

Eke

design:
Nikodem Szpunar
2020

NOTI

Eke is a small chair with a sophisticated design conveying the impression of lightness. The frame features a distinct structural element in the form of a knot of intertwined bent tubes which engages the viewer with its expressive and forward-thinking design.

The basic version brings out the natural veneer pattern on the seat and backrest. In the upholstered versions, the soft finish delivers exceptional comfort, in restaurants.

In the non-upholstered variant, the chairs can be easily stacked because of free space left between the seat and backrest. Eke is an extremely functional solution for all interiors where every square metre of space counts.
