Open and dynamic spaces need flexible seating solutions. Like RON for example; a small upholstered pouf/stool that is a must-have in situations where additional seating is needed. The design is inspired by thimbles, and the conical shape with a hollow inside allows for easy stacking and space-saving storage. An elliptical ergonomic cut-out on the top surface allows you to carry the lightweight pouf around easily and move it as needed. The clean and elegant overall appearance blends well with many different spaces like offices, common areas and hotels, but RON will also be a functional and aesthetically pleasing addition to the interior in private homes.
