Design by Charlotte Høncke, 2015

Invite nature in With a thin frame and tripartite top, the table FOLIA is inspired by the shape of a clover. It's available in two heights and can be used on its own, but looks even better if you put several together in a cluster or arrange them to overlap. The design is light and airy, and the inspiration from nature is easily recognizable.

Care and Maintenance

Cleaning. Generally, it's recommended to clean lacquered surfaces regularly with a clean and dry microfiber cloth. A damp cloth can also be used followed by wiping with a clean and dry cloth. Stain removal. Acting quickly is paramount – otherwise the stain can bind to the surface and cause permanent damage. We always recommend to use neutral detergent dissolved in lukewarm water to clean surfaces. Please only use a neutral detergent – never use alcohol or other solvents. Any persistent stains can be removed with some drops of concentrated neutral detergent directly placed on the stain for 5 minutes and then wiped from the surface with a damp cloth. Do not rub firmly on the material as this can damage the surface. Always test stain-removal agents on a small, inconspicuous area before proceeding.
