MARE

Mare è una collezione fresca e colorata, immediata, come il suo nome, che ci porta subito tra le onde e nella spensieratezza estiva.

I moduli che compongono la collezione sono caratterizzati da forme arrotondate e organiche, tipiche degli arredi anni 60. Questo richiamo al vintage viene ulteriormente sottolineato dalla scelta dei tessuti: le frame delicate riprendono i colori dell'acqua (azzurro, grigio chiaro, verde acqua, blu) e della terra (rosa, sabbia, beige, terracotta), dando alla collezione un aspetto vivace ma mai troppo carico, che, grazie all'utilizzo delle nuance pastello, restituisce eleganza agli imbottiti.

La collezione si compone di elementi modulari che permettono composizioni che spaziano dalla singola poltrona, fino a diventare grandi isole in grado di adattarsi agli spazi più differenti.

Mare is a fresh and colourful collection; it has an immediate effect, like its name, which makes us dive in the waves and in the summer happiness. The modules that create the collection are characterised by round and organised shapes, which are typical of the '60s. The choice of the fabric further highlights this reference to vintage: the delicate weft reminds of the colours of water (light blue, light grey, turquoise, blue) and soil (pink, sand, beige, terracotta), which give the collection a vivid, yet never too heavy aspect. The use of pastel shades donates elegance to the upholstered furniture.

The collection is made up of modular elements that allow various compositions, ranging from a single armchair to large structures that can adapt to areas of different sizes.

STE WA RD

Come suggerito dal suo nome, Steward è un pratico e simpatico complemento, dalle forme vagamente antropomorfe, con funzione di servomuto, (appendi abiti e porta salviette), che si trasforma facilmente in tavolino appoggiando sulle sue braccia un piano, o lo stesso vassoio con cui vengono serviti clienti in un bar o in un club.

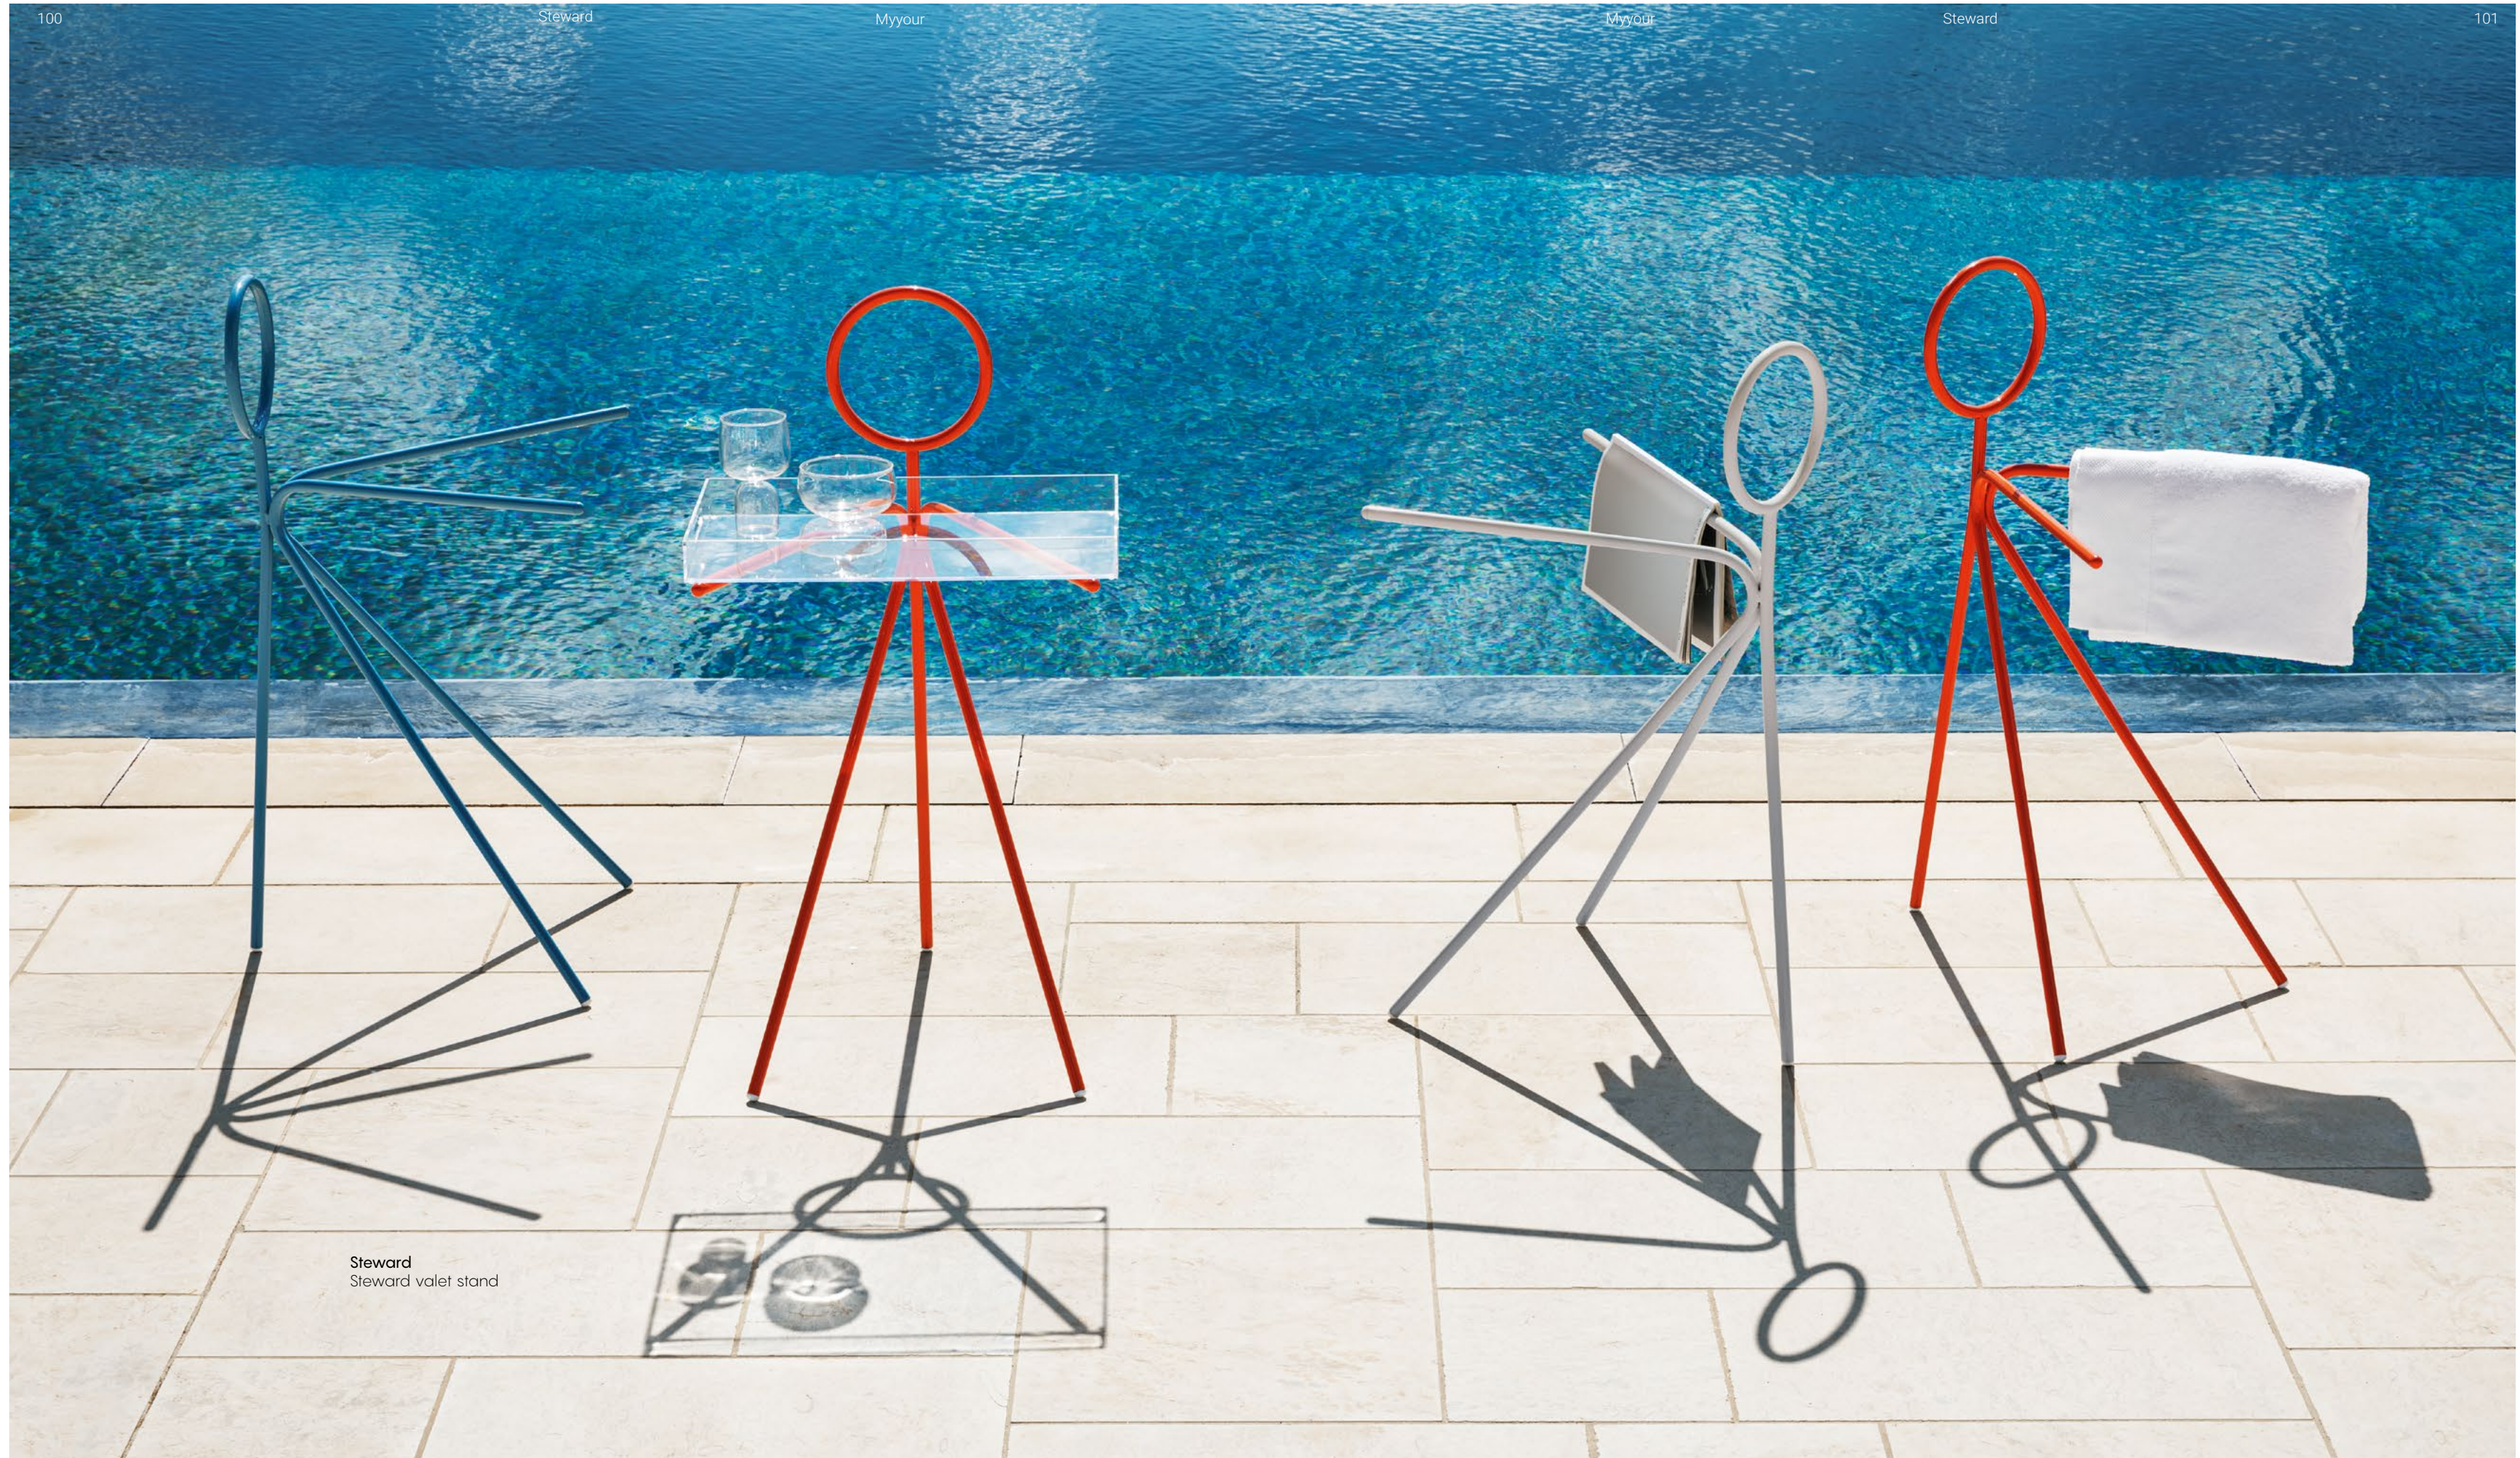

Steward è realizzato in metallo curvato, risultando così leggero non solo come peso ma anche a livello visivo, ed è quindi facilmente abbinabile a diverse collezioni.

La gamma cromatica proposta prevede sia colori accesi che nuance neutre in grado di accostarsi ai tessuti più diversi

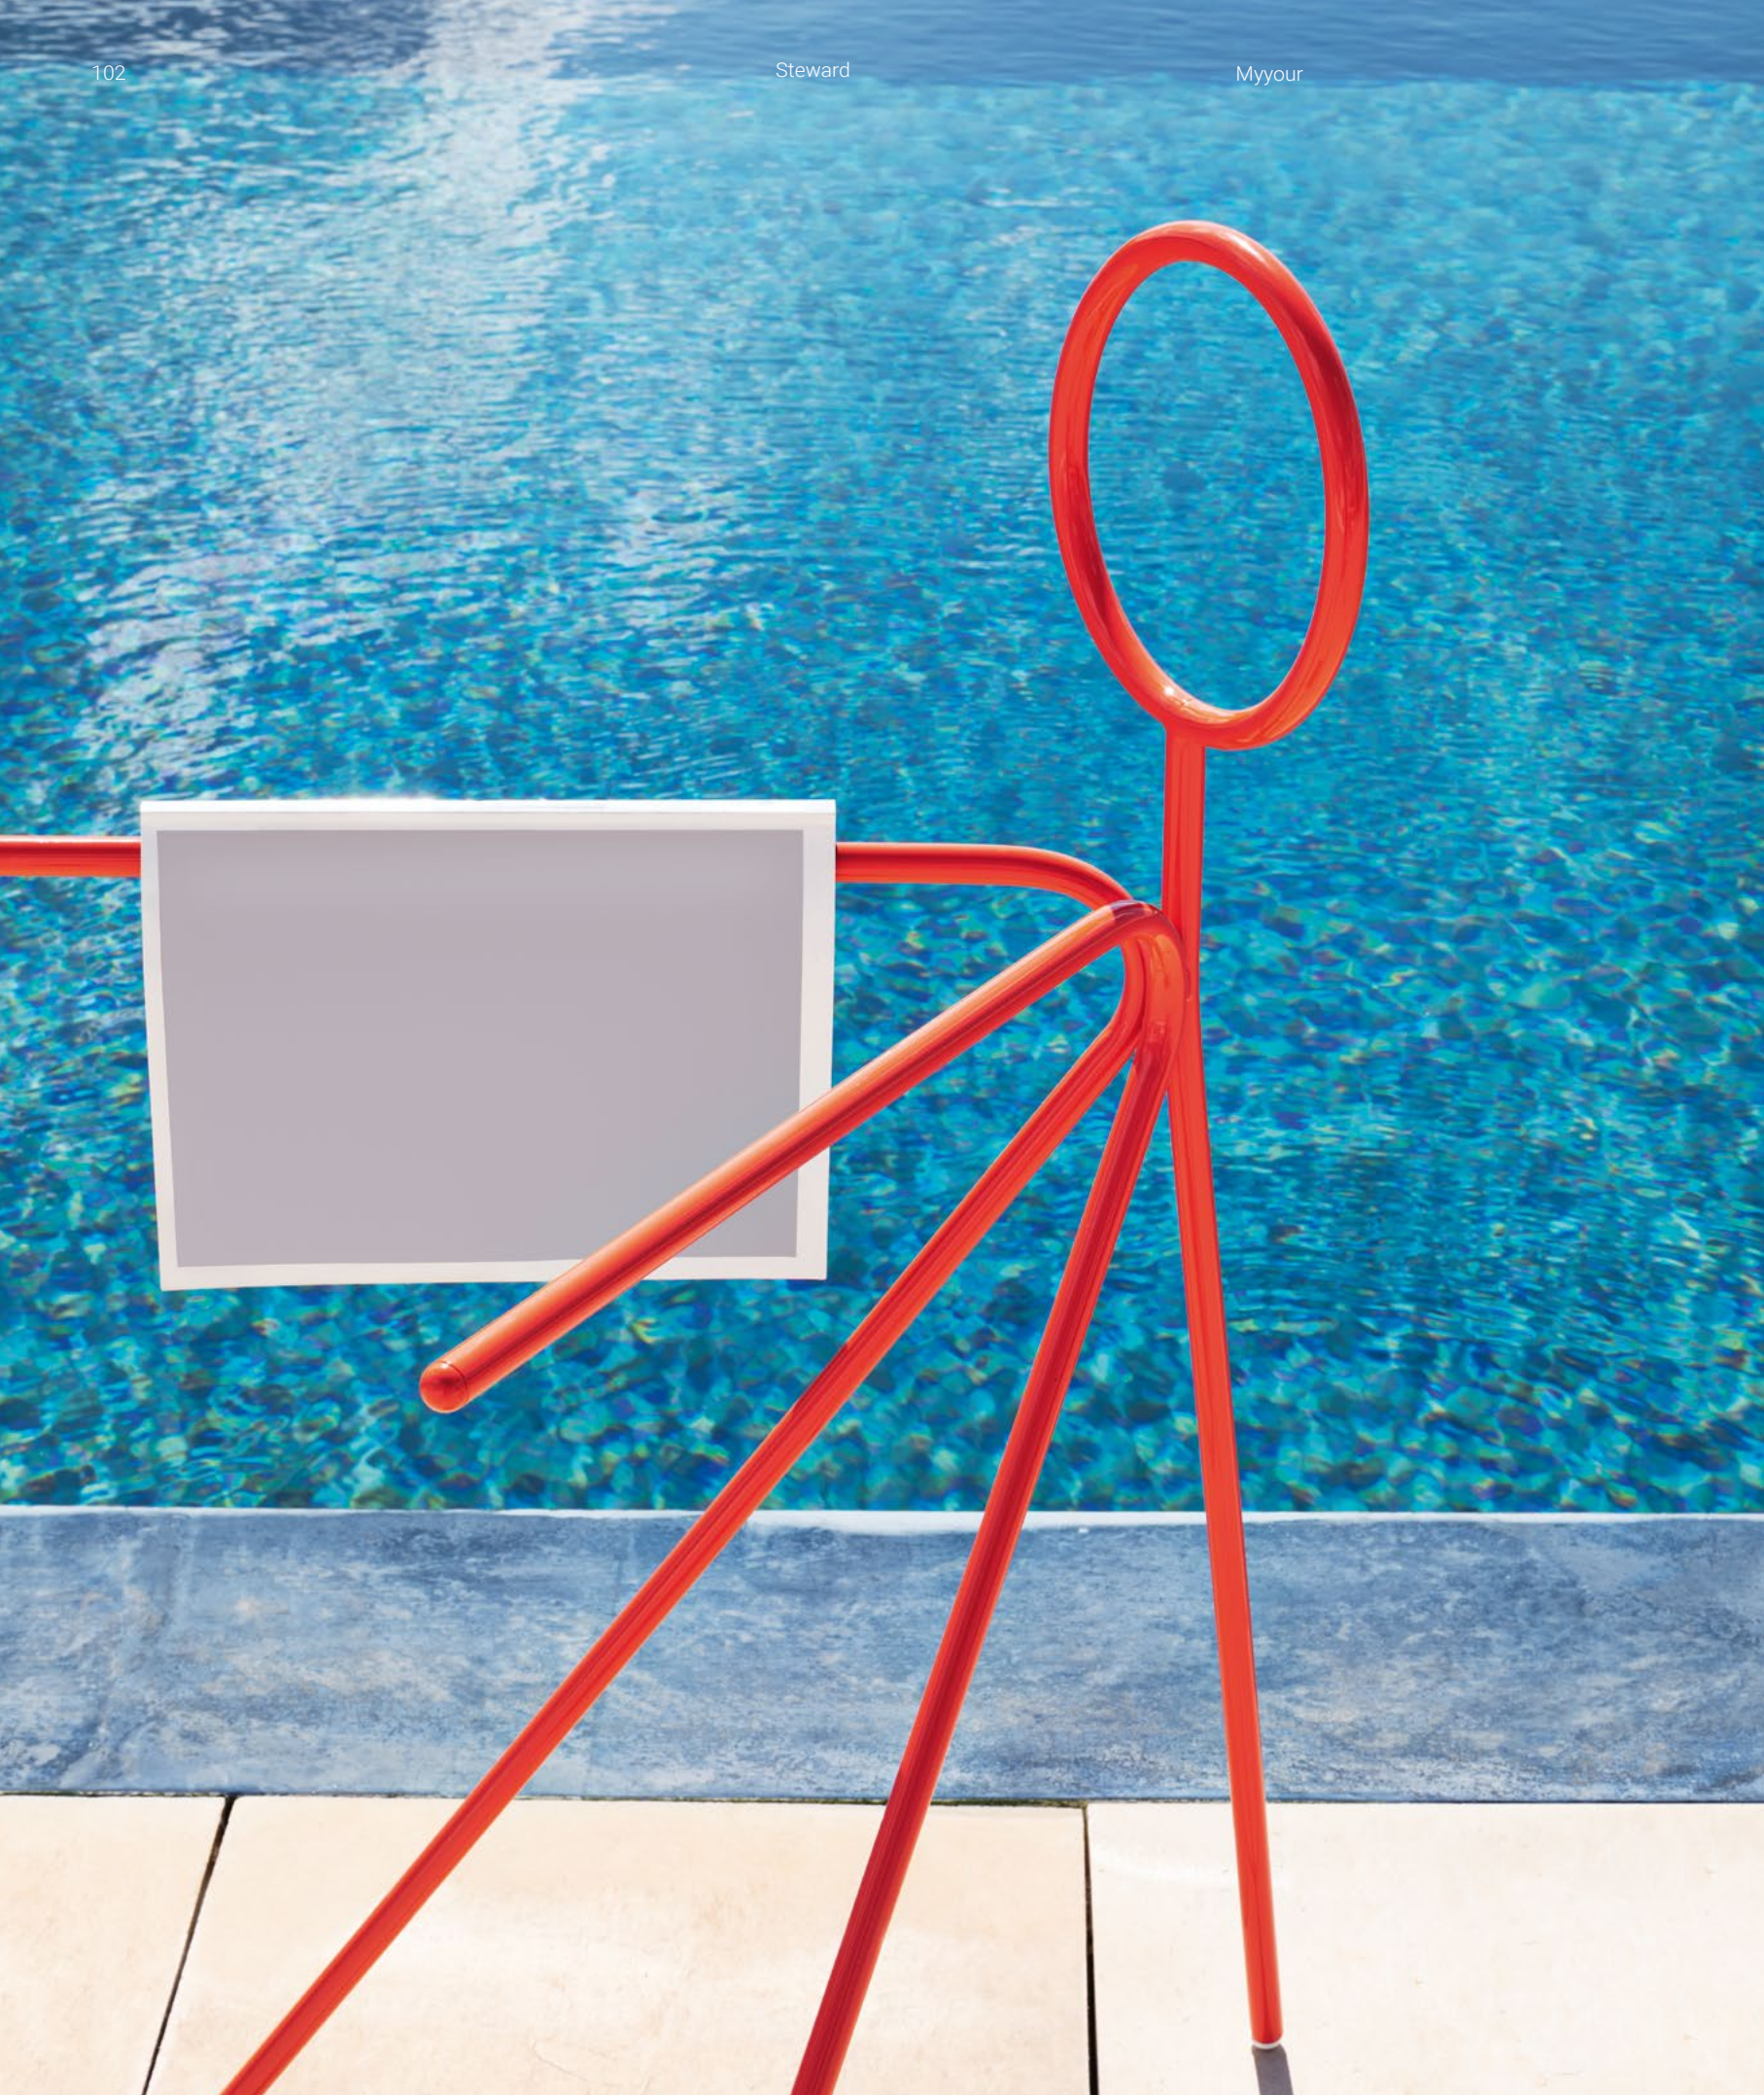

As suggested by its name, Steward is a practical and nice complement, vaguely and anthropomorphic in shape, with the function of a valet stand (clothes hanger and tower rail), which easily turns into a coffee table by placing on his arms a top, or the same tray with which customers are served in a bar or a club.

Steward is made of curved metal, making it lightweight not only in weight but also visually, and is therefore easily combined with different collections. The chromatic range proposed includes both bright colours and neutral nunes that can be combined with the most diverse fabrics.

EXCE LLEN CES

Se una filosofia è differente all'originale, differente sarà in tutte le sue variazioni e sviluppi. NON è un semplice teorema matematico, ma la semplice enunciazione della vision MYYOUR: uno scarto e uno scatto sempre oltre l'ovvio. una tenace sfida al pensiero immobile sostenuta da una solidissima padronanza dei materiali, dalla quale si sprigiona sempre la scintilla dell'idea. Da qui la continua evoluzione riguardo la ricerca di nuovi materiali e nuove finiture, per essere sempre un passo avanti e riconosciuti come eccellenti.

If a philosophy is different from its origins, different will be its variations and changes. It is not a math theorem, but simply Myyour vision: a gap and step forward from evidence. An hard challenge to the immobile thought, supported by a strong control of material where any idea spark always come from. Hence the continuous evolution regarding the search for new materials and new finishes, to always be a step forward and recognized as excellent.

OXI DI ZED

La continua ricerca ed evoluzione porta MYYOUR a scoprire sempre nuovi orizzonti. Il different concept diventa different finishing: MYYOUR presenta l' "ossidato" nei colori rame e ruggine.

L'accurata lavorazione, che mette in simbiosi due materiali chiaramente agli antipodi, prevede l'utilizzo di particelle di ferro come rivestimento, il cui processo di ossidazione viene attivato da prodotti specifici e bloccato da un'apposita vernice trasparente, che ne permette l'utilizzo all'esterno. Così facendo il materiale plastico trasforma la sua natura diventando metallico. Inoltre, essendo il procedimento di ossidazione eseguito manualmente, ogni articolo è unico.

The continuous research and development leads MYYOUR to discover new horizons. The different concept becomes different finishing: MYYOUR presents the "oxidized" in the copper and rust colors.

The careful manufacturing, which puts in symbiosis two materials clearly poles apart, involves the use of iron particles as a coating, whose oxidation process is activated by specific products and stopped by a special transparent varnish which allows the outdoor use. In this way the plastic material transforms its nature becoming metal, it is evident in the fact that a magnet is attracted to it. Since this is a purely manual processing, makes each item different and unique.

Un velo che maschera la sua vera identità. Una verniciatura speciale, applicata direttamente sulla superficie del prodotto, che permette di perdere la percezione della plastica e rendendolo così prezioso alla vista e al tatto. Ogni singolo prodotto realizzato con questa finitura infatti, conserva la sua naturale matericità rimanendo esteticamente al passo con le tendenze del momento.

Dryfeel® è un tipo diverso di schiuma specificatamente studiata per applicazioni da esterno, dove il rischio di umidità è maggiore. Dryfeel® è stato progettato per offrire una struttura cellulare completamente aperta che consente all'acqua e all'umidità di passarvi attraverso in modo rapido ed efficace, assicurando il massimo confort in ogni condizione di umidità. È portante e asciuga molto più rapidamente grazie alla sua struttura cellulare estremamente porosa. Le sue celle completamente aperte permettono un completo drenaggio dell'acqua, riducendo significativamente i tempi di asciugatura, pur mantenendo tutte le sue caratteristiche. È trattato con biocidi che distruggono gli organismi nocivi quali batteri, muffe e funghi.

Technical featurtes

- Faster drying than a traditional padding foam (up to 3 times more).
- Reduction of drying times of a finished cushion up to 50%
- Longer life, even after immersion in sea or pool water
- Integrated protection against bacteria and molds

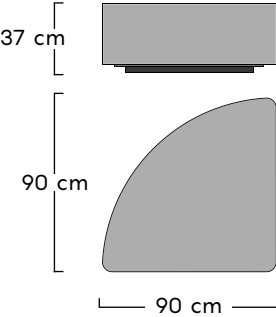

Dryfeel® is a different type of foam specifically designed for outdoor applications, where the risk of humidity is higher. Dryfeel® has been conceived to offer a completely open cellular structure that allows water and moisture to pass through quickly and effectively, ensuring maximum comfort in all conditions of humidity. It is load-bearing and dries much more quickly thanks to its extremely porous cellular structure. Its fully open cells allow complete drainage of the water, significantly reducing the drying time, while maintaining all its characteristics. It is treated with biocides that destroy harmful organisms such as bacteria, molds and fungi.

BROGLIATO TRAVERSO

About

Alberto Brogliato and Federico Traverso founded BrogliatoTraverso design studio in 2014. Their approach to design is 'NO TIME, NO SPACE' and refers to ideate objects with a timeless design. BrogliatoTraverso work by creating a detailed sign, but almost invisible. With these finely hinted forms, their creations establish deep intimate empathy with the users and their surroundings, respecting both of them. Their fine simplification process delivers projects addressing the needs of consumers and made for various companies, including Cappellini, Fratelli Guzzini, Infiniti, Il Fanale/Torremato, MyYour. The Studio won many international awards, including the Red Dot Design Award, German Design Award, iF Design Award and Good Design Award.
