bomma constellation

Project your unique vision into space and create your own bomma constellation

Handcrafted crystal lighting from Bomma Constellation frees creators, architects and designers to transform interiors. Project your boldest creative visions into space - from smaller compositions to immense constellations. Choose among three original collections: Dark & Bright Star, Lens or Soap Mini. Like distant stars, these seemingly small lighted objects are unique when stand-alone and even stronger in groups. Each individual pendant is remarkable in its aesthetics, quality, design and craft.

Like you, Bomma enjoys creative challenges. Contact us for a customized solution. We can take your idea to the next level. As a progressive glass manufacturer with our own highly modern production facility, we are able to create bespoke crystal components, based on your designs, and transform them into your final Bomma Constellation.

Take a step beyond your expectations of contemporary glass design and craft.

lens

installation of 116 pcs of lens - architect: Studio97

installation of 1024 pcs of clear and white lens

installation of 1000 pcs of clear and white lens

installation of 50 pcs of lens - architect: Flat White

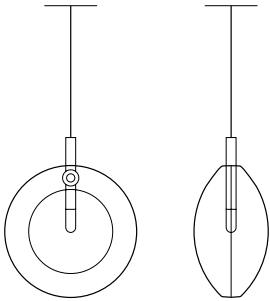

lens

The perfect optics of pure crystal.

Light refracted through a lens is the fundamental principle of optics. Here, two lenses harmoniously encapsulate their interior source, playing a symphony of lights. Classic clear crystal is offset by a single color that highlights its refraction. A hypnotic creation that asks only unique composition and arrangement. The Lens Collection is available in a full color palette, ready for your custom direction. The color is hand-painted onto our crystal components, enabling us to perfectly match any hue.

- painted color (any RAL tone)

The glass parts of lens are hand-painted
thus the intensity of color may slightly vary.

soop mini

installation of 1000 pcs of gold, silver and blue soap mini

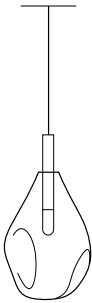

installation of 110 pcs of gold soap mini - architect: Flat White

soap mini

The magic of iridescence
Varied colors, transparency and continuously changing shapes inspired this collection – the characteristic features of soap bubbles. Lighted, their metallic sheen magically transforms from iridescent to translucent. Each piece is hand-blown without a mold, producing an original in both shape and color.

Design by Ota Svoboda

The glass parts of soap mini are mouth-blown without a mould thus the shape, size and intensity of color may slightly vary.

dark &
bright star

chandelier of 26 bright & dark stars - architect: Ivanka Kowalski

installation of 650 pcs of large bright star

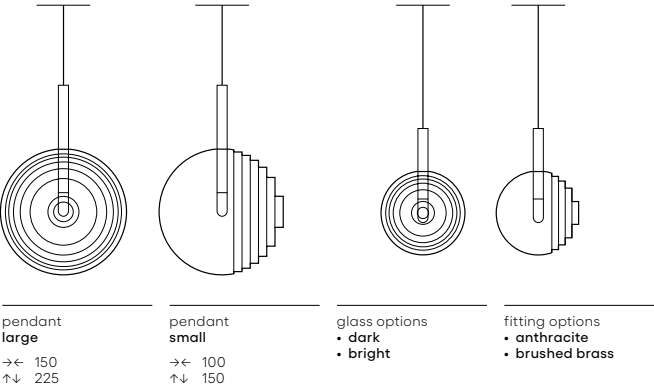

dark & bright star

An endless duel between light and darkness.

Resembling a star-studded sky, these seemingly small lighted objects intrigue by their design and exceptional craft. Their light source is placed within a mouth-blown piece, the shining center of a precisely cut crystal star. Fascinating as a single pendant, stunning in constellations.

Design by Dechem Studio

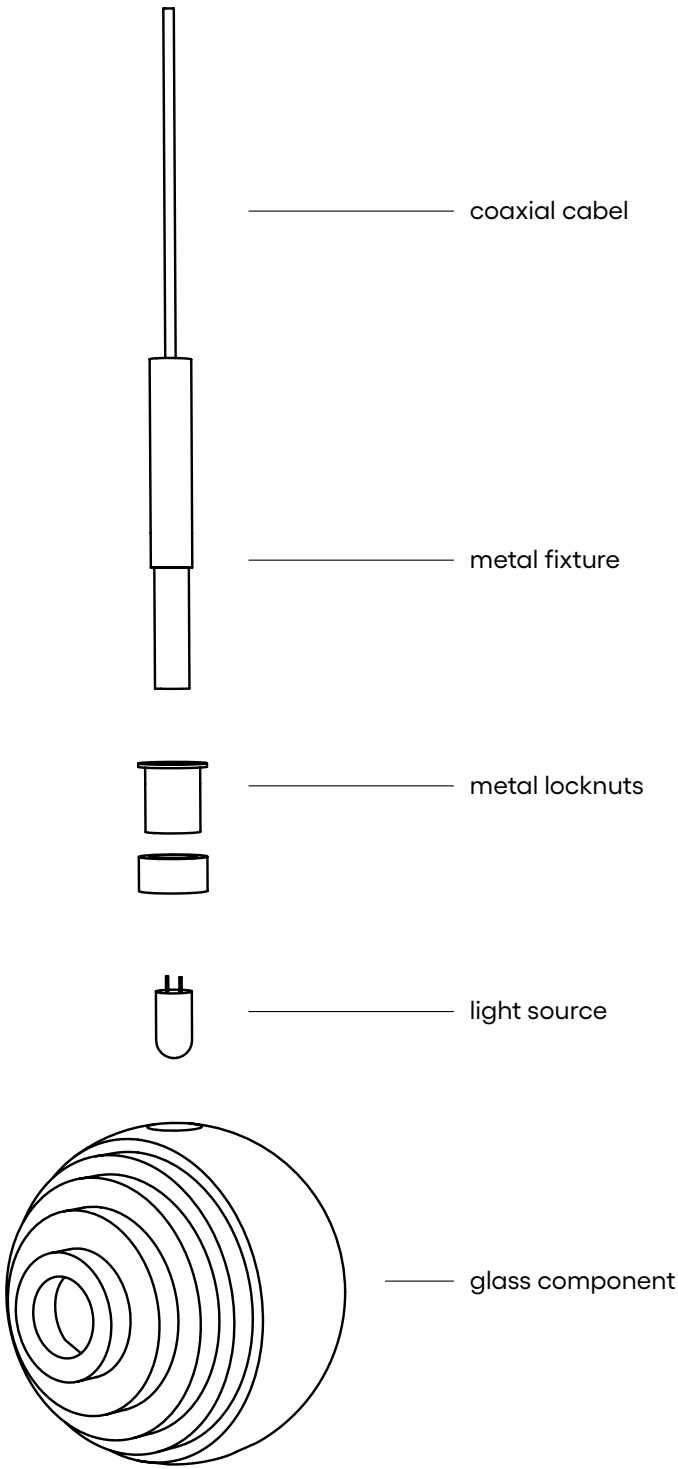

The stars are mouth-blown, then defined by precise cut.

about

Founded in 2012, Bomma continually moves traditional Czech glassmaking craft to a new level. With centuries of glassmaking tradition in East Bohemia, we now take advantage of a rich pool of talent and top-level skills. Instead of simply maintaining these traditions, Bomma sets today's standards of glassmaking.

Our master craftsmen are backed by some 300 enthusiastic team members in an ultra-modern facility featuring in-house technology. We produce 6 tons of refined extra-clear crystal each day. The high-tech original machinery for precise melting and measuring allows our craftsmen reach their maximum potential of manual production, and lends itself to otherwise unachievable customization and color-blending.

Bomma know-how opens its doors to designers who continually challenge our technical teams and craftsmen. Our emphasis on contemporary design, outstanding glass quality and detail brought many awards and world-wide recognition in a surprisingly short time, leading to our exceptional position in the market, as well as countless interesting projects and collaborations.

For this we thank our ancestors, teams and especially our clients. We see our success as an obligation to move forward. Join us on this exciting journey.

Step beyond.
