Design by Müller & Wulff, 2018

Arrange it your way CABALA is an intelligent module sofa program with endless possibilities of arranging and grouping.

With a unique feature, the seat orientation can be changed in an instant, and it's possible to create two different seating directions at once – e.g. one to the window and one to the fireplace, TV or art piece. You simply push or pull the backrest gently to make it flip to one side or the other. This integrated feature makes it possible to sit on both sides of the base depending on how the backrest is arranged.

This diversity makes CABALA perfect for hotels, museums, waiting areas and of course living rooms. The round corners of the designs create a distinct look with a modern edge, and the high-quality upholstery details complete the look.
