

# drop top triple

We present the Drop Top Triple bin that allows multiple recycling in a single container with 3 different compartments in the lid due to its geometric shape. The three cavities are identifiable with a vinyl pictogram to choose between: glass, organic, general, paper or plastic.

Made of galvanized steel and painted with baked lacquered thermoset powder. It includes an inner ring of galvanized steel that holds the bag.

The total capacity of the three cavities is 120 liters, we recommend the use of 57x100cm garbage bags or 70 or 80 liter garbage bags.
