

Time2bugs

mod. 2265

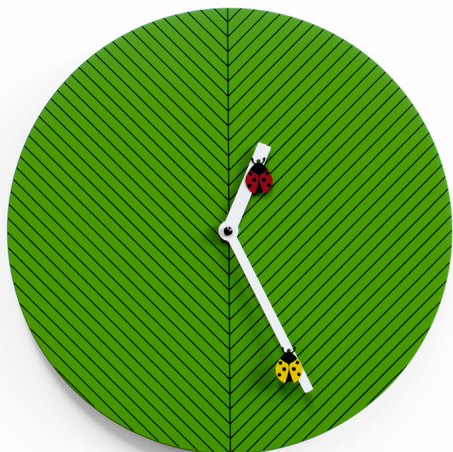

design by Alessia Gasperi

Colors:

light orange

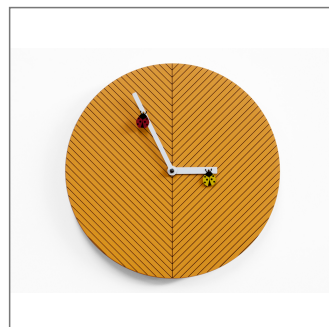

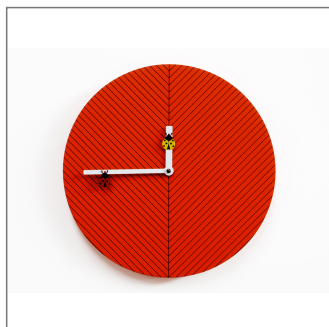

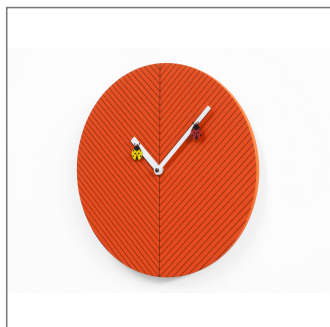

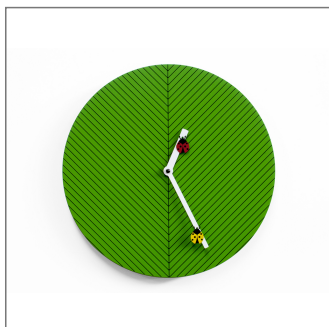

dark orange

green

Round, discreet, colorful and fun, this is Time2bugs, the wall clock that brings joy to children's rooms. On the dial is a design of thin black lines that recalls the veins of a leaf, on which two lady bugs, one yellow and one red lie and move. The structure is made of wood. Battery quartz movement.
