Joan Gaspar

Joan Gaspar,
Industrial designer

I have learned the industrial designer profession from Lluís Porqueras. Back then, at the end of the 80s, Lluís used to have a lamp editor located in Poble Nou, in pre-Olympic Barcelona, while this neighbourhood was still an incubator for small and large companies and small handcrafted workshops; a very valuable network for a capital as Barcelona, that also aimed to be a design capital. From this period are dated my first products, lightning mostly, that seen from the distance still make me feel proud and reconfirms that I had the best teacher.

Today I'm a mature professional, that often think that my projects still keep the spirit of those first years, given the fact that I'm still more interested in talking about how I did or solved things than the final result; and not because the final result is not of my interest, in fact it's what's real important, but because the final result is obvious and it has to allow to be judged, and the „Invisible“ details only can be explained by the author through his knowledge and passion.

COMO is a reliable, robust and comfortable chair, elegant looking, of sharp ergonomics and simple, with no formal ostentation beyond the research of the apparent simplicity.

Obtained through a formal and conceptual simplification exercise, with nods to structures and solutions inserted in the collective memory.

Como Chair

Chair for indoor and outdoor use. Manufactured in polypropylene with fibreglass using gas-injected moulding technology. UV protection.

Weight 3,65 kg

Apilable
Stackable
Empilable
12 u.

Mesures chair

Packaging/Box – Chair
