HAPPY PLACES

After a long experience furnishing happy places full of life, Sancal creates a line of accessories that goes beyond borders of architecture to flirt with fashion and art.

**Colour,
design and
humour
define our
identity.**

In the end, a commitment to happiness that is transferred to all our products either a comfortable sofa, a handy table or a vase full of irony for the most delicate flowers.

COSAS is
a collection
designed to bring
a ray of Spanish
sunlight into your
life.

This catalogue is
just the beginning
of a long and
passionate story...

Sin Pistols

Sancal takes its first step into the fashion world by introducing this original and practical bag to professionals, creatives and fashion lovers.

The design, the confection and materials selected make this version unique.

Neither a bag nor a backpack, just both of them at the same time, **Sin Pistols** is an accessory to keep handy essentials items for daily life: keys, mobile, passport, business cards, lipstick, sunglasses ... And it also helps to enhance any outfit.

Sin Pistols Snow.
Made with the ultra-resistant Rift fabric with strong yet soft polyester belts. You don't have to wait for the intense cold...

You will be able to show off this version in all seasons, a good option for stylish events or for free and easy festivals.

Sin Pistols Taupe. Although it isn't a colour, strictly speaking, we use this concept to define a tonality with grey, brown, beige and pink hues... A neutral colour for a new basic.

The Y shaped piece on the back and anchor straps are made from transparent vinyl, giving the holster a casual, sophisticated touch.

Backpack

Sin Pistols Ash takes their tones from limestone hues, an elegant option as a counterpoint to the most transgressive outfits.

They are made with a tissue which combines wool, silk, viscose and linen to create a pleasant, tough texture. The straps are made of sustainable recycled leather with a velvety touch.

Sin Pistols Brick. Brick is also the colour of the earth and our most vibrant and passionate option. It can be perfectly combined with outfits in which neutral hues predominate.

Their recycled leather straps have the same tone as the holsters, a sophisticated detail in this energetic version.

Sin Pistols Navy. We take the colour from the deep sea for our most serene proposal.

The more
you use
them,
the more
you love
them.

Sin Pistols Carbon. A must have in your wardrobe, Sin Pistols Carbon transcends fashion and matches any garment.

The Y shaped piece on the back and anchor straps are made from transparent vinyl, giving the holster a casual, sophisticated touch.

Sin Pistols Lemon is the most acid and radiant version, for long trip days in the city or dancing till dawn.

Sin Pistols Jeans is a tribute to cowboys, rebels without a cause and hippies. A nod to the most universal fabric.

Backpack

Born Free

It is the moment to slack off and feel free of obligations. Although it sounds like a cliché, the formula “sofa and blanket” can be a good plan. **Born Free** is the ideal accessory for those lazy days, as it is soft, warm and light.

This cozy blanket, illustrated by the Lithuanian artist **Egle Zvirblyte**, is actually a new concept for a very versatile product: it could be a cushion, a throw, a blanket... The user will bring it to life and assign the correct tag for every different moment.

The original and provocative illustration is an expression of Egle’s creative universe, offering a new form of expression when art and industry meet. Its bright colors and feminine silhouette provides us with a good dose of humour for grey days.

Lindo Gatito

Sometimes, you deserve a sweet welcome when you get home after a wild day. Your most loyal feline, **Lindo Gatito**, is always willing to give you one of its warm hugs when snuggling on your sofa.

Lindo Gatito is a cozy blanket illustrated by the Lithuanian artist **Egle Zvirblyte** and designed to fulfil a very special function: decorate with art, humour and colour. A new versatile product that could be used as a cushion, a throw, a blanket... The user will bring it to life and assign the correct tag for every different moment.

One thing is sure, the soft padding is a harmless, fun and warm way to introduce a wild animal into your life.

This feline
doesn't
shed fur!

Tápame Mucho

Estudio Sancal wants you to find the perfect “sofa and blanket” formula for cold winter days. **Tápame Mucho** is our hottest product to keep you company while you enjoy your favourite series or that book you can’t put down.

The studio has relied on Egle’s naughty creativity to fashion the patterns, and bring these throws to life.

Tápame Mucho is a product for personal use, so cosy that you won’t want to share it.

Urban Jungle is a 180×140 illustration designed exclusively for this size product. We have selected a soft, warm and cuddly faux fur for its reverse side. The bright colours of the trimmings adorn the edges of this artistic family.

Banana Guys is a rogue repetitive pattern designed exclusively for COSAS. Its reverse wraps you softly thanks to the warm and cuddly faux fur. The cotton fringes add a sophisticated touch.

Flower Power

These cheerful vases are decorative items to make cheer anyone up, either covering a vase of flowers, or, why not, as an ornamental element by itself. Always with a lot of art.

In addition, **Flower Power** is also an alternative for recycling as they have been conceived as textile vase that gives a new lease of life to ordinary plastic bottles.

The fun vases provide a canvas for illustrations, designed by **Estudio Sancal**.

They are available in two sizes and nine different illustrations. *Which one do you like the most?*

**We don't
grow flowers,
we dress
them!**

Some of our **Flower Power** have two different sides. *Discover them!*

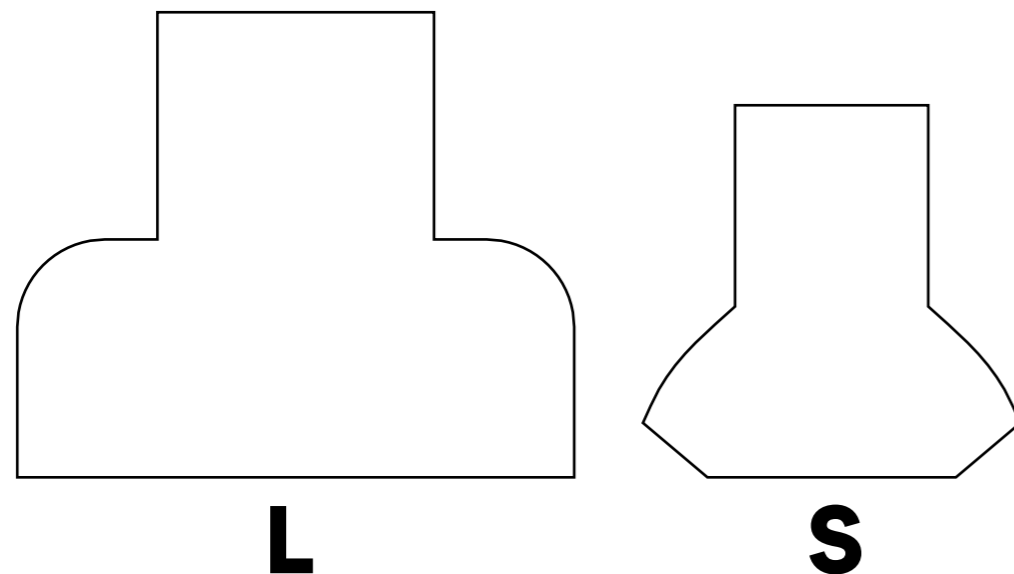

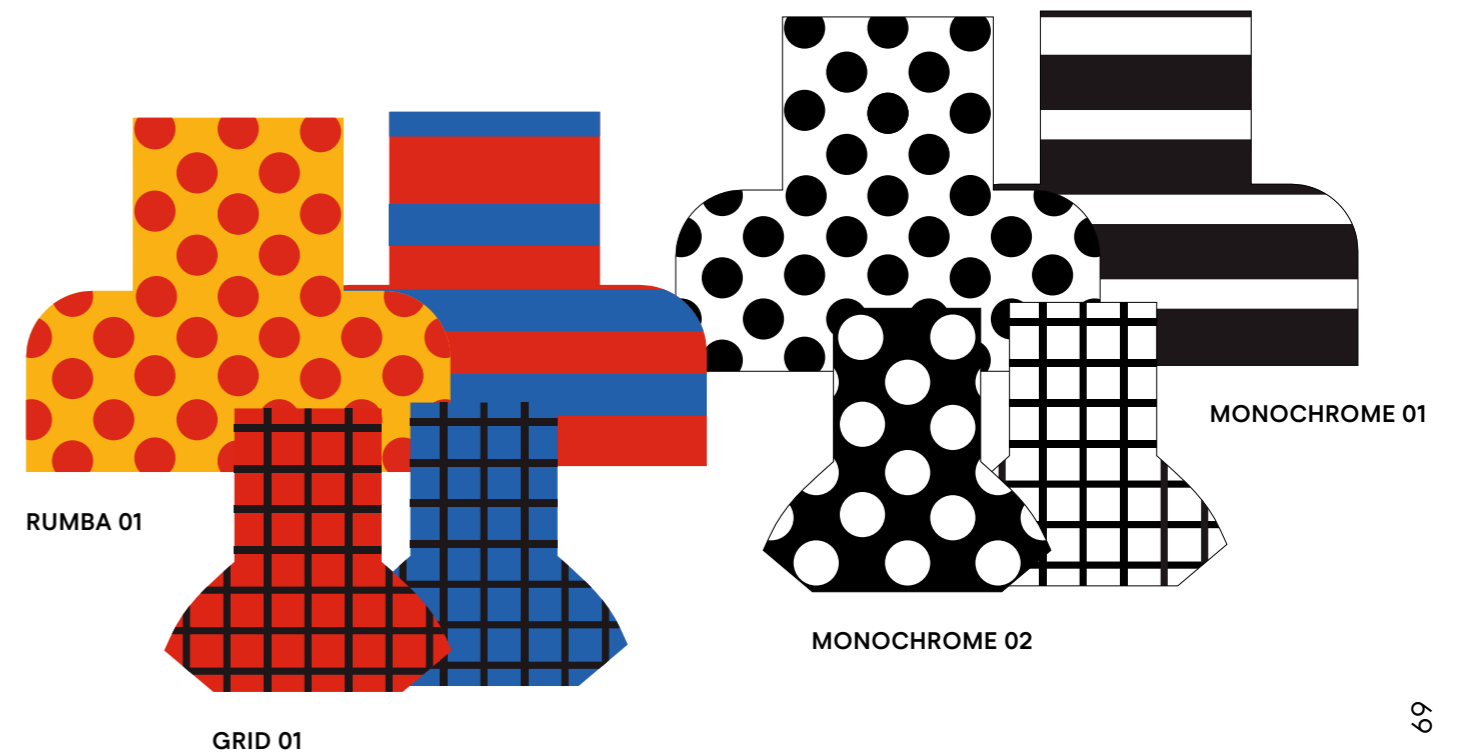

FLOWER POWER

What's more, the vases provide a canvas for illustrations from **Estudio Sancal** or collaborating artists, hence the **& Co.**

Rift

Estudio Sancal, as a multidisciplinary team, does not feel that it has creative limits and has launched itself into a new area; that of textile design.

Rift is a knitted fabric designed exclusively by and for **Sancal**, which is inspired by the cracks on parched earth.

The fractured surface effect has been recreated visually and it reminds us a harsh landscape. However, the skillful confection of this fabric provides it with a soft and pleasant touch.

Rift is a comfortable family of cushions that belongs to **COSAS**, Sancal's new lifestyle range. The **Estudio Sancal** has designed a varied assortment of sizes and interiors for these accessories, complementing the wide range of products from Sancal's general catalogue. Of course, many of our products can be upholstered with Rift fabric.

inside.

Flora & Fauna

Following the trail of the warm **Tápame Mucho** blankets, we present **Flora & Fauna**, our most lively cushion conceived to date.

The fresh patterns designed by the artist **Egle Zvirblyte**, **Banana Guys** and **Wild Dots** have enthralled us. The rogue bananas and the naughty stray kittens are the protagonists of the prints on these new throw cushions.

These accessories are available in two different sizes. The 40×40 cushions combine the illustration on one side with a warm, cuddly faux fur on the other. The 66×66 cushion have the same pattern on both sides and are adorned with playful trimmings.

Designers

Estudio Sancal

El Estudio Sancal was born with the purpose of giving technical support to the freelance designers with whom Santiago Castaño began working with in the mid-1980s.

Esther and Elena have turned this small atelier into the creative heart of the company. With the right doses of determination and madness, they lead a talented multidisciplinary team to develop the most varied of projects; from an advertising campaign to the scenography of a whole collection of products, some as unique as the Perigallo.

Las Culpas is a small, combative atelier from Murcia in Spain. Martae and Alejandra court controversy within world of fashion. Their holsters represent the essence of their philosophy: “we dress women that are valiant warriors and men that are not afraid of them”.

We like the fact that this symbol of combat has found a new use and that, for some sectors of society, it can be considered a badge of protest.

Las Culpas

Egle Zvirblyte

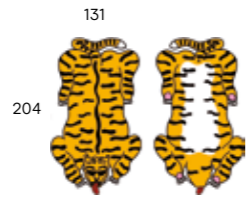

Egle Zvirblyte is a Lithuanian artist and illustrator based in London. Egle has developed her career as a freelance for customers from publishing, advertising or the music industries; and she spends her spare working on her own artistic pieces.

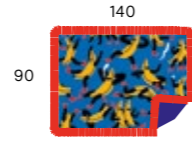

Her enthusiastic and combative nature – not exempt from humour – is reflected in each of her illustrations. As simple as her work seems, a careful look at her projects reveals messages full of energy and a strong ironic vein.
