

Uni

Ultimo progetto di Francesco Geraci, UNI è divenuta un'icona di Metalmobil contraddistinta dalla medesima eleganza del suo progettista.

Seduta con scocca in polipropilene disponibile in 12 diversi colori (più due Pantone Color of the Year 2016) con un'ampia gamma di tipologie telai in acciaio e legno. Uni si caratterizza per l'efficace texture a effetto imbottitura sul fronte, con finitura lucida sul retro.

Dopo il successo della seduta in polipropilene, Metalmobil presenta anche la versione con imbottitura interna in poliuretano rivestita in tessuto.

Il tratto leggero ed armonioso, la perfezione delle proporzioni e la freschezza del look vengono ora ulteriormente ingentiliti grazie a questa veste. La versione imbottita è adatta a tutti i telai della collezione Uni.

The last project by Francesco Geraci, Uni has become a Metalmobil's icon with the same elegance of its designer. Polypropylene seat available in 12 different colours (plus the two Pantone Color of the Year 2016) with an extensive range of steel and wood frames. UNI stands out for its effective padded-look texture on the front and shiny finish on the back.

After the success of the polypropylene seat Metalmobil presents the version with internal padding in polyurethane covered in fabric.

The light and harmonious line, the perfection of the proportions, and the freshness of the look are now further refined thanks to this 'dress'. The padded version is suitable for all frames of the Uni collection.

Uni

VERSIONE IMBOTTITA / Upholstered version

550M

SEDIA CON SEDUTA IN POLIPROPILENE IMBOTTITA, TELAIO 4 GAMBE IN TUBO ACCIAIO.

4-leg chair with steel frame.
