

CUMULUS

LOUNGE SEATING

narbutas

CUMULUS – universal lounge seating system
creating comfortable space for work or retreat.

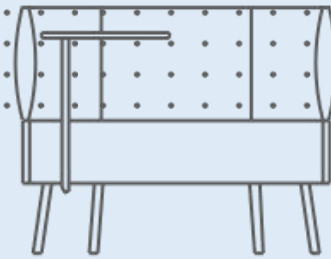

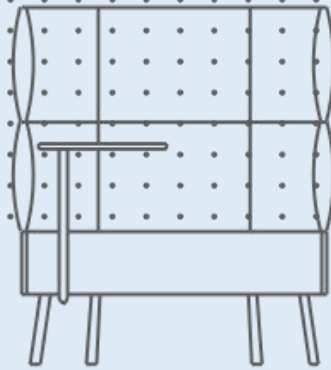

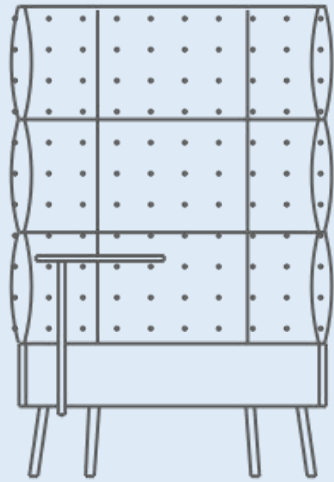

Kazuko Okamoto

Designer

“I think that it is interesting to create furniture proposing how to use, how to live, how to make of the place without being seized with an existing concept.”

Cumulus project by Narbutas Furniture Company together with Sedes Regia.

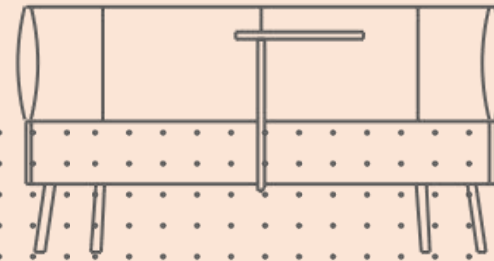

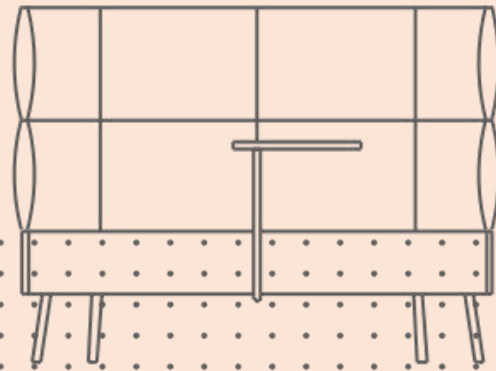

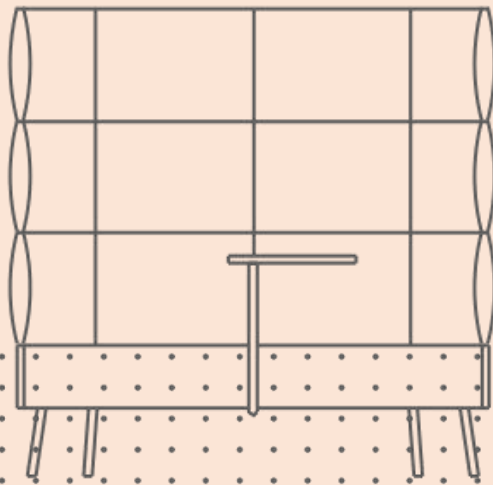

Three backrests heights of the lounge seating for different individual needs.

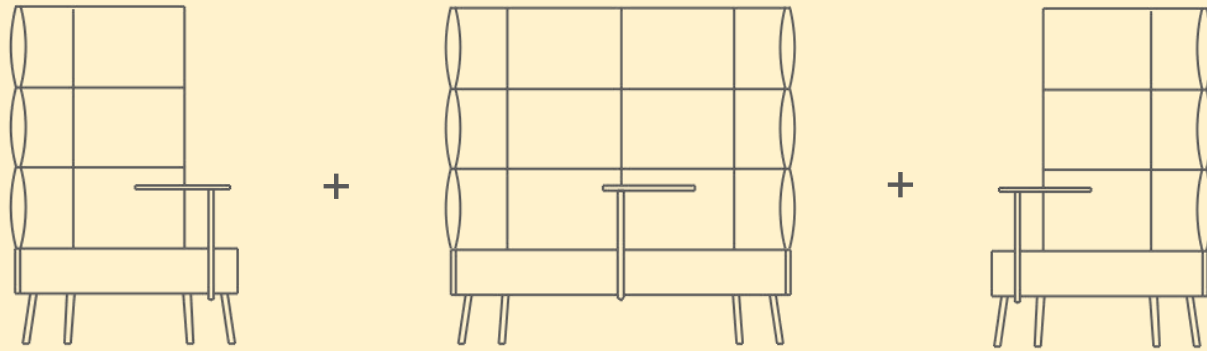

Different colours of backrests and seats can be combined.

Two seater armchair is perfect for indulging in conversation with your colleagues while drinking a cup of coffee.

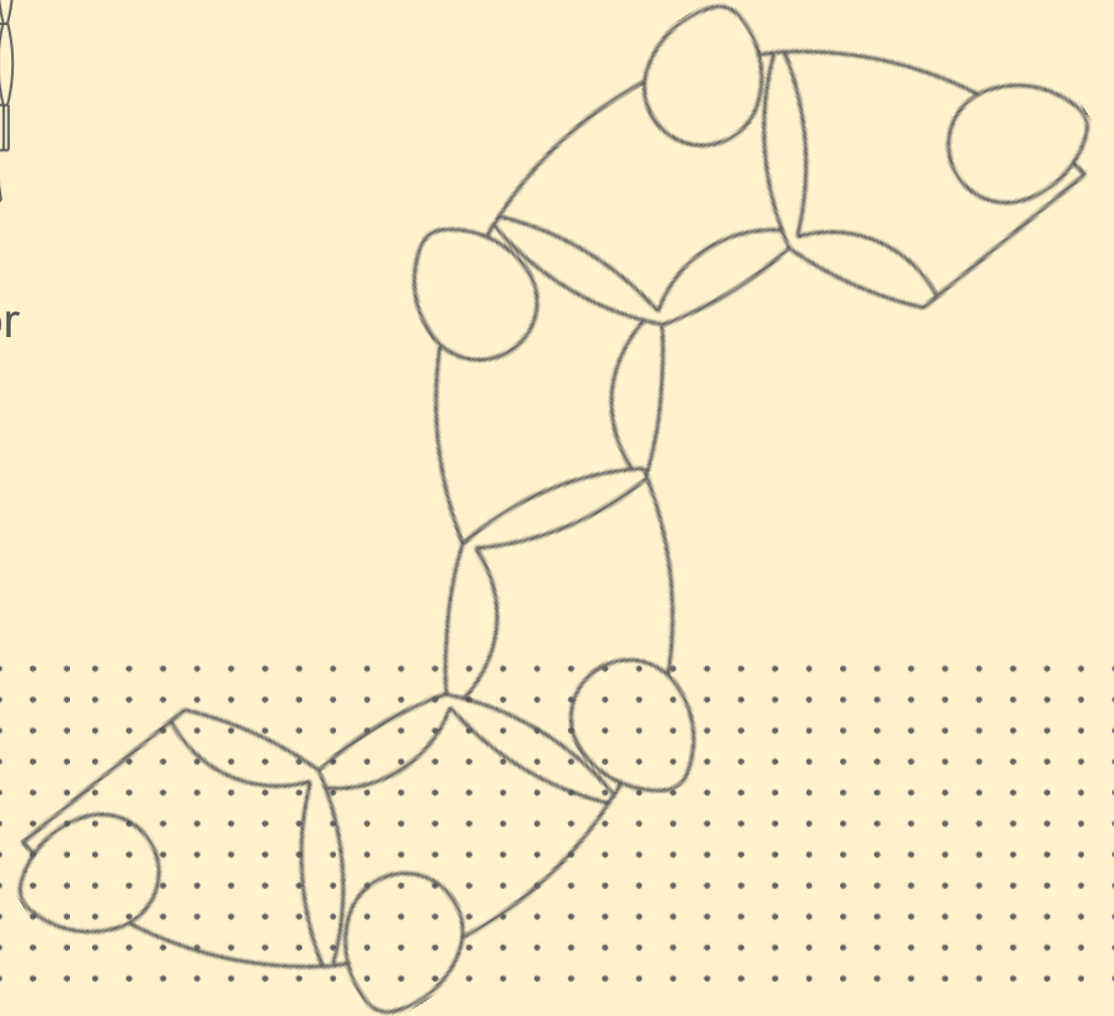

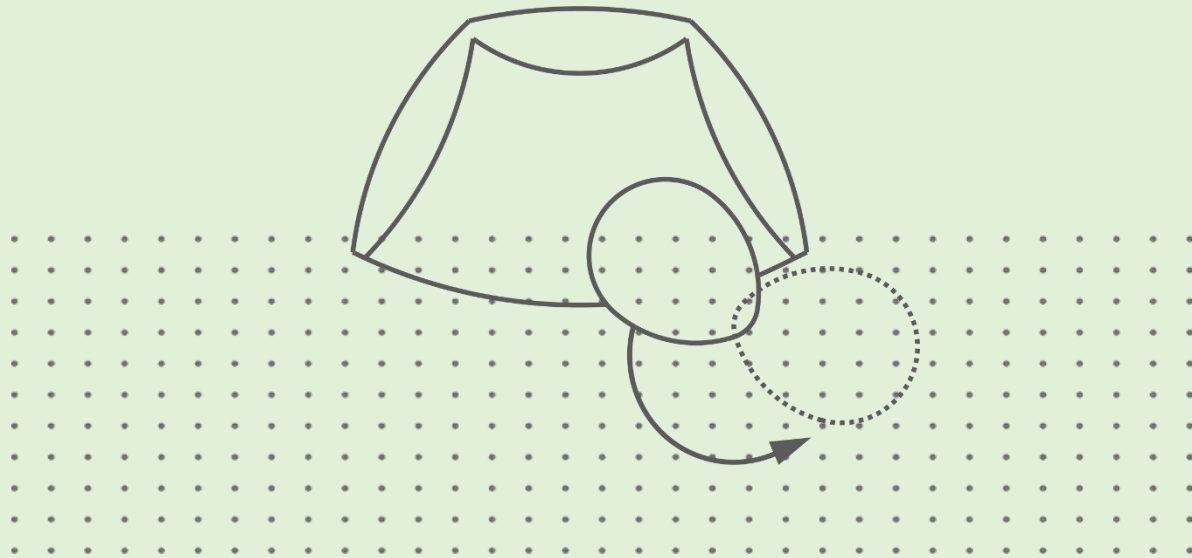

CUMULUS lounge seating can be combined together for different purposes:

- to divide office spaces;
- to create individual work spaces;
- to create few small meeting spots in an open office.

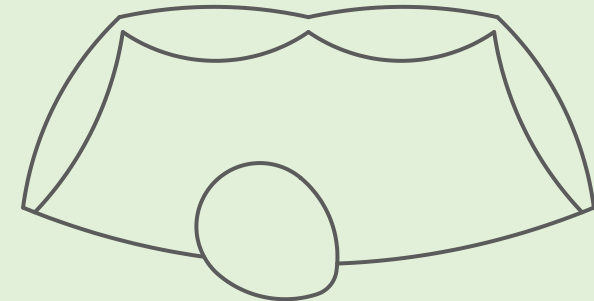

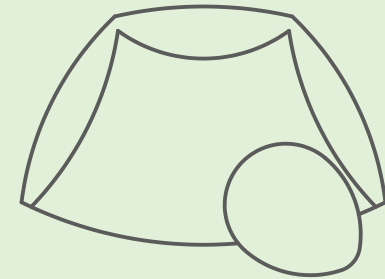

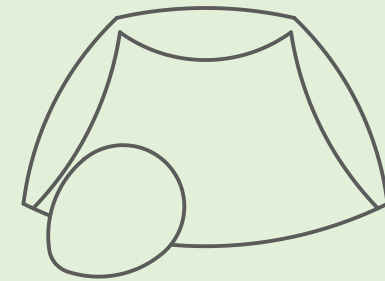

For your convenience the swivel table for single seater armchair can be placed on either left or right side; for two-seater armchair it can be placed in the center.
