design:
Piotr Kuchciński
2010

The modular lounge suit designed by Piotr Kuchciński stands out from the furniture assortment offered by Noti due to its unusual softness and outstanding comfort. The cuboid shape and soft lines of the individual items is additionally highlighted by the stitched seams exposed along the edges. This extensive furniture line includes seat modules of different sizes, puff seats, ottomans and 4 types of armrests as well as small bookcases and tables to be combined with sofas or to be arranged independently. The furniture structure is made from wooden elements, the armchair is supported by a base made of stainless steel profiles. The cushions are filled with polyurethane foams of different density as well as feathers
