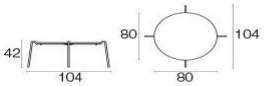
Rio R50 / Coffee table
Design / Gargano-Cristell

RIO R50 is a complete seats collection composed by dining chair and armchair, lounge armchair, swing armchair, stool and coffee table. RIO R50 has a frame in ASFORM steel tube, high quality steel with high mechanical performance and high resistance to weight. The manufcaturing process creates a strongly characterized sign, a letter R, which is identified in the junction between seat and backrest. All structural weldings are made with Mig technology which gives great resistance to stress and rust risk; meanwhile the net, composed by steel wires, is electro-welded to the frame for a more precise aesthetics. Like all EMU products, a cataphoresis pretreatment is provided and then a thermosetting powder coating treatment, which finally produces a layer of homogeneous paint in terms of thickness with an high level of adherence and resistance. Nylon feets supports make it easy to move and protect the product.

Description
Code: **797**
Typology: **Coffee Tables**
Collection: **Rio R50**

Static Load: 200 Kg
Seat Height: 42 cm

Technical Info



Width: **104 cm**
Depth: **104 cm**
Height: **42 cm**
Weight: **9.8 Kg**
Static Load: **200 Kg**

Packaging
Packages: **1**
Pieces for pack:
Dimensions: **83x7x83**
Volume: **0,048 mü**

Polyethylene bag and cardboard box

Rio R50 / Coffee table
Design / Gargano-Cristell

Materials

Steel
Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosio process.
Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.
