## PRODUCT INFORMATION

Float High Large is a development from Float High. Higher back and sides creating a secluded sphere where you can sit on your own or in a group.

"I noticed the same behavior in everyone involved in business meetings. People lean forward in the very low seats, try to conceal their computer screen, and hold their hand around their mouth while talking on their mobile phone. I wondered whether I could create a piece of furniture that felt like it was a small, separate room. I pulled up the edges to create a private and secluded space", says Eero Koivisto.
