Care and Maintenance

Cleaning. Generally, it's recommended to clean lacquered surfaces regularly with a clean and dry microfiber cloth. A damp cloth can also be used followed by wiping with a clean and dry cloth. Stain removal. Acting quickly is paramount – otherwise the stain can bind to the surface and cause permanent damage. We always recommend to use neutral detergent dissolved in lukewarm water to clean surfaces. Please only use a neutral detergent – never use alcohol or other solvents. Any persistent stains can be removed with some drops of concentrated neutral detergent directly placed on the stain for 5 minutes and then wiped from the surface with a damp cloth. Do not rub firmly on the material as this can damage the surface. Always test stain-removal agents on a small, inconspicuous area before proceeding. For more detailed maintenance information regarding specific products, please contact your local SOFTLINE dealer for guidance.
