

**NETFRAME**  
Sofa & Easy Chair  
By Cate & Nelson

---

**OFFECCT**

## PRODUCT INFORMATION

Netframe is a sofa and an easy chair designed by the duo Cate & Nelson. Cate & Nelson's idea behind Netframe was to create a piece of furniture that consumes as little material as possible while maintaining a high comfort.

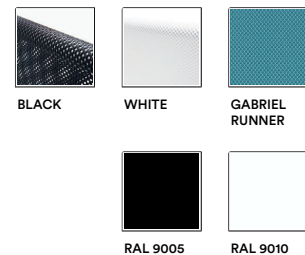

"In order to succeed with this challenge we had to turn everything upside down in the development process. We wanted it to be easy to produce with minimal time and material usage", says Nelson Ruiz-Acal, one half of Cate & Nelson.

Netframe was developed into a very comfortable piece of furniture with extremely low impact on the environment. Cate & Nelson believe it is important to see the wholeness in their design, that the product is responsible at all stages; from production to usage, which is very apparent in their design of Netframe.

## TECHNICAL INFORMATION

Currently not available for the United States market.

Fully upholstered frame in black or white polyester mesh alternative mesh from Gabriel Runners. Seat and back requires upholster material like Kvadrat Hallingdal. Frame in black or white lacquer with ABS glides.
