

# Double 031 Pouf

Design Rodolfo Dordoni

Technical Information

DOUBLE is an articulated system of outdoor sofas that widens the range of iconic interior sofas in "total outdoor" version, designed to satisfy the typical taste and canons of the interior decoration even in the garden furniture. The protagonist of DOUBLE collection is the slim shape, together with the materials: the aluminum structure is covered by a soft multilayer padding, combined with a new 3D net, available in several colors. The net can be used on view or upholstered with RODA outdoor fabrics collection: hence the name "DOUBLE". The complete collection includes a chair, a garden lounge, a lounge chair and the poufs of three different sizes.

## TECHNICAL INFORMATION

**DESCRIPTION**  
Chair for outdoor use.

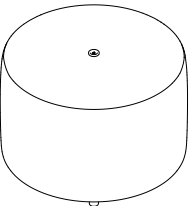

**STRUCTURE**  
Powder coated aluminium.

**NET**  
3d net 100% polyester.

**WEIGHT**  
Structure 6 kg
