

## CLAY

Lounge chair

Sofa

Pouf

### Description:

The CLAY seating concept has a strong, sculptural expression that adds a fresh and modern touch to private homes and public spaces. The organic design and the continuous seam on the edge of the chair create an elegant and minimalistic look. With the soft and comfortable upholstery, CLAY is the perfect spot to settle in for “hygge”.

Year of design: 2019

### Design: Javier Moreno

Since 2010 Javier Moreno has been designing for SOFTLINE and his design philosophy is that design should be something that matters. In a time when everything is becoming immaterial and increasingly virtual, he believes that humans still need physical and aesthetical objects in their daily lives. Javier Moreno is meticulous in his design process and works to get the maximum of using less. His approach is clear, simple and focusing on the humans who will use the furniture.
