Paso Doble

Designer Nicola Pavan
Produzione / Production year: 2026

Descrizione

Paso Doble è il nuovo sistema di sedute firmato da Nicola Pavan.

Un progetto che riscrive il concetto di relax, non solo come elemento funzionale al comfort, ma pensandolo come oggetto estetico capace di disegnare coreografie nello spazio living. Una tecnica tanto semplice quanto innovativa, consente un rapido spostamento degli schienali grazie a un doppio passo nascosto sotto la seduta, offrendo la possibilità di passare da una posizione più composta a una più informale.

“Doppio passo”: un richiamo alla danza argentina e metafora del movimento che avviene attraverso un gesto naturale delle mani.

Il segno grafico e deciso dei supporti metallici trova equilibrio nella morbidezza delle ampie sedute, che rimandano a linee classiche e a un'idea di comfort senza tempo. Un'inedita collezione tessile dai colori vibranti e luminosi definisce il carattere di Paso Doble e ne rafforza l'identità stilistica. Completamente sfoderabile, il sistema è disponibile in molteplici dimensioni.

Struttura - Imbottitura

In legno multistrato imbottito con poliuretano espanso 40IP e memory foam, rivestita con resinato accoppiato a tela di cotone 100 gr/mq. I supporti dei cuscini schiena e del cuscino bracciolo sono in trafilato metallico dal diametro di 18 mm e con finitura cromata o verniciata. I cuscini dello schienale e del bracciolo sono imbottiti in fibra di poliestere 100% suddivisi in scomparti e rivestiti con tessuto di cotone bianco 100%. Il sistema di costruzione delle basi permette di posizionare i supporti dei cuscini schiena e del cuscino bracciolo lungo il perimetro e con due inclinazioni distinte, conferendo due possibilità di comfort ed ergonomia.

Piedini

In ABS nero h 4 cm.

Tavolino

In metallo con finitura coordinata ai supporti dei cuscini schiena e bracciolo. Dotato di meccanismo snodabile, può essere usato anche come leggio inclinato.

Description

Paso Doble is the new seating system designed by Nicola Pavan.

A project that redefines the concept of relaxation, not only as a functional element for comfort, but as an aesthetic object capable of creating choreographies within the living space. A technique as simple as it is innovative allows the backrests to be quickly repositioned thanks to a “double step” mechanism hidden beneath the seat, offering the possibility to shift from a more formal position to a more informal one.

“Double step”: a reference to Argentine dance and a metaphor for movement achieved through a natural gesture of the hands.

The bold, graphic character of the metal supports finds balance in the softness of the generous seats, recalling classic lines and a timeless idea of comfort. A new textile collection in vibrant, luminous colors defines the character of Paso Doble and strengthens its stylistic identity. Completely removable covers make the system practical and versatile; it is available in multiple sizes.

Structure – Padding

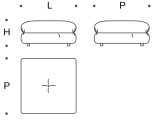

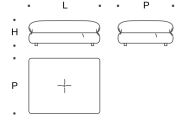

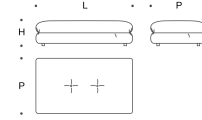

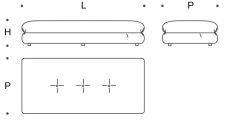

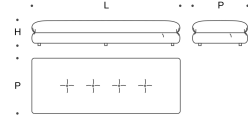

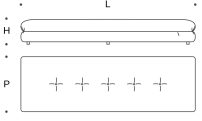

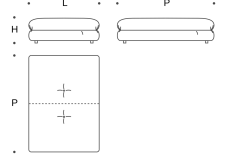

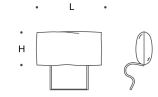

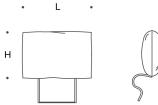

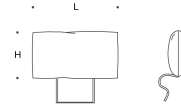

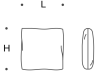

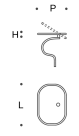

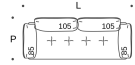

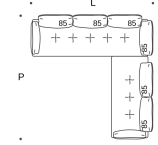

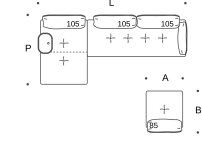

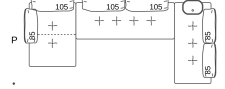

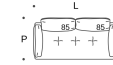

In plywood padded with 40IP polyurethane foam and memory foam, covered with resin coupled to 100 gr/sqm cotton fabric. The supports of back and arm cushions are in 18 mm wire drawn with chrome or painted finish. The back and arm cushions are in 100% polyester fiber padding divided into compartments and covered with 100% white cotton fabric. The system of bases construction allows the back and arm cushions supports to be positioned along the edges. You can also position them with two different angles, offering two options for comfort and ergonomics.

Feet

In black ABS, h 4 cm.

Low table

In metal with coordinated finishing with back and arm cushion supports. Equipped with an articulated mechanism, it can also be used as a tilted bookrest.
