

BOLIDE

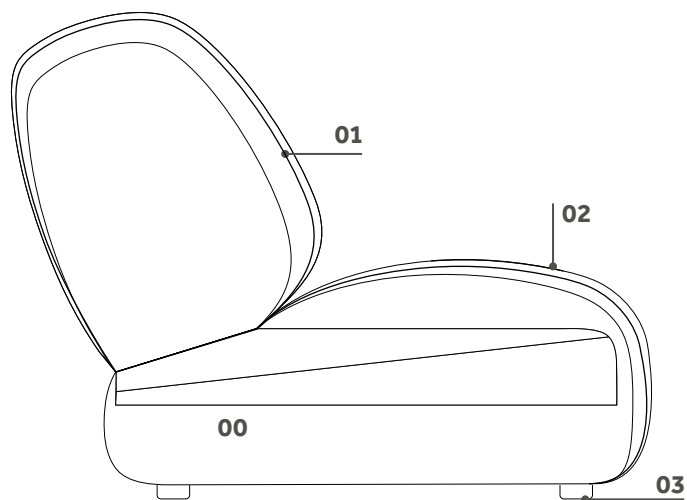

by e-ggs

Not cream-filled at the core, but almost there in softness. Bolide may be large, but it's a gentle giant: a modular system entirely crafted in polyurethane foam and goose down, wrapped in a tailored cover. Pick one of our ready-made compositions or design your own —from single and double modules, with armrests included or optional, plus poufs to complete the ensemble.

- 02 fabric upholstery**
- 03 non-slip feet**

MODULAR SOFA

Curved and linear elements allow for the creation of any setting. Non-slip feet are included to easily align the elements, enhancing flexibility and freedom of composition.

8 ELEMENTS

Choose from our preset configurations or create your own composition starting from our units: single or double modules, with variable depth, linear or curved, and can be completed with optional armrests.
