other lounges.

AGORÀ DOUBLE
The Agorà family presents a new member inspired by the world of origami, doubling it. Two tops in a single, multi-functional table.

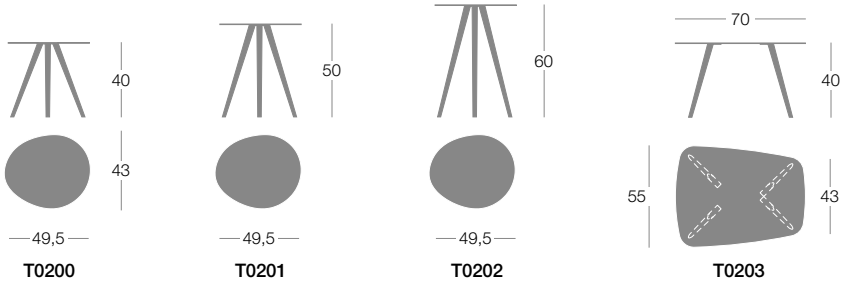

AGORÀ
En complément de la collection d'assises rembourrés, Agorà propose une série de tables en métal en différentes hauteurs et dimensions permettant de s'adapter à tout type de besoin, que ce soit avec les assises de la collection ou avec d'autres gammes.

AGORÀ DOUBLE
La nouvelle table de la famille Agorà s'inspire du charme délicat et de la légèreté de l'origami. Elle vient enrichir le concept en le doublant. Deux plateaux pour une table multifonctionnelle.

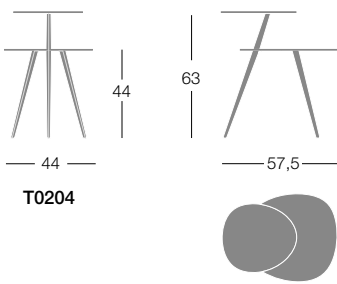

AGORÀ
Neben der Kollektion von Polstermöbeln umfasst Agorà eine vielseitige Serie von Tischen aus epoxylackiertem Metall, passend zu jedem Ambiente und Stil.

AGORÀ DOUBLE
Der neue Tisch der Familie Agorà besticht mit seiner, von der Origami-Kunst inspirierten, filigranen Leichtigkeit, welche durch die Verdoppelung der Struktur eine Steigerung erfährt. Zwei Tischplatten vereint in einer multifunktionalen Lösung.

ARTFUL

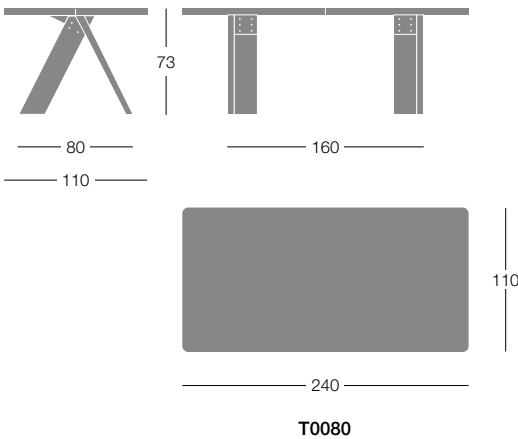

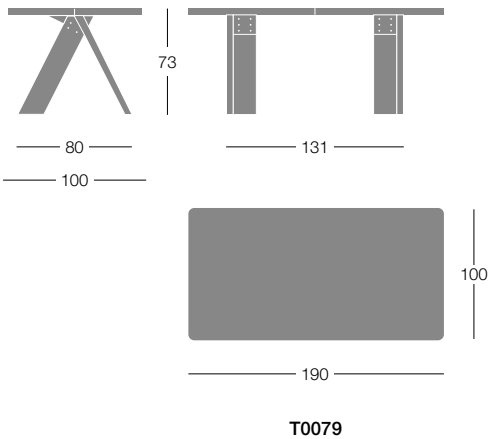

Massimiliano Mornati

Tavolo dalle linee essenziali e rigorose, è frutto di un'attenta ricerca di design. Si distingue, infatti, per l'originale concetto di composizione delle gambe, in rovere massello, disposte perpendicolarmente e ad angolo in modo da suggerire una condizione di circolarità che amplifica la leggerezza complessiva del pezzo. Disponibile in 2 diverse dimensioni è ideale sia per ambienti professionali sia per living e spazi residenziali.

Table with essential and rigorous lines stands out for its original legs composition. These are arranged perpendicularly as well as at an angle, suggesting a circularity that amplifies the overall lightness of the piece. Available in 2 different dimensions, Artful is perfect for both corporate meeting spaces and residential living areas.

Cette table aux lignes pures et rigoureuses est le fruit de recherches intenses. Elle se distingue, en effet, par l'originalité de son piétement, en chêne massif, disposé perpendiculairement et incliné de manière à suggérer une impression de mouvement afin de donner plus de légèreté à la pièce. Disponible en 2 dimensions, cette table est idéale pour les espaces professionnels mais aussi pour les espaces résidentiels.

Eine puristische Linie mit origineller Beinstellung zeichnet diesen Tisch aus. Die Beine aus Massiveiche, senkrecht placiert suggerieren Leichtigkeit. Verfügbar in 2 Massen. Artful ist ideal sowohl im Objektbereich, als auch für den privaten Wohnbereich.

ARTFUL IRON

Massimiliano Mornati

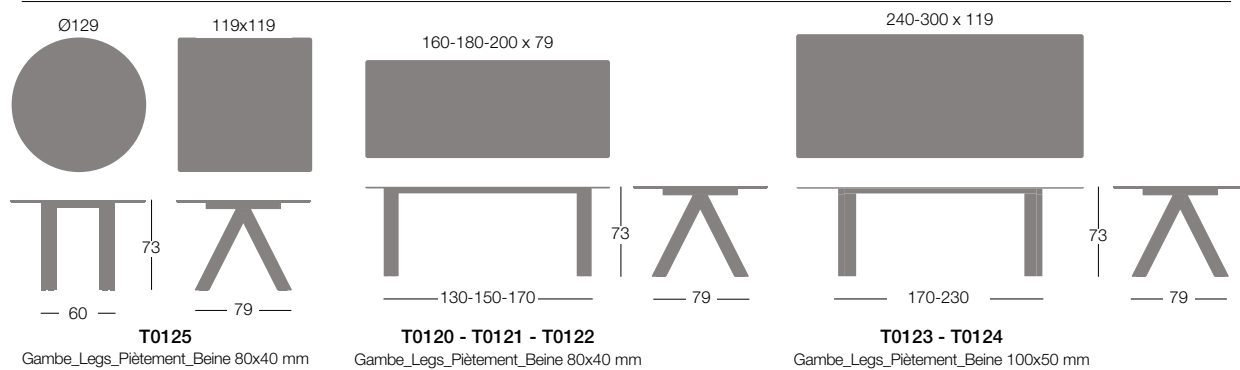

Il tavolo Artful Iron coniuga l'unicità e complessità compositiva di Artful, declinandolo in un'intera collezione di tavoli perfetta per il mondo ufficio. Dalla versione scrivania fino al formato da sala riunioni presidenziale, il tavolo Artful Iron si distingue per l'eleganza la leggerezza del disegno e resistenza. La base è in metallo verniciato e supporta piani in diverse finiture accessorabili con un discreto top access per facilitare il collegamento dei dispositivi elettronici all'impianto elettrico.

The Artful Iron table combines the uniqueness and compositional complexity of Artful, expanding it into an entire collection of tables perfect for the office world. From the desk version to the presidential meeting room format, the Artful Iron table stands out for its elegance, lightness of design and resistance. The powder coated metal base supports tops in different finishes and can be accessorised with a discreet top access to facilitate the connection of electronic devices to the electrical system.

La table Artful Iron allie l'unicité et la complexité de composition d'Artful, en la déclinant dans une collection entière de tables parfaites pour le monde du bureau. De la version bureau au format salle de réunion présidentielle, la table Artful Iron se distingue par son élégance, sa légèreté et sa résistance. La base est en métal peint et supporte les plateaux de différentes finitions qui peuvent être accessorisés par un discret top-access pour faciliter la connexion des appareils électroniques au système électrique.

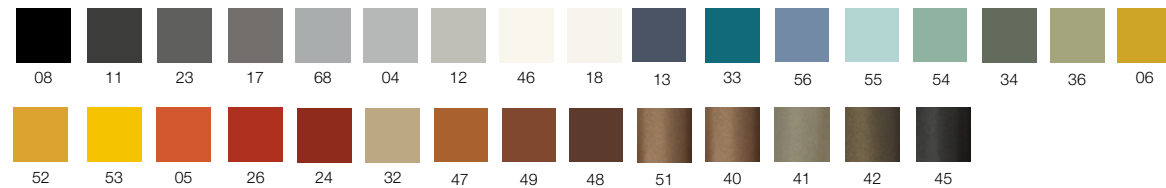

Der Artful Iron-Tisch verbindet die Einzigartigkeit und kompositorische Komplexität von Artful und erweitert ihn zu einer ganzen Tischkollektion, die perfekt für die Arbeitswelt geeignet ist. Geeignet als Schreibtisch bis zum Konferenztisch für die Geschäftsleitung zeichnet sich der Artful Iron-Tisch durch seine Eleganz, Leichtigkeit im Design und Robustheit aus. Der Sockel ist aus lackiertem Metall und kann mit Tischplatten in verschiedenen Ausführungen, die mit einem diskreten Zugang von oben ausgestattet werden können, um den Anschluss elektronischer Geräte an das elektrische System zu erleichtern, bestückt werden.

BOOM COLLECTION

U.T.S

Boom riunisce in un'unica collezione gli iconici tavolini nella loro versione "Round", "Square" e "Rectangular". Base, colonna e piano possono essere circolari, quadrati e combinarsi fra loro senza vincoli. I piani, disponibili in vari materiali e dimensioni, si abbinano a una struttura in acciaio ad alta resistenza, verniciata gofrata oppure cromata. Disponibile in varie altezze, Boom, per le sue caratteristiche di essenzialità e funzionalità, è l'ideale per uno spazio performante e confortevole.

Boom collection brings together in a single series the iconic tables in their round, square and rectangular versions. Base, column and top can be round or square and combine with each other without constraints. Tops are available in various materials and sizes; bases and columns in high-strength steel may be in powder coat, chrome, or brushed stainless. Essential and extremely functional, Boom is perfect for both performing and comfortable spaces.

La collection Boom réunit en une seule collection de structures de tables rondes, carrées et rectangulaires. La base, la colonne et le plateau peuvent être ronds ou carrés et on peut les mélanger à l'infini. Les plateaux, disponibles en différents matériaux et dimensions, sont associés à une structure en acier haute résistance, avec finition gaufrée ou chromée. La collection Boom "sobre et fonctionnelle" est idéale pour un espace performant et confortable.

Die ikonische Tischkollektion Boom umfasst runde, quadratische und rechteckige Fussgestelle. Diese können problemlos miteinander kombiniert werden. Passend zu den Gestellen aus widerstandfähigem Stahl, pulverbeschicht oder verchromt, sind Platten in verschiedenen Größen und Materialien. Boom ist der ideale Tisch für jeden Raum.

COMPASSO

Orlandini Design

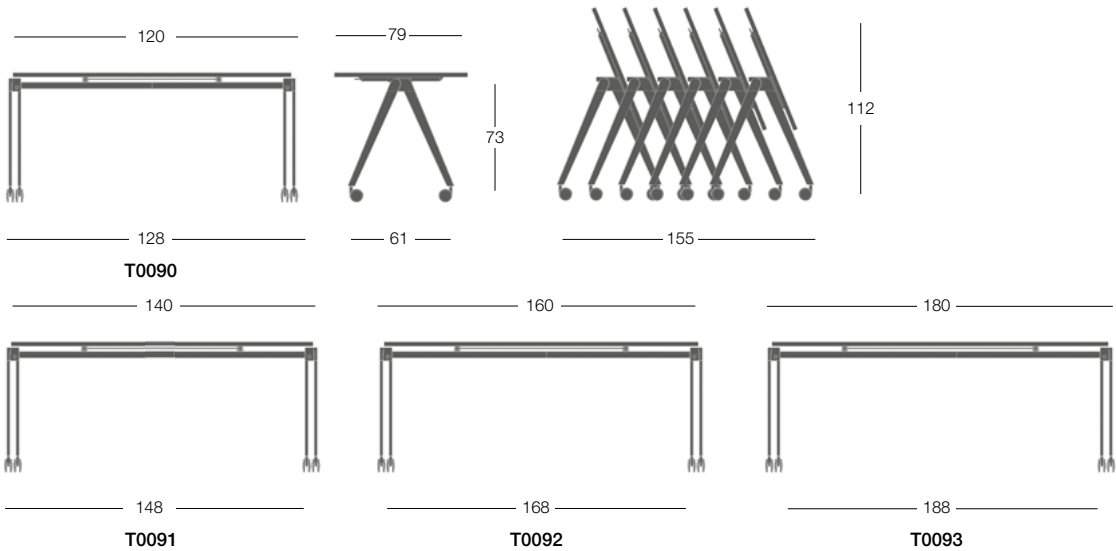

Il tavolo, multifunzionale e configurabile per uso individuale o collettivo, si ispira alla forma del compasso, che gli dona un aspetto leggero, quasi etereo ma al tempo stesso bilanciato nei pesi e nelle proporzioni. Il piano risulta in bilico sul vertice delle gambe, un equilibrio apparentemente precario che rivela invece una estrema solidità strutturale.

The Compasso table is inspired by the shape of the compass, that gives the table a light, almost ethereal appearance, but at the same time balanced in weight and proportions. The tabletop is sitting on the vertex of the legs, an apparently precarious balance that instead reveals extreme structural solidity. The supporting structure, made with iron legs, has in its aluminium joint the real characterizing element of the table, technology and aesthetics that combine for a solid and elegant structure.

La table Compasso , s'inspire de la forme de la boussole, ce qui lui donne un aspect léger, presque éthéré mais en même temps équilibré en poids et en proportions. Le plateau est quasi en équilibre sur le sommet des pieds, un équilibre apparemment précaire qui révèle au contraire d' une extrême solidité structurelle. La structure portante, réalisée avec des pieds en métal, est le véritable élément caractéristique de la table avec le joint en aluminium qui les relie; technologie et esthétique qui s'unissent pour une structure solide et élégante.

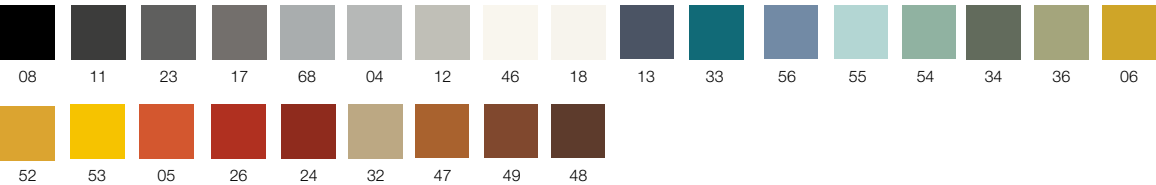

Der Tisch, multifunktional und konfigurierbar für den individuellen oder kollektiven Gebrauch, ist von der Form des Kompasses inspiriert, die ihm ein leichtes, fast ätherisches, aber gleichzeitig ausgewogenes Aussehen hinsichtlich Massen und Proportionen verleiht. Die Platte ruht auf dem Scheitel der Füße, ein scheinbar prekäres Gleichgewicht, das hingegen eine extreme strukturelle Festigkeit offenbart.

EASY BOY / EASY BOY SMART

Bartoli Design

Y-BOY

UTS Design

EASY BOY / EASY BOY SMART
Easy Boy è un tavolino versatile, adatto a tutte le situazioni in cui è utile disporre di un appoggio stabile. Solido, grazie alla struttura in acciaio, ha una forma morbida e misure pensate appositamente per essere accostato a poltrone e divani. Disponibile in tre altezze e una variante con tripla presa USB. Finiture in vari colori, dai più sobri ai più vivaci.

EASY BOY / EASY BOY SMART
Easy Boy is the table for every environment where it is useful to have a stable support. Solid steel frame with a soft shape and dimensions designed specifically to be combined with armchairs and sofas. Available in three heights and a version with a push 3-USB socket in various colours, from the most sedate to the most lively.

EASY BOY / EASY BOY SMART
Easy Boy est la table parfaite pour répondre aux besoin d'un support stable. Sa structure en acier très solide vient compléter sa forme très douce. Ses dimensions s'adaptent parfaitement avec des fauteuils et des canapés. Disponible en différentes hauteurs et une variante avec prise USB. Couleurs des plus sobres aux plus vives.

EASY BOY / EASY BOY SMART
Easy Boy ist ein vielseitiger Beistelltisch für alle Anlässe, in denen eine stabile Stütze nützlich ist. Solide, dank der Stahlstruktur, weist er eine geschmeidige Form und Maße auf, die speziell für die Kombination mit Sesseln und Sofas entwickelt wurden. Erhältlich in drei Höhen und einer Variante mit dreifachem USB-Anschluss. Ausführungen in verschiedenen Farben, von den nüchternsten bis zu den lebhaftesten.

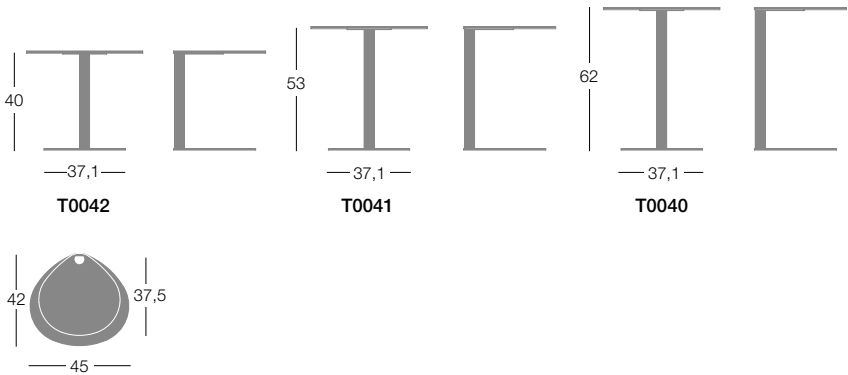

Y-BOY
La versione Y-Boy permette di avvicinare perfettamente il tavolino al divano o alla poltrona grazie alla scanalatura che caratterizza la base in acciaio.

Y-BOY
A grooved steel base allows Y-Boy to be moved closer to the sofa or armchair.

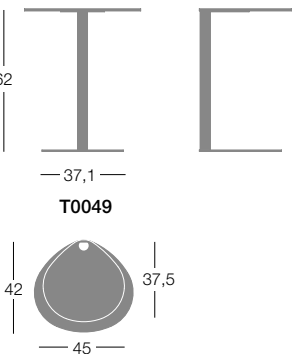

Y-BOY
La forme de la base permet de rapprocher Y-Boy du canapé ou du fauteuil.

Y-BOY
Die Version „Y-Boy“ ermöglicht es, den Beistelltisch dank der Nut, die die Stahlbasis kennzeichnet, perfekt an das Sofa oder den Sessel heranzuführen.

JUXT

UTS

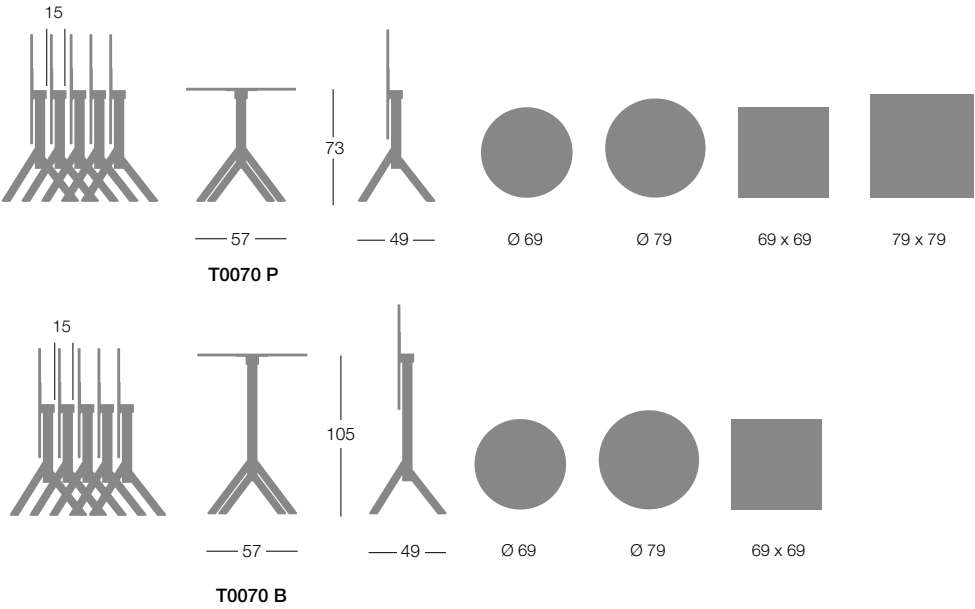

La base solida e il piano ribaltabile fanno di Juxt un sistema di tavoli ideale per spazi mutevoli, che si aprono e si ritirano a seconda delle ore del giorno. Le strutture accostabili rendono il tavolino ancora più maneggevole e la possibilità di scegliere tra diversi piani, ne fanno un prodotto eclettico e versatile.

Solid base and folding top make Juxt ideal for spaces where tables need to be opened then closed for storage. A versatile product, it can be stacked and has the option of either square or round top.

De par sa base solide et son plateau rabattable, Juxt est un système de structure de table idéal pour les espaces flexibles suivant l'heure de la journée. Les structures empilables rendent la table encore plus flexible et la possibilité de choisir entre différents plateaux, carrés ou ronds, en font un produit parfaitement polyvalent.

Stabile Struktur mit einer seitlich klappbarer Platte JUXT ist ideal für Räume, wo man Tische nach dem Gebrauch lagern möchte. Ein vielseitiges Produkt seitlich ineinander platzsparend anreihbar mit runden oder rechteckigen Platten.

AGORÀ

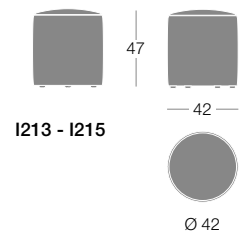

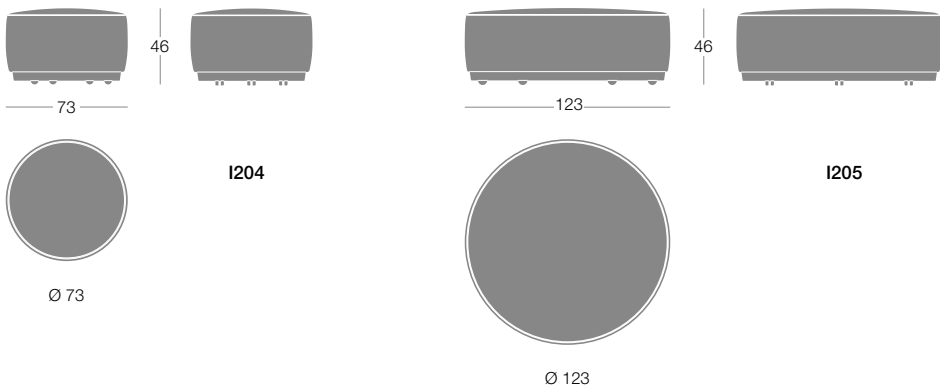

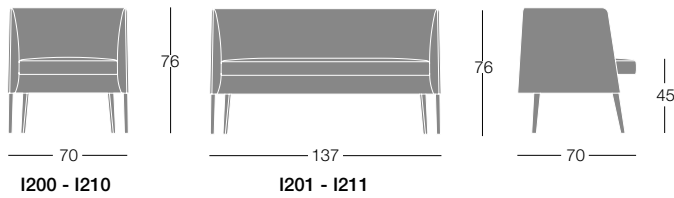

Cisotti & Laube

Agorà, luogo della socialità per antonomasia, è l'idea che ispira questa collezione di elementi concepiti per trasformare i moderni spazi pubblici in ambienti di incontro. Molteplici imbottiti, dalla poltrona, al divano, al pouf con o senza ruote, ai tavolini per creare situazioni molto diverse tra loro, tutte accomunate dalla necessità di definire un ambiente capace di stimolare riflessioni e suggerire relazioni.

Agorà, the center of city's life, is the inspiring idea of an upholstered seating collection designed to transform modern public spaces in a meeting environment. Multiple pieces, from the armchair to the sofa, bench, ottoman (with and without castors) and tables create pleasurable environments by creating comfortable waiting and meeting spaces stimulating relationships.

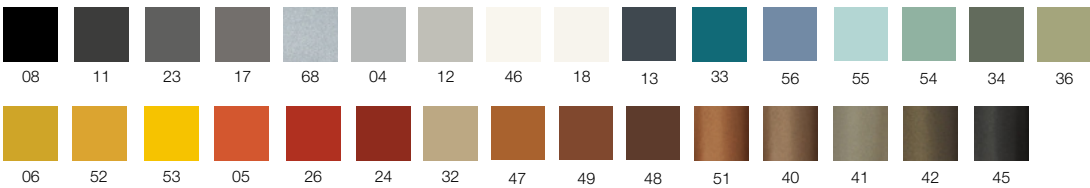

Agorà, le lieu où se retrouver et partager le plaisir d'être ensemble, s'incarne dans une série de rembourrés qui réinterprètent l'idée de la zone lounge au travers de canapés, fauteuils, poufs et tables. Agorà est une sorte de microcosme où le partage des petites joies du quotidien. Devient possible comme une simple conversation en favorisant la convivialité.

Agorà. Mitten im Leben, ist die Idee eine Polsterkollektion zu entwerfen, die moderne öffentliche Räume in private Treffpunkte verwandelt. Sessel, Sofa, Hocker mit Tischen schaffen angenehme Warte- und Treffpunkte.

HAMMER-M/L

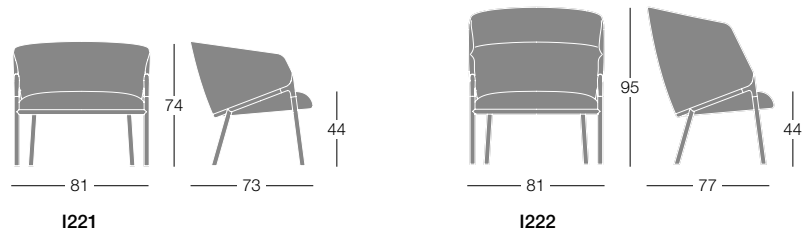

Favaretto & Partners

Il giunto in alluminio pressofuso che unisce gambe anteriori e struttura circolare, crea un dettaglio di un tale impatto formale da ispirare il nome di un'intera collezione di sedute. Hammer è, infatti, una poltrona lounge, con schienale alto o basso. Nelle sue varianti dimensionali e di finiture risulta perfetta per gli ambienti più diversi, dalla casa al contract, dalla camera d'albergo alla sala riunioni. Un elemento di grande eleganza adatto ad ogni situazione.

A die-cast aluminum element joins the front legs and circular structure; a detail that for its originality and appeal inspires the name of the collection. The Hammer lounge chair is available with a low or high back thus fulfilling synergistic needs. Its variety makes it perfect for any environment, from contract to home, from hotel room to meeting room... elegant in every situation.

Un joint en aluminium moulé sous pression relie les pieds avant et la structure circulaire, et la puissance d'évocation de ce détail (en forme de marteau) donne son nom à la collection toute entière. Élégant en toutes situations, Hammer est un fauteuil lounge avec dossier bas ou haut, et qui par ses nombreuses dimensions et finitions s'intègre dans tous les espaces: du résidentiel le plus classique à l'environnement contract et tertiaire des plus exigeants.

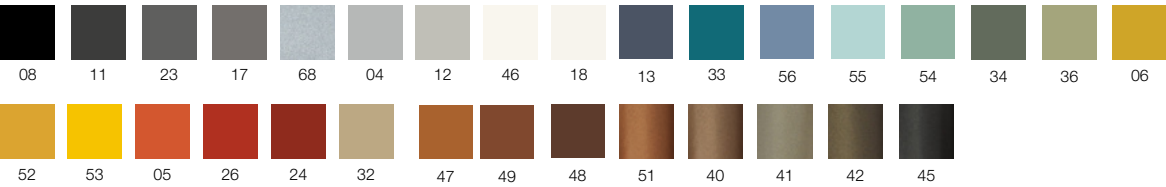

Auf das Detail kommt es an ein Element aus Aludruckguss verbindet Vorderbeine mit der runden Struktur; ein Detail in markanter Form, das einer ganzen Kollektion den Namen gibt. Hammer ist ein kleiner Sessel, der in vielfältigen Ausführungen perfekt in verschiedene Umgebungen passt. Für Heim und Objekt, für Hotelzimmer bis hin zum Besprechungsraum. Elegant in jeder Situation.

HOTEL

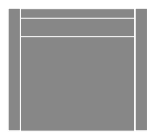

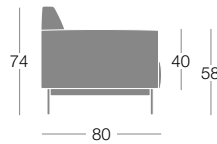

Cisotti & Laube

Hotel è un sistema di imbottiti caratterizzato da una forte versatilità espressiva, nato per dar vita a combinazioni fluide, lineari o angolari. Una proposta di sedute poliedriche che si snodano nello spazio all'insegna della massima personalizzazione. Oggetti dal taglio impeccabile per assaporare pienamente il relax, ma al contempo aperti all'incontro e all'emozione della convivialità. Si compone di un divano da due o tre posti e una poltrona con tre tipologie di braccioli: bracciolo imbottito in due varianti (7 e 14 cm) e bracciolo tavoletta per l'uso del computer o altro. Tavolini di raccordo e tavolini di appoggio completano la collezione.

Hotel is a modular seating system characterized by a strong expressive versatility conceived for fluid, linear and angular combinations. Comfortable pieces designed for enjoyable relaxation and conviviality. The collection includes two and three seater sofas plus an armchair; armrest options include an upholstered armrest in two sizes (7- 14 cm) and a tablet arm for computer or other support. Joining tables between the seats or multifunctional tables complete the collection.

Hôtel est un système d'assises rembourrées très polyvalent qui offre de multiples combinaisons en linéaire mais aussi en angle. Le produit peut donc être personnalisé à l'infini. Son design parfait permet à la fois de se détendre sans être dérangé mais aussi de rester ouvert aux rencontres et de créer de la convivialité. Le système se compose d'un fauteuil et d'un canapé deux ou trois places avec des accoudoirs rembourrés en deux variantes (7-14 cm) ou des tablettes-accoudoirs servant d'appui pour poser un ordinateur ou autre. La collection est également enrichie de tables de connexion et de tables d'appoint.

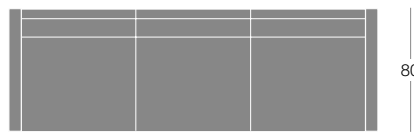

Hotel ist ein Modularsystem mit einem starkem Ausdruck in der Vielfalt, entworfen um Zusammenstellungen über Eck oder gerade zu ermöglichen. Objekte vom tadellosem Design, um Relaxmomente zu genießen, auch für Treffpunktbereiche geeignet. Es besteht aus einem Sofa, 2-sitzer oder 3-sitzer und einem Sessel mit drei Armlehnvarianten: (7 und 14 cm) und eine Armauflage für Tablet oder PC. Tischablagen zwischen den Elementen und Multifunktions-tische ergänzen diese Kollektion.

HOTEL

LONGWAY

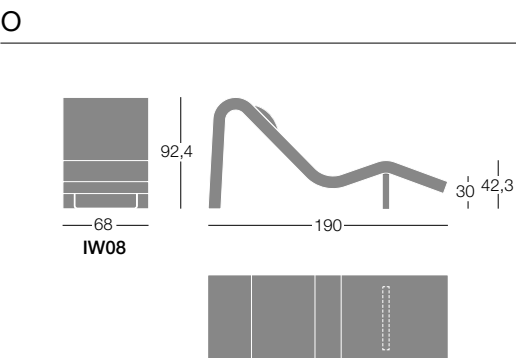

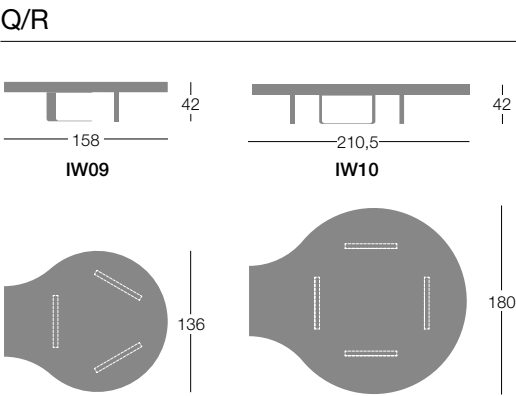

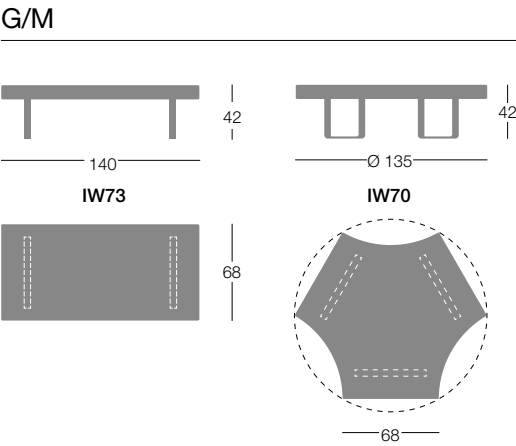

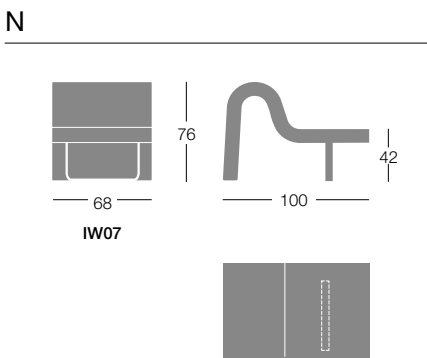

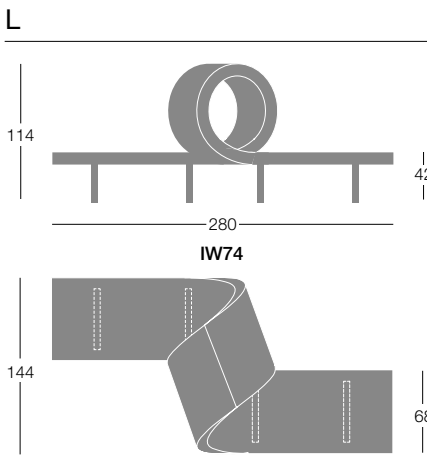

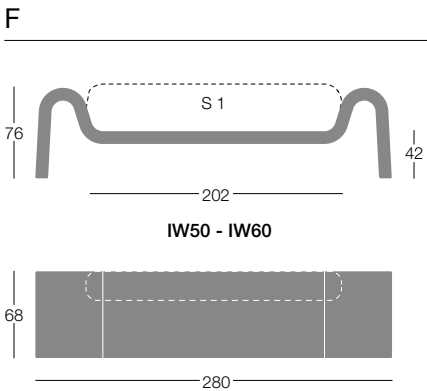

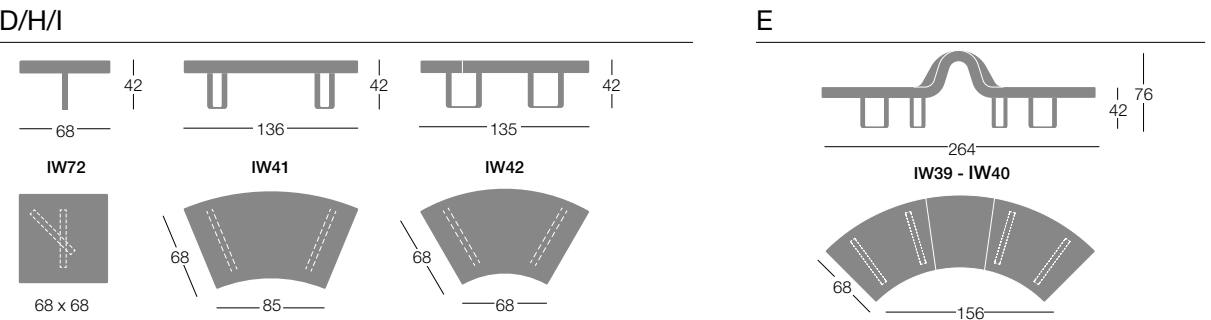

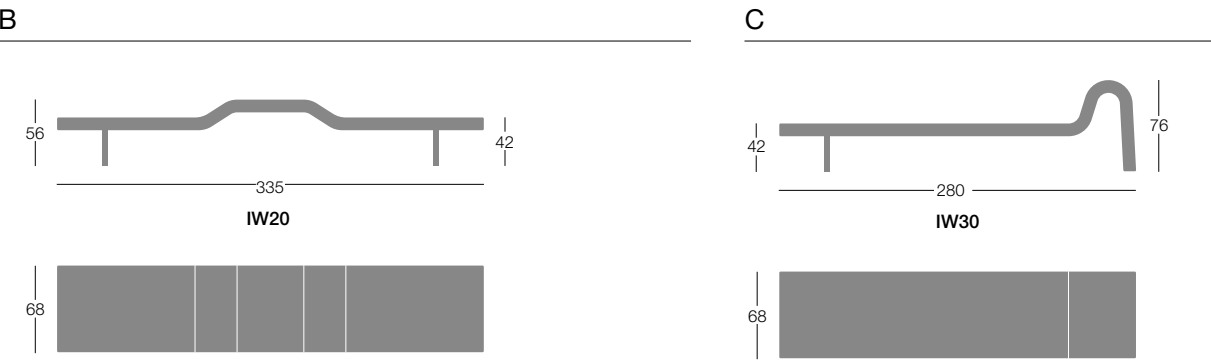

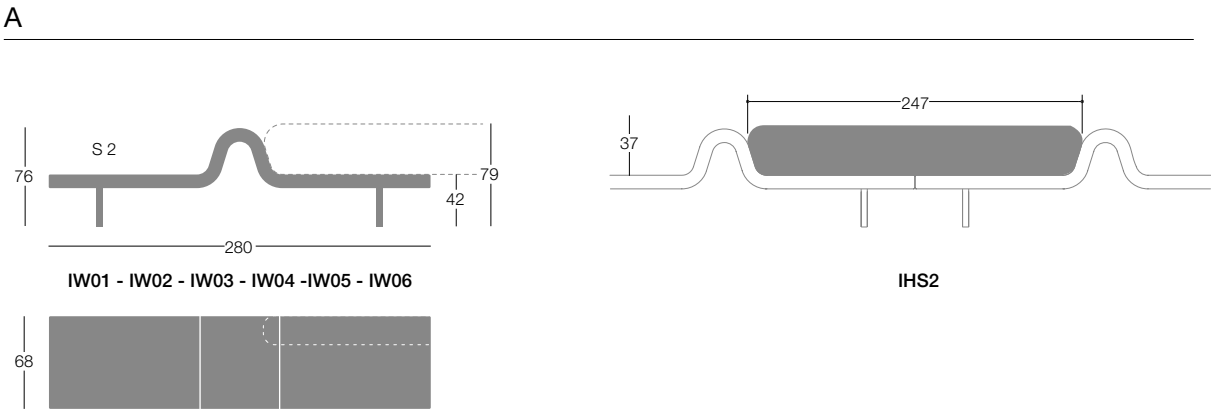

Bartoli Design

Alla base di Longway l'idea di un nastro sinuoso e solido che disegna un'intera collezione di imbottiti, composta da pezzi molto vari ma contrassegnati da uno stile unico. Forme sottili e comode, da disporre in illimitate combinazioni, consentono di rispondere a molteplici esigenze di layout. Il sistema prevede, infatti, imbottiti singoli e componibili: panche, divani e tavolini a formare isole o composizioni lineari, angolari e curve. Perfetto per zone di sosta o di transito, spazi espositivi e luoghi semi-pubblici come elemento di attesa, relax e riunioni informali.

Longway is a sinuous and sturdy ribbon that designs an entire collection of modular upholstered seating, made of very different pieces of a unique style. Slender and comfortable shapes allow limitless compositions for multiple layout needs. The collection includes single and modular elements: benches, sofas and tables that form islands of linear, angular and curving configurations. Ideal for contract environments such as lobbies, waiting rooms, exhibition spaces, universities, shopping centers, airports, and large open spaces in many locales.

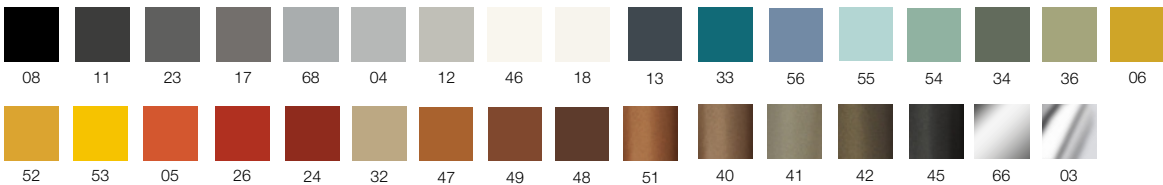

Longway est une collection d'assises rembourrées composée de modules aux formes très variées et au design original permettant de créer un "ruban sinueux et solide". Son design minimaliste et ses assises confortables permettent de proposer des combinaisons à l'infini. Le système prévoit des modules rembourrés indépendants ou reliés entre eux: banquettes, canapés et tables basses. Tout cela dans le but de former des îlots ou bien des compositions linéaires, angulaires ou courbes. Longway est parfaitement adapté aux environnements contractuels: halls, salles d'attente ou lieu de fort passage. Dans des espaces d'exposition et des lieux semi publics, il répond à des besoins de détente, de relaxation et peut même s'adapter à des réunions informelles.

Die Form eines Bandes zeichnet eine ganze Kollektion von Polsterelementen aus, einzigartig und vielfältig. Schmale und bequeme Formen, die eine endlose Gestaltungsmöglichkeit für unterschiedliche Bereiche bieten. Die Kollektion besteht aus Einzel oder Modulelementen, Bänken, Sofas und Beistelltischen, um Inseln, gerade Formen, Ecken und Kurven zu konfigurieren. Ideal für den Objektbereich, Wartebereiche aller Art, Ausstellungsräume, Universitäten, Shopping Center, Flughäfen, grosse Räumlichkeiten.

SKYLAN

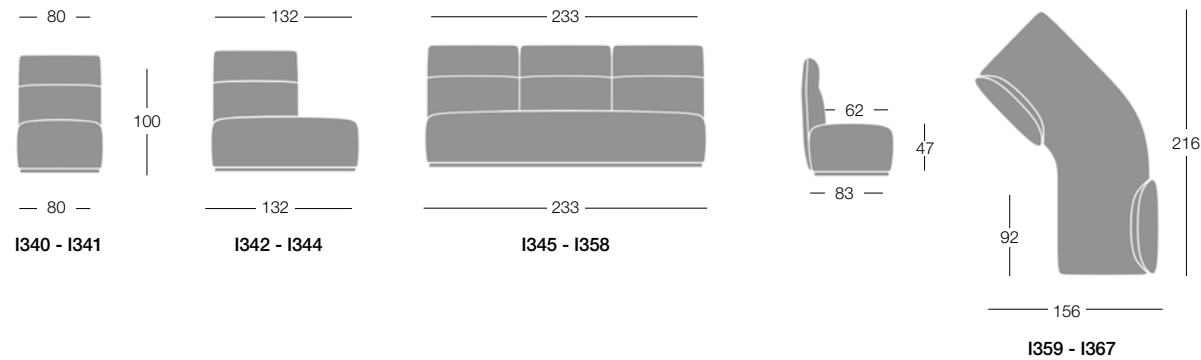

Altherr Désile Park

Skylan rappresenta un nuovo tipo di design nel "soft seating". Concepito come un sistema di panche semplice ma versatile, Skylan crea atmosfere aperte e invitanti negli spazi contract. Imbottiture visibilmente morbide e schienali generosamente proporzionati possono essere configurati per suggerire spazi individuali o luoghi in cui sedersi insieme. Le singole unità creano bellissime isole private in spazi di transizione, mentre i moduli più grandi possono essere collegati per aree di attesa o atri spaziosi.

Skylan represents a new kind of architecture in soft seating. Conceived as a simple yet versatile soft bench system, Skylan creates open and inviting atmospheres in contract spaces. Visibly soft upholstery and generously proportioned backrests can be configured to suggest individual spaces or places to sit together. Individual units make wonderful private islands in transitional spaces, whereas larger modules can be connected for waiting areas or spacious atriums.

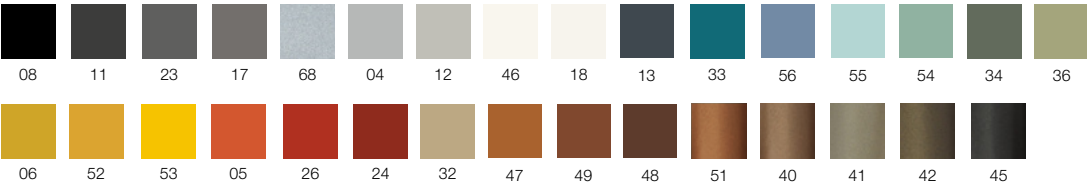

Skylan représente un nouveau type de design dans les "soft seating". Conçu comme un système de banquettes simple mais polyvalent, Skylan crée des atmosphères ouvertes et invitantes dans les espaces contractuels. Un rembourrage visiblement doux et des dossiers aux proportions généreuses peuvent être configurés pour suggérer des espaces individuels ou des endroits où s'asseoir ensemble. Les modules individuels créent de beaux îlots privés dans des espaces de transition, tandis que des modules plus grands peuvent être connectés pour des zones d'attente ou des halls spacieux.

Skylan steht für eine neue Art von Design im Bereich „weicher Sitzgelegenheiten“. Als einfaches, aber vielseitiges Banksystem konzipiert, schafft Skylan offene und einladende Atmosphären in Contract-Bereichen. Sichtbar weiche Polster und großzügig dimensionierte Rückenlehnen lassen sich so konfigurieren, dass sie individuelle Umgebungen oder Orte zum Zusammensitzen schaffen. Einzelne Einheiten schaffen schöne private Inseln in Übergangsbereichen, während größere Module für geräumige Wartebereiche oder Lobbys verbunden werden können.

STEAK&STILTON

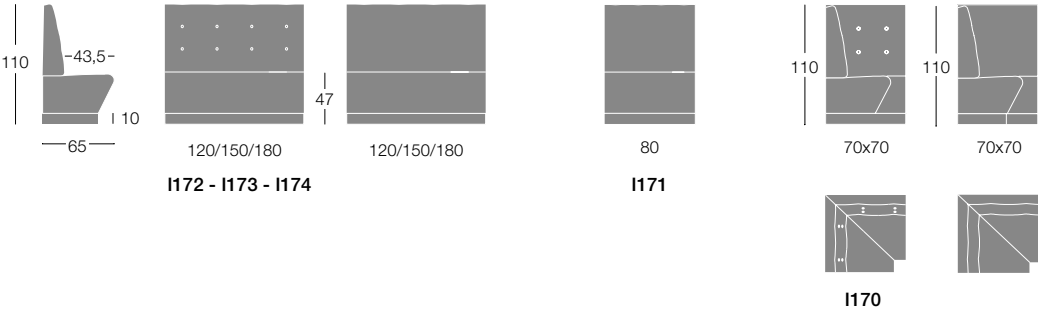

Carlo Bimbi

Steak & Stilton, è un sistema di sedute che si ispira all'atmosfera dei caffè parigini e delle più moderne tavole calde, sintetizzando un'interessante mix di influenze internazionali senza tempo. Versatile, con le sue forme ad angolo o lineari, consente di organizzare lo spazio creando situazioni diverse, dalle più raccolte a quelle più aperte. Se rivestito capitonné può risaltare anche negli ambienti più chic ed eleganti.

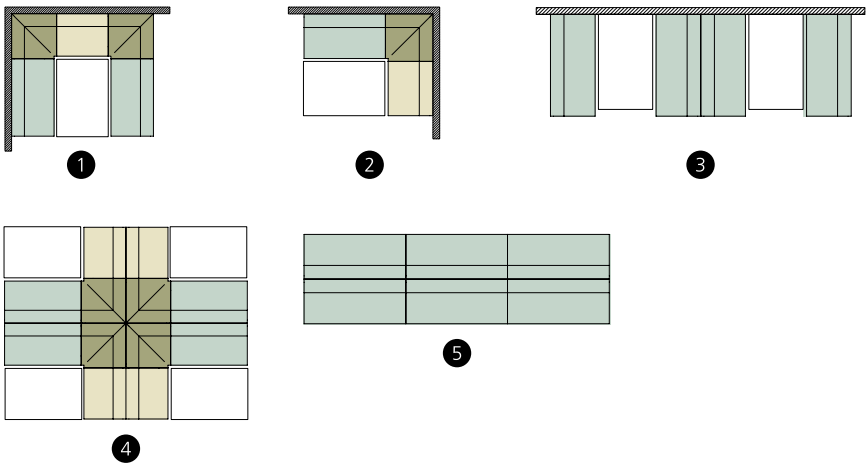

Inspired by the atmosphere of Parisian cafes, Steak & Stilton has a timeless international flair. Its angular and linear shapes allow versatile vis à vis or open arrangements which may be enhanced by chic button tufting.

Steak & Stilton, est un système d'assises qui rappelle l'atmosphère des vieux cafés parisiens et aussi de cafés restaurants plus modernes et informels. Son design est un mix intemporel d'influences internationales très diverses. Son côté polyvalent, avec des éléments à la fois linéaires et en angle, permet de combiner ses solutions d'assises à l'infini pour tout type de besoin - isolé, ouvert ou de simples linéaires. Sa finition capitonnée permet aussi de s'adapter aux lieux les plus chics.

Inspired by the Atmosphäre der Pariser Cafes, Steak & Stilton ist von zeitlosem Flair. Vielfältig mit geraden oder Eckmodulen erlaubt er den Raum für unterschiedlichen Einsatz zu gestalten. In der gesteppten Ausführung passt er zu elegantem Ambiente.

TERMINUS

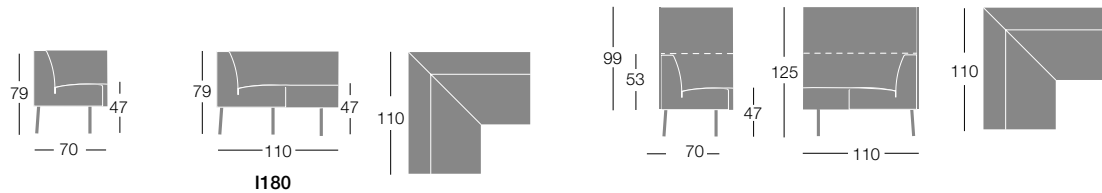

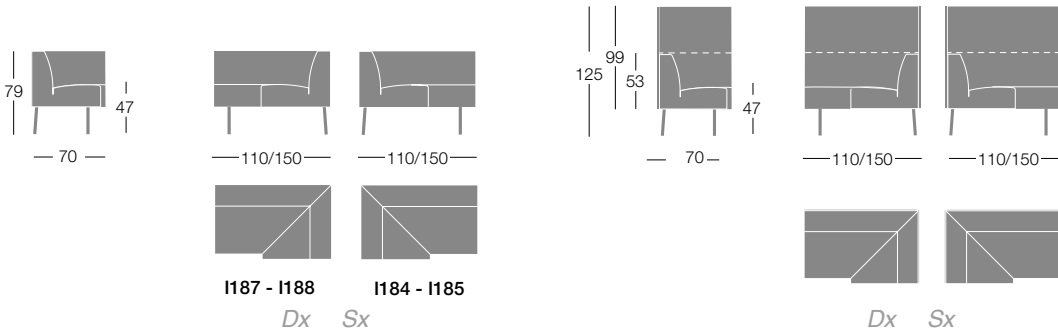

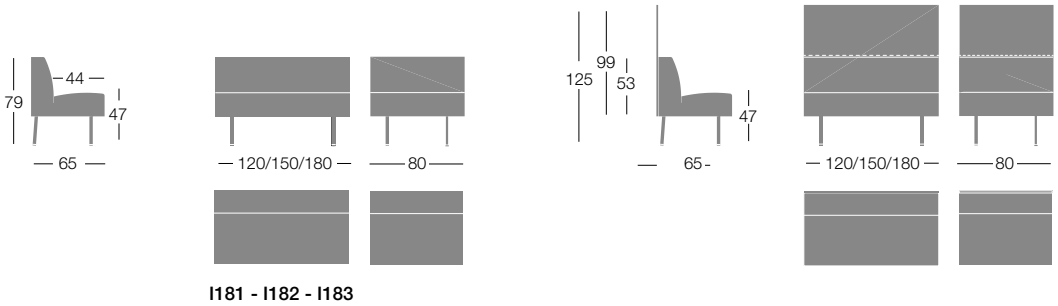

Carlo Bimbi

Divanetto pensato appositamente per il ristoro e i momenti di incontro. Realizzato in forma imbottita, è un modulo che, unito ad altri, compone angoli e linee in grado di delineare diverse sale da pranzo. A completare il sistema, i pannelli divisorii, che consentono di creare situazioni più articolate e intime.

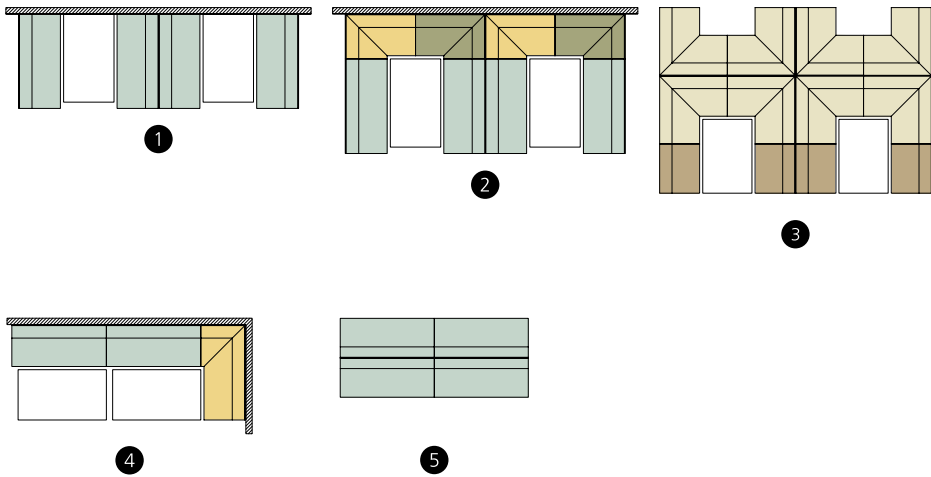

Terminus, an upholstered sofa designed to accommodate the pleasure of eating. Modules can be combined to create numerous angular or linear dining rooms; optional upholstered or laminate high back partition panels create secluded areas.

Terminus est un système de petits canapés conçus pour pouvoir se restaurer sur une assise rembourrée. Ses modules très variés permettent de créer des angles et ainsi avoir différents espaces de salle à manger. Enfin il existe aussi des panneaux de séparation permettant de diversifier les possibilités d'aménagement et de créer de l'intimité.

Ein Polstersofa für Essbereiche entworfen. Ein Modularsystem mit Eck- und Geradeelementen, mit vielfältiger Gestaltungsmöglichkeit. Ergänzend zu dem System sind Trennpaneele, um Diskretionsbereiche zu schaffen.

ELLIPSE

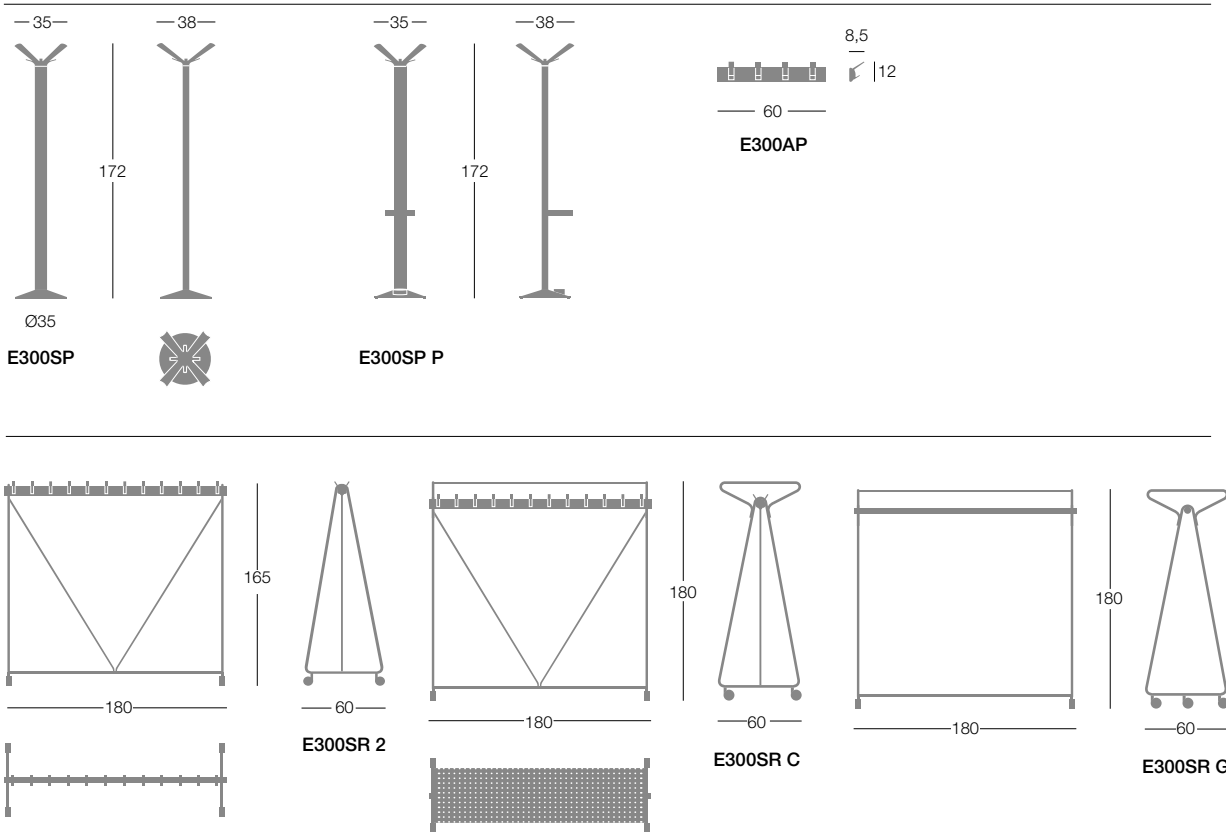

Bartoli Design

Frutto della creatività dello studio Bartoli, la serie Ellipse include alcuni complementi disegnati sia per gli ambiti professionali sia per gli spazi residenziali. Alla gamma di appendiabiti, che presenta una versione "a terra" e una versione da parete applicabile, si aggiunge un carrello appendiabiti su ruote disponibile in più varianti ed un gettacarte.

From the creativity of Bartoli Design, Ellipse includes accessories designed for both professional and residential spaces. To the range of floor and wall coat hangers, a clothes hanger trolley on wheels is also added, available in 3 variants, and a waste paper basket.

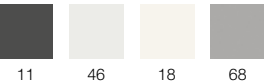

Création du studio Bartoli, la collection Ellipse est une série d'accessoires conçus pour les espaces professionnels et résidentiels. Dans la gamme des portemanteaux, en version sur pieds et patère murale, nous proposons également un chariot porte-manteaux sur roulettes, en plusieurs versions et une corbeille à papier.

Von der Kreativität von Bartoli Design besteht die Serie Ellipse aus Accessoires für den Objekt- und privaten Wohnbereich. Kleiderständer mit rundem Fussteller und für Wandbefestigung. Ergänzend dazu ein Garderobeständer auf Rollen in verschiedenen Versionen und ein Papierkorb.
