Joan Gaspar

Joan Gaspar,
Industrial designer

I have learned the industrial designer profession from Lluís Porqueras. Back then, at the end of the 80s, Lluís use to have a lamp editor located in Poble Nou, in pre-Olympic Barcelona, while this neighbourhood was still an incubator for small and large companies and small handcrafted workshops; a very valuable network for a capital as Barcelona, that also aimed to be a design capital. From this period are dated my first products, lightning mostly, that seen from the distance still make me feel proud and reconfirms that I had the best teacher.

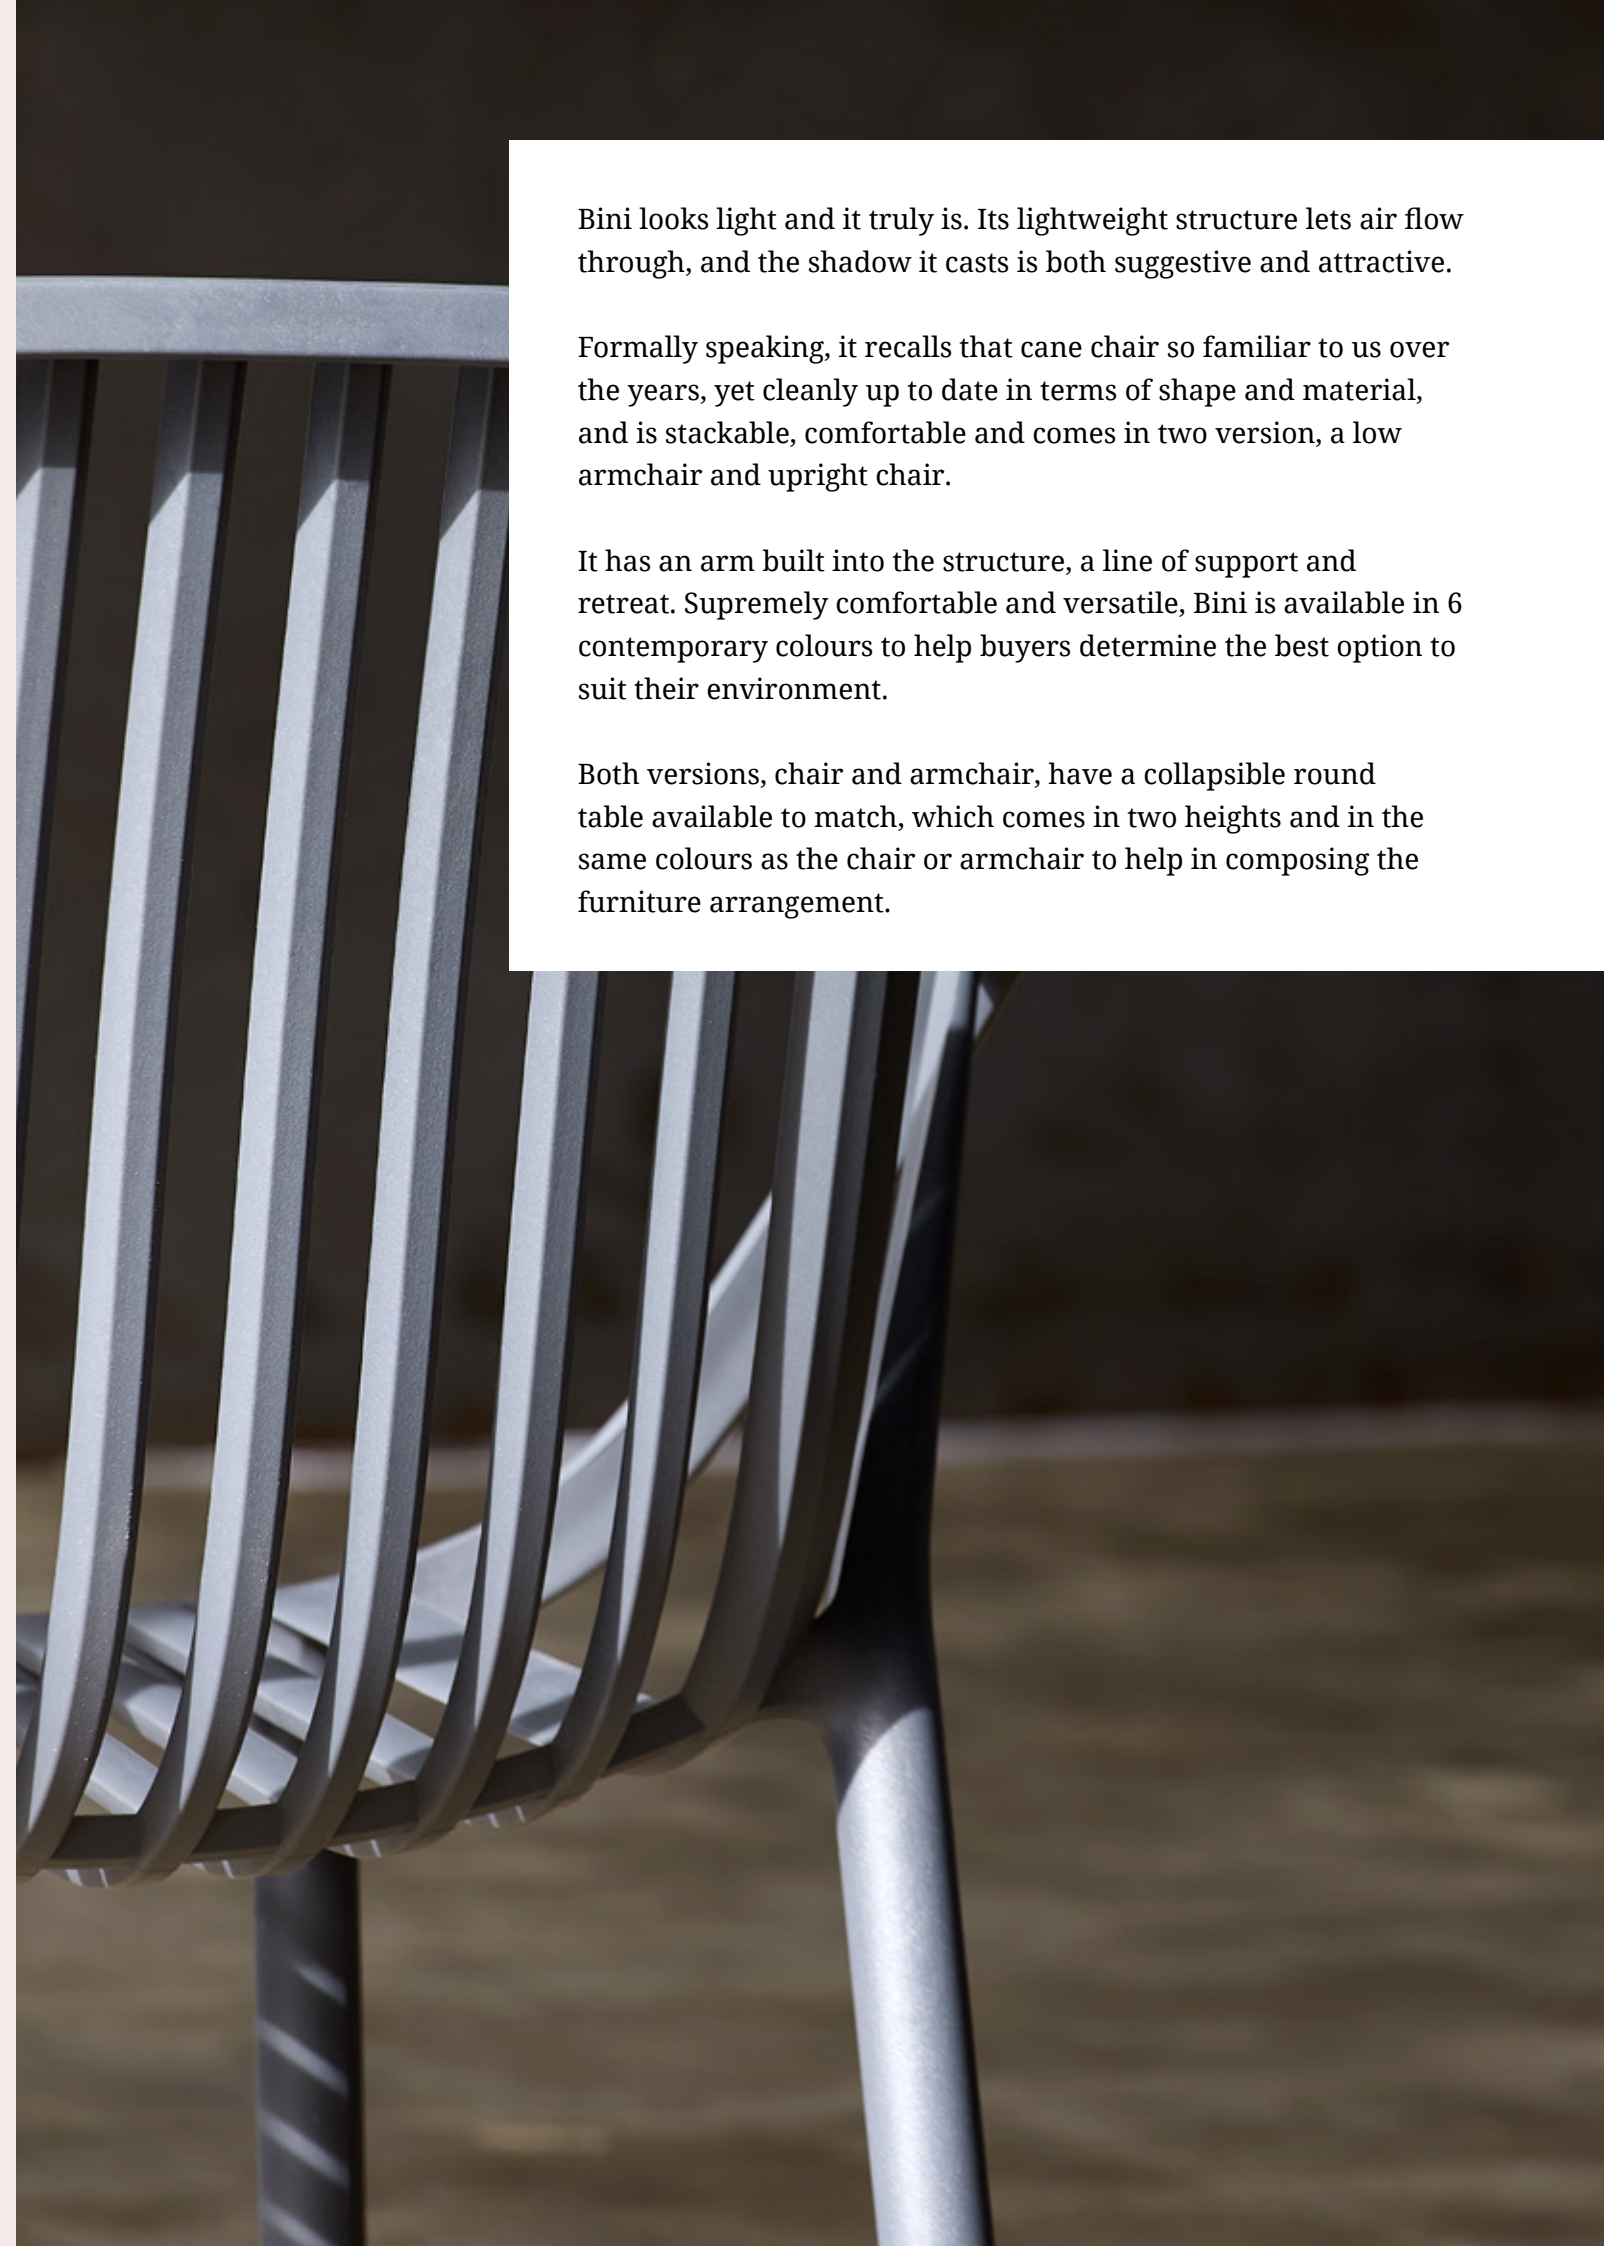

Today I'm a mature professional, that often think that my projects still keep the spirit of those first years, given the fact that I'm still more interested in talking about how I did or solved things then the final result; and not because the final result is not of my interest, in fact it's what's real important, but because the final result is obvious and it has to allow to be judged, and the „Invisible“ details only can be explained by the author through his knowledge and passion.

Bini looks light and it truly is. Its lightweight structure lets air flow through, and the shadow it casts is both suggestive and attractive.

Formally speaking, it recalls that cane chair so familiar to us over the years, yet cleanly up to date in terms of shape and material, and is stackable, comfortable and comes in two version, a low armchair and upright chair.

It has an arm built into the structure, a line of support and retreat. Supremely comfortable and versatile, Bini is available in 6 contemporary colours to help buyers determine the best option to suit their environment.

Both versions, chair and armchair, have a collapsible round table available to match, which comes in two heights and in the same colours as the chair or armchair to help in composing the furniture arrangement.

Bini Chair

Bini chair for indoor and outdoor use. Manufactured in polypropylene with fiberglass, with UV protection.

Weight 4,825 kg

Dimensions: W60 x L60 x H86,6 cm / Hs45 cm

Apilable
Stackable
9 u. Empilable

Mesures chair
