Description:

Meet the new series of height adjustable satellite tables – a natural extension of the successful collection of small tables by SOFTLINE.

XO has an airy and elegant design, and the asymmetrical placement of the pillar on a steady yet light base, allows it to be placed over the seat area of almost any sofa or chair imaginable. The shape of the tabletop is designed to match different requirements depending if you need at side table or a worktable for your iPad or laptop. In one move the height of the table can be adjusted to perfectly fit the desired use.

The clean and universal design language of the XO table makes it ideal to use in combination with the rest of the furniture from the collection – or in combination with existing furniture in the living space.
