Serralunga Outdoor Service

SERRALUNGA

Every soul has a place of calm.
I imagine spaces in which my objects give a sense
of peace and beauty in a natural environment.
This is the dream that guides my daily work:
a fluid boundary between indoors and outdoors where
the outside becomes intimate and the inside bright
and sunny, mixing things up to create the unexpected.
Emotionally.

Marga Serralunga

With its passion for innovation,
Serralunga is renowned for pushing
the boundaries of materials,
technologies and aesthetics in order
to create groundbreaking products
that both inspire and delight.

Serralunga — Introduction & Inspiration

The Strategy for the growth of the brand has been reinforced by a commitment on development an exclusive personal service for an international clientele; Serralunga Outdoor Full Service, has been launched in response to client's demand for a complete projects conceived according to the style and philosophy of Serralunga; then comes Serralunga's friends: a team of experienced GARDEN DESIGNERS with international expertise and five stars portfolio, premium company producer of Solar Covers and umbrellas, Vertical Garden designer, that all under Serralunga's project coordination are fully dedicated to the design development of OUTDOOR space for private residences and real estate projects. The Serralunga's outdoor full service team provides clients with a comprehensive design service to handle different projects, from terrace and garden decoration to complete garden / green space planning.

This consultancy service takes responsibility across the full span of projects beginning with site analysis, research, and meetings with client throughout a construction phase until the final positioning of furniture, outdoor lightning, plants, flowers, and accessories; the outdoor full service works throughout the world in different projects in terms of nature and complexity: apartments, hospitality, airports, villas and residential complex. The target of world class quality for the project is presented from the first sketches to the final realization, with the aim to tell every time a different story designed specifically for each customer and always unique and tailor made for an Affordable Luxury.

Serralunga — History

Serralunga: outdoor patio furniture since 1825

Serralunga was founded in Biella in 1825. Serralunga is the name of the family that has been the creative and entrepreneurial heart of the company for six generations, manufacturing modern outdoor furniture. The company was started as a tannery and then moved into leather processing for industrial purposes. The real revolution arrived with the processing of plastic and then with the rotational moulding technique imported from the U.S.A., which gave origin to countless Italian design objects, such as outdoor lighting and contemporary furniture, all made in Italy.

The company has been based in the same place for almost two centuries. Its production is totally concentrated in Biella, Italy, in the street named after the Serralunga family, in a 12,000 m² plant, employing 65 members of staff and around the same amount in satellite activities. The plant processes over 1,200 tons of plastic and produces around 200,000 items a year.
