I maestri sono quelle figure carismatiche, capaci di insegnare e trasmettere un'arte: attraverso il proprio agire diretto, ma anche nel lascito delle loro opere stesse. Nel design, i maestri parlano attraverso i classici: progetti senza tempo e fuori da qualsiasi logica di mode e tendenze, ma talmente potenti da determinare naturalmente uno stile. Tacchini ha riservato alcune stanze del suo abitare ai classici e ai maestri che li hanno disegnati, in un percorso di riedizioni che sfida e insegna alla contemporaneità.

Ci sono progetti che nascono classici già nei nomi che portano. Babel è uno di quei progetti e di quei nomi. Nel 1958 Achille Castiglioni disegna questa poltroncina per completare l'arredamento della Camera di commercio di Milano: il comfort si incontra con la forma e la funzionalità, svelata nella possibilità di poter impilare questa seduta, come una torre.

"Cancellare, cancellare, cancellare e alla fine trovare un componente principale di progettazione; noi mentre progettavamo eravamo contro l'invasione del disegno, eravamo alla ricerca del tratto minimo che serviva alla funzione; volevamo arrivare a dire: meno di così non si può fare." Achille Castiglioni

A partire dalle avanguardie artistiche del secolo scorso, il design italiano continua a ispirare movimenti, espressioni e modi d'essere che trovano nella linea italiana la manifestazione più autentica della cultura del progetto. Qual è, dunque, il segreto del design italiano? Dove si nasconde il suo intramontabile spirito che tutt'oggi continua a guidare l'evoluzione della disciplina? Dalla fiducia in un futuro migliore al rigore tecnologico; dalla volontà di sperimentare e mettersi in gioco all'inimitabile coerenza formale, la linea italiana rappresenta l'espressione materiale di un pensiero collettivo, condiviso all'unanimità tra i più importanti protagonisti dell'epoca. Pier Giacomo e Achille Castiglioni, Carlo De Carli e Gianfranco Frattini fanno parte di questo gruppo di progettisti illuminati del secolo scorso che hanno condiviso idee, pensieri e speranze per la disciplina progettuale, unendo il saper-fare manuale – caratteristico della produzione industriale del belpaese – all'ingegno tecnico, con la speranza di trasportare il mito del 'buon design' italiano nella realtà di tutti i giorni. Oggi, mezzo secolo dopo la loro creazione, i progetti realizzati da questi grandi maestri del passato continuano a rendere viva l'anima della linea italiana attraverso una serie di riedizioni realizzate da Tacchini, con la volontà di preservare e comunicare gli ideali che hanno guidato la loro creazione. Mantenendo l'integrità dei progetti originali, Tacchini ha adattato i disegni dei designer alla produzione odierna, trasportando la cultura del design dal passato alla contemporaneità.

Achille e Pier Giacomo Castiglioni

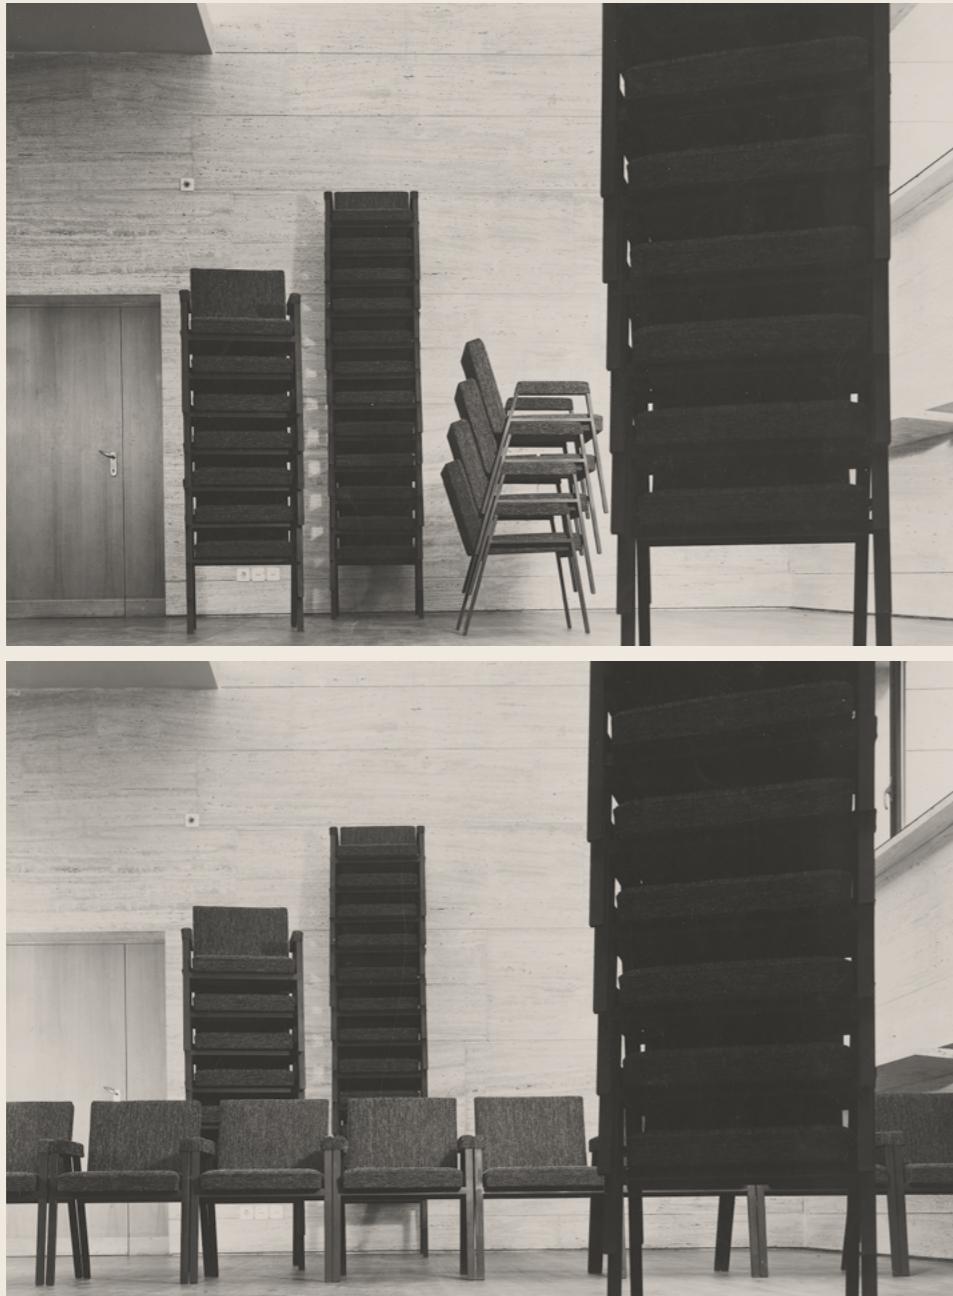

L'eroe del design italiano, Achille Castiglioni, assieme ai suoi fratelli Pier Giacomo e Livio, ha saputo trovare l'ironia e la bellezza nella semplicità della vita di tutti i giorni. Dai più banali interruttori elettrici ai progetti più iconici del design moderno, i fratelli Castiglioni hanno trasformato la loro incontrollabile curiosità in una serie di artefatti senza tempo. Tacchini propone la riedizione di due famosi pezzi di Achille Castiglioni, realizzati all'interno di un più ampio progetto dedicato alla riproduzione dei classici del design moderno. Babel, disegnata nel 1958 assieme al fratello Pier Giacomo, e Sancarlo, che vede luce per la prima volta nel 1970, riassumono lo spirito dell'epoca unendo la sperimentazione formale all'innovazione tecnica. Per Babel, una sedia impilabile disegnata in origine per la Camera di commercio di Milano, Achille e Pier Giacomo Castiglioni immaginano una torre fatta di sedute, facilmente trasportabili e impilabili, caratterizzata da un design lineare e archetipico, reso interessante da una particolare interazione tra materiali, texture visive ed effetti tattili. Sancarlo, dall'altro lato, gioca con forme organiche e tondeggianti per costruire una sedia flessibile e adattabile alle esigenze del corpo umano.

Gianfranco Frattini è nato in Italia, a Padova, il 15 maggio 1926. Si è laureato con una laurea in architettura al Politecnico di Milano nell'anno 1953. Alla fine degli anni '50 è tra i fondatori dell'ADI, Associazione per il Disegno Industriale. Frattini apre il suo studio professionale a Milano, dopo aver lavorato nell'ufficio del suo maestro e mentore Giò Ponti. Nell'arco di pochi anni, diventa un designer industriale di fama internazionale.

Gianfranco Frattini fa parte di quell'abile generazione di architetti e designer che hanno segnato il movimento del design italiano del secolo scorso. I progetti di Frattini vantano un'eleganza formale che comunica con chiarezza e semplicità le idee e le riflessioni che hanno portato alla loro creazione. Collaboratore di Giò Ponti all'inizio della carriera, Gianfranco Frattini svilupperà nel corso degli anni un personale e sintomatico approccio alla progettazione guidato da un'attenta ricerca formale e strutturale.

Agnese e Sesann condividono la stessa anima progettuale, declinata in due diverse configurazioni visive. Agnese, disegnata nel 1956 nello studio in via Sant'Agnese a Milano, nasce dall'idea di proporre l'archetipo della poltrona informale, caratterizzata da una seduta imbottita – geometrica ed essenziale – supportata da una base in legno classica e lineare. Sesann, dall'altro lato, presenta una forma organica e informale, realizzata avvolgendo una struttura in tubolare di metallo attorno a una morbida seduta imbottita.

Riedizione di un progetto originale di Gianfranco Frattini risalente al 1957, ma ancora attuale nelle forme e nello spirito, la poltrona Giulia fa rivivere nello spazio contemporaneo una sensazione senza tempo di bellezza, comfort ed armonia. Impeccabile la realizzazione, come nella tradizione Tacchini, dalla scelta dei materiali per la scocca dalle forme avvolgenti, alla base in legno di frassino tinto noce scuro o grigio, di sapore artigianale. Tratto da un classico del design italiano, progettato nel 1957 da Gianfranco Frattini e segnalato lo stesso anno per il Compasso D'Oro, Gio è un tavolo basso che esprime un'idea di rigore razionalista e di eleganza raffinata, suscitando l'emozione di una calda atmosfera borghese. È caratterizzato dalla lineare struttura in legno e dal piano bifacciale in frassino tinto noce scuro o grigio da un lato, oppure in laminato giallo, grigio, blu acciaio o effetto corno dall'altro.

Disegnato da Gianfranco Frattini nel 1957 e prodotto a partire dall'anno successivo, il divano Oliver ha riscosso negli anni un grandissimo successo. Essenziale ed elegante, è caratterizzato da una struttura leggera in acciaio con piedini terminali in legno e dall'imbottitura capitonné di seduta e schienale, un dettaglio di grande sapienza artigianale.

Lina è la riedizione di uno dei primi progetti disegnati da Gianfranco Frattini: segnalata nel 1955 per il Compasso d'Oro, la poltrona è caratterizzata da una struttura in legno molto particolare che le conferisce un aspetto solido eppure leggero. Merito delle gambe sottili e dell'elemento in multistrato curvato, che sorregge il fianco dello schienale e diventa al contempo ala d'appoggio dei braccioli. Una lavorazione molto innovativa

"Sono convinto che il punto di arrivo per il progettista sia l'incontro fra le nuove esigenze tecniche della produzione industriale e le nuove esigenze estetiche maturate con l'esperienza di questo attivissimo periodo creativo. Nei migliori esempi trapela anche, importantissima, non la negazione assoluta dei valori essenziali della tradizione, ma, anzi, il rispetto per quegli aspetti sempre validi che si possano evolvere nel tempo."

Proposta da Tacchini con una fedeltà filologica all'originale ed una realizzazione accurata in ogni dettaglio, accompagnata da un pouf coordinato, sempre su progetto originale di Gianfranco Frattini, la poltrona Agnese vuole essere solo l'inizio di un completo progetto di riscoperta dello stile di un grande designer e di un'intera atmosfera d'arredo.

Rispettando il pensiero di Gianfranco Frattini, la nuova riedizione di Sesann è stata realizzata mantenendo intatto lo spirito del prodotto. Caratterizzato da un rivestimento in tessuto o pelle, Sesann deve la sua tipica forma, soffice ed avvolgente, allo scheletro schiumato a freddo, contenuto da una struttura architettonica in tubolare di acciaio (cromato o verniciato), che poggia sui piedini in legno di frassino. La particolare configurazione di Sesann – allo stesso tempo formale e funzionale – costituisce le basi per un sistema di prodotti caratterizzati dagli stessi elementi strutturali, declinati, però, in oggetti unici e affascinanti. Questo approccio di sintesi e riduzione proposto da Frattini ha prodotto un design formalmente elegante, concettualmente elaborato e, soprattutto, irripetibile.

Per De Carli non esiste un diverso atteggiamento fra il progetto di una casa o di una sedia: "Ho l'amore per qualsiasi forma di architettura purché sia studiata, sperimentata, e sia essenziale (...) anche i mobili... ne ho disegnati molti... cercano solo la misura: non cercano alcun effetto... soprattutto la misura che trova relazione con lo spazio della casa, con il senso dell'albero." per l'epoca, eseguita oggi con attenzione filologica. Poltrona di grande presenza, per il suo stile senza tempo Lina si abbina con naturalezza a tutti divani della collezione Tacchini, sia in ambienti domestici che in aree contract.

Carlo De Carli

Nato a Milano, Carlo De Carli (1910-1999) si laurea nel 1934 in Architettura presso il Politecnico di Milano, lavora per un anno nello studio di Gio Ponti, cui nel 1962 succede nella cattedra di Architettura degli Interni, Arredamento e Decorazione. Curatore della X e XI Triennale di Milano è Preside della Facoltà di Architettura nel 1965-1968. Dal 1967 al 1971 dirige la rivista 'Interni'. Progetto, ricerca, didattica e promozione sono gli ambiti di azione del suo lavoro svolto in una sostanziale unità di pensiero attento alla persona e all'ambito sociale e produttivo in cui opera.

Testimone del concetto di "spazio primario" della filosofia di De Carli, ovvero dello "spazio di relazione", principi che trovano conferma nella visione della funzione d'arredo e della progettualità di interni secondo Tacchini, Sella è ispirato all'omonima poltrona disegnata nel 1966 dal celebre architetto italiano. Il divano si presenta come un arredo di grande eleganza, realizzato con materiali di assoluto pregio: legno di noce a vista, dettagli in elegante metallo cromato finitura nera lucido e cinghie di supporto dello schienale in raffinato cuoio. Le cuscinature sono in piuma e i rivestimenti possono essere in pelle, tessuto o velluto. La sua linea morbida e generosa è estremamente raffinata ed è progettata per regalare un comfort straordinario, dedicato a un tempo lento, che riconcilia con se stessi e con gli altri, nella dimensione di uno spazio di relazione più intimo e privato.

Celebre designer, molto apprezzato anche come architetto, per i suoi progetti caratterizzati da una creatività totalizzante, che personalizza ogni dettaglio, dalla costruzione agli arredi, Eisler è anche scenografo regista operistico. L'esperienza brasiliana approfondisce l'interesse di Martin Eisler per i legni esotici e le tecniche di verniciatura e laccatura di legno, vetro e bronzo.

Una poltrona elegante e informale allo stesso tempo. Dall'estetica sensuale, dalla matericità naturale e dal design intelligente, che consente una raffinata personalizzazione. Costela rappresenta la sintesi della natura di un progetto creativo.

Costela rappresenta la sintesi della natura di un progetto creativo. L'idea portante, dalla quale parte tutto, la bellissima struttura in legno a fasce arrotondate in un ideale abbraccio che accoglie sia nella seduta che nello schienale, e il completamento funzionale ed estetico del dettaglio, a garanzia di un comfort completo e dallo stile estremamente naturale nella loro posizione quasi casuale. La parte portante è facilmente smontabile e riciclabile, caratteristica in linea con la fondamentale tendenza e necessità contemporanee di produrre arredi che considerino i principi di sostenibilità e durata nel tempo. La possibilità di poter giocare con i rivestimenti tessili rende poi Costela non solo un pezzo dalla storia inconfondibile, ma anche un arredo di rinnovata e irresistibile tendenza.

Dinamica, flessibile, la riedizione di Reversível propone un doppio comfort grazie alla seduta posizionabile in due modi, per utilizzare la poltrona da seduti con schiena eretta, o in modo più rilassato in una posizione semi-sdraiata, trasversale allo schienale. La semplicità e la naturalezza del movimento ne fanno sembrare ovvia la funzionalità, che costituisce in realtà una intuizione assolutamente all'avanguardia oggi come ieri. Una seduta informale, dalle linee caratteristiche, con struttura in metallo e rivestimenti tessili che ne completano l'originalità. Reversível testimonia la morbidezza e la sensualità del design brasiliano anni '50, combinazione di tradizione e creatività, tra artigianato popolare e visionaria innovazione.

Classics

Maestri or “masters” are those charismatic figures capable of teaching and handing down an art through their direct actions and also through the inheritance of their actual works. In design the maestri communicate through the classics, timeless designs far from any idea of fashions and trends yet so powerful as to produce a style naturally. Tacchini has set aside some rooms in its living environment for the classics and the masters who have designed them, in a process of revivals which are a challenge and a lesson on contemporary style.

Starting from the avant-garde artistic groups of the last century, Italian design is an endless source of inspiration for movements, expressions and ways of being. They find the Italian line into the authentic manifestation of the culture of project. What is, then, the secret of Italian design? Where does its timeless spirit hide: a spirit that keeps on driving the evolution of the discipline? From the confidence in a better future to the technological precision; from the willingness to experiment and get involved to the inimitable formal coherence, the Italian line is the material expression of a collective thought, shared among the most important figures of that period. Achille and Pier Giacomo Castiglioni, Carlo De Carli, Gianfranco Frattini belong to this group of enlightened designers of the last century. They shared ideas, thoughts and hopes for the discipline of design. They were able to combine the manual know-how, related to the industrial production of belpaese with the technical science. Their hope was to translate the myth of the Italian “good design” into everyday reality.

Today, half a century after their creation, the projects realized by these great masters of the past continue to keep alive the soul of the Italian line through a series of revivals made by Tacchini. Tacchini proposes these pieces with the desire to preserve and communicate the ideals that have guided their creation. Maintaining the integrity of the original projects, Tacchini has adapted the designer’s drawings to modern production. In this way, it has transferred the past design culture to the present.

Achille and Pier Giacomo Castiglioni

The hero of Italian design, Achille Castiglioni, along with his brothers Pier Giacomo and Livio, was able to find irony and beauty into the simplicity of everyday life. From the simplest electrical switches to the most iconic project of modern design, Castiglioni brothers transformed their uncontrollable curiosity in a series of timeless pieces. Tacchini proposes the revival of two famous pieces of Achille Castiglioni, realized inside a larger project dedicated to the reproduction of classics of modern design. Babela, designed in 1958 along with his brother Pier Giacomo, and Sancarlo, created for the first time in 1970, sum up the spirit of the period joining the formal experimentation to technical innovation. Achille and Pier Giacomo Castiglioni designed Babela, a

stackable chair, for the Milan chamber of commerce. They imagined a tower made by seats, stackable and easily transportable. Its design was simple and archetypical, with a particular mixture of materials, visual texture and tactile effects. On the other hand, Sancarlo, plays with rounded and organic shapes to allow a flexible seat, and, at the same time, suitable to the comfort of person.

Gianfranco Frattini

Gianfranco Frattini is one of that skilled generation of architects and designers, who have marked the Italian design movement of the last century. Frattini’s projects are characterized by a formal elegance, which is able to transmit clearly, and simply the ideas and thoughts that led to their creation. At the beginning of his career, he was a collaborator of Giò Ponti. Over the years, Gianfranco Frattini will develop a personal and symptomatic approach to the design based on a careful formal and structural research.

Agnese and Sesann have the same soul of design, with two different visual configurations. Designed in 1956, in the studio in via Sant’Agnese in Milan, Agnese comes out from the idea to realize the archetype of the informal armchair. It is characterized by an upholstery seat – geometric and basic – with a classical linear and wooden base. On the other hand, Sesann is characterized by an organic and informal shape, made by wrapping a tubular metal around a soft and upholstered seat.

Relaunch of an original project of Gianfranco Frattini dated 1957, but still actual for its shapes and spirit, Giulia armchair creates in the contemporary space a timeless feeling of beauty, comfort and harmony. A flawless realization, typical of Tacchini’s tradition, from the choice of materials for the embrace-shaped structure, to the ash wood basis dyed dark walnut or grey with artisan taste.

Inspired by a classic piece of Italian design designed in 1957 by Gianfranco Frattini and nominated the same year for Compasso d’Oro, Gio is a low table which expresses an idea of rationalist rigor and refined elegance, creating the emotion of a warm bourgeois atmosphere. It is characterized by the linear wood structure and by the ash double face plan dyed dark walnut or grey on one side, or yellow, grey or steel blue laminated on the other side.

Designed by Gianfranco Frattini in 1957 and produced as from the following year, Oliver sofa has achieved a huge success over the years. Minimalist and elegant, it features a lightweight structure in steel with end feet in wood and tufted upholstery on the seat and back, a detail requiring great craft expertise.

Carlo De Carli

Born in Milan, Carlo De Carli (1910-1999) graduated in 1934 in architecture from the Polytechnic University of Milan, worked for a year in the

studio of Gio Ponti and took over the chair in interior architecture, furniture and decoration from him in 1962. Curator of the X and XI Milan Triennale, he was head of the architecture faculty from 1965 to 1968. Editor of the magazine Interni from 1967 to 1971. Design, research, teaching and promotion were the areas of action of his work, carried out with a broad commonality of thinking and focused on people and the social and production context in which they operate.

Sella illustrates the concept of “primary space” from De Carli’s philosophy – that of a “relational space” –, a principle true to Tacchini’s vision of the function of furniture and interior design. The highly elegant sofa is made using the very finest of materials: exposed walnut, elegant metal chromed details finish shiny black and belts for the support of the backrest in refined natural leather. The cushions are filled with feathers, and the coverings could be in leather, fabric or velvet. Its soft, generous line offers the utmost refinement, and is designed to guarantee extraordinary comfort, conducive to a slow tempo that will reconcile us with ourselves and others, in a more intimate and private spatial dimension.

Max Eisler

Born in Vienna in 1913, the son of the famous art historian Max Eisler, one of the founding members of the Austrian Werkbund, Martin Eisler studied in Vienna under the noted architects Oskar Strnad and Clemens Holzmeister.

Costela is a paradigm of creative design. The fundamental idea on which the chair is built is the beautiful wooden structure with its wooden ribs embracing both the seat and the back, and the functional and aesthetic completion of the detail, the large cushions, set horizontally and vertically, ensuring absolute comfort with an extremely natural style in their almost random position. The structure is easy to dismantle and recycle, a characteristic perfect for the current need and tendency to produce furniture that gives due consideration to the principles of sustainability and durability. The possibility to play with the fabric coverings makes Costela not only an unmistakable piece of history, but also an item of renewed and irresistible modernity.

The dynamic, flexible reissue of Reversível offers dual comfort with two possible seat positions, to sit in the chair with the back upright, or really relax in a semi-reclining position, parallel with the backrest. The simple, natural movement makes it seem an obvious solution, but it actually represents as ground-breaking an intuition now as then. This original, informal seat with its distinctive lines is completed with a metal structure and fabric coverings. Reversível bears witness to the soft, sensuality of Brazilian 1950s design, a combination of tradition and creativity, folk craft and visionary innovation.

En Fruit of the creative genius of the architect and designer Martin Eisler, Reversível is an historic piece of Carioca design, and Tacchini fell in love with its incredibly innovative style. With the simplicity of its lines and movement, this armchair transforms with casual elegance. The dynamic, flexible reissue of Reversível offers dual comfort with two possible seat positions, to sit in the chair with the back upright, or really relax in a semi-reclining position, parallel with the backrest. The simple, natural movement makes it seem an obvious solution, but it actually represents as ground-breaking an intuition now as then. This original, informal seat with its distinctive lines is completed with a metal structure and fabric coverings. Reversível bears witness to the soft, sensuality of Brazilian 1950s design, a combination of tradition and creativity, folk craft and visionary innovation.

De Reversível, ein historisches Werk des brasilianischen Designs, aus der genialen, kreativen Feder des Architekten und Designers Martin Eisler, bezauberte Tacchini mit seinem unglaublich innovativen Stil. Mit seiner schlichten Linienführung und einer einfachen Bewegung verwandelt sich dieser Sessel mit extrem nonchalanter Eleganz. Die Neuausgabe von Reversível, dynamisch und flexibel, bietet mit zwei verschiedenen Positionen des Sitzes doppelten Komfort, so dass man auf dem Sessel aufrecht sitzen, oder sich halb liegend quer zur Rückenlehne entspannen kann. Die einfache, leichte Bewegung lässt die Funktionalität beider Positionen absolut normal erscheinen, während es sich aber in Wirklichkeit um eine, heute und gestern, absolut avantgardistische Intuition handelt. Ein informell zwangloser Sitz mit charaktervoller Linie, einer Metallstruktur und Stoffbezügen, die ihn noch origineller machen. Reversível ist ein Beispiel für die sinnliche Schmiegsamkeit des brasilianischen Designs der fünfziger Jahre, ein Zusammenfließen von Tradition und Kreativität, zwischen volkstümlichem Handwerk und visionärer Innovation.

Fr Fruit de la créativité géniale de l'architecte et designer Martin Eisler et pièce historique du design Carioca, Reversível a séduit Tacchini par son extraordinaire innovation. La simplicité d'une ligne et d'un mouvement permet de transformer ce fauteuil avec une élégance extrêmement décontractée. Dynamique et flexible, la réédition de Reversível offre un double confort grâce à son assise mobile à deux positions : l'une, assise avec le dos droit, l'autre, plus décontractée, semi-allongée transversalement au dossier. La simplicité et le naturel du mouvement rendent sa fonctionnalité évidente, révélant en réalité une intuition aussi avant-gardiste aujourd'hui qu'hier. Ce siège informel, aux lignes caractéristiques, arbore une structure en métal et des revêtements textiles qui en complètent l'originalité. Reversível témoigne de la douceur et de la sensualité du design brésilien des années 1950, alliant la tradition à la créativité, entre artisanat populaire et innovation visionnaire.

Martin Eisler

Born in Vienna in 1913, the son of the famous art historian Max Eisler, one of the founding members of the Austrian Werkbund, Martin Eisler studied in Vienna under the noted architects Oskar Strnad and Clemens Holzmeister. In 1938 he moved to Buenos Aires, where he immediately set about holding his first exhibition of designs and furniture at the Mueller Gallery, which became the National Office of Fine Arts in 1940, in the Palais de Glace. His work also took him to Brazil, where in 1955 he went into partnership with Carlo Hauner from the company Moveis Artesanais, and became Art Director of the company Forma in São Paulo. Eisler's experience in Brazil aroused his interest in exotic woods and varnishing and lacquering techniques on wood, glass and bronze. Also greatly appreciated as an architect for his projects characterised by their all-encompassing creativity, which customised every detail, from buildings to furniture, Eisler also worked as a set designer and opera director.

Costela rappresenta la sintesi della natura di un progetto creativo. L'idea portante, dalla quale parte tutto, la bellissima struttura in legno a fasce arrotondate in un ideale abbraccio che accoglie sia nella seduta che nello schienale, e il completamento funzionale ed estetico del dettaglio, a garanzia di un comfort completo e dallo stile estremamente naturale nella loro posizione quasi casuale. La parte portante è facilmente smontabile e riciclabile, caratteristica in linea con la fondamentale tendenza e necessità contemporanee di produrre arredi che considerino i principi di sostenibilità e durata nel tempo. La possibilità di poter giocare con i rivestimenti tessili rende poi Costela non solo un pezzo dalla storia inconfondibile, ma anche un arredo di rinnovata e irresistibile tendenza.

En Tacchini is delighted to reissue Costela by Martin Eisler, an icon of Brazilian 1950s design. An elegant yet informal armchair. With its sensual aesthetic, natural materials and intelligent design, it offers sophisticated personalization. Costela is a paradigm of creative design. The fundamental idea on which the chair is built is the beautiful wooden structure with its wooden ribs embracing both the seat and the back, and the functional and aesthetic completion of the detail, ensuring absolute comfort with an extremely natural style in their almost random position. The structure is easy to dismantle and recycle, a characteristic perfect for the current need and tendency to produce furniture that gives due consideration to the principles of sustainability and durability. The possibility to play with the fabric coverings makes Costela not only an unmistakable piece of history, but also an item of renewed and irresistible modernity.

De Tacchini nimmt mit Begeisterung die Idee auf, Costela von Martin Eisler neu herauszugeben, eine Ikone des brasilianischen Designs der fünfziger Jahre. Ein eleganter und gleichzeitig informeller Sessel, ästhetisch attraktiv, mit natürlichen Materialcharakteristiken und intelligentem Design, der raffinierte persönlich gestaltete Variationen erlaubt. Costela stellt eine Synthese des wahren Wesens eines kreativen Projekts dar. Die tragende Idee, der Ausgangspunkt, ist die elegante Struktur aus gerundeten Holzleisten, eine einladende Umarmung, die den Körper auf dem Sitz und an der Rückenlehne aufnimmt. Dieses Detail wird funktionell und ästhetisch vervollständigt und vollen Komfort garantieren, mit extrem natürlichem Stil, da ihre Positionierung fast unbewusst und zufällig erscheint. Das tragende Gestell ist leicht auseinander zu nehmen und ist wiederverwertbar, eine Charakteristik im Einklang mit der grundlegenden Tendenz und der Notwendigkeit unserer Zeit, Einrichtungsstücke herzustellen, die den Prinzipien der Nachhaltigkeit und der zeitlichen Dauerhaftigkeit entsprechen. Die Möglichkeit, mit verschiedenen Stoffbezügen zu spielen, macht Costela nicht nur zu einem unverkennbaren, historischen Möbel, sondern auch zu einem Einrichtungsobjekt von erneuerter, unwiderstehlicher Tendenz.

Fr Tacchini a le plaisir de rééditer Costela de Martin Eisler, une icône du design brésilien des années 1950. Un fauteuil à la fois élégant et informel. Son esthétique sensuelle, sa matérialité naturelle et son design intelligent permettent une personnalisation raffinée. Costela représente la synthèse de la nature d'un projet créatif. L'idée principale qui sous-tend le tout, à savoir la superbe structure en lattes de bois arrondies, telle une étreinte idéale qui accueille à la fois dans l'assise et le dossier, et le complément fonctionnel et esthétique du détail, presque aléatoire garantit un confort total et un style extrêmement naturel. La structure porteuse est facilement démontable et recyclable, une caractéristique conforme à la tendance fondamentale et au besoin contemporain de produire des meubles tenant compte des principes de durabilité et de durée dans le temps. La possibilité de pouvoir jouer avec les revêtements textiles fait de Costela non seulement une pièce dotée d'une histoire incomparable, mais aussi un meuble d'une tendance rénovée et irrésistible.

En Lina is a re-edition of one of the earliest projects designed by Gianfranco Frattini, one of the great masters of Italian design. Nominated in 1955 for the Compasso d'oro, the armchair features an unusual wood frame that lends it a solid, yet lightweight, appearance. Its singularity lies in the slender legs and bent plywood element that supports the side of the seat back and curves up to become the 'wing' upon which the armrests sit. A very innovative workmanship technique for its time, carried out today with historical accuracy. An armchair that makes a bold statement, thanks to its timeless style, Lina can be paired with unaffected ease with all the sofas in the Tacchini collection, in residential and contract settings.

De Lina ist eine Neuauflage eines der ersten Entwürfe von Gianfranco Frattini, diesem großen Meister des italienischen Designs. 1955 für den Compasso d'Oro nominiert, zeichnet sich der Lehnsessel durch ein sehr spezielles Gestell aus, das ihm ein solides aber dennoch anmutiges Aussehen verleiht. Das liegt an den schlanken Beinen und dem Element aus gebogener Mehrschichtplatte, die seitlich die Rückenlehne stützt und gleichzeitig als geschwungene Auflage für die Armlehnen genutzt wird. Eine für die damalige Zeit innovative Fertigung, die heute mit philologischer Sorgfalt wiederholt wird. Mit dem zeitlosen Stil ist Lina ein attraktiver Blickfang, der sich wie selbstverständlich mit allen Sofas der Kollektion Tacchini sowohl im Wohn- wie im Objektbereich kombinieren lässt.

Fr Lina est la réédition de l'un des premiers projets dessinés par Gianfranco Frattini, l'un des grands maîtres du design italien. Signalé en 1955 pour le Compasso d'oro, le fauteuil est caractérisé par une structure en bois très particulière qui lui donne un aspect solide tout en restant léger. Ce résultat est lié à la finesse des pieds et à l'élément en multiplis courbe, qui soutient le côté du dossier tout en servant d'appui aux accoudoirs. Un façonnage très innovant pour l'époque, exécuté aujourd'hui avec une attention philologique. Fauteuil d'une grande présence, grâce à son style intemporel Lina peut être associé sans problèmes à tous les canapés de la collection Tacchini, aussi bien dans les espaces domestiques que collectifs.

Agnese is the name of the new version of the 849, the armchair designed by Gianfranco Frattini around 1956 in his Milan studio, in via Sant'Agnese in fact. All the style and radiance of an age take shape in the lines of this armchair which is much more than a classic and almost an archetype. Agnese, the armchair, is produced in a very accurate way and with extreme fidelity to the original design; moreover, following from Frattini's original project, the armchair is accompanied by a matching ottoman. Agnese is just the beginning of a comprehensive project that aims to support the revival of a great designer's style but also an entire atmosphere of interior decor.

En Model 849, one of his most famous armchairs, was designed by Gianfranco Frattini in 1956. Awarded honorable mention at the 3rd Compasso d'Oro, Agnese is an Italian design icon whose appeal is timeless. His spirit of innovation is exemplary, even today. The upholstered seat and backrest are supported by an ash wood structure. The combination of the various materials, the contrast between the geometric lines of the base and the soft cushioned parts, the extraordinarily simple construction details in their uniqueness represent the signature style of a true master of design. Agnese blends timeless ergonomics and functionality with elegant, recognizable aesthetics. Perfect complement to the armchair is the matching upholstered ottoman.

De Einer der berühmtesten Sessel des Designers Gianfranco Frattini ist das Modell 849 aus dem Jahr 1956. Das innovative Design ist auch heute noch exemplarisch. Die gepolsterte Sitzfläche und Rückenlehne werden von einem Gestell aus Eschenholz getragen. Die Kombination des geometrischen Elements, das vom Gestell gebildet wird, mit weichen Polsterelementen und gestalterischen Details, die in ihrer Besonderheit außerordentlich schlicht sind, sind das Markenzeichen dieses großartigen Designers. En A re-edition of the famous Model 877 by Gianfranco Frattini, from 1957, named for the wife of Gio Ponti, the designer's great teacher and mentor. Giulia is Frattini's modern interpretation of the classic wing-back armchair and is one of the historic examples of Italian-made design. The designer uses clear, pronounced geometric lines to interpret the spacious and deep softness typical of this type of armchair with its high back and lateral headrests. The shell is all one piece with the wing-like armrests and sits on a sleek wood structure. The structural elements are an integral part of the elegant esthetic of the piece, as is the decorative detail of the wood screws, left exposed, to delight the attentive eye. The chair was featured in many of the leading interior decor projects by Frattini throughout the 1960s. Upholstered in leather, faux-leather or fabric, Giulia comes in a vast array of finishes and colors, suited to contemporary settings with a sophisticated vibe.

Respecting the thought of Gianfranco Frattini, the new edition of Sesann keeps the spirit of the product intact. Characterized by a leather upholstery, Sesann owes its typical soft and enveloping form to the structure in pine plywood, covered with polyurethane foam and encircled with an architectural tubular steel (chromed or painted), with feet in ash wood. The particular configuration of Sesann – both formal and functional – constitutes the basis for a system of products characterized by the same structural elements, but declined in unique and fascinating objects. This approach of synthesis and reduction, proposed by Frattini, produced a formally elegant design, conceptually elaborated and, above all, unique.

En An icon of Italian design in the 1970s, the Sesann collection by Gianfranco Frattini was part of a new vision of contemporary living in which ergonomics were adapted to social change, ushering in a way of sitting that is more relaxed and less stiffly formal. Today, as then, it is an open invitation to the beauty of comfort in its most authentic expression. Sesann is the absolute epitome of softness. Frattini's gifted design concept produces seating elements with sensual, generously harmonious, inviting shapes. It features an exposed, wrap-around chrome or powder-coated tubular metal structure that contains and sculpts the upholstery, becoming one with it in a huge, soft, seamless embrace. The upholstery, embellished with extremely sophisticated detailing, is completely handcrafted with extraordinary artisan skill, making it a one-of-a-kind masterpiece. Sesann is available as an armchair and a sofa three and two seaters, in a broad array of colors and finishes, from leather to fabric.

De Die Kollektion Sesann von Gianfranco Frattini ist eine Ikone des italienischen Designs der 70-er Jahre und Teil einer neuen Vision des modernen Lebens, bei der sich die Ergonomie an die gesellschaftlichen Veränderungen anpasst und der Trend zu einem weniger steifen und anständigen Sitzen geht. Und auch heute noch ist Sesann die Aufforderung, die Schönheit des authentischen Komforts zu erleben. Sesann ist das Sinnbild für Weiche. Die geniale Gestaltung und das innovative Design von Frattini schaffen Sitzmöbel mit sinnlicher und behaglicher Form, die auf harmonische Weise großzügig sind und über ein charakteristisches Gestell in Sicht aus verchromtem oder lackiertem Metallprofil verfügen, das die Polsterung umgibt, umschließt und formt und sich mit ihr in einer großen und warmen Umarmung übergangslos verbindet. Der Bezug mit extrem hochwertigen Details wird komplett und mit herausragender, handwerklicher Fertigkeit von Hand ausgeführt und macht jedes Stück zu einem Einzelstück, sodass kein Sofa oder Sessel dem anderen gleicht. Sesann ist in der Version als Sessel und als Zweisitzer- und Dreisitzersofa erhältlich, mit einer breiten Palette an Farben und Oberflächen aus Leder und Stoff.

Fr Icône du design italien des années 1970, la collection Sesann de Gianfranco Frattini appartient à une nouvelle vision de la vie contemporaine, dans laquelle l'ergonomie s'adapte au changement social qui voit l'instauration d'une manière de s'asseoir moins rigide et moins sage. Et aujourd'hui comme à l'époque, elle invite à la beauté du confort authentique. Sesann est la représentation absolue du moelleux. L'inventivité géniale et originale du design de Frattini donne le jour à des sièges de forme sensuelle et accueillante, généreusement harmonieuse, se démarquant par une structure apparente en tube métallique chromé ou peint, qui enveloppe, contient et façonne le rembourrage avec lequel elle fusionne comme en une étreinte forte et douce sans solution de continuité. Entièrement réalisé à la main avec une rare excellence artisanale, le revêtement, doté de détails extrêmement recherchés, fait que chaque pièce n'est jamais égale à aucune autre. Sesann est disponible en fauteuil et en canapé deux ou trois places, en un large choix de couleurs et de finitions, du cuir au tissu.

Lagoa

En Zanini de Zanine, the famous Brazilian designer, son of architect and designer José Zanine Caldas, creates an absolutely original model, conceived exclusively for Tacchini: Lagoa. Its soft, rounded forms surround a suspended seat that gives a marked contrast in terms of thickness. The ends of the seat slot into the sides of the structure, disappearing into a seamless natural embrace. A piece that shows brilliant, original creativity, drawing inspiration from the softness of the Carioca tradition, with an all-new visionary spirit.

De Zanini de Zanine, der berühmte brasilianische Designer, Sohn des Architekten und Designers José Zanine Caldas, entwirft exklusiv für Tacchini ein absolut einzigartiges Modell, Lagoa. Ein Sessel mit einem weichen, halbrunden Volumen, das eine schwebende Sitzfläche hält, deren geringe Dicke in starkem Kontrast zu der breiten Rundung der Struktur steht. Der Rand des Sitzes verschwindet in den Seiten der halbrunden Struktur, die den Sitz ganz einfach, in kontinuierlicher Linie umarmt. Ein Design von brillanter, einzigartiger Kreativität, die sich an der weichen Schmiegsamkeit der brasilianischen Tradition inspiriert, und zwar mit einem völlig neuen, visionären Geist.

Fr Le célèbre designer brésilien et fils de l'architecte et designer José Zanine Caldas, Zanini de Zanine, a conçu Lagoa, un modèle absolument nouveau, en exclusivité pour Tacchini. Ce fauteuil au volume doux et arrondi accueille une assise suspendue d'une épaisseur fortement contrastée. Les extrémités du siège sont insérées dans les flancs de la structure, disparaissant dans une étreinte naturelle sans solution de continuité. Cette pièce d'une créativité brillante et inédite puise son inspiration dans la douceur de la tradition carioca, avec un esprit visionnaire entièrement nouveau.

Zanini De Zanine

Born in Rio de Janeiro in 1978, Zanini de Zanine grew up watching his father, José Zanine Caldas work. He trained with Sergio Rodrigues, when he produced his first mobile. In 2002 he graduated in Industrial Design at PUC-Rio. From 2003, he began producing solid wood furniture, with pieces of demolition – columns, beams and posts of old houses – baptised as "Contemporary Carpentry." From 2005, he began to create a new line of furniture pieces produced industrially using controlled origin wood and different materials such as plastic, acrylic, metals and other parts of manufactured products. To represent this new furniture line, Zanini creates in 2011 Studio Zanini.

Pastilles

En The new project with Studiopepe is a collaboration with designers Arianna Lelli Mami and Chiara Di Pinto, the creative minds behind the consultancy. Pastilles is a collection of small armchairs, ottomans and coffee tables, with soft and enveloping shapes that bring back childhood memories, the sweets. A contemporary reinterpretation of the classic cockpit armchair, with a sinuous shell that contains the seat and that gives excellent comfort to the design. Completed by two tables of different sizes and an ottoman, these elements create a matched family of shapes that can be used as a system or as single objects.

Studiopepe

Internationally recognized for its eclectic and multi-faceted approach, Studiopepe adopts an imaginative and multidisciplinary approach towards the world of design. The studio's distinctive signature is eloquently expressed in all the heterogeneous projects in which it has been engaged: large-scale projects in the hôtellerie field, the creation of displays for showrooms, boutiques and fair booths, or the interior design of private homes. Founded in 2006, the agency has maintained a highly recognizable identity based upon experimenting, citations and unexpected thought associations which are aimed at fostering unique projects that respect the individuality of the Client. Studiopepe's projects are characterized by a strong emotional and aesthetic impact, based upon the finding the ideal balance between formal rigour and poetic vision, the ceaseless search to blend contemporary languages and codes. In the Studio's works, the unexpected becomes a constant: the bold interplay between materials, fields of colour that become the expression of space, and details that are no longer mere decoration, but delicately woven storytelling.

Shelter

En Inspired by the purity of nature, it is a sculpture, a place unto itself, where self-reflection comes naturally. Shelter armchair, designed by Noé Duchaufour-Lawrance, is a welcome pause, a place to restore balance and energy to the body, in the moment where comfort and reflection prevail. A modern interpretation of the ideal chair for relaxation and reading, Shelter envelops, slowing time, transporting lightness and new, timeless lines to the space it inhabits. The backrest, with lateral headrests and center head cushion, completes the ergonomic luxury of the chair, perfect for a private niche at home, in waiting rooms or relaxation rooms in professional offices, public spaces and contract settings. The metal base is coordinated with the armchair's leather or fabric upholstery. Complementary comfort provided by the matching footstool.

De Eine Skulptur, die sich an der Reinheit der Natur inspiriert, ein eigenständiger Ort innerhalb von Raum und Zeit. Der Sessel Shelter des Designers Noé Duchaufour-Lawrance lädt zu einer Rast ein, um den Körper wieder ins Gleichgewicht zu bringen und Energie zu tanken, in einem Moment der Ruhe, in dem Komfort und Besinnung oberste Priorität haben. Shelter ist eine moderne Interpretation des Entspannungs- und Lesesessels und bietet einen neuen Sitzkomfort fern von Hektik und Stress und ein Design, das dem Raum mit einer neuen und zeitlosen Linie Charakter verleiht. Die hohe Rückenlehne mit seitlichen Kopfstützen und Nackenkissen vervollständigt die elegante Ergonomie des Sessels, der perfekt ist für Wartebereiche oder Entspannungsbereiche in Büros und Studios, für öffentliche Bereiche und für Objekteinrichtungen. Das Metallgestell harmoniert mit dem Stoff- oder Lederbezug der Sitzfläche. Für besondere Komfort garantiert der passende Polsterhocker.

Fr Une sculpture inspirée par la pureté de la nature, un lieu en soi, où l'on se retrouve dans l'instant et dans l'espace. Dessiné par Noé Duchaufour-Lawrance, le fauteuil Shelter invite à s'octroyer une pause pour que le corps retrouve équilibre et énergie, au moment où le confort et la réflexion sont au premier plan. Shelter est une interprétation moderne du fauteuil de relaxation et de lecture ; son assise accueillante, sous le signe de la lenteur, caractérise l'espace avec la légèreté d'une ligne nouvelle, intemporelle. Le dossier haut avec des oreilles et un coussin central vient compléter l'ergonomie élégante de ce modèle parfait pour un coin intime de l'espace domestique ou pour les salles d'attente ou les zones de détente de cabinets professionnels, d'espaces publics et contract. Le piétement en métal se marie à la finition en cuir ou en tissu de l'assise. Le pouf assorti apporte un supplément de confort.

Noé Duchaufour-Lawrance

Designer and interior architect, Noé Duchaufour-Lawrance has defined his own language using natural shapes which are supple, organic, fluid and structured at the same time. A double passion for the material and for the shape embodied by a double faceted course of studies: first of all following a course in Sculpture on Metal (at the Ecole Nationale Supérieure des Arts Appliqués et des Métiers d'Art), then design at the Arts Décoratifs in Paris. In response to a creative family environment (his father was a sculptor), Noé Duchaufour-Lawrance very quickly displayed an unusual aesthetic quality, which stands out, beginning with the restaurant Sketch in Soho in 2002. He established his own design studio the following year and has henceforth seized each project as a real opportunity to define an aesthetic quality of his own, to design harmonious objects and areas with an aim to establish an emotional bond with nature.

Doodle

En Doodle – the absent-minded scribbles we draw while thinking about other things. These almost-random lines have become the key stylistic feature of these chairs of the same name, with their visible tone-one-tone or contrasting stitching. Doodle is designed for both domestic and contract use, and combines beautifully with the reception chairs and stools from the same series.

De Doodle ist ein englischer Ausdruck für Kritzeli und beschreibt Zeichnungen, die man unwillkürlich ausführt, wenn man sich auf etwas anderes konzentriert. Diese wie zufällig hingeworfenen Linien wurden zum stilistischen Merkmal des gleichnamigen Sessels, mit der charakteristischen Naht auf Sicht in der gleichen Farbe wie der Bezug oder von diesem farblich abgesetzt. Doodle eignet sich für den häuslichen Raum ebenso wie für Objekteinrichtungen, auch in Verbindung mit den Stühlen und Hockern der gleichen Serie.

Fr En anglais, le mot Doodle signifie gribouillage et décrit les dessins que l'on fait quand l'esprit est concentré sur quelque chose d'autre. Ces lignes tracées presque par hasard sont devenues le trait stylistique du fauteuil du même nom, caractérisé par une couture apparente ton sur ton ou en contraste sur la couleur du revêtement. Doodle est pensé aussi bien pour les espaces domestiques que pour les espaces collectifs, associé éventuellement aux chaises et aux tabourets de la même série.

En Drawing evident inspiration from the fashion world, Jacket armchair now appears in a renewed version, with revamped sartorial details and new colours for its sleek and slender metal frame. The quilted fabric, in addition to dressing the piece, forms its soft, cosy shell, with edging reminiscent of a jacket lapel. Two cushions add a sense of snug comfort.

Pisa

En From the visual form of the verbal language – borrowed from the simple configuration of the letter “u” – the Swedish designers translate the game of three-dimensional extrusion, starting from the silent language of human body. Essentially designed for public spaces, offices or hotels, Pisa is an upholstered armchair with compact dimensions, suitable for tight spaces but without excluding aesthetic and comfort. Its minimal shapes embrace the body, creating an intimate feeling. Its geometric shape, with the sloping backrest and a cut profile, creates a strong personality despite restrained measures.

De Ausgehend von der visuellen Form der verbalen Sprache und in Anlehnung an die einfache Konfiguration des Buchstabens „u“ spielen die schwedischen Designer mit dreidimensionalen Formen und greifen dabei die stumme Körpersprache auf. Vor allem für den öffentlichen Raum, Büros oder Hotels entwickelt, ist Pisa ein gepolsterter Sessel mit kompakten Dimensionen für kleine Räume, ohne Komfort und Ästhetik zu verlieren. Seine minimalistischen Formen hüllen den Körper ein und schaffen ein intimes und persönliches Gefühl. Seine geometrische Gestaltung mit geneigter Rückenlehne und dem besonders geschnittenen Profil schafft eine starke Persönlichkeit mit kleinen Maßen.

Fr La forme visuelle du langage verbal – empruntée à la configuration simple de la lettre « u » – est le point de départ des designers suédois qui traduisent le jeu d’extrusions tridimensionnelles en se référant au langage silencieux du corps humain. Dessiné principalement pour les espaces publics, bureaux et hôtels, Pisa est un fauteuil rembourré aux dimensions compactes, adapté pour les espaces étroits, sans négliger le confort et l’esthétique. Ses formes minimalistes enveloppent le corps et créent une sensation intime et personnelle. Son dessin géométrique, avec dossier incliné et son profil coupé caractéristique, donne une forte personnalité malgré la taille compacte.

Isola

En In waiting spaces, people naturally tend to assume a relaxed posture, particularly while using their computer, laptop or smartphone for work or to pass the time. This consideration was the starting point for the conception of Isola, an armchair with a contemporary design that responds to the need for comfort in public or semi-public places. Isola features a visually inviting shape, and a broad, deep seat. The possibility of combining the seat with an oval table, built into the left or right side, makes it even more practical, and ideal for use in all contract situations.

De Beim Warten nehmen Menschen unwillkürlich eine entspannte Haltung ein, vor allem wenn sie mit Computer, Laptop oder Smartphone arbeiten oder sich die Zeit vertreiben. Das ist der Grundgedanke für das Design von Isola, ein zeitgenössisch anmutender Fauteuil, der dem Bedürfnis nach Komfort auch in öffentlichen oder halb-öffentlichen Räumen Rechnung trägt. Charakteristisch für Isola sind die bereits für das Auge behaglich einladende Form und die großzügige, tiefe Sitzfläche. Durch ein ovales Tischchen, das rechts oder links angebaut werden kann, ist das Möbel noch funktioneller und eine ideale Lösung auch für den Objektbereich.

Fr Dans une situation d'attente, les personnes tendent naturellement à prendre une posture plus décontractée, surtout quand elles utilisent l'ordinateur ou un smartphone pour le travail ou comme passe-temps. C'est de cette réflexion qu'est né Isola, un fauteuil au design contemporain qui répond à l'exigence de vivre confortablement y compris dans les lieux publics ou semi-publics. Isola est caractérisé par une forme accueillante et invitante, et par une assise large et profonde. La possibilité d'associer au fauteuil une table basse ovale, intégrée sur le côté droit ou gauche, le rend encore plus fonctionnel et adapté également aux espaces collectifs.

La poltrona Sancarlo è un trattato di statica, ergonomia, funzione e geometria. Achille Castiglioni recupera l'idea della Sanluca, disegnata qualche decennio prima con il fratello Pier Giacomo. Sancarlo è la riedizione di un classico firmato da Achille Castiglioni. La seduta, nelle due versioni poltrona e divano, è costituita da una struttura semplice e lineare in tubo curvato, su cui sono posizionati diversi volumi imbottiti. Un concetto all'avanguardia per l'epoca in cui venne presentato, reso ancora più efficace oggi dalle imbottiture differenziate, che cambiano densità in base alla zona del corpo che devono supportare. Achille Castiglioni

The hero of Italian design, Achille Castiglioni, along with his brothers Pier Giacomo and Livio, was able to find irony and beauty into the simplicity of everyday life. From the simplest electrical switches to the most iconic project of modern design, Castiglioni brothers transformed their uncontrollable curiosity in a series of timeless pieces. Castiglioni was born on 16 February 1918 in Milan, in Lombardy in northern Italy. He was the third son of the sculptor Giannino Castiglioni and his wife Livia Bolla. When the War was over, Castiglioni joined the architectural design practice that his brothers Livio and Pier Giacomo had started with Luigi Caccia Dominioni in 1938. Livio Castiglioni left the practice in 1952. From then until Pier Giacomo died in 1968, he and Achille worked as a team. Achille believed in experimentation; his method was to always start from scratch, stick to common sense, know the end goal and the means to achieve it.

Babila (with Pier Giacomo) ↗ p.216

En The Sancarlo armchair is a treatise on statics, ergonomics, function and geometry. Achille Castiglioni has taken up again the idea of the Sanluca, designed a few decades earlier with his brother Pier Giacomo. The result is the breaking-down of the seat into a series of cushions which curve to each part of the body they have to support. Sancarlo is a reissue of a classic designed by Achille Castiglioni. Both versions, armchair and sofa, are composed of a simple, linear, curved tubular frame, on which a number of upholstered cushions are positioned. A ground-breaking concept when it was first presented, it has now been made even more effective with differentiated foam filling, in which the density varies according to the region of the body to be supported. Full of character, Sancarlo is a veritable icon of 20th-century design.

De Der Sessel Sancarlo ist ein Statement, das für Statik, Ergonomie, Funktion und Geometrie steht. Achille Castiglioni greift die Idee des Sessels Sanluca wieder auf, den er vor einigen Jahrzehnten gemeinsam mit seinem Bruder Pier Giacomo entworfen hat. Ergebnis ist das Zerlegen der Sitzfläche in eine Reihe von Kissen, die mit ihren Rundungen den verschiedenen Körperteilen Halt bieten. Sancarlo ist die Neuauflage eines Design-Klassikers von Achille Castiglioni. Das Sitzmöbel, in den Ausführungen als Fauteuil und Sofa, besteht aus einer schlichten, linearen Struktur aus gebogenem Metallrohr, in die Polsterungen verschiedener Volumen eingesetzt werden. Ein supermodernes Design für die damalige Zeit, das heute durch differenzierte Polsterungen, die je nach dem zu stützenden Körperteil unterschiedliche Härten aufweisen, noch wirkungsvoller ist. Sancarlo ist ein charakterstarkes Sitzmöbel und eine Stilikone des 20. Jahrhunderts.

Fr Le fauteuil Sancarlo est un traité de statique, d'ergonomie, de fonction et de géométrie. Achille Castiglioni reprend l'idée du modèle Sanluca, conçu quelques décennies plus tôt avec son frère Pier Giacomo. Il en résulte une déstructuration du siège en une série de coussins incurvés qui s'offrent à chacune des parties du corps qu'ils devront soutenir. Sancarlo est la réédition d'un classique signé par Achille Castiglioni. Le siège, dans les deux versions fauteuil et canapé, est constitué d'une structure simple et linéaire en tube cintré, sur laquelle sont positionnés les volumes rembourrés. Un concept à l'avant-garde pour l'époque où il fut présenté, rendu encore plus efficace aujourd'hui par les rembourrages différenciés, qui changent de densité en fonction de la zone du corps qu'ils doivent soutenir. Création d'une grande personnalité, Sancarlo est une véritable icône du design du XXe siècle.

L'ispirazione per Glide è stata l'osservazione della natura, il fluido e continuo passaggio da una forma a un'altra e da uno stato all'altro, come la neve che si scioglie in primavera. La seduta, sostenuta da una leggera base in metallo, è ampia e sottile, comoda perché realizzata in poliuretano espanso a quote differenziate che accoglie il corpo in un abbraccio aereo e spontaneo.

Glide

En The inspiration for Glide came from observing nature, the constant, flowing transformation from one state to another, like snow melting in springtime. The light metal base supports a broad, slender seat made in comfortable variable-density polyurethane foam that envelops the body in a spontaneous, airy embrace.

De Die erste Inspiration für Glide kommt aus der Beobachtung der Natur, dem fließenden, dauernden Übergang von einer Form zur anderen, von einem Zustand zum anderen: wie der Schnee im Frühling. Ein Konzept, aus dem ein großzügiges, weiches und schlankes Sitzmöbel entstanden ist, hergestellt aus PU-Schaum in differenzierten Höhen und getragen von Metallstützen, das den Körper in einer lockeren, spontanen Umarmung aufnimmt.

Fr L'inspiration de départ pour Glide est l'observation de la nature, le passage fluide et continu d'une forme à une autre, d'un état à l'autre: comme la neige au printemps. Un concept d'où naît une assise ample, moelleuse et fine, réalisée en polyuréthane expansé à densité variable, soutenue par d'élégants supports métalliques, qui accueille le corps dans une étreinte aérienne et spontanée.

Monica Förster

One of the best-loved interpreters of contemporary Swedish design, Monica Förster works in Stockholm, but she was born and raised close to the Arctic Circle, and this environment has had a clear influence on her work, seen in a deep love for the purest of shapes and for natural sources of inspiration, alongside a curiosity for new materials and technologies. She works with numerous international clients, often inventing new typologies of products in industrial, furniture and object design. She has received accolades including the Excellent Swedish Design award, the Design Plus award in Germany and the Future Design Days Award.

En From the drawing board of French designer Patrick Norguet, the Atoll chaise longue traces the pleasure of relaxation with sinuous curves that combine aesthetic vision and ergonomics. The ethereal elegance of the elongated seat flows from the high backrest to the single armrest. The full, well-defined proportions of the shell contrast with the sleek simplicity of the wood legs and metal structure. The Norguet chaise longue is ideally suited to furnish relaxation areas in airports, hotels and spas, and a welcome refuge in the more curated private areas of public buildings. At home, it lends an air of cozy, yet very modern, sophistication; an invitation to savor the precious rhythms of slow time.

De Die Chaiselongue Atoll ist dem französischen Designer Partrick Norguet aus der Feder geflossen und steht mit ihrem Design, das durch geschwungene und sinnliche Linien charakterisiert ist und gekonnt Ästhetik mit Ergonomie verbindet, ganz im Zeichen der Entspannung. Die elegante Leichtigkeit der verlängerten Sitzfläche geht in eine komfortable hohe Rückenlehne mit einseitiger Armlehne über. Das volle und definierte Volumen der Sitzschale wird durch die schmalen und minimalistischen Holzbeine mit Metallgestell betont. Die Chaiselongue von Norguet ist perfekt für die Einrichtung von Relax-Zonen in Flughäfen, Hotels und Wellness-Einrichtungen und für reservierte und hochwertige Bereiche in öffentlichen Einrichtungen. Im Wohnbereich lässt sich mit der Chaiselongue ein behagliches, elegantes und extrem modernes Ambiente schaffen, dass dazu einlädt, wertvolle Ruhephasen zu genießen.

L'élégante légèreté de l'assise se prolonge dans le dossier haut et enveloppant avec accoudoir unilatéral. Le volume plein et défini de la coque se rapproche du minimalisme subtil des pieds en bois à structure métallique. La chaise longue de Norguet est idéale pour meubler les espaces de détente d'aéroports, hôtels, centres de bien-être et pour les espaces intimes particulièrement raffinés de structures ouvertes au public. Dans le contexte domestique, elle crée une ambiance privée, raffinée et extrêmement moderne qui invite à savourer la précieuse lenteur du temps.

Memory Lane Outdoor/Indoor

En Christophe Pillet designs a chair that is timeless, universal and radically simplified in its design. Memory Lane's elegance lies in its outright rejection of any hint of complexity. The slender metal structure and sophisticated top-stitched upholstery, with elastic webbing visible on the back of the seat, make it a true declaration of simplicity. A chair designed for the contract market, where beauty and comfort stylishly coexist.

De Christophe Pillet entwirft einen zeitlosen Stuhl, überall einsetzbar und in einem radikal essentiellen Design. So liegt die Eleganz von Memory Lane gerade im Verzicht auf jede Komplexität: die schlanke Metallstruktur und die raffinierte, gesteppte Polsterung, mit elastischen Gurten, die auf der Unterseite der Sitzfläche sichtbar bleiben, verstärken den Eindruck von Schlichtheit. Ein Stuhl für den Objektbereich, bei dem sich elegante Ästhetik und Komfort verbinden.

Fr Christophe Pillet dessine une chaise intemporelle, universelle, radicalement simplifiée dans son design. L'élégance de Memory Lane tient précisément au refus de toute complexité : la fine structure en métal et le rembourrage raffiné, rythmé par les surpiqures, avec des sangles élastiques qui restent visibles dans la partie arrière, en font un véritable manifeste de la simplicité. Une chaise pensée pour les collectivités, où la beauté et le confort cohabitent.

En The designer drew inspiration from the work of minimalist artist Ellsworth Kelly, creating a chair with slender metal legs and a padded shell with a simple, linear shape. An essential, sleek chair for cultured and elegant settings, both domestic and contract, which can be perfectly accompanied by the tables from the same collection.

De Angeregt durch die minimalistischen Werke von Ellsworth Kelly, hat der gleichnamige Stuhl sein prägendes Merkmal in der schlanken Metallstruktur mit gepolsterter Sitzschale in schlichter, linearer Form. Ein essentielles, edles Sitzmöbel für ein exklusives, elegantes Ambiente im Wohn- und Objektbereich, das mit Tischen der gleichen Kollektion einsetzbar ist.

Babela

Ci sono progetti che nascono classici già nei nomi che portano. Babela è uno di quei progetti e di quei nomi. Nel 1958 Achille Castiglioni disegna questa poltroncina per completare l'arredamento della Camera di commercio di Milano: il comfort si incontra con la forma e la funzionalità, svelata nella possibilità di poter impilare questa seduta, come una torre.

Progettata nel 1958 da Achille e Pier Giacomo Castiglioni per la Camera di Commercio di Milano, Babela è un ottimo esempio di come funzionalità ed estetica possano coesistere nella stessa seduta, una poltroncina comoda e impilabile dal disegno rigoroso, in linea con l'ambiente istituzionale per cui è pensata. La riedizione porta Babela dentro spazi contemporanei, trasformando la struttura in ferro dell'originale in una base in legno di frassino, più caldo e naturale.

There are designs which are born classics in name only. Babela is one of those designs and one of those names. In 1958 Achille Castiglioni designed this small armchair to add to the furniture of the Milan chamber of commerce. Comfort meets form and function which is revealed in the possibility of stacking this seat up like a tower. Its design was simple and archetypical, with a particular mixture of materials, visual texture and tactile effects.

Achille + Pier Giacomo Castiglioni

The Castiglioni studio was established in 1938 by brothers Livio and Pier Giacomo, while for certain projects, Luigi Caccia Dominioni also worked alongside them. In 1944 Achille joined the studio: the partnership between the three brothers continued until 1952, when Livio set up on his own, while continuing to work with Pier Giacomo and Achille for some special projects. Achille and Pier Giacomo worked together without any clear division of roles, but with equal participation, and constant discussion and exchange of ideas. This collaboration continued until Pier Giacomo died in 1968. Achille continued to work in the same way as he always had done with his brother, and indeed it is almost impossible to detect any difference in his approach to projects, other than the natural social and technological changes that came about with the evolving times.

En Designed in 1958 by Achille and Pier Giacomo Castiglioni for the Milan Chamber of Commerce, Babela is an excellent example of how practicality and aesthetics can work together in the same chair, a comfortable, stackable easy chair with a rigorous design perfect for the institutional setting for which it was conceived. This reissue brings Babela into contemporary spaces, transforming the original iron frame into a warmer, more natural ash wood one.

De Babela, 1958 von Achille und Pier Giacomo Castiglioni für die Handelskammer Mailand entworfen, beweist sehr schön, dass Funktion und Ästhetik in einem Sitzmöbel gemeinsam bestehen können: der bequeme Sessel ist stapelbar, das rigorose Design passt genau in die förmliche Umgebung, für die es entworfen wurde. Für die Neuauflage, die Babela in zeitgemäße Räume führt, wurde die eiserne Struktur durch eine warme, natürliche Basis aus Eschenholz ersetzt.

Fr Conçue en 1958 par Achille et Pier Giacomo Castiglioni pour la Chambre de commerce de Milan, Babela est un excellent exemple de comment la fonctionnalité et l'esthétique peuvent coexister dans le même siège, un petit fauteuil confortable et empilable au dessin rigoureux, adapté au contexte institutionnel pour lequel il a été conçu. La réédition porte Babela dans des espaces contemporains, en transformant la structure en fer de l'original en une base en bois de frêne, plus chaud et naturel.

Doodle

En Like the armchair from the same collection, the chair and stool also draw their inspiration from doodles, which are depicted here in the visible tone-on-tone or contrasting stitching in the covering. Designed to fulfil a wide range of needs, Doodle chairs and stools are equally well-suited to home and contract settings, from the workplace through to the hospitality sector.

De Wie der Sessel der Kollektion, lassen sich auch Stuhl und Hocker von doodles anregen, unbewusst hingeworfene Linien, wenn die Gedanken woanders sind. In diesen Sitzmöbeln werden sie in den Nähten auf Sicht in der gleichen Farbe wie der Bezug oder von diesem farblich abgesetzt, wieder aufgegriffen. Die Stühle und Hocker Doodle wurden für unterschiedliche Bedürfnisse entworfen und passen ebenso in die Wohnung, in das Büro wie in gastgewerbliche Räume.

Fr Comme le fauteuil de la même collection, la chaise et le tabouret s'inspirent eux aussi des gribouillages, dessins griffonnés distraitemment en pensant à autre chose et repris, dans ces sièges, dans les coutures apparentes ton sur ton ou en contraste sur la couleur du revêtement. Conçus pour répondre aux exigences les plus variées, les chaises et les tabourets Doodle s'intègrent dans un intérieur comme dans un lieu public, des espaces de travail aux espaces d'accueil.

En Fixie is a stool featuring a functional tubular structure which deeply identifies the product, making it instantly recognizable as a 3D graphic pattern or a furniture sculpture. Joaquim

En The softness of Brazilian furniture design between the 40s and 60s in the modernist architecture of Niemeyer, Costa, Vilanova Artigas and Bo Bardi provides the inspiration for the new collection of Joaquim tables by Bonaguro for Tacchini. In aesthetic terms, the linear, geometric shapes are a homage to the simple, elegant lines of Joaquim Tenreiro, considered one of the fathers of modern tropical design. In technical terms, the Joaquim collection was designed to salvage off-cuts, fully embracing the principles of upcycling and environmental sustainability, which are major linchpins of Brazilian creativity. The tables feature a metal frame with tops and bases in Patagonia or Elegant Brown.

De Die fließende Schmecksamkeit des brasilianischen Möbeldesigns, das zwischen den vierziger und sechziger Jahren für die Architekturen des Modernismus von Niemeyer, Costa, Vilanova Artigas und Bo Bardi entstand, inspiriert ebenfalls die neue Kollektion der Tische Joaquim von Bonaguro für Tacchini. Vom Standpunkt der Ästhetik her gesehen, sind die linearen, geometrischen Formen eine Anerkennung an die schlanken, eleganten Linien von Joaquim Tenreiro, der als einer der Vorläufer des modernen tropischen Designs gilt. Von der technischen Seite her gesehen, wurde die Kollektion Joaquim so entworfen, dass sie der Wiederverwertung von Bearbeitungsabfällen Rechnung trägt, in absolutem Einklang mit den Prinzipien des Upcyclings und der Umweltverträglichkeit, wichtige Fundamente der brasilianischen Kreativität. Die Tische zeichnen sich durch eine Metallstruktur aus, mit Platte und Fuß aus Patagonia Marmor oder Elegant Brown.

Fr La douceur du design brésilien des meubles conçus entre les années 1940 et 1960 pour les architectures modernistes de Niemeyer, Costa, Vilanova Artigas et Bo Bardi inspire la nouvelle collection de tables Joaquim de Bonaguro pour Tacchini. Du point de vue esthétique, les formes géométriques et linéaires sont un hommage aux lignes simples et élégantes de Joaquim Tenreiro, considéré comme l'un des pères du design tropical moderne, tandis que du point de vue technique la collection Joaquim a été conçue en pensant à la récupération de déchets de fabrication, en parfaite harmonie avec les principes du surcyclage et de l'écodurableté, pierres angulaires de la créativité brésilienne. Les tables se démarquent par une structure en métal ainsi que des plateaux et des bases en marbre Patagonie ou Elegant Brown.

Gio

Progettato nel 1957 da Gianfranco Frattini e segnalato lo stesso anno per il Compasso D'Oro, Gio è un tavolino basso che esprime un'idea di rigore razionalista e di eleganza raffinata.

Designer, Year:
Gianfranco Frattini, (1957) 2016

È caratterizzato da una struttura lineare in legno e dal piano bifacciale a due colori, con tonalità più neutre o più vivaci, sempre ispirate al design anni Cinquanta. Pezzo storico del design anni '50, Gianfranco Frattini disegna il tavolino Gio nel 1957 e nello stesso anno viene segnalato per il prestigioso Compasso d'Oro. Tacchini Italia Forniture lo riedita nel 2016 e ora ne rinnova la collezione con un nuovo, raffinato, piano in finitura a effetto corno, che ne impreziosisce l'elegante rigore estetico, nel pieno rispetto dell'ambiente. La trama riprodotta rende il top lucido incredibilmente materico, sobriamente accoppiato al retro top in finitura laccato lucido, come la base. Il piano bi-facciale, caratteristico di questo oggetto d'arredo minimale e ricco di dettagli progettuali originali, acquista così una nuova declinazione di gusto, rimanendo fedele all'inconfondibile stile del modernismo italiano creato dal celebre architetto milanese.

En Designed in 1957 by Gianfranco Frattini, and nominated for the Compasso D'Oro award in the same year, Gio is a low coffee table that expresses a sense of rationalist rigour and refined elegance. It features a linear wooden frame and a two-tone reversible top, with a choice of more neutral or more lively hues, all drawn from a palette typical of fifties design. Tacchini Italia Forniture brought out a new version in 2016 and now has restyled the collection with a new and refined top in a horn effect finish which embellishes its elegant aesthetic understatement with total environmental awareness. The pattern reproduced makes the gloss top incredibly textural, discreetly coordinated with the back ingloss lacquer finish, like the base. This two-sided top, a feature of this minimalist furniture item, rich in original design details, thus gains a new dimension in taste, staying true to the unmistakable style of Italian modernism created by the renowned Milan architect.

De Gio, 1957 von Gianfranco Frattini entworfen und im gleichen Jahr für den Compasso d'Oro kandidiert, ist ein niedriger Tisch, der eine Idee von rationalistischer Strenge und raffinierter Eleganz ausdrückt. Er zeichnet sich durch eine lineare Holzstruktur aus mit beidseitig, in zwei Farben lackierter Platte, mit eher neutralen oder aber lebhaften Tönen, immer im Einklang mit den Design der fünfziger Jahre. Tacchini Italia Forniture gibt ihn 2016 wieder heraus und erneuert die Kollektion mit einer neuen, raffinierten Platte, deren Behandlung einen Horn-Effekt erzielt, um die elegante, ästhetische Strenge in vollem Umweltrespekt zu bereichern. Die so erhaltene Beschaffenheit gibt der glänzenden Platte eine effektvolle Struktur, die sich schlicht und elegant mit der glänzend lackierten Unterseite und dem Fuß in gleicher Ausführung verbindet. Die zweiseitige Platte, Charakteristik dieses minimalistischen Einrichtungsstücks voller origineller Projektdetails, wird damit zum Ausdruck einer neuen Tendenz, bleibt aber dem unverkennbaren Stil des italienischen Modernismus treu, der von dem berühmten Mailänder Architekten geschaffen wurde.

Fr La table basse Gio, dessinée en 1957 par Gianfranco Frattini et nominée la même année pour le Compasso D'Oro, exprime une idée de rigueur rationaliste et d'élégance raffinée. Elle arbore une structure linéaire en bois et un plateau double-face de deux couleurs, dans des tons neutres ou vifs, toujours inspirées du design des années 1950. Tacchini Italia Forniture, qui l'a rééditée en 2016, assortit maintenant la collection d'un nouveau plateau raffiné dont la finition effet corne embellit l'élegant rigueur esthétique, tout en respectant pleinement l'environnement. La texture reproduite rend le dessus brillant incroyablement matérielle, tandis que le dessous, sobrement couplé, arbore une finition laquée brillante à l'instar de la base. Le plateau double-face, caractéristique de ce meuble minimalist regorgeant de détails originaux, acquiert ainsi une nouvelle déclinaison tout en restant fidèle au style incomparable du modernisme italien créé par le célèbre architecte milanais.

Gianfranco Frattini

Gianfranco Frattini was born in Padua, Italy, on 15th May, 1926. He graduated in Architecture, at the Politecnico, Milan, in 1953. At the end of the 50's, he is one of the founders of ADI, Association for Industrial Design. Frattini opened his own studio in Milan, after working in the office of his teacher and mentor Gio Ponti. In few years, he became an industrial designer, well-known worldwide. Among his many successful projects, in 1956 designed the chair model 849, nominated for the "Compasso d'Oro" Prize. Now, this armchair, which takes shapes from the original design, is proposed by Tacchini with the name of "Agnese".

Soap

En Gordon Guillaumier continues to explore elemental simplicity. Soap is a table with a discreet elegance. Its soft forms, rounded corners and precious, smooth, marble top complement all the sofas in the Tacchini collections with exquisite simplicity, in both contract and domestic settings.

De Die Suche von Gordon Guillaumier nach dem Wesen der Dinge geht weiter. Soap ist ein Couchtisch von dezentler Eleganz. Durch weiche Formen, gerundete Ecken und die glatte Schönheit der Marmorplatte, ist er ein schlichter Begleiter für Sofas der Kollektionen Tacchini, einsetzbar sowohl im Objektbereich wie auch im häuslichen Ambiente.

Fr La recherche d'essentialité de Gordon Guillaumier continue. Soap est une table basse à l'élégance discrète. Cage

En Minimalism and elegance are the key features of Cage coffee tables, with their metal base that is both support and frame for the precious marble top. Cage tables can be round or square, high or low, and they accompany and complement all the sofas and armchairs in the Tacchini collections.

De Minimalismus und Eleganz sind die wichtigsten Merkmale der Couchtische Cage, die im Metallgestell gleichzeitig eine Stütze und einen Rahmen für die edle Marmorplatte haben. Von runder oder vierseckiger Form, höher oder niedriger, sind Couchtische Cage die ideale Begleitung und Ergänzung für alle Sofas und Fauteuils der Kollektionen Tacchini.

Fr Minimalisme et élégance sont les caractéristiques des tables basses Cage, dont la base métallique est à la fois soutien et cadre du précieux plateau en marbre. De forme ronde ou carrée, plus haute ou plus basse, la table basse Cage accompagne et complète tous les canapés et les fauteuils des collections Tacchini.

Il piano del tavolino Coot, ispirato alla pura e semplice geometria di un petalo, è un motivo perfetto per comporre una molteplicità di modelli diversi, partendo da un unico modulo. La struttura di sostegno è pensata per permettere al piano di librarsi sopra una poltrona o un divano: una funzione particolarmente utile quando si utilizza un computer portatile.

Coot

En Nature's shapes represent a major source of inspiration for designer Gordon Guillaumier. The top of the Coot table was inspired by the simple geometry of a petal; it is a perfect motif for generating a variety of different models from one single form. The support structure is designed to allow the top to open up over a chair or sofa, a particularly useful feature when using a laptop computer.

De Die Naturformen stellen eine der Hauptinspirationen des Designers Gordon Guillaumier dar. Die Tischplatte des Tisches Coot, inspiriert durch die einfache und pure Geometrie eines Blütenblattes, ist ein perfektes Motiv welches auf einem einzigen Modul basiert aber die Kombination vieler verschiedener Modelle zulässt. Die Stützstruktur wurde so gedacht, dass die Tischplatte die Möglichkeit hat sich über einem Sessel oder einem Sofa zu entfalten: eine besonders nützliche Funktion, wenn man ein Notebook benutzt.

Fr Les formes de la nature représentent l'une des principales sources d'inspiration du designer Gordon Guillaumier. Le plateau de la petite table Coot s'inspire à la géométrie pure et simple d'un pétalement ; c'est le motif parfait pour composer une multiplicité de modèles différents en partant d'un seul modèle. La structure de soutien est conçue afin de permettre au plateau de planer au-dessus d'un fauteuil ou d'un canapé : une fonction particulièrement utile lorsque l'on utilise un ordinateur portable.

Polar Table

En A matching side table completes the Polar system. Also designed by Pearson Lloyd and inspired by spectacular glacier formations, it features asymmetrical yet delicate lines, inherent to the poetry of the natural setting from which its shape derives. The Polar Table is an occasional table for both interior and exterior spaces. Thanks to its fresh, unique shape, it can be placed with either end up, which also changes its functional options. The ideal piece to pair with the Polar sofa system, it also marries well with other furnishings in many different settings.

De Zum System Polar des Designers PearsonLloyd gehört auch ein passender Couchtisch, der sich ebenfalls an den spektakulären Szenarien der Eislandschaft inspiriert und durch die unregelmäßigen und zugleich sanften Linien charakterisiert ist, in denen die Poesie der Natur zum Ausdruck kommt, die ihnen ihre Form gegeben hat. Polar Table ist ein Couchtisch für Innenräume und Außenbereiche mit originaler und innovativer Form. Der Tisch lässt sich auf den Kopf stellen und beide Seiten können beliebig als Fuß oder als Tischplatte verwendet werden. Ein Element, das sich perfekt in das System der Sofas Polar einfügt, das aber auch zu anderen Einrichtungen in den unterschiedlichsten Umgebungen passt.

Fr Le système Polar, dessiné par PearsonLloyd, comprend également une petite table assortie, inspirée elle aussi des scénarios spectaculaires du paysage glaciaire et caractérisée par des lignes à la fois douces et irrégulières, intrinsèques à la poésie de la nature qui leur a donné forme. Conçue pour les espaces intérieurs et extérieurs, la table basse Polar possède une forme originale et inédite permettant de jouer et de choisir quel côté sera la base ou le plateau, puisque les deux faces peuvent alternativement revêtir les deux fonctions ; il suffit pour cela de la poser sur l'une ou l'autre face. Cet élément s'intègre parfaitement dans le système de canapé Polar, mais peut également être combiné avec d'autres meubles, dans de multiples contextes.

Labanca Table

En The priceless singularity of an idea infuses its intrinsic nature into the material, molding it in its image. Designed by Lievore Altherr Molina, the Labanca side/accident table is made from a single sheet of curved and painted glass. Thoroughly modern and minimalist-inspired, the Labanca table, companion piece to the eponymous collection of sofas, interprets the purity of glass through an extremely versatile, multi-functional geometric shape, suited to domestic and contract settings. Exterior finish of the surfaces is glossy, while the inner surfaces have a matte finish.

De Die Einzigartigkeit einer Idee, deren Charakter auf die Materie übertragen wird und diese nach ihrem Abbild formt. Der Labanca Table vom Designer Lievore Altherr Molina besteht aus einer einzigen, gebogenen und lackierten Glasplatte. Der minimalistische Couchtisch Labanca mit deutlich moderner Inspiration ist Teil der gleichnamigen Sofakollektion und bringt die Reinheit von Glas in eine multifunktionelle geometrische Form, die sich extrem gut an die verschiedenen Wohnräume und Objekteinrichtungen anpasst. Die Außenseite mit einer Hochglanzlackierung bildet einen eleganten Kontrast zur Innenseite mit matter Lackierung.

Fr Une idée unique et précieuse qui transfère sa nature intrinsèque à la matière, en la modelant à son image. Labanca Table, signée par Lievore Altherr Molina, est une table basse réalisée à partir d'une unique plaque de verre courbée et peinte. Objet minimaliste d'inspiration résolument moderne et complément de la collection de canapés du même nom, la table basse Labanca décline la pureté du verre en une forme géométrique multifonctionnelle qui s'adapte parfaitement à différents espaces domestiques et du secteur contract. La peinture externe des plateaux arbore une finition brillante qui contraste avec la finition mate de l'intérieur.

Born in 1948, Alberto Lievore studied architecture in Buenos Aires. In the early years he focused not only on design, but also on the production and marketing of furniture, then, having moved to Barcelona, he was part of the Grupo Berenguer (1977), a leading name in Spanish design. Più che di grandi rivoluzioni, il design contemporaneo è fatto di piccoli cambiamenti e di lente, pazienti mutazioni del linguaggio visivo che trasforma anche le cose più banali in oggetti straordinari. Il carattere unico e irripetibile degli oggetti di design nasce da queste silenziose rivoluzioni che trasformano forme familiari, usuali e riconoscibili in progetti iconici che catturano lo spirito del proprio tempo.

Technical Informations

More than great revolutions, contemporary design is made of small changes and slow patient mutations of visual language, which changes even the most mundane things in extraordinary objects. The unique character of design objects results from these silent revolutions that transform familiar usual and recognizable forms into iconic projects that capture the spirit of their time.

World Project

A design cannot be considered in isolation from external constraints and stresses. This is why Tacchini maintains a dialogue so as to grasp and interpret the thoughts of its designers and of its clients. In the contract world, this enables it to express the quality of its products, using the best materials and complying with the strictest standards and certifications. Places of work or play, hotels, stadiums, wellness centres or shopping malls, all become the stage on which Tacchini can express the uniqueness of its designs, their durability, comfort and versatility. What's more, the constant relationship with the modern world and the stresses it brings makes Tacchini a veritable seismograph of the state of being: an accurate sensor and promoter of new possibilities, bringing better living for all. Anywhere, out of the world.

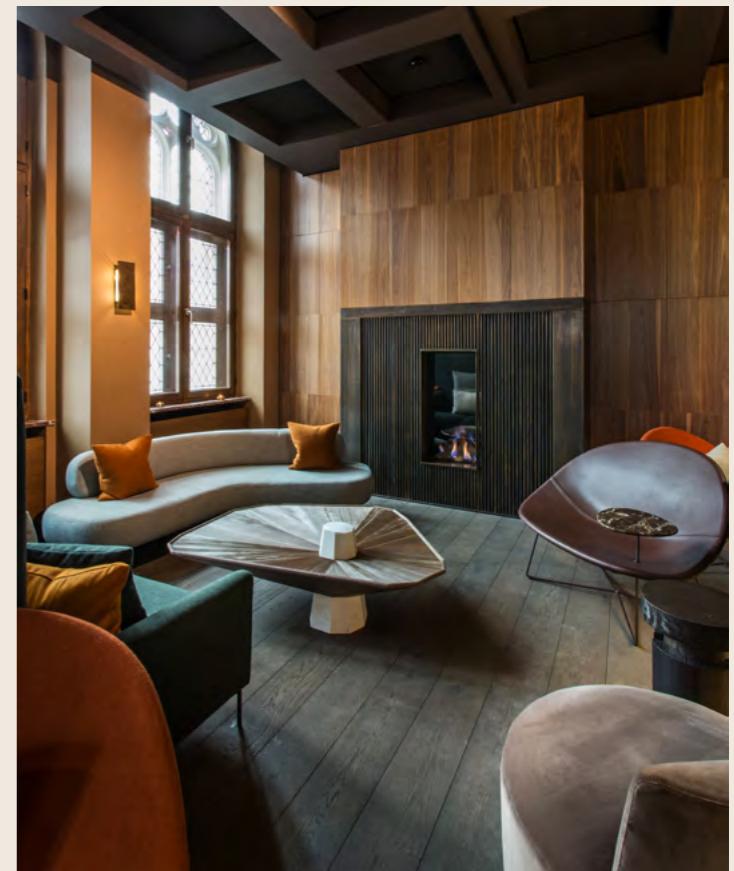

Un progetto non può prescindere dai vincoli e dalle sollecitazioni esterne. Per questo, Tacchini dialoga, comprende e traduce il pensiero dei progettisti e dei suoi clienti: esprimendo, nel mondo del contract, la qualità delle sue realizzazioni, attraverso l'impiego dei migliori materiali secondo le più severe normative di riferimento e certificazioni. Luoghi ludici o di lavoro, hotel, stadi, centri per il benessere o dedicati allo shopping, diventano palcoscenici sui quali Tacchini esprime l'unicità e la resistenza, il comfort e la flessibilità dei suoi progetti. Non solo, il costante rapporto con la contemporaneità e le sollecitazioni che ne derivano, rendono Tacchini un autentico sismografo dell'essere: attento recettore e propositore di nuove possibilità, per un vivere meglio tutti. Anywhere, out of the world.

Tacchini is a philosophy. Behind every object there is a story and behind every story there is a person. We fall in love with our products, their stories and the stories of those who have produced them, and continue to make things by hand — so that this story continues, is passed on by the designer to the creator, and from the creator to the future owner of the product. And then, it continues further.
