Studio Pang

Fabio Damiani and Marco Quistini set up studioPANG in October 2012, based on the shared idea that by combining diverse passions and skillsets, the approach to the project is enriched with new ideas and perspectives. Design, architecture, and communication are, first and foremost, opportunities for comparing and contrasting, before being channeled into the project. StudioPANG is a workshop – one that is constantly engaged in researching and developing ideas and projects; an open, dynamic environment that leverages a wealth of different experiences to give rise to a versatile and multi-faceted business.

your creativity, limitless
